A Good Read

On-site or online, Berkeley’s library is tops

Any time of day or night, students are immersed in the collections of the UC Berkeley library, rated the top public university library in North America. More than nine million volumes, 90,000 serials, and 400 specialized, rare, and unusual collections are housed in the research collections of Doe Library, Moffitt Undergraduate Library, the Californiana of the Bancroft Library, and subject-specific libraries around campus. Digital resources also abound.
Freshman applicants to Berkeley apply for admission to one of five colleges: Chemistry, Engineering, Environmental Design, Letters and Science, or Natural Resources. The number of spaces for new students is limited and varies by college, as does the demand and competition for admission. For example, for fall 2002, Berkeley received about 36,460 freshman applications for 8,700 available places. Since Berkeley receives applications from so many more eligible students than there are spaces available, the qualifications of the applicants who are selected for admission generally far exceed the minimum eligibility requirements explained on pages 33-35. The number of available spaces fluctuates from year to year.

Berkeley’s freshman admission policy has been developed under the general guidance of University of California Regents’ policy and Berkeley campus Academic Senate recommendations. The policy is regularly reviewed by the Admissions, Enrollment, and Preparatory Education Committee of the Academic Senate and the Undergraduate Admissions Coordination Board.

In selecting the freshman class, all achievement will be considered in the context of the opportunities the applicant has had and the ways in which he or she has responded to them.

**Freshman Selection Criteria**

Freshmen will be selected on the basis of academic and personal achievement, as assessed through a comprehensive review of all information provided on the application.

Assessment factors include weighted and unweighted high school GPA (not capped at 4.0), the depth and breadth of academic preparation, including quality of the senior year program, scores on required standardized tests, achievement in academic enrichment programs, other evidence of intellectual or creative achievement, extracurricular accomplishment, personal qualities such as leadership or motivation, and likely contribution to the intellectual and cultural vitality of the campus.

All achievement will be considered in the context of the opportunities the applicant has had and the ways in which he or she has responded to them. Demonstrated interest in the major may be considered in the selection of students for professional schools and colleges. Preference is given to California residents in the selection process.

Transfer applicants to Berkeley apply for admission to one of seven colleges or schools: the Colleges of Chemistry, Engineering, Environmental Design, Letters and Science, Natural Resources, the Walter A. Haas School of Business, or the School of Optometry (open to seniors and second bachelor’s candidates only). The number of spaces for new students is limited and varies by college, as does the demand and competition for admission. For example, for fall 2002, Berkeley received about 9,140 transfer applications for approximately 2,620 available places. Since Berkeley receives applications from so many more eligible students than there are spaces available, the qualifications of the applicants who are selected for admission generally far exceed the minimum eligibility requirements explained on pages 35-36. The number of available spaces fluctuates from year to year.

Berkeley’s transfer admission policy has been developed under the general guidance of University of California Regents’ policy and Berkeley campus Academic Senate recommendations. The policy is regularly reviewed by the Admissions, Enrollment, and Preparatory Education Committee of the Academic Senate and the Undergraduate Admissions Coordination Board.

Students will be selected primarily on the basis of academic performance and preparation, as assessed by review of the following: college GPA, level of completion of lower division prerequisite courses for the intended college and/or major, and grade trends.

Other criteria that may be considered, as assessed through a comprehensive review of all academic and personal information provided on the application, include extracurricular accomplishment, employment, personal qualities such as leadership or motivation, and likely contribution to the intellectual and cultural vitality of the campus. Demonstrated interest in the major may be considered in the selection of students for professional schools and colleges. All achievement will be considered in the context of the opportunities the applicant has faced and the ways in which he or she has responded to them.

Applicants must complete at least 60 transferable semester units before transfer. Transfer students from both two-year and four-year institutions are admitted; however, preference is given to California community college transfer applicants who have completed at least 30 semester units at community college.

**Colleges of Chemistry, Engineering, and Environmental Design, and the Haas School of Business:** Applicants must complete the required 60 semester units and all prerequisites by the end of the spring term preceding enrollment. Applicants are expected to complete all lower division prerequisites for the major.

**College of Letters and Science:** Applicants must complete the required 60 semester units and all prerequisites by the end of the spring term preceding enrollment. Applicants are expected to complete breadth requirements in reading and composition, foreign language, and quantitative reasoning or the IGETC (for California community college students) or the UC Reciprocity Agreement (for intercampus transfer students at other UC campuses). Students are also expected to complete as much preparation for the major as possible.
Graduation Rates

Berkeley’s graduation rates are the highest on record. Using the Student Right-to-Know and Campus Security Act of 1990 guidelines for calculating graduation rates, the Berkeley campus shows the following:

<table>
<thead>
<tr>
<th>Percentage of Students Graduating from Berkeley Within Six Years</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshmen entering fall 1993</td>
</tr>
<tr>
<td>Freshmen entering fall 1994</td>
</tr>
<tr>
<td>Freshmen entering fall 1995</td>
</tr>
</tbody>
</table>

Self-Paced Courses

Berkeley currently offers a number of self-paced courses. If you do not need the motivation imposed by deadlines, you are likely to profit from these courses. While each course is unique, they typically have the following characteristics:

1. Few lectures are given. You learn the material through study guides, workbooks, and textbooks.
2. You work at your own pace within the limits of the semester.
3. You must demonstrate mastery of the material covered, usually through a quiz or an assignment, before proceeding to more advanced topics.
4. You meet periodically with your instructors or tutors to ask questions or discuss problems.
5. In some courses, variable amounts of credit may be granted (split grading). If you enroll in 2 units but complete 4, the instructor will in general increase the unit value on the grade sheet. If, however, you enroll in 4 units but complete only 2, 2 units of earned grade will be received, along with 2 units of F for the uncompleted work. You should thus enroll for as few units as possible.

