SPECIAL RULES GOVERNING LOCAL AND FEDERAL LABOR UNIONS AFFILIATED WITH THE AMERICAN FEDERATION OF LABOR.

SECTION I. Local and federal labor unions affiliated with the American Federation of Labor may pay besides the regular per capita of one cent per member per month, fifteen cents per member per month, said latter per capita to go into a special fund, called the "Fund of the Locals of the American Federation of Labor."

SEC. 2. Only unions contributing to this special fund shall derive benefits from it as hereinafter stipulated; provided, that an amount not exceeding twenty-five per centum of the fund shall be allowed by the Executive Board toward defraying the salary of the Secretary, his office and traveling expenses and for other expenses incurred by the President or Secretary to further the interests of the unions contributing to this fund.

SEC. 3. Any union contributing to the fund and requiring the assistance of the Federation to vindicate its rights and privileges under this Constitution, shall be required to conform to the the following sections, and shall await an official answer.

SEC. 4. When a difficulty occurs under the jurisdiction of
any union through a reduction of wages or through the principles of the organization being jeopardized in any manner, or should any union desire to make a demand for an increase of wages the union under whose jurisdiction the trouble exists shall hold a meeting at once to consider the same. They shall take a secret ballot to determine whether to accept such reduction in wages, or whether the union shall or shall not insist upon the enforcement of said union principles. It shall take a three-fourth's vote of all the members present to decide. If, in the judgment of the union, they shall decide to reject said reduction, or insist upon the enforcement of said union principles, or make a demand for an increase in wages (said demand being refused), the members involved shall remain at work and the union shall cause to be issued and sent to the Secretary of the Federation a bill of grievance, stating the nature of the trouble and the action of the union thereon. The Secretary of the Federation, immediately upon receipt of said grievance, shall personally or by deputy, in conjunction with the local committee investigate the cause of the trouble, and, if possible, effect a settlement, failing to adjust which he shall cause to be sent to each member of the Executive Board a copy of the grievance. Upon the receipt of the decision of the Executive Board, the Secretary of the Federation shall immediately notify the union as to the result and should the grievance receive or fail to receive their sanction, the union shall hold a meeting and be governed accordingly. After notice is given that the grievance is not sanctioned, should the union decide to strike, said union cannot expect to receive support from the Federation.

SEC. 5. No union shall be entitled to any financial support during the first week of a strike.

SEC. 6. The amount of support which the Federation guarantees shall be determined by the money it has on hand and the number to be supported; but shall, however, not exceed $4 per week for each member.
CONSTITUTION.

Sec. 7. In the event of a strike such unions only shall receive the support of the Federation as have paid into the special fund of the Federation for at least three months, and are not in arrears with their per capita.

Sec. 8. The Secretary of the Federation in conjunction with the Executive Board shall have power, when notified from facts and information in their possession that a strike is lost, to declare the same at an end, so far as the financial aid of the Federation is concerned. In all such cases at least two weeks' notice shall be given to each union in which a strike may exist of the intention to declare the strike ended. But before such action is taken, an investigation shall be made by the President or Secretary, personally, or by deputy.

Sec. 9. All the foregoing provisions apply to a lockout.

SPECIAL RULES GOVERNING LOCAL AND FEDERAL LABOR UNIONS AFFILIATED WITH THE AMERICAN FEDERATION OF LABOR.

SECTION 1. Local and Federal Labor Unions affiliated with the American Federation of Labor may pay, besides the regular per capita of one cent per member per month, 15 cents per member per month, said latter per capita to go into a special fund called the Fund of the Locals of the American Federation of Labor.

SEC. 2. Only unions contributing to this special fund shall derive benefits from it as hereinafter stipulated; provided, that an amount not exceeding twenty-five per centum of this fund shall be allowed by the Executive Board towards defraying the salary of the Secretary, his office and traveling expenses and for other expenses incurred by the President or Secretary to further the interests of the unions contributing to the fund.

SEC. 3. Any union contributing to this fund and requiring the assistance of the Federation to vindicate its rights and privileges under this Constitution, shall be required to conform to the following sections, and shall await an official answer.

SEC. 4. When a difficulty occurs under the jurisdiction of any union through a reduction of wages or through the principles of the organization being jeopardized in any manner, or should any union desire to make a demand for an increase of wages the union under whose jurisdiction the trouble exists shall
hold a meeting at once to consider the same. They shall take a secret ballot to determine whether to accept or reject such reduction in wages, or whether the union shall or shall not insist upon the enforcement of said union principles. It shall take a three-fourth’s vote of all the members present to decide. If in the judgment of the union they shall decide to reject said reduction, or insist upon the enforcement of said union principles, or make a demand for an increase in wages (said demand being refused), the members involved shall remain at work and the union shall cause to be issued and sent to the Secretary of the Federation a bill of grievance, stating the nature of the trouble and the action of the union thereon. The Secretary of the Federation, immediately upon receipt of said grievance, shall personally or by deputy, in conjunction with the local committee, investigate the cause of the trouble, and, if possible, effect a settlement, failing to adjust which he shall cause to be sent to each member of the Executive Board a copy of the grievance. Upon the receipt of the decision of the Executive Board, the Secretary of the Federation shall immediately notify the union as to the result, and should the grievance receive or fail to receive their sanction, the union shall hold a meeting and be governed accordingly. After notice is given that the grievance is not sanctioned, should the union decide to strike, said union cannot expect to receive support from the Federation.

Sec. 5. No union shall be entitled to any financial support during the first week of a strike.

