C. E. Fiske of San Francisco seconded Benham, remaking that none of the slate makers dare approach his union, the San Francisco Typographical union No. 21, but he explained that in this case he favored Benham. The delegate may have been unhappy in his remarks, but he seemed to confess by implication that Benham was the slate candidate. L. B. Leavitt of Vallejo seconded Rosenberg, and after a few scattering seconds the nominations were declared closed.

REPORT OF PROCEEDINGS

FRESNO, CAL., January 4, 1904.

To the Officers and Members of the California State Federation of Labor:

LADIES AND GENTLEMEN: Your Committee on Credentials begs leave to report as follows:

We have examined the credentials of 130 delegates and found them correct. We recommend that they be seated.

Quite a number of delegates have not presented their credentials as yet. When presented, in proper form, we recommend they be seated.

The duplicate credentials of D. D. Sullivan of the Federated Trades of Sacramento are in the hands of the Secretary of the State Federation of Labor. The original having been misplaced, we recommend that he be seated.

George Stoper of the Stablemen's Union, No. 9026, of San Jose, has presented alternate credentials on the stationery of his organization, with seal attached. Hugh Hare, the delegate elected, not having presented his credentials, and we having been advised that he will not be present at this convention, we recommend the seating of Mr. Stoper.

Respectfully submitted,

J. B. DALE, Chairman.
C. P. WILSON,
H. N. COOK,
F. RUBY,

COMMUNICATIONS.

From Stockton Federated Trades Council, as follows:

To the California State Federation of Labor. Greeting:

On behalf of organized labor of our city, Stockton Federated Trades invites your convention to select as its next annual meeting place, the city of Stockton, California.

With over forty local unions working for the advancement of the wage-earners, having a membership of over twenty-three hundred, there is here the opportunity to meet with more diversified labor interests than in any other city of the interior.

Stockton is fast becoming a manufacturing city of importance; it is destined to become the stronghold of unionism in California; and a meeting here of wage-earners from all over the State could not help but prove mutually beneficial in a high degree.

Promising a most cordial welcome, courteous treatment and a solid phalanx of unionism, we ask you earnestly and sincerely to come to Stockton in 1905.

Fraternally,

A. L. Cowell, President.
M. W. M'Donald, Recording Secretary.
Communication placed on file.

From Samuel Gompers, President of the American Federation of Labor, as follows:

Washington, D. C., December 7, 1903.

Mr. George K. Smith, Secretary,
California State Federation, 378 Thirteenth St., Oakland, Cal.

Deaf Sir and Brother—The object of this letter is to ask that at the forthcoming convention of the State Federation of Labor, that the name of some
earnest, intelligent, thoroughgoing trade unionist be recommended to me, and I will be glad to issue commission to him as Special Organizer for the State of California.

With best wishes, I am

Fraternally yours,

SAMUEL GOMPERS,

President American Federation of Labor.

RESOLUTION No. 12.

Offered by J. N. Copus, Street Railway Employees, No. 205, San Francisco.

WHEREAS, it has been the established policy of the school boards of the large cities of California to place the date of closing the last half of the school term on the last Friday in May or the first Friday in June in order that the monied people may go early with their children to the seaside, and

WHEREAS, this policy deprives the children of poor parents of an opportunity to secure a vacation by going into the country and become self-supporting by picking fruit during the season, work that is otherwise done by Japanese and Chinese, because they are financially unable to pay the expense of a month or more in the country; and,

WHEREAS, in all of the smaller towns the school boards have remedied this wrong by abolishing the mid-term vacation of one week each and closing the schools on the last Friday in July and opening two months later to the end that the scholars with their mothers may go out in the orchards and make themselves self-supporting while enjoying the manifold beauties of California in the summer; and,

WHEREAS, while we are still opposed to child labor, few would engage in fruit picking under the union age limit, and all those so engaged would escape for a time from the dust, noise and evil influences of a large city; and at the same time recuperate from the fatigue of a hard school term; therefore, be it

Resolved, by the California State Federation of Labor, in convention assembled, January 4, 1904, that we most earnestly request that the different school boards in the State of California close the schools not earlier than the second Friday in July and reopen again two months later; and we earnestly request all affiliated bodies and the friendly press to take this subject up at once to the end that justice may be done the children of the poorer people of California, and white people, and not Japanese and Chinese pick the fruit crop of this beautiful State.

Not concurred in by the convention.

RESOLUTION No. 2.

Offered by Thomas Gilson, Federal Labor Union No. 8921, San Pedro.

Whereas, it has been the custom of certain corporations to provoke strikes and use their political influence to press the State and national troops into their service, in order to intimidate the workers into submission, and to establish a censored press, to keep the public misinformed, contrary to the letter and spirit of the laws and constitutions of the various States and the nation, therefore, be it

Resolved, by the State Federation of Labor of California, in convention assembled, in the year 1904, that we most emphatically protest against such methods in general and particularly as witnessed in the labor troubles in the State of Colorado, and condemn such practices as being inhuman and barbarous, and that we regard the actions of the authorities as a disgrace to American civilization.

Adopted.

RESOLUTION No. 4.

Offered by Thomas Gilson, Federal Labor Union, No. 8921, San Pedro.

Whereas, it has been the practice of American merchants to send cloth, leather and other material to foreign countries to be made into articles of wearing apparel, etc., and returning them to this country free of duty, by the use of the bonding privilege, therefore be it

Resolved, by the State Federation of Labor of California, in convention assembled, that we protest against such methods, and recommend the passage of a law to protect the importation of such goods without paying the same duties as other foreign goods.

RESOLUTION No. 6.

Offered by A. M. Thompson, Stablemen's Union, No. 9026, San Jose.

Whereas, it has been represented to this convention of the State Federation of Labor that San Francisco Stablemen's Union No. 8760 has refused to recognize properly authenticated withdrawal cards from other Stablemen's Unions, unless upon payment of the difference between the initiation fee of such other unions and said San Francisco Stablemen's Union, and

Whereas, it is a provision of the Constitution of the American Federation of Labor that upon presentation of a properly authenticated withdrawal card from any union, all other unions shall recognize the same, and shall forthwith admit the holder of such withdrawal card to all the rights and privileges of the union to which the same is presented, and

Whereas, apart from the specific constitutional provision above referred to it is one of the cardinal principles of Unionism that members of Unions in good
standing, and who present withdrawal cards properly authenticated, should be accorded all of the rights and privileges of Unions to which such withdrawal card may be presented.

Now, therefore, be it

Resolved, (1) That the State Federation of Labor hereby enacts and re-affirms such constitutional provision, and hereby declares that any member of a Stablemen's Union presenting a withdrawal card properly authenticated to another Stablemen's Union, shall be accorded all the rights and privileges of such Union to which said card is presented, without the payment of any additional initiation fee, and without any other condition or limitation whatsoever;

Resolved, (2) That a copy of this resolution be transmitted to all subordinate unions of this State.

A. M. THOMPSON.

Secretary Stablemen's Union, No. 9026, of San Jose, Cal.