Professional Development Program

Program Office: 2308 Stephens Hall, (510) 642-5881

The Professional Development Program (PDP) is an honors program designed to increase the access of gifted minority and women students to higher education, especially in the fields of science, mathematics, and engineering, where they are particularly underrepresented. PDP serves gifted secondary school minority and women students as well as Berkeley undergraduate and graduate students. High school students with outstanding academic ability are brought to the Berkeley campus, given intensive preparation for university study, and encouraged to seek professional careers. High school teachers receive professional development in mathematics instruction.

PDP offers Berkeley undergraduate students special academic assistance and counseling and the opportunity to participate in faculty-supervised laboratory research in a broad range of academic disciplines. The program for undergraduate students maximizes access to the wealth of educational resources at Berkeley through individual faculty advising and curriculum planning in the student’s major; workshops in calculus, seminars, and tutorials which augment regular course offerings; laboratory and field placement opportunities as training for research; peer teaching and research assistantships. For further information, please go to the program office or call (510) 642-5881.

University Research Expeditions Program

Telephone: (530) 757-3529
E-mail: urep@ucdavis.edu
Web site: http://urep.ucdavis.edu

The University Research Expeditions Program (UREP) was established to help provide funds for field research in the natural and social sciences while simultaneously offering students, staff, and members of the general public the opportunity of joining domestic and foreign field research projects sponsored by the University of California. Through UREP University scientists with field research projects involving techniques that can be learned with minimal training are brought together with individuals interested in actively participating in field work. Participants become short-term members of a field research team and assist in wildlife habitat studies, botanical collecting expeditions, ethnographic field work, ecological surveys, fossil excavations, historical studies, and other types of field research.

UREP projects are open to students, staff, and members of the general public. No previous academic or field experience is necessary to participate; instruction in field techniques is provided after participants arrive at their research site. Participants are selected for their interests, skills, experience, and willingness to work and learn. A tax-deductible donation to the University is required to help subsidize the research costs of the projects.

Past UREP projects have included animal behavior observations in Kenya, Argentina, and Australia; archaeological excavations in Italy, China, California, and Latin America; a museum collecting expedition to the Rendille, a nomadic tribe in Northern Kenya; an anthropological study of Carnival in Brazil; preparation of an archaeological map of the Valley of the Kings, Egypt; marine studies in Hawaii, Jamaica, Mexico, and Fiji; and ecological studies in Costa Rica, Ecuador, Mexico, Kenya, New Caledonia, and Surinam.

CAL Quiz No. 33
Where on campus is the seal of Stanford University, Cal’s traditional rival, permanently displayed? (Answer on page 497.)
If you have not been living in California with intent to make it your permanent home for more than one year immediately before the residence determination date for each semester in which you propose to attend the University, you must pay a nonresident tuition fee in addition to all other fees. The residence determination date is the day instruction begins at the University of California, Berkeley.

**Law Governing Residence**

The rules regarding legal residence for tuition purposes at the University of California are governed by the California Education Code as adopted by Standing Order 110.2 of the Regents of the University of California. Under these rules, adult citizens or certain classes of aliens can establish residence for tuition purposes. There are also particular rules that apply to the residence classification of minors (see below).

**Who Is a California Resident?**

If you are an adult who is not an alien present in the U.S. in a nonimmigrant status which precludes you from establishing domicile in the U.S. (e.g., a B, F, H2, J1, or TN/TD visa) and you want to be classified as a resident for tuition purposes, you must have established your continuous presence in California more than one year immediately preceding the residence determination date for the semester during which you propose to attend the University, and you must have given up any previous residence. You must also present objective evidence that you intend to make California your permanent home. Evidence of intent must be dated one year before the term for which you seek resident classification. If these steps are delayed, the one-year durational period will be extended until you have demonstrated both continuous presence and intent for one full year. Physical presence within the state solely for educational purposes does not constitute the establishment of California residence under state law, regardless of the length of your stay. Your residence cannot be derived from your spouse nor, since you are an adult, from your parents.

**Establishing Intent to Become a California Resident**

Indications of your intent to make California your permanent residence can include registering to vote and voting in California elections; designating California as your permanent address on all school and employment records, including military records if you are in the military service; obtaining a California driver’s license or, if you never had a driver’s license from any state, a California Identification Card; obtaining California vehicle registration; paying California income taxes as a resident; including taxes on income earned outside California from the date you establish residence; establishing a California residence in which you keep your permanent belongings; licensing for professional practice in California; and the absence of these indications in other states during any period for which you claim California residence. Documentary evidence is required. All relevant indications will be considered in determining your classification. Your intent will be questioned if you return to your prior state of residence when the University is not in session.