Sec. 6. The amount of support which the Federation guarantees shall be determined by the money it has on hand and the number to be supported; but shall, however, not exceed $4.00 per week for each member.

Sec. 7. In the event of a strike, such unions only shall receive the support of the Federation as have paid into the Special Fund of the Federation for at least three months, and are not in

SEC. 8. The Secretary of the Federation, in conjunction with the Executive Board, shall have power, when satisfied from facts and information in their possession that a strike is lost, to declare the same at an end, so far as the financial aid of the Federation is concerned. In all such cases at least two weeks' notice shall be given to each union in which a strike may exist of the intention to declare the strike ended. But before such action is taken, an investigation shall be made by the President or Secretary, personally, or by deputy.

Delegates P. B. Preble and R. McNulty were granted permission to introduce resolutions.

Motion carried that at 3:30 p.m. the rules be suspended and officers elected for the ensuing term, and that immediately after the election of officers the next Convention city be chosen.

The Committee on Resolutions submitted substitutes for several resolutions concerning Asiatic immigration. The substitutes were adopted as follows:

**CHINESE EXCLUSION.**

"The peaceful invasion of our country by the unassimilative hordes of Mongolians has been watched by all thoughtful and reflective citizens of the Pacific Coast, with fear; and a full appreciation of the consequence of such invasion is only possible to those who are brought in constant contact with the Asiatic coolie.

"The passage of the Chinese Exclusion Act and its partial enforcement has proven of great benefit to this Coast, and the near approach of the termination of the law fills us with alarm and causes us to demand a renewal of the present law, and we are convinced by experience that the present law should be strengthened.

"We believe that the law should leave less discretion to the Federal officials who have charge of the gates of entrance to this country.

"We can see clearly that a failure to re-enforce the present law means an overwhelming body of slave labor, and the degradation of the white laborer of our country. Under such an invasion our very civilization is in danger of extinction and the mode of living of the coolie must eventually be adopted by our laboring people.

"We ask our friends from other sections of our com-

mon country to be guided by our experience and assist us in stemming the tide of Asiatic cheap labor which threatens to overwhelm us. Let us particularize the main objections to the Chinese coolie:

"He has been detrimental to the general welfare of our country.

"He has lowered the moral standard in communities in which he lives.

"He harbors filth and disease.

"He has no respect for our laws and institutions.

"He has evaded the law by his low criminal cunning, and defeated the ends of justice.

"His sworn testimony is almost worthless.

"His criminal acts have put our people to a great pecuniary expense.

"They furnish far more criminals in proportion to their numbers than any other race.

"He does not support our public institutions nor care for the general welfare.

"Therefore in view of the above stated facts the California State Labor Convention, now in annual session at Vallejo, demands such legislation at the hands of Congress as shall renew the Chinese Exclusion Act; also be it

"Resolved, That copies of these resolutions be forwarded to the President of the United States and all members of both houses of Congress.

The Committee on Resolutions recommends to this Convention that the Secretary of the California State Federation of Labor be instructed to have the resolution favoring the re-enactment of the Chinese Exclusion Act, printed, and a copy sent to
every Labor Union in the United States, with the earnest request that the various unions urge the Senators and Congressmen from their respective States and Congressional Districts to do all in their power to further such legislation as is outlined in the aforesaid resolutions. And be it

"Resolved, That it is the sense of this Convention that the Japanese laborer is a willing worker for wages less than a Chinaman would accept, and being more favored, are a greater menace to our laboring population than the Chinese; and it is further

"Resolved, That we shall, at the earliest possible date, demand the enactment of legislation restricting the immigration of that race to the United States."

Resolution No. 27, introduced by Delegate Schnitzer of Oakland Typographical Union, was adopted as follows:

"WHEREAS, The Los Angeles Times has for years been known as the arch enemy of organized labor, employing in its several departments non-union workmen exclusively; and

"WHEREAS, During the recent struggle in the State of California between organized labor and a secret society commonly known as the Employers' Association, the Los Angeles Times went out of its legitimate calling to show its hatred for organized labor by issuing so-called 'strike editions' in the interest of the Employers' Association, for the purpose of swaying public sentiment against the wage earners who were engaged in a struggle for freedom and liberty; therefore be it

"WHEREAS, The interests of the laboring people can best be advanced by wise laws impartially administered; and

"Resolved, By the California State Federation of Labor, that we endorse the boycott levied by the San Francisco Labor Council on the Dow Steam Pump Works and the Risdon Iron Works of San Francisco."

Resolution No. 51, introduced by Delegate C. G. Taylor of Plumbers' Union, No. 78, of Los Angeles, was adopted as follows:

its sections shall act together when the occasion demands it, presenting a uniform front for the common good in every endeavor to secure our separate or aggregate demands, whose aims are to resist aggression and to improve our social condition; and

"WHEREAS, Certain organizations in this State, without due consideration of the effect of their action, and ignoring the motto, 'that an injury to one is the concern of all,' held aloof from all participation or support of their fellow workers, then needing their encouragement and help, thereby creating an impression of the existence of antagonism between labor organizations, to the detriment of those contending for the principles of unionism; and

"WHEREAS, This Convention, representing every element of labor in this State, condemns the course pursued by said organizations, and earnestly appeals to them to at once unite with the general labor movement by affiliating with the local Central Labor Councils of their respective localities, and we urge on all the preservation of the utmost harmony; therefore be it

"Resolved, That the incoming Executive Board use its utmost endeavors to overcome the danger inherent in such a division of the labor movement by urging all unions of the State, entitled to affiliation under the Constitutions of the State Federation of Labor and the city central bodies chartered by the American Federation of Labor, to affiliate with the State Federation of Labor and said City Councils."
TRUCK SYSTEM.