Recommendation to amend Resolution No. 6, to read as follows:

That any member of Stablemen's craft presenting withdrawal card to another union of the same craft, must have been a member of same in good standing for at least six months.

Moved and seconded that the recommendation of the committee be adopted. Carried.

RESOLUTION No. 9.

WHEREAS, what is known as the "Employers' Liability Law" is and has been for years woefully defective so far as the protection of employees from injury and the collection of damages therefor, the foreman on the work being regarded by the courts as a fellow-servant, for whose acts and orders the employer is not held responsible, resulting in a condition under which the worker has the option of going into a place known to be dangerous, or of staying out and losing his job, therefore, be it

Resolved, That the Committee on Law and Legislation be instructed to formulate a bill to be introduced to the convention to overcome the defects in the present statutes on that subject.

Act to amend Section 1970 of the Civil Code, relating to the liability of employers for injury or damage sustained by employees.

The People of the State of California represented in Senate and Assembly, do enact as follows:

Section 1970—Every corporation, firm or person doing business in this State shall be liable for all damages done to any employee of such corporation, firm or person in consequence of any negligence of agents or representatives, or in consequence of the negligence or mismanagement of any person placed in authority
to direct the actions and work to be performed by employes or in consequence of the negligence or mismanagement of their employes, to any person sustaining such damage, or his legal representatives.

SECTION 2. This act shall take effect immediately.

Your Committee on Law and Legislation beg leave to report on Resolution No. 9 as follows:

For the benefit of the delegates present we report that the Employers' Liability bill, approved by this Federation last year, was passed by the Legislature and is now a law on our statute books. In looking over the files of bills introduced in the last legislature, your committee found one that failed to pass. As in the opinion of your committee this latter bill is much better than the one that is now a law a copy is hereto attached and we recommend that this convention approve of it.

Concurred in.

P. B. Preble, Chairman.

Resolved, by the State Federation of Labor of California, in convention assembled, that the Secretary-Treasurer be instructed to prepare printed copies of all of the bills approved by this convention, at its present session, not later than March 1st, together with printed ballots suitable for a referendum vote on each bill, a sufficient number to be mailed to each affiliated local and central body, with an urgent request that the same be carefully considered and a ballot taken thereon not later than May 1st, and certified returns of the result of the ballots be mailed to headquarters not later than May 10. It shall be the duty of the Executive Board to canvass such returns at a regular or special meeting, not later than May 20th, and announce the result to the press. The Secretary-Treasurer shall then prepare ballots for voting on all of the measures that have been approved by the referendum vote of the various bodies, and mail to the respective secretaries sufficient copies for submission to all candidates for all offices, including delegates to conventions and all who have to do with the enactment and enforcement of law, asking them to indicate their position on each and every subject enumerated therein. The secretaries shall be requested to post such answers, as well as the name of all candidates who refuse or neglect to comply with such request, in a conspicuous place in their respective halls until after the day of election. The members shall be requested to use all honorable means within their power, to defeat any and all candidates who give an unfavorable or evasive reply or candidates whom they have reason to believe would not favor such measures to the best of their ability.

The following is the communication referred to:

DEVER, Col., October 26, 1903.

To the Officers and Members of the California State Federation of Labor,

Fresno, Cal.—

GREETING:—Some twelve months ago we mailed your organization a communication, calling your attention to a proposed convention of State Federations of Labor, to be called for the purpose of discussing, and if possible, adopting a system of labor organization, through State organizations, to be conducted along lines similar to that of the United States Government. This matter was taken up at the seventh annual convention of the Colorado State Federation of Labor, "at Trinidad, June, 1902," with the result that the officers were instructed to correspond with the various State Federations of Labor, setting forth our purpose in calling the convention and getting their opinion, counsel and advice thereon.

The report of the officers (of this matter) at the eighth annual convention of the Colorado State Federation of Labor held September last in Canyon City, decided the convention in ordering its officers to call a convention of State Federations to assemble in the city of Denver, Colorado, on Monday, January 11, 1904.

You are therefore advised that a convention, composed of officers of State Federations of Labor and similar organizations, will be held in the city of Denver, Col., on Monday, January 11, 1904, and continue in session from day to day for the consideration of such matters that may properly come before it in accordance with this call.

Representation in the convention will consist of one or more officers of State Federations of Labor or similar organizations; (who have been duly elected or appointed to represent their organization) in this convention; delegates shall secure
credentials over the seal of their organization, showing their authority to act as delegates together with name of "local union" the delegate is a member of.

Industrial conditions are rapidly changing in all parts of our country; employers are uniting their forces, by joining powerful organizations, whose purpose is to defeat the aims of organized labor, and retard its onward march to the goal of "Justice."

If our unions throughout the land are to successfully cope with the new industrial conditions that confront us it is apparent that some method of organization should be adopted, so that organized labor's forces can be united to be better able to counteract this new organized opposition that is appearing throughout the land.

Organized labor's greatest weakness as at present constituted, lies in the fact that although the rank and file will number in the millions, they are scattered over a vast territory and composed of various affiliations, with lack of proper system that would make it possible to unite this vast army for mutual support, or protection, when occasion arises, without delays that mean discouragement, and often defeat to the unions involved.

Many attempts on the part of organized labor to better, or even retain their (then present) industrial conditions in recent years, have met with defeat, where if it had been possible to bring to their support, without unnecessary delay, the united strength of the unions of our land, instead of defeat, victory would have crowned their efforts, and thereby lightening the burdens of the toilers of the land.

The conditions of the wage-earners vary in different localities, and the fact is self-evident that the unions are more familiar with the conditions and needs in their own particular locality, and would therefore be better able to advance their interests, and that of organized labor in general, if given authority to manage their affairs locally, through their State organization, with the assurance that when necessary they would receive the support of neighboring states or of all the states of the Union, if required.

Briefly, then, the purpose is to adopt a system of labor organization through State Federations, making the state organization supreme in the state while governed by certain national laws covering all the states, and doing mutual business through a National Executive Board, similar in scope and jurisdiction to the United States Congress; this board to be the final court of appeal, with the possible exception of the referendum at the hands of the rank and file of all our organizations.

This system, if adopted, would in no way interfere with the affiliations of unions, either national or international, but, on the contrary, would be of vast assistance to locals of national craft affiliations, for in addition to the support they would receive from their own particular organization, they would receive the support of unions of various affiliations connected with the state organizations, who are on the ground, and therefore better able to assist, especially in a moral way, which is quite often of greater value toward bringing about favorable results than financial assistance.

The proposed system of organization could in many ways assist in advancing union labor's interests, that could not be possible under our present system, all of which will no doubt be brought up and discussed at the convention.
We are very desirous of having your organization represented at the convention, for, if you favor the proposition, you should take part in the deliberations of this assemblage, and assist in shaping its course on the era of industrial strife. If, on the other hand, you do not approve of this proposed system, we believe it to be your duty to organized labor to be present and show us a better system, or a better way. Kindly inform us, as early as possible, the number of delegates, together with their names and official position, your organization will send to this convention.

Hoping that in the interest of the labor movement, you will see the necessity of being represented in this convention, we are,

Fraternally yours,

JOHN C. SULLIVAN,
President Colorado State Federation of Labor.