**Financial Independence Requirement**

Effective fall 1993, if your parents are not residents of California or if you were not previously enrolled in a regular session at any University of California campus, you will be required to be financially independent in order to be a resident for tuition purposes. If you are an adult student and your parents are not California residents, you must demonstrate financial independence, along with physical presence and intent, when seeking resident classification for tuition purposes. You are considered “financially independent” if one or more of the following applies:

1. (1) you are at least 24 years of age by December 31 of the year you request residence classification;
2. (2) you are a veteran of the U.S. Armed Forces;
3. (3) you are a ward of the court or both of your parents are deceased;
4. (4) you have legal dependents other than a spouse;
5. (5) you are married or you are a graduate or professional student and you were not/will not be claimed as an income tax deduction by your parents or any other individual for the tax year preceding the term for which you are requesting resident classification;
6. (6) you are a single undergraduate student who was not claimed as an income tax deduction by your parents or any other individual for the tax year preceding the term for which you are requesting resident classification, and you can demonstrate self-sufficiency for those years and the current year.

**General Rules Applying to Minors**

If you are an unmarried minor (under age 18), the residence of the parent with whom you live is considered your residence. If you have a parent living, you cannot change your residence by your own act, by the appointment of a legal guardian, or by the relinquishment of a parent’s right of control. If you live with neither parent, your residence is that of the parent with whom you last lived. Unless you are a minor alien present in the U.S. under the terms of a nonimmigrant status which precludes you from establishing domicile in the U.S., you may establish your own residence when both your parents are deceased and a legal guardian has not been appointed. If you derive California residence from a parent, that residence must satisfy the one-year durational requirement.

**Specific Rules Applying to Minors**

1. **Divorced/Separated Parents**
   If you want to derive California resident status from a California resident parent, you must move to California to live with that parent before your 18th birthday and establish the requisite intent and remain in California until school begins. Otherwise, you will be treated like any other adult coming to California to establish your legal residence.
2. Parent of Minor Moves from California
If you are a minor U.S. citizen or eligible alien whose parent was a resident of California but who left the state within one year of the residence determination date, you are entitled to resident classification if you remain in California after your parent departs, enroll in a California public postsecondary institution within one year of your parent’s departure, and, once enrolled, attend continuously until you turn 18.

3. Self-Support
If you are a U.S. citizen or eligible alien and under 18 and are either a minor or age 18 and can prove that you lived in California for the entire year immediately before the residence determination date, that you have been self-supporting for that year, and that you intend to make California your permanent home, you may be eligible for resident status.

4. Two-Year Care and Control
If you are a U.S. citizen or eligible alien and you lived continuously for at least two years before the residence determination date with an adult who was not your parent but was responsible for your care and control, and who, during the one year immediately preceding the residence determination date was a resident of California, you may be entitled to resident status. This exception continues until you become 18 and have resided in the state long enough to become a resident, as long as you continuously attend an educational institution.

Exemptions from Nonresident Tuition (Proof of Eligibility Is Required)

1. Member of the Military
If you are a member of the U.S. military stationed in California on active duty, unless you are assigned to a state-supported institution of higher education for educational purposes, you may be exempted from the nonresident tuition fee. You must provide the residence deputy on campus with a statement from your commanding officer or personnel officer indicating the dates of your assignment to California and confirming that the assignment to active duty in the state is not for educational purposes. If you are a graduate or professional student, you are eligible for this exemption until you have resided in the state the minimum time necessary to become a resident (366 days).

2. Spouse or Other Dependents of Military Personnel
You may be exempt from payment of the nonresident tuition fee if you are a dependent natural or adopted child, stepchild, or spouse of a member of the armed forces of the United States stationed in California on active duty. If you are a graduate or professional student, you are entitled to this exemption until you have resided in the state the minimum time necessary to become a resident (366 days). If you are enrolled in an educational institution and the member of the armed forces is transferred outside California where he or she continues to serve on active duty or retires from active duty, you will not lose your exemption until you have resided in the state the minimum time necessary to become a resident (366 days).

3. Child or Spouse of Faculty Member
If funds are available, if you are an unmarried dependent child under age 21 or the spouse of a member of the University faculty who is a member of the Academic Senate, you may be eligible for a waiver of the nonresident tuition fee. Confirmation of the faculty member’s membership in the Academic Senate must be secured each semester before this waiver is granted.

4. Child or Spouse of University Employee
If you are an unmarried dependent child or the spouse of a full-time University employee whose assignment is outside California (e.g., Los Alamos National Laboratory or the University of California Washington, D.C., Center), you may be entitled to a waiver of the nonresident tuition. Your parent’s or spouse’s employment status with the University must be ascertained each semester.

5. Child or Spouse of Deceased Public Law Enforcement or Fire Suppression Employee
If you are the child or spouse of a deceased public law enforcement or fire suppression employee who was a California resident and was killed in the course of fire suppression or law enforcement duties, you may be entitled to a waiver of the nonresident tuition fee.

6. Dependent Child of a California Resident Parent
If you have been an adult resident of California for more than one year and you are a dependent child of a California resident parent who has been a resident for more than one year immediately before the residence determination date, you may be entitled to a waiver of the nonresident tuition fee until you have resided in California for the minimum time necessary to become a resident as long as you maintain continuous attendance at an educational institution.

7. Native American Graduates of a BIA High School
You may be entitled to an exemption from nonresident tuition if you are a graduate of a California high school operated by the Federal Bureau of Indian Affairs, you may be eligible for an exemption from the nonresident fee.

8. Employee of a California Public School District
Any person holding a valid credential authorizing service in the public schools of the state of California who is employed by a school district in a full-time certificate position may be eligible for a nonresident tuition waiver.