"WHEREAS, In various occupations in this State it has become the general practice of employers in payment for wages earned, instead of cash, to substitute therefore board and lodging, and in instances to require them to purchase all articles of food and clothing from stores operated and owned by said employers and to rent from them houses and living apartments, thus leaving to the employes but a small percentage of their earnings, as well as reducing them in fact to a condition of semi-slavery; therefore be it

"Resolved, By this Convention that the incoming Executive Board of the State Federation of Labor be instructed to prepare a law prohibiting these abuses and have the same presented to the State Legislature, which meets on the first Monday in January, 1903, and by every means in their power to procure its passage."

THE BUILDING OF SHIPS IN NAVY YARDS.

"WHEREAS, Large sums of money have been expended by the United States Government from time to time during a series of years dating from the establishment of the first navy yard, in perfecting them with tools and other necessary and up-to-date equipments, to qualify the navy yards to construct and repair all vessels owned by the Government; and

"WHEREAS, With the tools and equipments afore-said the navy yards are in proper condition to construct all vessels required by the Government, as well as to repair them, being in possession of as experienced workmen in all their mechanical departments as those em-

dployed by private shipbuilding firms or corporations, and that the experience of all concerned has been, the material used and the work performed in the construction and repair of vessels in navy yards, has been proven to be superior to that of the private or semi-public contractor, and at no greater cost to the Government; and

"WHEREAS, On such rare occasions where navy yards have been brought into competition with outside concerns it has been invariably proven that the work of the navy yards, as to cost, finish and durability, was in all respects superior; and

"WHEREAS, An immense subsidized lobby is maintained at Washington, at the expense of private or semi-private shipbuilding firms, for the purpose of influencing Congressmen uninformed of the true condition of affairs, so as to secure contracts favorable to themselves, and contrary to the spirit of economy which should characterize all such proceedings; and

"WHEREAS, Private contractors have never yet fulfilled on time any such contract, and only in a few instances have they been obliged to pay back to the United States Treasury any sum in forfeiture of their inability to conform to said contracts, for the reason that such delays are made chargeable to the 'strike clause' always inserted in every contract; and

"WHEREAS, Said contractors are notoriously guilty of violating the Eight-hour Law, which should be held as inviolate as a law against forgery; therefore be it

"Resolved, That the California State Federation of Labor, in Convention assembled, do and hereby instruct the President of this Federation to communicate to the President of the United States and Secretary of the
Navy the expressions herein set forth, with the purpose that they will inaugurate a vigorous investigation of the many abuses brought about by the insertion of the 'strike clause' in all contracts with private individuals or corporations; and be it further

"Resolved, That the President of the United States be requested to have the Eight-hour Law rigidly enforced on all Government contracts; and be it further

"Resolved, That the Secretary of the State Federation of Labor immediately forward to the Secretaries of War and the Navy, the President of the Senate and the Speaker of the House of Representatives the foregoing preamble, with the request that each in their respective capacities take such action as will bring the evils of the contract system prominently before the country, so that it may be utterly and at once abolished."

The report of the Committee of Ways and Means, recommending the payment of bills incurred by the Convention, amounting to $151, was concurred in.

The Committee on Constitution recommended the following amendment to Article XIII, and the same was concurred in:

"That Article XIII be amended by striking out lines 22 and 23 and inserting instead, 'and he shall receive as compensation for his services $20 per week.'"

It was decided that the next session of the State Federation convene at 10 a.m., Monday, January 5th, 1903.

On motion of Delegate Gibb the Convention adopted the rules of order governing this session as the permanent rules of order; also the following law in regard to the introduction of resolutions:

"That all resolutions shall be presented in duplicate to the

On receiving the same they shall be referred to the Committee on Resolutions, and if approved, be ordered printed; if not approved, they must be reported back to the Convention with recommendation as to their disposition. That no resolution be received unless signed and sealed by a union or central body affiliated with the State Federation of Labor or bearing the signature of a delegate to the Convention."

A rising vote of thanks was tendered to the citizens and officials, the press and the Trades and Labor Council of Vallejo, and to Rear Admiral Merrill Miller of the Mare Island Navy Yard for courtesies and hospitalities extended to the delegates of the Convention.

The Law and Legislative Committee referred all matters submitted to it to the incoming Executive Board.

The Convention then adjourned sine die.

GUY LATHROP, Secretary.

THOMAS WRIGHT, Assistant Secretary.
MEMORIAL TO CONGRESS.

To the Senate and House of Representatives of the United States, in Congress Assembled, Greeting:—

"Your memorialists representing organized work... men in Convention held in this City of Vallejo, California, on January 6, 1902, do respectfully invite your consideration to the important subject of constructing war vessels in navy yards equipped for that purpose. Over $150,000,000, has been invested by the United States Government in furnishing the navy yards with the facilities and tools necessary to perform such work in a superior manner and with due dispatch.

"This immense sum will be practically wasted if steps are not immediately taken to utilize the machinery upon which it has been expended.

"It is alleged by those interested in private shipbuilding concerns that the Government is incapable of building war ships at navy yards either as expeditiously, as cheaply or as well as can be done at private establishments.

"As proof of this they cite the first attempts at naval construction in navy yards as an incontroversial argument against the present demand.