HARRY B. WATERS,
Secretary-Treasurer.

N. B.—For further information, address H. B. Waters, Secretary-Treasurer, 504 Mining Exchange Building, Denver, Col., or P. O. Box 1408.

Referred to convention.

REPORT OF COMMITTEE ON OFFICERS’ REPORT.

FRESNO, CAL., Jan. 5, 1904.

To the Officers and Delegates of the California State Federation of Labor—

SISTERS AND BROTHERS: Your Committee on “Reports of Officers” beg leave to report as follows:

We have examined the reports of all the officers and find them to be excellent and complete in every particular.

Believing the recommendations of the Council to be timely and for the best interests of organized labor, we recommend that they be adopted. The accounts of the Secretary-Treasurer are accurately and well kept. The small amount of cash expended, and the great good derived therefrom speaks only too plainly of the efforts and zeal of our officers. Your committee also desires to call the attention of the convention to the excellent work performed by your Organizer, in the number of unions organized and affiliated through his efforts. Your committee also recommends that the recommendations of your Organizer be concurred in, and that some positive action be taken by this convention relative to his statements concerning Employment Bureaus and the protection of workers in mills and factories, from dust arising from minerals, such as cement, during the manufacture of the same.

Respectfully submitted,

P. E. TANNER,
J. P. B. JONES,
JAMES J. FOX,
O. W. McCASLIN,
A. W. JONES,
Secretary of Committee.

State Federation of Labor, Fresno

C. F. CURRY.

SECRETARY GEO. K. SMITH,
State Federation of Labor, Fresno:

Jos. STEFFENS,

SECRETARY GEO. K. SMITH,

Roll call for place of convention.
CALIFORNIA STATE FEDERATION OF LABOR

The President: I declare that Sacramento be the next meeting place of the convention.

Delegate Cowell, of Stockton, moved the vote be made unanimous for Sacramento.

Carried.

It was resolved, on motion duly seconded, to donate $150 from the treasury to the Colorado striking miners, and that an appeal be made to the various Unions throughout California to aid the fight now going on in Colorado.

The report of Label and Boycott Committee was read as follows:

FRESNO, CAL., JANUARY 7TH, 1904.

TO THE CALIFORNIA STATE FEDERATION OF LABOR, IN CONVENTION ASSEMBLED:

SISTERS AND BROTHERS:—Your Committee on Label and Boycott, the matter of Woman's Union Label League, has been brought up before this convention at various times. A demand for the Union Label will go a long way toward the solution of the Labor problem. A demand for the Label will create a supply. The amount of work done by the Leagues of Los Angeles and Fresno stands as a proof of what women can do for Organized Labor; therefore, we again urge upon the delegates present to agitate the Label and do all they can towards organizing Leagues in their home towns so that the women of their households may be made to understand that when buying non-union goods they are encouraging the sweat shops, encouraging the employment of little children, encouraging long hours and virtually employing labor which is opposing that which is near and dear to the heart of every Union man and woman.
We also recommend the thorough agitation of calling for the Clerks’ Card in stores, whenever making purchases.

We further recommend that the Organizer of the International Woman’s Label League, whenever it becomes necessary for the actual need of finances for the express purpose of benefitting the Label League shall apply to the Executive Council of this Federation for relief, and if such council find it necessary that such relief shall be granted.

We further recommend that every Union under the jurisdiction of the California State Federation of Labor, having found it necessary to levy a boycott against any unfair firm, corporation or individual first obtain the consent of the Central Labor Body under whose jurisdiction it is operated.

Respectfully submitted,

J. H. HUBACHEK, Chairman,
MRS. A. L. SMITH,
M. LEADER,
WM. MURPHY,
MRS. FLORENCE HAINES, Sec.

Delegate Drake, of Los Angeles, offered an amendment that the report be made to read: “A demand for the Union Label will go a long way toward the solution of the Labor problem.” The amendment and the following substitute for paragraph three was adopted by the convention: “We further recommend that the Organizer of the International Woman’s League, whenever it becomes necessary for the actual need of finances for the expressed purposes of benefitting the Label Leagues, shall apply to the Executive Council of this Federation for relief.

The report of Resolution Committee was declared in order.

RESOLUTION No. 1

Offered by Al Smith, Painters’ Union, No. 267, Los Angeles.

Resolved, that the California State Federation of Labor, in annual convention assembled, hereby recommends to each of the affiliated Unions that a general
movement for a Saturday half-holiday through California be inaugurated at once where practicable.

Adopted.

**RESOLUTION No. 5.**

Offered by Alex. Kane, Federal Labor Union, No. 8921, San Pedro.

WHEREAS, It is a well recognized principle of Organized Labor that the enormous advance of improved machinery and modern methods of production can only be successfully met by the co-operation of the working class and the shortening of the working day, therefore be it

Resolved, that we use our utmost endeavor in local, state and national legislative bodies, toward the end that the hours of work per day shall conform to the ratio existing between the working population and the amount of work to be performed, so that all persons who wish may at all times have the opportunity to toil, and furthermore that we maintain our activity along this line until each worker shall receive the full product of his labor.

Tabled.

**RESOLUTION No. 15.**

Offered by Chas. A. Meinert and Wm. Murphy, Sugar Workers' Union, No. 10,519, San Francisco.

WHEREAS, We, the Sugar Workers of San Francisco, have for our own mutual protection and advancement and for the welfare of Organized Labor in general banded ourselves together by the sacred ties of Unionism into one body of workers and are now known as Sugar Workers' Union, No. 10,519 of San Francisco, and,

WHEREAS, By so doing we have bettered our own condition morally, educationally and financially, thereby benefitting Organized Labor in general by our moral and financial support, and

WHEREAS, There are several hundreds, perhaps thousands of our fellow-craftsmen all over this State willing to grasp at organization which may tend to better their condition, especially in the following establishments which are entirely unorganized and to whom to our knowledge the blessings of organization have never been held out or the benefits resulting therefrom fully explained or presented before them: There are the Chino Valley Sugar Company's Works, the Los Alimitos Sugar House, the Santa Maria Sugar House, the large Oxnard establishment, the Sugar House at Alvarado and others where several thousands of first-class workmen are employed for several months each year, receiving for their services twenty or twenty-five per cent less than that to which we, by organizing, have raised ourselves, and,

WHEREAS, Our State Organization has so far taken no action to improve their condition by circulating organization amongst them; therefore, be it
Resolved, that the California State Federation of Labor in fourth annual convention assembled adopt measures tending to foster and promote organization among the Sugar Workers of California; and, further
Resolved, that it be a special instruction given from California State Federation of Labor in fourth annual convention assembled, to State Organizer-elect of said convention to proceed to establishments mentioned on their resumption of business, and make every effort in his power to organize the employes working therein.

Concurred in and adopted.

RESOLUTION No. 18.

Offered by O. W. McCaslin, Hospital Employes' Union, No. 10,038, of Napa.