9. Student Athlete in Training at U.S. Olympic Training Center, Chula Vista
Any amateur student athlete in training at the United States Olympic Training Center in Chula Vista may be eligible for a waiver of the nonresident tuition until he or she has resided in the state the minimum time necessary to become a resident.

10. Graduate of a California High School
You may be entitled to an exemption from nonresident tuition if you attended high school in California for three or more years and graduated from a California high school (or attained the equivalent). You are not eligible for this exemption if you are a nonimmigrant alien.

If you are a graduate student who is a surviving dependent child of a California resident killed in the September 11, 2001, terrorist attacks on the World Trade Center and the Pentagon or the crash of United Airlines Flight 93, you may be eligible for an exemption from the nonresident tuition fee.

12. Recipient or Child of a Recipient of the Congressional Medal of Honor
If you are a recipient of the Congressional Medal of Honor or the child of a recipient of the Congressional Medal of Honor, you may be eligible for an exemption from nonresident tuition fee.

---

CAL Quiz No. 35
What trees on campus attended a famous event before traveling to Berkeley?
(Answer on page 497.)

CAL Quiz No. 36
When (old) LeConte Hall was built (1923), what did students dislike about its elevator?
(Answer on page 497.)
Temporary Absences

If you are a nonresident student who is in the process of establishing California residency for tuition purposes and you leave California during non-academic periods (for example, to return to your former or parent’s home state), your presence in California will be presumed to be solely for educational purposes, and only convincing evidence to the contrary will rebut this presumption. Students who are in the state solely for educational purposes will NOT be classified as residents for tuition purposes, regardless of the length of stay.

If you are a student who has been classified as a resident for tuition purposes and you leave the state temporarily, your absence could result in the loss of your California residence. Again, only strong evidence will rebut the presumption that you are/were in California solely for educational purposes. The burden of proof will be on you to verify that you did nothing inconsistent with your claim of a continuing California residence during your entire absence.

If you are a minor student, your residence is determined by the residence of the parent(s) with whom you live or last lived, and you would not lose that residence unless you perform acts inconsistent with a claim of permanent California residence. Some steps that you (or your parent(s)) if you are a minor student) should take to retain resident status for tuition purposes are:

• Satisfy California resident income tax obligations. It should be noted that individuals claiming permanent California residence are liable for payment of income taxes on their TOTAL income, including income earned outside the state (abroad or in another state).

• Continue to use a California permanent address ON ALL RECORDS (educational, employment, military, etc.).

• Attend an out-of-state public institution as a nonresident for the entire period of enrollment there.

• Retain your California voter’s registration and vote by absentee ballot.

• Maintain a California driver’s license and vehicle registration. If it is necessary to change your license or registration while temporarily residing in another state, the license MUST be changed back to California within 10 days of the date of return to the state, and the vehicle registration must be changed within 20 days of the date of return.

• Return to California during your vacation periods.

Petitioning for Resident Classification (for continuing students)

If you are a continuing student who is classified as a nonresident for tuition purposes and you believe you will be eligible for resident status, you must file a petition with the Residence Affairs Unit in the Office of the Registrar, 39 Sproul Hall. The deadline to file the petition is the last working day before the first day of instruction for the term for which you are seeking resident status.

Time Limitation on Providing Documentation

If additional documentation is required for a residence classification but is not readily accessible, you will be allowed until the end of the applicable semester to provide it.

Incorrect Classification

If you were incorrectly classified as a resident, you are subject to recategorization and to payment of all nonresident tuition fees not paid. If you concealed information or furnished false information and were classified incorrectly as a result, you are also subject to University discipline. Resident students who become nonresidents must immediately notify the campus residence deputy.

Inquiries and Appeals

Inquiries regarding residence requirements, determination, and/or recognized exceptions should be directed to the Residence Deputy, Office of the Registrar, 39 Sproul Hall, Berkeley, CA 94720-5404, telephone (510) 642-1614, e-mail orres@uclink.berkeley.edu, or the Legal Analyst—Residence Matters, 111 Franklin Street, 8th Floor, Oakland, CA 94607-5200. No other University personnel are authorized to supply information relative to residence requirements for tuition purposes.

Any student, following a final decision on residence classification by the residence deputy, may appeal in writing to the legal analyst within 45 days of notification of the residence deputy’s final decision.

Caution: This summary is not a complete explanation of the law regarding residence for tuition purposes. Additional information is available from the Office of the Registrar and at http://registrar.berkeley.edu/Residency/legalinfo.html. Please note that changes may be made in the residence requirements between the publication date of this statement and the relevant residence determination date.

Policy on Course Notes and Recordings

As part of the education and learning experience, enrolled students routinely take course lecture notes. With the permission of the instructor, students may record lectures as well. Lecture notes and recordings involve issues related to the intellectual property rights of instructors and the University’s regulation of the commercial use of such notes or recordings. This policy sets forth the limitations on such use and cites applicable law and policies related to the intellectual property rights of instructors.

Instructors’ Intellectual Property Rights. Individual instructors retain intellectual property rights to lectures and class presentations and related material pursuant to the federal Copyright Act, California Civil Code section 980, subdivision (a)(1), and the University of California’s Policy on Copyright Ownership (http://www.ucop.edu/ucophome/uwnews/copyr.html). Unauthorized use of class notes or recordings may subject an individual to legal proceedings brought by the instructor as well as action by the University.