"At that time naval architecture as applied to iron or steel was little understood in this country and but one constructor in the navy understood anything about it whatever. Private shipbuilding firms declined to
construct the vessels ordered by the Government upon
the grounds of insufficient appropriation, but really be-
cause the purchased plans were thoroughly defective.
When the work of construction had advanced to a cer-
tain stage the defects became so glaringly apparent that
an entire remodeling took place, the apprehension being
entertained that if launched as originally designed they
would not float. This additional expense, the result of
inexperience, added to the original cost, affords the
enemies of Government shipbuilding a pretext to assail
the navy yards.

"Such improvements have taken place in the equip-
ment of navy yards of late years that they are now in a
position to build ships more advantageously for the Gov-
ernment than are contracting firms. The best material
is used and the best workingmen are employed on all
work done at navy yards. Work can be completed in
them, when no obstructions are placed in the way, more
expeditiously than by private parties. Contractors have
never yet completed a single vessel on time and seldom
satisfactorily.

"By the construction of vessels at navy yards a
steady, reliable and qualified class of workmen are re-
tained in employment, prepared to cope with any emer-
gency should it arise. This is a benefit to the Govern-
ment.

"Your memorialists understand the functions of Gov-
ernment to be the general social improvement of the
masses. Shorter working hours is the surest way to so-
cial improvement. It is the duty of the Government to
encourage this condition. Already a large employer,
its work can be extended so as to employ still more, af-
ording to all the advantages of superior employment

( 95 )
and thereby set the example to all employers by which the status of American citizenship may be measurably raised.

"In addition to building vessels at navy yards the scandals exposed at San Francisco in the repair work on the army transports should oblige the War Department for the sake of decency to terminate all contracts with shipbuilding firms and never renew them.

"As practical men we venture the assertion that the work alleged to be done on those vessels could have been performed at navy yards of the Pacific Coast quicker, better and at one-third the cost, besides conferring on many more of our fellow workingmen the advantages of such employment.

"We would earnestly urge upon you the passage of such measures as will result in the adoption and enforcement of the eight-hour work day law; the abolition of the strike clause in all Government contracts; the ordering of ships to be built at navy yards and the future control and repairing of all Government vessels at Government plants, under the direction of the Navy Department. By thus acting a great and permanent benefit will be conferred not alone on us of California but on the whole working population of the country and will forcibly illustrate the axiom that 'that country is best whose people are happiest'."
AID THE IRON WORKERS.

To THE AFFILIATED UNIONS AND ALL ORGANIZED LABOR,
GREETING:—

"The California State Federation of Labor, in Convention at Vallejo, Cal., January 8, 1902, appreciating the great importance to those directly involved and to all organized labor of California and the Pacific Slope, of the iron workers' strike for a nine-hour day, hereby submits the status of that struggle, and urges your immediate consideration of, and action upon, the same.

"On May 20, 1901, the iron workers of San Francisco and vicinity, to the number of 4,100 quit work for the enforcement of the nine-hour day, without a reduction of wages. Since that time a total of about 1,400 men have returned to work under satisfactory terms of settlement. There are, therefore, about 2,700 men still on strike.

"The issue involved in the iron workers' strike is of the most far-reaching importance, not only to the trades concerned, but to the industrial and social well-being of the State and Nation. The reduction of the hours of daily labor has long been recognized as a just, logical and necessary step for the protection of labor against displacement by machinery, and for the maintenance and advancement of the standard of living.

"That contest waged by the iron workers during the past eight months has justly elicited the admiration of
AID THE IRON WORKERS.

organized labor and the public of the United States. Throughout all that period these men have stood firmly for the principle at stake, all have borne uncomplainingly the brunt of the severest industrial struggle ever witnessed in this, and, perhaps, any other locality. If ever success was deserved by honest effort, the striking iron workers have surely established a claim to victory.

"Charged against the iron workers in this contest stand all the employers and influence which during all the past have successfully opposed the right of labor to organize for self-protection. Victory for the iron workers will mean industrial recognition, industrial justice and industrial peace for California for all time to come. Defeat for the iron workers—and such defeat can only befall as the result of the neglect of organized labor—would be a disaster for which posterity well might weep.

"It is imperative that the striking iron workers shall be enabled to prosecute the struggle to a successful end. For this purpose funds are required immediately. So far, the assistance rendered the men on strike by organized labor in general (that is including funds donated by the respective national unions) have amounted in the average to about sixty cents per member per week. The statement of the San Francisco Labor Council's strike fund shows that while many unions have contributed fairly, and even generously, others again have fallen short of their duty in the premises. We believe that the latter fact is due to a misunderstanding of the needs of the situation rather than to lack of sympathy. We now earnestly submit that there is need of all the assistance in the power of each organization to give.

"After thorough inquiry we find that the sum of
REPORT OF EXECUTIVE COMMITTEE
Of The California State Federation of Labor.

The first meeting of the Executive Committee was held at 915½ Market St., January 10th, 1901. The Secretary was ordered to get letter heads and other necessary printing. After discussing plans to carry out the work of the Convention it was decided to call a meeting of the Executive Committee, with the exception of 1st Vice-President J. E. Netz of Los Angeles, on January 20th.

The second meeting of the executive was held January 20, 1901. All present except First Vice-President, J. E. Netz of Los Angeles. Secretary Guy Lathrop was elected to go to Sacramento to have the bills endorsed by the convention introduced to the Legislature. W. Macarthur, of the Coast Seamans Union, was elected to go to Sacramento when bills came up before the Committees for argument to help the Secretary: The Executive Committee at this meeting voted to charge an affiliation fee of $1.00 for all Unions affiliating with the Federation. A vote of thanks was ordered sent to the Labor Council for loan of $37.20. The Secretary was ordered to have 400 copies of Proceedings of Convention and Constitution printed, to be distributed to all Unions in the State; also ordered to have circulars and other printing necessary, sent to all Unions inviting affiliation. Adjourned to the call of the Chair.