WHEREAS, Within the past two years Organized Labor has, in many trades and occupations, secured a great increase in wages and a material reduction in hours of labor; and,
WHEREAS, Such a degree of sudden success has a tendency to stimulate the anticipations and expectations of wage-earners to an extent in advance of public opinion; realizing the great weight of public opinion, whether right or wrong; be it
Resolved, that it is the sense of the California State Federation of Labor in convention assembled, that Organized Labor should be conservative in all of its demands, and should bear constantly in mind that time and education are essential factors in the accomplishment of all permanent means of human forethought. We believe that Organized Labor should refrain from making such demands (even though just, but in advance of the great public pulse), as will have a tendency to retard the ultimate triumph of the greatest principle of Trades Unionism, namely, that the laborer is entitled to the whole product of his own labor. And further, that all demands, propositions or requests of Organized Labor should bear the marks of conservatism, honor, fairness and justice; and be it further
Resolved, that it is the duty of each member of a trades organization to render to the employer the very best service possible; that good, competent and faithful service is an essential principle of Unionism; and that any one who refuses or neglects to render the best possible service, but relies on his Union to retain him in his position is not carrying out the principles by which we may gain success.

Defeated.

RESOLUTION No. 19.

(Substituted for No. 21.)

Offered by O. W. McCaslin, Hospital Employes' Union, No. 10038, of Napa.

WHEREAS, For some time past there has been several strikes of Organized Labor in both the gold and coal mines of Colorado, wherein the very existence
of the Labor Unions have been at stake, and great forces of the oppressive element of capital have been arrayed against the Union Labor organizations of that State; and,

Whereas, In said struggle between the poor workers and the rich capitalists the Governor of the State of Colorado has ordered out the State Militia and has used it for the sole purpose of persecuting and oppressing Organized Labor; and,

Whereas, Said Governor has declared martial law for the purpose of depriving members of Organized Labor of the right of habeas corpus and has used all the power of his high office to oppress, intimidate and, if possible, exterminate Organized Labor; therefore, be it

Resolved, that the California State Federation of Labor in convention assembled does hereby condemn and denounce the actions of Governor Peabody of Colorado as unjust, anarchistic and in open rebellion against the laws of a free country, and entitled to be classed with the tyrannical atrocities of the dark ages.

Committee recommend that it be concurred in.

RESOLUTION No. 26.

Resolved, That this convention recommends that in places where there are two or more unions of unskilled laborers, that they affiliate with each other and use an interchangeable card.

Adopted.

RESOLUTION No. 28.

Offered by T. J. Denahey, Pile Drivers and Bridge Builders' Union, No. 9078, San Francisco.

Whereas, An attempt is being made to disrupt the Actors' National Protective Union of America, especially Local No. 3, of San Francisco, Cal., and

RESOLUTION No. 32.

Offered by J. B. Dale, Trades and Labor Council, Vallejo.

WHEREAS, It is the duty of union men to support all institutions, public or private, that by their acts give to labor the maximum of pay for the minimum of hours; and

WHEREAS, In the matter of the construction of our naval vessels, labor receives better consideration from the Government than that given by private yards; and

WHEREAS, It has been demonstrated that work is and can be done better in navy yards than in private yards, as shown by the results both in workmanship and economy, in the case of the Transport Grant, recently converted into a deep-sea dredger at the Mare Island Yard, be it

Resolved, That we renew our demand that the Government, in all its branches, enter into direct construction; and
Resolved, That we especially demand that the capacity of Government yards be used to the utmost for construction work; that not alone may labor be benefited, but that the ships which go out to sea may be honestly and well built and free from such weaknesses as are the result of poor work, so placed that the profits therefrom is the greater to the contractor; and

Resolved, That we declare ourselves as favorable to ship construction in the navy yards belonging to the Government, and we earnestly ask Congress to so act that in the future naval vessels shall be built therein, thereby adding to the capital and dignity of labor.

Adopted.

CALIFORNIA STATE FEDERATION OF LABOR

RESOLUTION No. 33.

Offered by Edward Rosenberg, Sailors' Union of the Pacific, San Francisco.

WHEREAS, Mongolian and other Asiatic cheap labor is a detriment not only to the American workers, but to the nation as a whole; and

WHEREAS, Strenuous efforts are being made in the Philippine Islands by nearly all of the representatives of European capital and by some representatives of American capital, to open these islands to Chinese coolie labor, which must inevitably lead, not only to the lowering of the already small wages of the Filipino workers, but ultimately to the crowding out of the native workmen and native business men by Chinese; and

WHEREAS, In the Hawaiian Islands, out of a population of about 160,000, there are 70,000 Japanese, 25,000 Chinese, and of late Koreans, who are Chinese in physical characteristics and customs, are being brought into these islands, where there is already a large surplus of Mongolian labor, which is gradually finding its way to the mainland of the United States, especially to the Pacific Coast States, the Hawaiian Islands being thus used as a bridge to bring cheap Mongolian labor into the United States; and

WHEREAS, Chinese and Japanese, especially the latter, are rapidly driving to destitution and extinction the native Hawaiians and driving out of the islands the few white mechanics, the few small white settlers and the few small white business men, leaving the islands in full control of the Hawaiian Sugar Planters' Association, a concern controlled by a few men of great wealth; and

WHEREAS, The census of 1900 shows that the Japanese population of the United States, exclusive of the Japanese in the Philippine and Hawaiian Islands, has grown from 2039 in 1890 to 24,326 in 1900, of which number 22,000 were located in the States of California, Washington, Oregon, Montana and Idaho, where their disastrous competition in many callings has inflicted great injury on the American workers, especially since 1900 their numbers in these States have steadily increased; and

WHEREAS, Increased machine production in Japan is displacing in large and larger numbers hand labor, which hand labor, in the overcrowded condition of that country, where forty-five millions of persons are situated in 148,742 square miles, only 11 per cent of which is areable land, is eager to emigrate and willing to work at any wages, in Japan now wages of laborers being 18 cents per day and of mechanics from 20 to 50 cents per day; and

WHEREAS, The Japanese, by adopting our forms of dress only outwardly conform to the Western standard of civilization, in their customs and morals remaining essentially Japanese; that is, men of a lower standard of morals, of a lower standard of wages, men of a race that has never assimilated with the Caucasians, but which race has always pulled down, and pulled down irresistibly, the men of the Caucasian race that have been forced into contact with men of the Mongolian race; therefore, be it

Resolved, By the California State Federation of Labor, in convention assembled at Fresno, Cal., January 5, 1904, that it deems it absolutely necessary for the preservation and advancement of the interests of the American workers and of the natives of the Philippine and Hawaiian Islands, that the Chinese Exclusion
Act be made to apply to Japanese and Koreans and other Asiatic Mongolian labor; also that the present Chinese Exclusion Act continue in force in the Philippine and Hawaiian Islands; and further

Resolved, That the incoming Executive Council take active and immediate steps to agitate for the passage of a law by Congress embracing the spirit of these resolutions.

EVENING SESSION.

Convention called to order at 7:30. President John Davidson in the chair.