Use of Lecture Notes or Recordings and Related Material. Lecture notes and, with permission of the instructor, recordings may be taken by students enrolled in a course during lectures or other class presentations. Such notes or recordings are allowable for purposes of individual or group study or for other noncommercial purposes reasonably arising from the student’s enrollment in the course.
Commercial Use of Class or Lecture Notes or Recordings and Related Material. Except as provided below, notes may not be exchanged or distributed for commercial purposes, for compensation, or for any other purpose other than study either between students or between a student and a third party. Selling or distributing course lecture notes, handouts, readers, or other information provided by an instructor, or using them for any commercial purpose without the express permission of the University and the instructor is a violation of Section III.B.7 of the Berkeley Campus Code of Student Conduct (http://uga.berkeley.edu/uga/conduct.stm).

Commercial Activities on UC Campuses. The University of California systemwide Policies Applying to Campus Activities, Organizations, and Students provides in section 42.40, Use of University Property for Commercial Purposes, that campuses may adopt regulations narrowly restricting commercial activity. Section 231 of the Berkeley Campus Regulations Implementing University Policies provides that University facilities may not be used for any commercial purpose without the express approval of the chancellor or the chancellor's designee (http://uga.berkeley.edu/uga/regs.stm). Section 236 of the Regulations states that, except as provided in such regulations, commercial activity on the Berkeley campus is prohibited. Systemwide University of California regulations, Business and Finance Bulletin 43, part 3, section X.A, also prohibits the use of University premises for non-University purposes (http://www.ucop.edu/ucophome/policies/bfb/).

Unless authorized by the University in advance, and explicitly permitted by the instructor, the sale of class notes and/or recordings constitutes an unauthorized commercial activity in violation of the Berkeley Campus Regulations Implementing University Policies and the Code of Student Conduct. Students who violate these policies are subject to University discipline.

Campus Lecture Note Subscription Services. Black Lightning Lecture Notes (BLLN), a campus service provided by the Business and Administrative Services' ASCU-Auxiliary unit, is exclusively authorized by the chancellor to provide course notes subscription services on the Berkeley campus. No outside entity is authorized to perform this service for UC Berkeley courses. BLLN is available for particular classes when approved in writing by the instructor. For such classes, the instructor shall have the right to approve the designated note taker in advance, negotiate the terms and conditions with BLLN, including, but not limited to, royalties, and review and approve the notes in a timely manner before their distribution. The designated note taker must be a student enrolled in the class, unless otherwise authorized by the instructor. The list of courses with subscriptions to BLLN is available at the Cal Student Store in the Martin Luther King, Jr. Student Union and online at http://asuc-_aux.berkeley.edu/blln/. For more information about this service, please call the BLLN coordinator at (510) 642-7498.

Organized Research Units

Visiting Scholar and Postdoc Affairs (VSPA) Program

Berkeley is host to more than 2,500 visitors from other universities, colleges, research laboratories, and government agencies who conduct research using University facilities. The Visiting Scholar and Postdoc Affairs (VSPA) Program was established to accommodate scholars with a Ph.D. or equivalent degree to pursue their research and professional interests on the Berkeley campus. The VSPA Program has six decentralized authorizing units: College of Chemistry (Departments of Chemistry and Chemical Engineering), College of Engineering, College of Letters and Science, College of Natural Resources, International and Area Studies, and the School of Education. All other campus units are under the auspice of the central VSPA Program Office. Appointments in the VSPA Program are contingent upon the interest and ability of a campus department or organized research unit (ORU) to accommodate the affiliate for the period of time desired. In order to be affiliate as a visiting scholar or postdoc, you must be sponsored by a faculty member of the University of California, Berkeley and must meet certain requirements. Please note that visiting scholars are assessed an annual $200 University Services Fee. Postdoctoral appointees are not charged this fee.
Without the payment of tuition or other fees, VSPA affiliates may informally audit classes (with the exception of courses offered by Summer Sessions or University Extension); participate in seminars with permission of the instructor; confer with faculty members; and access facilities that the sponsoring unit may be able to offer. Standard privileges include use of campus libraries, e-mail services, fee parking permits, football ticket discounts, recreational sports facilities discounts, and access to housing services for a fee.

SPECIAL NOTE: VSPA affiliates should not expect sponsoring units or libraries to provide them with workspace.

For more information about the VSPA Program, please go to http://vspa.berkeley.edu.

### Campus Historical Resources

**University Archives**, located in the Doe Annex of the Bancroft Library, is the official repository of historical records and memorabilia for the Berkeley campus, and contains tens of thousands of documents, photographs, records, and artifacts. For more information, contact the archivist at (510) 642-2933. (Most records and photographs can also be looked up and reviewed in the reading room of the Bancroft Library.)

The **Regional Oral History Office** in the Doe Library contains transcripts of in-depth interviews with hundreds of notable and fascinating Californians, including many UC faculty, alumni, and administrators. Call (510) 642-7395.

**Blue and Gold Yearbooks** can be found in the open stacks of the Main Library. Early editions, particularly those before World War II, contain much historical information and descriptions of the University.

**Hall of Fame Room, Memorial Stadium**, contains permanent records of the history and triumphs—including Olympic victories and NCAA championships—of Cal athletics, including sports from track and field to crew, rugby, tennis, and football. Trophies, artifacts, photographs, and equipment dating back a century are on display. The Hall of Fame is open from 10 a.m. to 3 p.m. the first Thursday of each month. For more information, call (510) 642-3839.