The third meeting of executive committee was held March 31, 1901, at 915½ Market street. All delegates present except First Vice-President, J. E. Netz of Los Angeles, and Third Vice-President, W. J. Coon, who sent communication stating that owing to an important meeting of his Union on this day he would be unable to attend. Communication from Local No. 68 International Association of Machinists, asking for endorsement of a nine hour working day granted.

Communication from Brewery Workmen’s Union Local No. 7, asking endorsement of boycott against the following named brew-
eries: H. Weinhard and Gambrinus of Portland, Ore., and the Star Brewery of Vancouver, Wash. Request granted and Secretary instructed to write to above named cities.

Treasurer B. W. Smith, on account of leaving the State, tendered his resignation, the same was accepted and the Secretary instructed to act as Treasurer for balance of term. Secretary Lathrop made report of legislative committee, report received.

President C. D. Rogers reported having organized a Labor Council in Stockton, and gave advice as to organizing other unions there. Report received and he was ordered to go to Stockton the following Friday and install the Council. President Rogers was also instructed to go to Fresno and organize unions.

The fourth meeting of Executive Committee was held at 927 Market street, June 30, 1901. All the delegates present except First Vice-President, J. E. Netz. It was intended at a previous meeting of the committee that First Vice-President, J. E. Netz, would be present at this meeting, but owing to the small amount of funds on hand Bro. J. E. Netz was not called upon to attend. The Executive Committee, after hearing the report of the Secretary of the Labor Council on the proposed Labor paper, endorsed the action of the San Francisco Labor Council, and promised its moral support. The Secretary was instructed to have reports printed and sent to all unions, and also to send invitations to all unions not affiliated to affiliate with the Federation, and not wait until the next Convention. The Executive Committee took up the matter of aiding the Iron Trades Council of San Francisco and ordered the secretary to send appeal for aid. Organizer J. D. Pierce was endorsed as having done good work in the state in organizing unions.

President Rogers was instructed to visit Fresno, Bakersfield, and other places needing his services, as in a great many places they were greatly in need of some one to give advice, etc. It was also urged that if possible, localities would defray part of the expenses incurred. The secretary was ordered to procure a seal as soon as possible. After some discussion it was ordered that the secretary be instructed to act with the San Francisco Labor Council in sending out circulars and petitions on the Asiatic Exclusion Law and that the Federation defray one-half the expense of the same. Meeting adjourned to the call of the chair.

Guy Lathrop, Secretary.
REPORT OF THE LEGISLATIVE COMMITTEE
Of The California State Federation of Labor.

To The Trade Unions of the State of California.

FELLOW WORKERS:

We, your Legislative Committee, represented by the undersigned, beg leave to submit the following report of what was done in the way of Labor Legislation at the 34th session of the State Legislature.

In the first place your Committee would beg leave to state the many disadvantages they were placed under. First: The Committee was unable to be present during the opening week on account of the meeting of the Convention being held the same week, and the work of getting the Bills ready was therefore delayed, and some of the Bills did not get any consideration for want of time. Another disadvantage was the lack of funds to keep some one continually at Sacramento during the session of the Legislature.

Below will be found a full and complete list of Bills that were introduced at the instance of your Committee.

SENATE BILLS.

No. 427 by Senator Nelson:
To regulate the employment, hours of labor, etc. of children, and to prohibit the employment of minors under a certain age.

No. 428 by Senator Nelson:
An Act regulating the use of Trade Union Labels upon printed matter furnished by or for the State of California.

No. 429 by Senator Nelson:
To define the duties and liabilities, and to limit the powers of employment agents.

No. 434 by Senator Shortridge:
An Act entitled "An Act to provide for the proper sanitary condition of factories and workshops, and the preservation of the health of the employes.
No. 439 by Senator Tyrrell:

An Act to limit the meaning of the word "conspiracy," and also the use of "restraining orders" and "injunctions," as applied to disputes between employers and employes in the State of California.

No. 345 by Senator Oneal:

HOUSE BILLS.

No. 541 by Mr. Guilfoyle:

To define the duties and liabilities, and to limit the powers of employment agents.

No. 542 by Mr. Guilfoyle:

Regulating the use of Trade Union Labels upon printed matter furnished by or for the State of California.

No. 544 by Mr. Collins:

To regulate the employment, hours of labor, etc., of children, and to prohibit the employment of minors under a certain age.

No. 545 by Mr. Collins:

An Act entitled "An Act to provide for the proper sanitary condition of factories and workshops, and the preservation of the health of the employes."

No. 552 by Mr. Evatt:

An Act to amend Section 1970 of the Civil Code of the State of California relating to employes' liability.
No. 553 by Mr. Evatt.

To limit the meaning of the word "conspiracy" and also the use of "restraining orders" and "injunctions" as applied to disputes between employers and employees in the State of California.

In addition to the above the following Bill was indorsed by the Convention and introduced as follows:

An Act to regulate the practice of barbering, which became a law, and is now being put in effect.

PROGRESS, ETC.

Progress of the Bills in their course through the Senate and Assembly:

Senate Bill 427—also introduced as House Bill, No. 544, was amended in Committee to read, 12 years of age, instead of 14— as recommended by the Convention. The Bill passed both Houses and was signed by the Governor.

Senate Bill 428—also introduced as House Bill, No. 542, failed to pass through the Committees as it was considered unconstitutional as introduced. So your Committee did not press the Bill.