Delegate Drake, Los Angeles: "It gives me pleasure to announce that Smith Bros., of the city of Fresno, have announced their intention, upon being so requested by the committee, to discontinue advertising in the Los Angeles Times."

The following was read by the Secretary as a further report of the Laws and Constitution Committee:

A favorable report was received by the committee, the convention concurring.

The following amendment to Article IV, Section 1, Constitution; was offered by G. B. Benham, San Francisco Labor Council:

ARTICLE IV.—OFFICERS AND ELECTIONS.

SECTION 1. The regular officers of the Federation shall consist of a President, a Secretary-Treasurer, five Vice-Presidents, and a State Organizer.

Every regular officer shall be elected by a majority of all votes cast. Where there are more than two candidates for an office, the candidate receiving the lowest vote shall retire after each ballot.

Nominations for all regular officers shall be made on the second day of the convention. The election of all regular officers shall be held on the third day of the convention and shall be by ballot. The ballots shall be printed with a blank following the name of each candidate; the blank shall be of sufficient size for the placing thereon of the number of votes to which the voting delegate is entitled. At the top of each ballot shall be left a blank in which shall be written the name of the labor organization which the delegate represents, and another blank in which shall be written the name of the delegate who votes the ballot.

The election shall be in charge of an Election Board of twelve delegates, none of which shall be candidates at the election at which they serve.

The Election Board shall be appointed by the President previous to nominations on the second day of the convention.

There shall not be more than one member of the Election Board from one city or town, or from any one labor organization.
The Election Board shall consist of three Supervisors and nine Tally Clerks. The Supervisors shall prepare a sufficient number of ballots (which shall be numbered consecutively, beginning with No. 1), and issue them on roll call to delegates not later than 10 a. m. on the day of election. The Supervisors shall provide a proper receptacle into which (not later than 11 a. m. on election day) the delegates shall cast their ballots. The Supervisors shall, previous to 10 a. m. of the day of election, provide proper booths in which the delegates shall prepare their ballots.

The nine Tally Clerks shall divide themselves into three equal groups. After the ballots are cast and total number ascertained, the Supervisors shall divide the ballots into three parts as nearly equal as possible, giving each group of the Tally Clerks one portion. After the counting and totaling of votes for all candidates the Tally Clerks shall return tally sheets, in duplicate, with all ballots, to the Supervisors. After the returns are in, a tabulated sheet in duplicate (containing the result of the election) shall be prepared and submitted to the convention.

A ballot shall be rejected if it is so mutilated or disfigured as to be considered invalid by three-fourths of the Election Board. No change in any vote or ballot shall be made by any one after the ballot is in the custody of the election officers.

The following proposed amendment was read, and upon motion made and seconded was laid on the table

Offered by Z. W. Craig by instruction of Southern California delegation.

Proposed amendment to Constitution to be known as section 7, article VIII.

The State shall be annually divided by the Executive Council prior to each convention as nearly equal as may be possible, according to the voting strength of the affiliated unions, as shown by the books of the Federation and each district shall be entitled to representation in the Executive Council.

Laid on the table.

Offered by F. C. Wheeler, Carpenters' Union, No. 332, Los Angeles.

Amendment to Constitution, by adding a new article.

The unions affiliated with this body may elect a delegate to the convention of the American Federation of Labor in the following manner: Any union, three months prior to the convening of the American Federation of Labor convention may place in nomination the name of any member qualified to act as a delegate, and submit the same to the Secretary of the State Federation. Any and all names thus submitted shall be sent to all affiliated unions to be voted on. Should no candidate, on the first ballot, receive a majority of all votes cast, all names save the three highest shall be dropped, and on the second ballot the person receiving the highest vote shall be declared elected. The delegate shall receive his expenses and $4.00 per day for his time as delegate. The list of names must be sent out 90 days before the convening of the convention, and 30 days' time be allowed to make returns. If a second ballot is necessary, the Secretary shall send out another referendum to be returned within the following 30 days. The returns to be counted by the President, Secretary and First Vice-President.

Recommended by Committee. Lost.

Offered by C. D. Rogers, Oakland Typographical Union, No. 36.

WHEREAS, The sessions of the State Federation of Labor, coming as they do immediately following the holidays, and also in the midst of the rainy season, it is believed that a date either earlier or later in the season be fixed as the date of the holding of the convention of this body.

Also, inasmuch as the Legislature convenes in January of every other year an earlier date would be more advantageous to organized labor, so that sufficient time may be given to prepare any measure that might be desired to be acted upon by the Legislature; therefore, be it

Resolved, That the meetings of the California State Federation of Labor be held on the first Monday in October of each year, beginning on Monday, October 3rd, 1904.

The Law and Legislative Committee recommends the endorsement of resolution No. 44.

Delegate Fisk, San Francisco, asked for unanimous consent of the convention for the purpose of introducing a resolution to the effect that the California State Federation of Labor re-indorses Assembly Bill No. 585, providing for the placing of air brakes and other safety appliances on street cars.

Delegate Drake, Los Angeles, moved that this convention instruct the Executive Council to have prepared a suitable testimonial to the outgoing officers, as an expression of good will for their services.
Carried.

Moved that two copies of the proceedings of this convention be sent to all unions and one ot each delegate.
Carried.

Amended, also the same number of Constitutions.
Carried.

Moved that we send $150 to the striking butchers of Los Angeles. Amended that the amount be made $100.
Carried.

Nominations for Delegate to the American Federation of Labor being declared in order, the names of G. S. Brower of Fresno, and Jno. Davidson of Vallejo, were placed before the convention. Mr. Brower declining, Mr. Davidson was declared the unanimous choice of the convention, the Secretary casting the ballot.

It was ordered that it be left to the Executive Council to determine upon an amount to be appropriated for the expenses of Delegate Davidson.

Moved and carried that roll call votes be included in the report of proceedings.

Moved and carried that usual compensation be given stenographer, reading clerk and assistant secretaries.

Matter of Selinger difficulty with Ladies' Label League of Fresno left to Fresno Labor Council.

Delegate Fisk, San Francisco Typographical Union, No. 21, moved vote of thanks of the convention to members of reception committee Fresno Labor Council, the citizens of Fresno, and to the press, for the liberal manner in which we have
been entertained and for the splendid way in which the press of Fresno has handled the report of the convention.

Carried.

President Davidson spoke as follows:

I desire to thank the officers and members of this convention for the courteous treatment that has been granted to me. I can assure you that I will remember both of the conventions of the State Federation of Labor over which I have presided. At the convention at Los Angeles I did not have an opportunity to thank the delegates for the kindness accorded me. I desire to thank you again. Also the Reception Committee and the citizens of Fresno for the kind treatment they have given me and also the old Executive Board on which I served for one year.

Secretary Smith thanked the convention and its officers for the manner in which he had been treated during his term of office.

On motion, duly made and seconded, the convention adjourned to meet at 9 a.m., on the first Monday in January, 1905, at Sacramento, California.
Executive Council's Report.

To Officers and Delegates of the Fourth Annual Convention.