**University History Seminar** is a group that meets regularly in the Townsend Center for the Humanities to discuss topics in campus and University history. Faculty, staff, alumni, and students give presentations on special topics and research, and the group periodically publishes “Chapters in the History of the University of California.” Call (510) 643-9212 for more information.

A **Cal History and Traditions Class** is offered periodically through de-cal (Democratic Education at Cal). This student-initiated, for-credit class introduces students to the history and culture of the University and includes tours of the historic campus, Cal songs and spirit traditions, and talks by administrators, faculty, and alumni. For more information, call the de-cal office in Eshleman Hall at (510) 642-9127.

### Non-University Resources

- Berkeley Public Library history collection (Central Library)

Vice President—Clinical Services Development
William H. Gartner

Vice President—Educational Outreach
Winston C. Doby

Vice President—Financial Management
Anne Broome

Vice President—Health Affairs
Michael V. Drake, M.D.

Chancellors of the Campuses

Robert M. Berdahl, Berkeley
Larry Vanderhoef, Davis
Ralph J. Cicerone, Irvine
Albert Carnesale, Los Angeles
Carol Tomlinson-Keasey, Merced
France A. Córdova, Riverside
Robert C. Dynes, San Diego
J. Michael Bishop, San Francisco
Henry T. Yang, Santa Barbara
M. R. C. Greenwood, Santa Cruz

General Administrative Officers, Berkeley

Chancellor
Robert M. Berdahl, Ph.D.

The Executive Vice Chancellor and Provost
Paul R. Gray, Ph.D.

Vice Chancellor—Budget and Finance
James A. Hyatt, M.B.A.

Vice Chancellor—Business and Administrative Services
Horace Mitchell, Ph.D.

Vice Chancellor—Capital Projects
Edward J. Denton, B.A.

Vice Chancellor—Research
Beth Burnside, Ph.D.

Vice Chancellor—Undergraduate Affairs
Genaro M. Padilla, Ph.D.

Vice Chancellor—University Relations
Donald A. McQuade, Ph.D.

Vice Provost—Academic Affairs and Faculty Welfare
Jan de Vries, Ph.D.

Vice Provost—Academic Planning and Facilities
William C. Webster, Ph.D.

Vice Provost—Undergraduate Education and Instructional Technology
Christina Maslach, Ph.D.

Associate Vice Provost—Academic Planning and Facilities
James R. Hunt, Ph.D.

Associate Vice Provost—Faculty Equity
Angelica Stacy, Ph.D.

Associate Chancellor—Chief of Staff
John F. Cummins, Ph.D.

Assistant Chancellor—Legal Affairs
Michael R. Smith, J.D.

Assistant Vice Provost—Academic Compliance
Sarah J. Hawthorne, J.D.

Director—CorE/Center for Organizational Effectiveness
Phyllis Hoffman, M.P.A.

Associate Vice Chancellor—Business and Administrative Services
Ron T. Coley, M.B.A.

Associate Vice Chancellor—Information Systems and Technology
John W. McCredie, Ph.D.

Associate Vice Chancellor—Research
Robert Price, Ph.D.

Associate Vice Chancellor—University Relations
F. Scott Biddy, B.A.

Assistant Vice Chancellor—Admissions and Enrollment
Richard W. Black, M.A.

Assistant Vice Chancellor—Human Resources
David Moers, Ph.D.

Assistant Vice Chancellor—Public Affairs
George A. Strait, Jr., B.S.
What are the hills called on either side of Strawberry Canyon, above Memorial Stadium? (Answer on page 498.)

Sometimes sitting in a huge room full of intelligent students can be very intimidating. New students coming to Berkeley may not be used to this type of setting. However, don't be afraid to separate yourself from the rest and be heard! Go to office hours and talk to your professors. Ask smart questions, ask dumb questions, just don't ever stop asking questions!

CAL Quiz
No. 44
When did student government begin at Berkeley?
(Answer on page 498.)
Answers to CAL Quiz

1. (from page 8)
William Tyndale (1494-1536) translated the Bible into English from the original Greek and Hebrew and gave us most of the famous phrases from the King James Authorized Version. In addition to Let there be light, he first used the words “And the truth shall set you free,” “Am I my brother’s keeper?”, “Love thy neighbor as thyself,” and “Let my people go.” For his pains he and his books were burned for heresy.

2. (from page 15)
Grains and fruits, the products of agriculture. The building originally housed the College of Agriculture, among other academic departments.

3. (from page 17)
Booth asked that the University work toward a future that would “make the voter intelligent, the officer more honest, do away with soldiers, make (gun) powder a blasting agent, and war a memory.”

4. (from page 20)
Lawrencium, berkelium, and californium. All were discovered by Berkeley researchers. Lawrencium is named in honor of Ernest Lawrence, the first Berkeley professor to win the Nobel Prize.

5. (from page 27)
The Tilden Football Players statue, won by the University as a Big Game prize in 1899, was the first permanent outdoor sculpture on campus. Soon afterward it was installed on campus near the old running track and playing field (now covered by the Life Sciences complex). The statue now stands south of the Life Sciences Building Addition. Over the years, a wide variety of other art donations followed.

6. (from page 36)
“Washington Crossing the Delaware” (1851), also by Leutze, hangs in the Metropolitan Museum of Art, New York. Our monumental canvas hung for many years in the University Art Museum. Before that, it was found rolled up in the basement of Hearst Gymnasium, where it had lain for 53 years.