Senate Bill 429—also introduced as House Bill, No. 552, recommended to pass by Committee, failed to pass on account of the opposition of Employment Agents, and partly through lack of proper time to devote to the same on account of the limited time your Committee spent in Sacramento during the session.

Senate Bill 434—introduced as House Bill 545, was passed by both Houses as amended with consent of the Committee and signed by the Governor and is now a law.

Senate Bill 439—introduced as House Bill No. 553—met with severe opposition from Senator Davis of Amador, Chairman of the Committee on Judiciary, and from the start met with the most severe opposition from Mr. Grove L. Johnson of Sacramento, who bitterly opposed the Bill in committee. This Bill was one of the most important Bills introduced in the legislature in the interest of labor, in many years, but on account of the opposition which it met by the chairman of the committee and the limited amount of time to devote to these Bills, (although your committee appeared twice before the
House and Senate Committee) failed to come out of Senate Committee as the Committee recommended, do not pass. On March 13th, three days before adjournment, the Judiciary Committee of the House recommended the Bill do pass, it was then too late to have any Bill passed—and might just as well be left dead. In Committee Senate Bill No. 445 introduced as House Bill No. 552, died in judiciary committee on Senate. Your committee tried several times to get the Senate Committee to take up same, but failed on account of opposition of some of members of Judiciary Committee. The House Judiciary Committee after waiting over a month, decided on March 13th, three days before adjournment, when there was no chance to pass same, recommended the Bill do pass. In conclusion will say, that the State Labor Commissioner gave the committee valuable assistance in a great many ways during the session of the Legislature, and in San Francisco, it was through him that the new eight-hour law was introduced and passed and signed by the Governor, and became a law in the place of the eight-hour law that has been decided unconstitutional by Judge Hall of Oakland and Judge Sloss of San Francisco.

Respectfully submitted,

Guy Lathrop.
W. MacArthur.

CALIFORNIA STATE

LABOR FEDERATION

AID THE IRON WORKERS.

$5,000 per week is absolutely necessary for the maintenance of the iron workers now on strike. This divided among the members of unions affiliated with the State Labor Federation amounts to but a small sum per capita per week.

"We now urge that the affiliated unions take immediate steps to contribute at least their pro rata of the sum named, and to continue the payment of the same until the iron workers' strike shall be ended in a decisive victory for organized labor and the shorter work day.

"Make all contributions payable to Ed. Rosenberg, Secretary of the San Francisco Labor Council, 927 Market street, San Francisco, Cal.

"Respectfully,
"CALIFORNIA STATE LABOR FEDERATION,
"per GUY LATHROP, Secretary.

"Adopted at Vallejo, Cal., January 8, 1902."
Report of President.

To the Officers and Members of the Second Annual Convention of the California State Federation of Labor, Greeting:

As the accredited representatives of organized labor of the State of California, I extend to you fraternal greetings. The necessity of an organization to which you have been delegated to represent in this, the Second Annual Convention of the California State Federation, needs no excuse for its existence. We are banded together for the purpose of devising ways and means whereby we may be better enabled to protect ourselves from the avarice and grasping tendency that has ever been the policy of the employer, either in the form of corporations, trusts or individual. Realizing the necessity of a closer affiliation of the laboring classes, the promoters of the California State Federation of Labor felt the need of an organization which would tend to secure unity of action and concerted effort on their part, that would bring the employing classes to a sense of the needs and requirements of the wage earners of this great State and of the nation. With that object in view, a Convention was called, to be held in the city of San Francisco on January 7, 1900, for the purpose of forming a State Federation of Labor. The work of that Convention is an open book and need not be enlarged upon in this address.

The work assigned to the Executive Council by the Convention, and the work that has been accomplished during the past year by said Council and its executive officer in reference to carrying on the work of organization, and other

- 100 -
REPORT OF PRESIDENT.

matters incidental to its existence, is hereto added, feeling satisfied that the work performed has been of material benefit to organized labor throughout the State.

When it is remembered, that the conditions and obstacles that confronted us at the outset, and I refer particularly to that class of labor known as purely local organizations, having no national affiliations, and the opposition encountered by antagonistic organizations whose sole purpose was to advance the interest of a particular class of labor, the work of the Federation has been remarkable in the success which has attended its efforts.

The Secretary's report will show the organizations affiliated, and the receipts and expenditures during the past year, and I will not express myself in the matter other than to call attention to the Convention, that much needed work in the way of organization had to be necessarily abandoned owing to the lack of money to properly carry on the work. However, the means at hand enabled the Executive Council to do much good work in the way of organizing.

At the first quarterly meeting of the Executive Council held in the early part of the year, it was decided to send your President to the City of Stockton for the purpose of organizing a Central Labor Council in that city. After calling upon and addressing the various unions in that city, a meeting was held consisting of delegates from the unions then in existence, who came together for the purpose of forming a central body. The result is that the Federated Trades Council is an established fact, chartered from the American Federation of Labor. The central body of that city took up the work of organization, and asked the A. F. of L. to appoint Mr. A. R. Hopkins the organizer for that city. A large number of new unions have been formed, all of which took out charters from National or International Unions.
REPORT OF PRESIDENT.

Later, in the latter part of July, your President was directed to proceed to Fresno and Bakersfield for the purpose of assisting in more thoroughly organizing those cities. It was found in both cities that a good start had already been made, and the unions of Fresno were particularly well in hand under the direction and guidance of Mr. F. S. Clark, organizer for that city. A difference, or rather a conflict was existing at that time between the Local of Carpenters in regard to the adoption of an 8-hour day. While your President claims no credit for the final adjustment of the difference, the troubles were amicably settled during his stay in that city. The following unions of that city applied for and were received as members of the California State Federation of Labor: Carpenters, Hod Carriers, Retail Clerks, Federated Trades.