Brothers and Sisters: Your President and Executive Council have the honor to report the following as their work for the past year:

On January 25th we held our first meeting at 927 Market street and audited former Secretary-Treasurer Lathrop's books and found his accounts correct and the money on hand, amounting to $613.83, was turned over to G. K. Smith, your present Secretary-Treasurer.

After considering our finances we concluded to authorize Organizer F. C. Wheeler to work six weeks in organizing and affiliating unions. While he was carrying out his instructions we received a communication from President Gompers of the A. F. of L. asking us to recommend an organizer for them for Southern California for six months. We concluded Bro. Wheeler could accept the appointment to the advantage of the State Federation, so we recommended him and he received the appointment and the results proved good for the State Federation.

After the expiration of his commission for the A. F. of L. we were in better financial condition and he was ordered to San Francisco to affiliate unions in this vicinity and we are pleased to say the results were excellent, as both our treasury and membership prove.

At a meeting held on May 3d a committee from the Hospital Attendants' Union at Glen Ellen appeared before the Council and stated that the Trustees of the Home for the Feeble Minded at that place had passed the following resolution: "Resolved, That this Board looks with disfavor upon the organization of a Union among the employes of the Home and that it requests the employes to refrain from participation in any such Union." And as their Union was not affil-
iated w’th any central body, they asked the Council to appoint a committee to wait upon the Trustees and protest against such injustice.

After due consideration we came to the conclusion that if we did not take up their case that perhaps the other institution of a similar character, which is also organized, would take the same action as the Glen Ellen board. So President Davidson and First Vice Knox were selected as a committee to go before the Trustees and see if the case could not be adjusted.

But before the committee could arrange a meeting the board passed and carried out the following resolution:

**Resolutions Adopted by Trustees of Glen Ellen Home for Feeble Minded.**

Resolved, That this Board recommends to the Superintendent that he request the resignation of Messrs. Chris. Larsen, H. L. Jackson, L. C. Johnson, J. D. Sullivan, Miss A. M. Walker, Mrs. N. E. Frame and Mrs. M. B. Dake, and that upon the refusal of any one of them to tender such resignation such person be discharged on the ground that he or she is guilty of inciting insubordination and dissatisfaction among the employes.

That in making this recommendation this Board recognizes the efficiency of the persons named in the positions which they have respectively held, but is actuated solely by the belief that the Home cannot succeed with the want of harmony now existing.

The committee then had a meeting with the Trustees and protested against their action and asked that the persons dismissed be re-instated, and we notified them that they were violating a State law by passing such resolutions trying to keep employes from joining any union. They rescinded the former resolutions but refused to re-instate or give the former employes a hearing. The committee then waited on Governor Pardee and stated the case and asked him to get a hearing for the dismissed employes, and he said “if he found that the attendants had been discharged for insubordination he would advise the board to give them a hearing.” But you will see by the following letters that he is an “artist” at “sidestepping”: 
Letter from Governor Pardee.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
Sacramento, Sept. 4, 1903.

MR. JOHN DAVIDSON, 801 Louisiana Street, Vallejo, Cal. Dear Sir:

Referring to the request, under date of June 22nd, which you, as President of the State Federation of Labor, and Harry Knox, as Vice-President of the same, made to me to take action on a petition, enclosed therewith, from Messrs. J. D. Sullivan and H. L. Jackson and Mrs. M. E. Frame, in which petition they request me to secure for them an "open public investigation" as to the reasons for their discharge from the Home for Feeble Minded, permit me to say that, owing to absence from Sacramento and press of public business, I have been unable until now to give the matter the attention necessary in order that I might speak intelligently upon it. Having looked into the matter quite fully, I am of the opinion that a public investigation of the matter would not be of any benefit either to the petitioners or the institution. It appears from the record as submitted by the petitioners that their resignations were not asked for or their discharge compelled because, as they claim, they were members of any organization. Not only does the record show this, but I am assured that such was the case by those having the matter in charge. The explanation made is that the petitioners were discharged "for the good of the service," and for no other reason; and the action was taken only after long-continued and careful investigation and consideration.

Mr. Sullivan lost his place, as the records show and those who know say, simply because the Lunacy Commission decided that it was not necessary to employ a mason at $100 per month, and for no other reason. Since his discharge Mr. Sullivan has been, I am informed, given several jobs of work about the Home and is now laying a cement floor there.

From all that I can learn about the matter, I am, therefore, of the opinion that it would benefit no one to reopen the case of the petitioners, but that its reopening could only lead to trouble for them and the institution.

Very truly yours,

GEO. C. PARDEE.

On October 4th a committee from the Union again waited upon the Council and asked us to make one more effort with the Trustees which had by the law passed by the last legislature been placed under the Lunacy Commission. The Council then decided to try them once more and the committee again waited upon the board, with the result that we secured all we asked for the Union.

The Council was requested to take up the dispute between-
the Fresno Trades and Labor Council and the Brewery Workmen. A committee consisting of Second Vice Warnecke and Fifth Vice Lonergan was appointed to look after the case and after getting all the evidence possible from both sides the committee reported that they were unable to settle the dispute satisfactorily to either side, as we had no power to enforce any decision we thought proper. But they advised both sides what course they believed was right.

Fort Bragg Federal Union No. 10,917 sent a request for advice and financial aid to help in their struggle for better conditions. The Council advised to the best of their ability and donated $100.00 from the funds of the Federation and sent an appeal to all affiliated unions, and while quite a sum of money was received, still, the response for aid was not as great as should have been, and we hope that in future unions will respond more liberally.

A request from the Pipe and Tank Makers' Union, No. 167, that the Federation assist them in their fight against the shipping of scabs from place to place without the agent telling them a strike was on—which we believe to be a violation of the State law—and in order that the law might be tested the Council decided to place $125.00 at the disposal of Bro. L. Biddle, of Los Angeles County Council of Labor, to help defray the legal expenses, and he was instructed to notify us if more money was needed. But the Pipe and Tank Makers decided to drop the case. So the money was voted back into the treasury.

Actors' Union No 3 of San Francisco requested that the managers of theatres throughout the State be notified that they are a regular organized body and affiliated with the State Federation. The Council ordered President Davidson and Secretary-Treasurer Smith to take the proper steps to comply with their request, which they did, and it resulted in doing a great deal of good to the Actors' Union.

Secretary-Treasurer Smith was ordered to go to Black Diamond and see if the condition was favorable to organize the lumbermen at that place. He reported that in his opinion it would not be wise to attempt to organize them at present.

A resolution drawn up and endorsed by the Los Angeles
Council of Labor at a regular meeting, advocating the organization of the Mexican and Japanese laborers in that locality was received, and after your Council had carefully read the A. F. of L. Constitution and finding that we had no right under it to deny our sanction, it was endorsed and sent to the Executive Board of the A. F. of L. to act on as they saw fit.

Your Council makes the following recommendations:

First. That the Convention incorporate in its Constitution that the members of this Council shall attend the Convention to which they are responsible for the year's work, and that their pay be the same as when on committee work.

Second. That the Secretary-Treasurer be instructed to get all printing done that is not absolutely necessary for the use of the Convention at Federation headquarters.