7. (from page 39)
On October 16, 1945, Robert Oppenheimer, a physics professor at Berkeley, retired as director of the Los Alamos weapons lab after the successful completion of the first atomic bomb. UC President Robert Gordon Sproul went to Los Alamos for a ceremony honoring Oppenheimer and recognizing the University’s contribution to the war effort. The prayer was offered at the conclusion of the ceremonies.

8. (from page 44)
One of John Galen Howard’s drawings of Sather Tower placed two-bedroom student apartments on each floor. The plan was never implemented. The drawing is in the lobby of Sather Tower.

9. (from page 47)
In 1966 a Swiss company proposed to pay for construction of an aerial tramway running from campus up Strawberry Creek to the top of Grizzly Peak. The idea was that University staff and students could have used it for commuting, and the company would have made money by selling tickets to others interested in a recreational ride. (An odder variation of this idea was a proposal, actually tried, to convert steep and straight Marin Avenue in north Berkeley to a ski run each winter. Private parties trucked in snow, but it melted too fast for the project to be economical.)

10. (from page 48)
At the 1962 Charter Day ceremonies, 88,000 people—many of them seated on the field—came to hear President John F. Kennedy speak. This was reportedly the largest crowd ever to hear President Kennedy in person. (The largest crowd to see a football game at the stadium was 83,000, against Navy in 1947.)

11. (from page 52)
Hearst wanted to build a grand monument, designed by Bernard Maybeck, that would have covered acres of campus between Bancroft Way and Faculty Glade. It would have consisted of a gymnasium, a huge domed auditorium resembling Maybeck’s Palace of Fine Arts, museums, music and architecture buildings, extensive sculpture gardens, courtyards, “ruined temples,” and a sculpture garden resembling Maybeck’s Palace of Fine Arts.

12. (from page 57)
Benitoite is a sapphire-blue crystal originally found only in San Benito County. In 1907, Professor George Louderback, chair of the Department of Geology, was the first to analyze and describe the mineral when a gemologist friend from San Francisco brought him a sample.

13. (from page 65)
Foresters’ Circle was a ring of log benches around a firepit in the middle of the Eucalyptus Grove. Forestry students from nearby Mulford Hall used to gather there to socialize. In the 1980s, because of concerns about fire danger, the log benches were scattered to other locations on campus.

14. (from page 66)
Oski is always played by a student, but his or her identity inside the costume is kept secret. Oski says nothing; he’s a silent bear who expresses his California loyalty and emotions with gestures.

15. (from page 67)
An asteroid and an oil tanker (Chang-Lin Tien), and an atomic element (Glenn T. Seaborg).

16. (from page 70)
Albert Bender, a San Francisco philanthropist and art collector, gave the sculptures to the University in the 1930s. They were originally located in front of the old Powerhouse, which was converted to the University Art Gallery in 1933.
17. (from page 71)
May T. Morrison, class of 1878. The Morrison Library in the Doe Library building, and Morrison Hall, which houses the Music Library, are named for her.

18. (from page 74)
From 1891-1924 the Botanical Garden had a large greenhouse in the center of the campus, next to its outdoor planting beds. The greenhouse stood approximately where the little parking lot next to Haviland Hall is today. It looked a lot like the famous Conservatory of Flowers in San Francisco’s Golden Gate Park.

19. (from page 75)
“Berkeley, near Oakland.” That was in the days before zip codes, and Berkeley wasn’t really a town yet, so it was prudent to add the name of the closest major town. Now the campus has not only a zip code of its own (94720), but scores of four-digit codes for different campus departments and buildings.

20. (from page 76)
Between California Hall and Doe Library, the road splits around an oval, sloping lawn. This was once known as sophomore lawn, and any freshman who accidentally or purposefully stepped on the forbidden turf was subject to retribution by the sophomores.

21. (from page 79)
“To read well is to vanquish the centuries.”

22. (from page 81)
The Smokey the Bear hats worn by National Park Service rangers. The hats are quite similar to the Senior Sombreros worn by Cal students early in this century, and it is believed that one of the several Cal alumni who helped create and manage the National Park Service adapted the hats as part of the ranger uniform.

23. (from page 82)
Kent Dallet, late associate professor of psychology at Berkeley.

24. (from page 83)
Geology Professor Andrew Lawson did pioneering work studying earthquakes and faults and argued (correctly) that there were stable rock formations that would hold up the Golden Gate Bridge towers. The “Lawson Adit” is the old mining tunnel east of the Hearst Memorial Mining Building.

25. (from page 85)
Wurster Hall is named for William Wurster, who was a noted architect and dean of the School of Architecture, and Catherine Bauer Wurster, a respected social advocate and urban planner.

26. (from page 86)
Andy Smith, football coach from 1916-1925, compiled a 74-16-7 record and led his teams to five consecutive undefeated seasons. He died unexpectedly, and on January 15, 1926, his ashes were scattered from an airplane over the field at Memorial Stadium during his memorial service.

27. (from page 88)
Joseph Thomas Gier, an expert in thermal radiation and instrumentation, was promoted from lecturer to associate professor of electrical engineering in the College of Engineering in 1952. (He later moved to UCLA and served on the faculty there.)

28. (from page 90)
The “Big C” is the oldest documented letter on a hillside in the Western United States, perhaps in the country.