In Bakersfield much the same condition prevailed as indicated in Fresno. The work of inducing affiliation with the State Federation, and final failure was due to the action of a self-constituted organization in San Francisco, known as the Building Trades Council, which did everything it could to prevent affiliation with this organization, and urged connection with the Building Trades Council of San Francisco, even going so far as to advise the formation of local unions without taking out charters from National bodies. This same state of affairs exists elsewhere about the State, especially in the large cities about the bay of San Francisco. This condition has no right to an existence and every effort to harmonize conflicting interests should be adopted. At the Convention of the American Federation of Labor, International unions were instructed to notify their respective locals to affiliate with local central bodies chartered from the American Federation of Labor. It is believed by the American Federation of Labor that the interest of the Building Trades can be just as well subserved, by forming a special section of.
REPORT OF PRESIDENT.

the local central body, and it is urged that such course be pursued.

During the coming year a large field for organizing work will be open, and the State Federation should prepare itself for this work by assisting the organizers of the American Federation of Labor and I recommend a State organizer be appointed or elected whose duty it shall be to organize or to assist in the organization of all classes of labor in all parts of the State, said organizer to be under the direction of the Executive Council, compensation for services to be allowed for actual time engaged and for traveling and hotel expenses only.

A very serious matter, involving as it did the whole waterfront of the City of San Francisco in a protracted strike, as well as the strike of the teamsters, butchers, cooks and waiters, machinists, and all the iron trades, was a blow struck at organized labor which had the effect of preventing the State Federation from advancing as rapidly as it otherwise would. It is not necessary to dwell upon these facts, as the conflict is too fresh in the minds of the delegates here assembled to need any further comment.

I am of the opinion that the revenue of the State Federation is too small and recommend a slight increase in the per capita tax, and would also urge that measures be adopted which will result in the creation of a large defense fund and suggest that a special levy be made for the creation of such fund, so that in case of emergency it will be available at short notice.

At the meeting of the Executive Council held in October owing to the disastrous strikes and internal dissensions that were jeopardizing all the unions of the State, it was decided that the State Federation should be represented in the twenty-first annual convention of the American Federation of Labor, to be held in Scranton, Pa., on the 5th day of December, 1901, and appointed your president as such representative. An appeal was made to affiliated unions to
REPORT OF PRESIDENT.

assist by making special donations for the purpose of defraying the expenses of the representative. The ready response and appropriation of the necessary amount of money clearly demonstrated that the Labor organizations of the State felt the necessity of being represented in that body, and the sum of $249.50 was realized, which was ample to meet all necessary expenses.

I have to report that the work of the Convention resulted in much good to the wage earners generally, and to the unions of the Pacific Coast in particular. The full proceedings of that Convention will shortly appear, and it would be too much to attempt to give a synopsis of the work here.

In concluding I desire to acknowledge my obligation to the Executive Council and to the rank and file of organized labor for their hearty support. The sincere desire on my part has been to harmonize conflicting interests, either internal or outside, so that the wage earner could enjoy the fullest benefits of organization.

The California State Federation of Labor has a great future and I predict its influence and power will be a potent factor in adjusting labor disputes.

Fraternally Yours,

C. D. ROGERS,

PRESIDENT CALIFORNIA STATE FEDERATION OF LABOR.
Report of Secretary.

To the Officers and Delegates of the Second Annual Convention of the California State Federation of Labor.

Fellow Workmen:

Owing to the strike and lockouts during the past year, and the drain it has caused on the Treasuries of the Unions throughout the State, a great many Unions throughout the State have not been financially able to affiliate with the State Federation. I have sent out circulars at three different periods in January, July and December, inviting affiliation to all Unions unaffiliated with the Federation. A few have affiliated at each request; the only way the interests can be kept up is to have an organizer in the field at least four months in the year; by this method the Federation can be made effective and its work beneficial to the wage workers of this State.

Very few Unions have lapsed through non payment of their Per Capita tax. Three Unions have lapsed through going out of existence.

Report of President.

To the Officers and Members of the Second Annual Convention of the California State Federation of Labor, Greetings:

As the accredited representatives of organized labor of the State of California, I extend to you fraternal greetings. The necessity of an organization to which you have been delegated to represent in this, the Second Annual Convention of the California State Federation, needs no excuse for its existence. We are banded together for the purpose of devising ways and means whereby we may be better enabled to protect ourselves from the avarice and grasping tendency that has ever been the policy of the employer, either in the form of corporations, trusts or individual. Realizing the necessity of a closer affiliation of the laboring classes, the promoters of the California State Federation of Labor felt the need of an organization which would tend to secure unity of action and concerted effort on their part, that would bring the employing classes to a sense of the needs and requirements of the wage earners of this great State and of the nation. With that object in view, a Convention was called, to be held in the city of San Francisco on January 7, 1900, for the purpose of forming a State Federation of Labor. The work of that Convention is an open book and need not be enlarged upon in this address.

The work assigned to the Executive Council by the Convention, and the work that has been accomplished during the past year by said Council and its executive officer in reference to carrying on the work of organization, and other
matters incidental to its existence, is hereto added, feeling satisfied that the work performed has been of material benefit to organized labor throughout the State.

When it is remembered, that the conditions and obstacles that confronted us at the outset, and I refer particularly to that class of labor known as purely local organizations, having no national affiliations, and the opposition encountered by antagonistic organizations whose sole purpose was to advance the interest of a particular class of labor, the work of the Federation has been remarkable in the success which has attended its efforts.