Third. That when a union withdraws after a convention and wishes to affiliate prior to the next convention, that said union be compelled to pay all back dues the same as though it had not withdrawn. Fraternally submitted,

John Davidson, President.
Harry A. Knox, First Vice.
Henry Warnecke, Second Vice.
Z. W. Craig, Third Vice.
John Conroy, Fourth Vice.
Thos. F. Longeran, Fifth Vice.
GEO. K. SMITH, Sec.-Treas.

Additional Correspondence in Glen Ellen Matter.

Executive Department, State of California,
Sacramento, April 20, 1903.

Mr. John Davidson, Pres. Cal. State Federation of Labor, Vallejo, Cal.

Dear Sir: Pressure of business and absence from the city have delayed an answer to the letter which you sent me some time since.

I know nothing about the misunderstanding which is said to exist between the Board of Trustees of the Home for Feeble Minded Children and the local union of the attendants—that is, nothing further than what I learn from your letter and from a communication sent by Mr. G. W. McCaslin, who is the President of the Employees' Union at the Napa State Hospital.
Since the action to which you refer was taken, the Board of Trustees has been reorganized, three of the old members retiring and being succeeded by new men. Therefore, it would not be proper to assume that the resolution passed six weeks ago necessarily represents the views of the present board.

The principal question asked in your letter is whether the present administration is opposed to unionism, especially in public institutions. I have put myself on record on the subject of labor organizations so often and so positively that, so far as I am personally concerned, I do not see how it is possible for any one to mistake my sentiments. I have always said that Labor and Capital, in the adjustment of their interests, both have the right to organize.

Unionism in public institutions presents a new question, and I should suppose that unions in State hospitals are still in an experimental stage. The State as an employer differs from private capital, and the attitude of employees in State institutions must necessarily be different, because the remedies for grievances are not the same as in the case of private employment.

It appears to me that if employes in State institutions form associations for the advancement of their interests, they will, if good sense prevails, recognize that their own welfare is bound up with that of the institutions of which they are a part and that they should exert themselves to preserve discipline and promote the effectiveness of the public service.

Very truly yours,

GEO. C. PARDEE.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
Sacramento, August 27, 1903.

MR. JOHN DAVIDSON, President California State Federation of Labor
801 Louisiana St., Vallejo, Cal.

Dear Sir: In answer to your letter of August 25th, I would say that no conclusion has been reached in the matter concerning which you wrote, for the reason that the papers in the case have not been returned to me. I have been away from the Capitol. I will see if I can bring the matter to a head.

Am glad you reminded me of it.

Very truly yours,

GEO. C. PARDEE.
Legislative Agent's Report.

Report of Bro. P. B. Preble, our representative at the last Legislature, follows in full:

TO THE EXECUTIVE BOARD OF THE CALIFORNIA STATE FEDERATION OF LABOR. Gentlemen: In presenting my report as your representative at the recent session of the State Legislature it is my purpose to make the same more in the nature of a recommendation for action in future years, and a running comment on conditions as I found them, than a literal report of the routine of proceedings which occupy so much time of legislators and produce so little in the shape of actual results.

It is a fact well known to you that a number of the more important bills endorsed by our convention at Los Angeles had been prepared at the instance of the San Francisco Labor Council, which body had elected Mr. R. I. Wisler to attend the legislative session in their interest. When I arrived in Sacramento on January 27th, I found that these bills, some nine in number, had been introduced by various members of the Legislature at the instance of Mr. Wisler. Other bills which the convention had endorsed had been introduced at the instance of members of unions which had been instrumental in having them endorsed by our convention, while still others had been left to the care of the printer in Los Angeles who published the report of the proceedings of the convention.

In consequence of this division of responsibility and lack of order or understanding it was difficult to find out the status of things in order to give the most intelligent supervision possible. I would suggest, therefore, that in future, all bills endorsed by the State Federation be given to some committee selected for that purpose, whose business it shall be to have them introduced and look after them, and that they be not permitted to get into the hands of Tom, Dick or Harry and perhaps intrusted to members having no interest in their passage, who will let them die on the files through sheer neglect and inattention. The should consist of at least two persons, as it is often important to keep track of proceedings in both branches of the Legislature at the same time.

It is important that bills be carefully drawn in a legal manner by some experienced person and not left to the members of the Executive Council or the Law and Legislative committee of the convention, who
have little time for such things, as your experience will doubtless de-
oustrate. Several resolutions adopted by the late convention directed
the Executive Council to draft certain bills and have them introduced,
if I am not mistaken.

Unions or crafts which have a particular interest in the passage of
certain bills which they ask the Federation to endorse should be re-
quired to have same properly drawn, and should exert all possible influ-
ence with the various members of the legislature from all sections where
the craft has an organization. If possible they should also have some
one on hand at the Capitol to explain the good features of the bill to the
committees and again when the bill is up for final passage. It is often
necessary to have present a member of the craft interested to answer
questions and give information.

Another thing that is needed is unanimity of sentiment among the
members of a craft as to the desirability of a proposed measure.

In the matter of the Engineers' License law and the Barbers' Ex-
aminer bill, letters and petitions by the score were sent to the members
of the Legislature by union men belonging to those crafts clamoring
for and against the measure. The result was confusion to the members
and disaster to the bills.

The fact was quite apparent that the endorsement of the State Fed-
eration, as such, cut very little figure with the average legislator. In
fact, the organization was completely ignored in most instances. If a
bill under discussion pertained to a given craft there was more stress
laid on the letters or petitions of individual members of the craft from
particular localities, for or against, than on the fact that the proposed
measure had the endorsement of a deliberative convention composed of
leading members of organized labor representing all sections of the
State. This is not as it should be. Of course our first duty is to secure
the affiliation of all the locals in the State and then, when a bill is en-
donced by the State Federation, a communication should accompany it,
or rather, a communication addressed to each member of the Legisla-
ture, containing a list of all measures endorsed, should be printed, stat-
ing in plain terms the strength, numerically, of the affiliated member-
ship, and giving the member to understand that his support of the
measure is expected. On account of this or something similar having
been neglected at the late session many measures were considered
merely as the desires or particular crafts, or factions thereof, rather
than the practically unanimous demand of the organized workers of
the State.

Coming down to a consideration of specific measures with reference
to their bearing on the welfare and happiness of society at large and the continued usefulness of organized labor in particular, there were two which exceeded all others in importance. The first was the proposed amendment to the State Constitution providing for the people's veto and the direct initiative, or initiative and referendum, which, if adopted, would make possible the comparatively easy enactment of laws calculated to benefit the working people without reference to the privileged classes and their paid apologists, spokesmen and defenders in the legislature.

In the Assembly, thanks to much preliminary work done under the auspices of the State Federation, this measure received but little open opposition except in the way of amendments offered by two San Francisco attorneys, Messrs. Allen and Knight. In the Senate the opposition was stronger. The measure was opposed by every senator who believes the people incapable of deciding what laws affecting the whole fabric of society should be adopted; by every corporation lawyer; by every millionaire or representative of the interests of that class; by every advocate of the doctrine that men living a century or more ago knew better how to legislate for this day and age than the people now living); and by those who had never studied the question and were consequently ignorant about it, but who permitted themselves to be influenced by those in opposition. The names of the senators who voted in opposition to this amendment are Bauer, Belshaw, Byrnes, Coggins, Corlett, Devlin; Diggs, Flint, Greenwell, Knowland, Lardner, Leavitt, Luchsinger, Lukens, Nelson, Ralston, Rowell, Sanford, Selvage, Shortridge and Wolfe.