29. (from page 92)
A small gold nugget, thought to be the gold that John Marshall discovered in 1848, setting off the California Gold Rush.

30. (from page 98)
(d) lasers

31. (from page 99)
A large flagpole. When the tower was built, the flagpole was given to St. Mary’s College in Orinda, on the other side of the Berkeley hills.

32. (from page 478)
Edwards Track, which seats more than 20,000 spectators, was the largest facility in the country built exclusively for track and field events. The Valley Life Sciences Building was thought to be the largest academic building in the world when it was constructed.

33. (from page 479)
Stained glass windows in the Great Hall of the Faculty Club on campus are decorated with the symbols of colleges with which the Faculty Club’s founding members had been associated. Stanford was one of those schools, so there is a panel featuring a Stanford tree and red and white glass.

34. (from page 480)
The corridors of Mulford Hall, the old Forestry Building near the west end of campus, are decorated with samples of wood from around the world.

35. (from page 481)
The sycamore trees on the Esplanade north of Sather Tower were originally part of the grounds of the 1915 Panama Pacific International Exposition that temporarily covered what is now San Francisco’s Marina District. They were moved to Berkeley and used in the campus landscaping after the fair.

36. (from page 481)
They couldn’t use it. The elevator, operated by a key, was reserved for faculty and staff. The professors wanted to keep it available to move their experimental equipment between floors, and besides, they reasoned that students were young and healthy enough to use the stairs.
37. (from page 484) The saber-toothed tiger is the official California state fossil. This particular statue was made for the University by Victor Bergeron, the founder of the Trader Vic restaurants. For many years the Paleontology Department and museum were located on the lower floors of McCone Hall, and Sather Tower used to be the storage place for hundreds of tiger fossils.

38. (from page 484) The stone is commonly called Sierra white granite or Raymond granite after the company that operated the quarry from which it came.

39. (from page 485) There's no connection. Barrow Hall used to be a city street, named for a businessman who operated a hotel at the corner of Bancroft and Telegraph, before the University expanded south of Strawberry Creek. It is pure coincidence that Barrows Hall, named for University President David Prescott Barrows, stands next to the lane.

40. (from page 486) Charter Hill is the traditional name of the slope to the north, where the “Big C” is located. Panoramic Hill is the name of the residential neighborhood that climbs the heights to the south of the stadium. The lower, southwest portion of Charter Hill is informally called Tightwad Hill, after the spectators who sit there for free to watch the football games below.

41. (from page 487) “Wild Men of Kilihari” and “With Governor Pinchot in the South Seas” were shown on campus on June 14, 1932.

42. (from page 489) Stephens Hall was the Student Union, and Moses Hall (originally named Eshleman Hall) was the Student Publications Building. From the 1920s through the 1950s, student extracurricular life centered in these buildings, and the little courtyard in between, now called the Class of 1925 Court, was the Sproul Plaza of its day, where campus events and activities were publicized.

43. (from page 491) Olmstead was hired by the College of California to design a plan for its new Berkeley campus, as well as a layout for the residential neighborhood the college wanted to create next to the campus. Piedmont Avenue, between Dwight Way and Memorial Stadium, with its planted median, traffic circle at Channing Way, and curves that follow the hillside, is the only piece of Olmstead's design that survives.

44. (from page 492) Student government began at Berkeley in March 1887 with the formation of a student-appointed committee that recommended a constitution. This makes the ASUC among the oldest student governments in the country and one of those spontaneously formed by students themselves, rather than created by administrative fiat.
Berkeley General Catalog

Produced by Public Affairs, the Office of the Registrar, the Berkeley Division of the Academic Senate, and Student Information Systems.

George A. Strait, Assistant Vice Chancellor, Public Affairs
Karen S. Holtermann, Director, University Communications
Nancy Chapman, Catalog Editor
Robin van der Vegt, Assistant Editor
Connie Torii, Cover Design
Lynn Millwood, Design
John Hickey, Design Director

Printing by UC Printing Services.
Printed on recycled paper with soy-based ink.

Acknowledgments
The editor wishes to thank Robin van der Vegt, Paul Reed, and Jeff Wason for their invaluable technical and editorial assistance, Steve Finacom for his archival research and resulting quiz about Berkeley history, and the myriad staff throughout campus who provided copy and comments.

Nondiscrimination Statement
The University of California, in accordance with applicable federal and state law and University policy, prohibits discrimination, including harassment, on the basis of race, color, national origin, religion, sex, physical or mental disability, medical condition (cancer-related or genetic characteristics), ancestry, marital status, age, sexual orientation, citizenship, or status as a covered veteran (special disabled veteran, Vietnam-era veteran or any other veteran who served on active duty during a war or in a campaign or expedition for which a campaign badge has been authorized). This nondiscrimination policy covers admission, access, and treatment in University programs and activities. Inquiries may be directed as follows: Sex discrimination and sexual harassment: Nancy Chu, Title IX Compliance Officer, (510) 643-7985; disability discrimination and access: Ward Newmeyer, A.D.A./504 Compliance Officer, (510) 643-5116 (voice or TTY/TDD); age discrimination: Alan T. Kolling, Age Discrimination Act Coordinator, (510) 642-8471. Other inquiries may be directed to the Academic Compliance Office, 200 California Hall #1500, (510) 642-2795.

Accreditation
The University of California, Berkeley is accredited by the Western Association of Schools and Colleges.