The Secretary's report will show the organizations affiliated, and the receipts and expenditures during the past year, and I will not express myself in the matter other than to call attention to the Convention, that much needed work in the way of organization had to be necessarily abandoned owing to the lack of money to properly carry on the work. However, the means at hand enabled the Executive Council to do much good work in the way of organizing.

At the first quarterly meeting of the Executive Council held in the early part of the year, it was decided to send your President to the City of Stockton for the purpose of organizing a Central Labor Council in that city. After calling upon and addressing the various unions in that city, a meeting was held consisting of delegates from the unions then in existence, who came together for the purpose of forming a central body. The result is that the Federated Trades Council is an established fact, chartered from the American Federation of Labor. The central body of that city took up the work of organization, and asked the A. F. of L. to appoint Mr. A. R. Hopkins the organizer for that city. A large number of new unions have been formed, all of which took out charters from National or International Unions.
Later, in the latter part of July, your President was directed to proceed to Fresno and Bakersfield for the purpose of assisting in more thoroughly organizing those cities. It was found in both cities that a good start had already been made, and the unions of Fresno were particularly well in hand under the direction and guidance of Mr. F. S. Clark, organizer for that city. A difference, or rather a conflict was existing at that time between the Local of Carpenters in regard to the adoption of an 8-hour day. While your President claims no credit for the final adjustment of the difference, the troubles were amicably settled during his stay in that city. The following unions of that city applied for and were received as members of the California State Federation of Labor: Carpenters, Hod Carriers, Retail Clerks, Federated Trades.

In Bakersfield much the same condition prevailed as indicated in Fresno. The work of inducing affiliation with the State Federation, and final failure was due to the action of a self-constituted organization in San Francisco, known as the Building Trades Council, which did everything it could to prevent affiliation with this organization, and urged connection with the Building Trades Council of San Francisco, even going so far as to advise the formation of local unions without taking out charters from National bodies. This same state of affairs exists elsewhere about the State, especially in the large cities about the bay of San Francisco. This condition has no right to an existence and every effort to harmonize conflicting interests should be adopted. At the Convention of the American Federation of Labor, International unions were instructed to notify their respective locals to affiliate with local central bodies chartered from the American Federation of Labor. It is believed by the American Federation of Labor that the interest of the Building Trades can be just as well subserved, by forming a special section of
the local central body, and it is urged that such course be pursued.

During the coming year a large field for organizing work will be open, and the State Federation should prepare itself for this work by assisting the organizers of the American Federation of Labor and I recommend a State organizer be appointed or elected whose duty it shall be to organize or to assist in the organization of all classes of labor in all parts of the State, said organizer to be under the direction of the Executive Council, compensation for services to be allowed for actual time engaged and for traveling and hotel expenses only.

A very serious matter, involving as it did the whole water front of the City of San Francisco in a protracted strike, as well as the strike of the teamsters, butchers, cooks and waiters, machinists, and all the iron trades, was a blow struck at organized labor which had the effect of preventing the State Federation from advancing as rapidly as it otherwise would. It is not necessary to dwell upon these facts, as the conflict is too fresh in the minds of the delegates here assembled to need any further comment.

I am of the opinion that the revenue of the State Federation is too small and recommend a slight increase in the per capita tax, and would also urge that measures be adopted which will result in the creation of a large defense fund and suggest that a special levy be made for the creation of such fund, so that in case of emergency it will be available at short notice.

At the meeting of the Executive Council held in October owing to the disastrous strikes and internal dissensions that were jeopardizing all the unions of the State, it was decided that the State Federation should be represented in the twenty-first annual convention of the American Federation of Labor, to be held in Scranton, Pa., on the 5th day of December, 1901, and appointed your president as such representative. An appeal was made to affiliated unions to

-12-
assist by making special donations for the purpose of defray-
referentative. An appeal was made to affiliated unions to
assist by making special donations for the purpose of defray-
ing the expenses of the representativo. The ready response
and appropriation of the necessary amount of money clearly
demonstrated that the Labor organizations of the State felt
the necessity of being represented in that body, and the sum
of $249.50 was realized, which was ample to meet all neces-
sary expenses.

I have to report that the work of the Convention resulted
in much good to the wage earners generally, and to the
unions of the Pacific Coast in particular. The full proceed-
ings of that Convention will shortly appear, and it would be
too much to attempt to give a synopsis of the work here.

In concluding I desire to acknowledge my obligation to
the Executive Council and to the rank and file of organized
labor for their hearty support. The sincere desire on my
part has been to harmonize conflicting interests, either in-
ternal or outside, so that the wage earner could enjoy the
fullest benefits of organization.

The California State Federation of Labor has a great future
and I predict its influence and power will be a potent factor
in adjusting labor disputes.

Fraternally Yours,

C. D. ROGERS,
President California State Federation
of Labor.
Report of Secretary.

To the Officers and Delegates of the Second Annual Convention of the California State Federation of Labor.

Fellow Workmen:

Owing to the strike and lockouts during the past year, and the drain it has caused on the Treasuries of the Unions throughout the State, a great many Unions throughout the State have not been financially able to affiliate with the State Federation. I have sent out circulars at three different periods in January, July and December, inviting affiliation to all Unions unaffiliated with the Federation. A few have affiliated at each request; the only way the interests can be kept up is to have an organizer in the field at least four months in the year; by this method the Federation can be made effective and its work beneficial to the wage workers of this State.

Very few Unions have lapsed through non payment of their Per Capita tax. Three Unions have lapsed through going out of existence.