The measure next in importance was the anti-injunction bill of which so much has been said in the newspapers. Concerning the amendments thereto and the manner in which they were modified by the determined action of the Union Labor members of the Assembly it is unnecessary to dwell. This measure has been signed by the Governor and is now a law of the State.

The eight-hour bill and the employment agency bill were also passed and approved by the Governor, while the personal relations bill, the plumbing inspection bill, the bakeshop inspection bill, the seamen's bills, the steam engineering bill, the streetcar airbrake bill, and numerous others in the interest of labor, such as the mine inspection bill, either died on the files or were denied passage in one or the other branch of the Legislature. The Senate was particularly hostile to labor legislation, and judging by the acts and utterances of a number of members of that body they were there as the attorneys of special interests rather
than as representatives of the plain people. Particularly is this true of Senators Ralston, Belshaw and Devlin. The State Federation could do no better work than use its power to defeat such men for election, or, better still, prevent their nomination, if possible.

I would recommend that the Secretary of the Federation procure copies of the daily Journal of both Senate and Assembly, containing a record of each member's vote on all bills, for future reference, and that central bodies and affiliated unions be informed of the attitude of their representatives in their respective districts, on important labor measures, long enough in advance of the coming primaries to prevent their return to power if their records prove them to have been antagonistic to labor's interests. Respectfully submitted,

P. B. Preble.
Secretary-Treasurer’s Report.

To the Officers and Delegates of the Fourth Annual Convention of the California State Federation of Labor.

Fellow Workmen: I have the honor to submit to you my report of the receipts and expenditures for the year 1903.

I received the accounts and funds of the State Federation on January 26, 1903, and the report will be from that date.

Subdivision L, Article 6, of the Constitution, provides that the Secretary shall compile a list of secretaries of affiliated unions before the 15th of July. Owing to neglect of Secretaries in replying to communications it was impossible to secure a complete list, so the foregoing clause of the Constitution was not complied with.

The following unions affiliated during the year:

Respectfully submitted,

**GEO. K. SMITH,**

Secretary-Treasurer.
REPORT OF STATE ORGANIZER

To the Fourth Annual Convention of the California State Federation of Labor.

The third convention of this body deemed it wise to place a State Organizer in the field and define his duties.

Having been elected State Organizer and being actively engaged in the work as laid down by the constitution, I herewith report as follows:

In the ten days following the adjournment of the last Convention, I organized carpenters’ unions in Pomona, Santa Ana and Santa Monica, which immediately affiliated with the State Federation.

I then received notice from the Executive Board, that, in view of the low condition of our finances, and as a number of bills had yet to be paid to liquidate expenses incurred by the last convention, that I should devote two weeks a month for three months to organizing, believing that by April 1st sufficient funds would accumulate to warrant steady work.

As the American Federation of Labor at the New Orleans convention had made provision for some organizing work in this State, the Executive Board of the State Federation endorsed myself for that place; I immediately took the field in active work and continued for four months. On July 1st, my A. F. of I. commission having expired, the Executive Board ordered me to report to San Francisco, to engage in work of affiliating unions with the State Federation.

The work accomplished is given below: Having addressed 180 unions, writing over 200 letters, beside doing a great deal of committee work for different unions, my time was completely occupied.

Many complaints regarding the violations of labor laws received attention. Several preliminary actions against the lawbreakers were taken but owing to the fact that the men involved and needed as witnesses cannot afford to remain for an indefinite time pending the hearing of their case, no convictions were secured, but the fact of our having started these prosecutions has had a good effect.

In these matters, Mr. Meyer, the State Labor Commissioner, gave us valuable assistance.
Complaints regarding the importation of Mexican laborers by railroad contractors, also of men brought from the City of Mexico to take the places of the striking linemen, were investigated and complaints were made to the United States Government. A special officer was sent to investigate. I secured much evidence and several affidavits to substantiate our charges, but the technical proof of actual contracts being made in Mexico, were difficult to obtain. However, assurances were given us that additional precautions would be taken to correct this evil, but as there seems to be no material change, it is my judgment that if there were people in charge who actually wished to stop these nefarious practices, the evil could be reduced to a minimum.

Another festering sore and a disgrace to our State is the conduct of many of the damnable so-called "Employment Bureaus," whose chief business seems to be in swindling a needy class of wage workers, and being a recruiting station to furnish scabs to take the places of our people who are on strike, or are locked out. The State Federation should strive to have laws enacted to more fully cover these swindling concerns. At the present time we have two cases pending in court.

On receiving instructions from President Gompers to investigate the conditions of the fruit growers and the possibilities of organizing said workers, I spent some time on this matter, and believe that a plan can be laid out by which the thousands of fruit workers in our State can be brought within the ranks of organized labor.

The State law covering the use of dust blowers and fans in factories and mills for the protection of the workers, is very defective. In one factory visited, the dust was so stifling that after working a few weeks the men's lungs were so filled with impurities that their health was greatly impaired. When asked by the men to have fans put in, the manager refused on the ground that no law compelled him to do so. The law covers "dust arising from metals," but as cement dust was not a "metal," no relief could be had by the workers except at their own expense.

The child labor laws in mills, factories and stores should be strictly enforced. Many parents wilfully misrepresent the ages of their children that the babies might become workmen. One manufacturer told me that child labor was necessary to run his mill, and without it he would have to close down. When a country's prosperity is based on the toil and privations of little children, who should be in the kindergarten or school, our boasted civilization is a delusion and a snare. I know of no other agency for the enforcing of the child labor laws, than the trade unions. Apparently we are the only people that protest against the unholy conditions that rob the children of their childhood, of health, education and good citizenship.

Many calls for organizers are coming in. The wine industry, powder works, fishermen, sugar workers, lumbermen, sawmill and box factory workers, fruit workers, laborers of all kinds can be unionized. The lumber, sawmill and planing mill industries alone, if organized, would add 20,000 members to our strength. Many of these lumber mills are in the mountains, surrounded by land owned by large
companies. They have their "model towns," which are "model" in name only. Long hours, short pay and the store order system prevail. An organizer, if discovered, is ordered to depart immediately, and if he stops to argue the point, is assisted to the frontier by the company bull dog and the company constable.

Four weeks after organizing one of these places, the secretary of the union informed me that the hours had been reduced and for the first time in eleven years the men received their pay in cash. In another town I organized four unions, and in three weeks time the merchants began to advertise "union made goods."

I have organized the following unions, which are now in good running order:

Pomona Carpenters, Santa Ana Carpenters, Santa Monica Carpenters, two unions of Farm Laborers at Oxnard, Redlands Teamsters, San Bernardino Teamsters, Sanger Woodworkers, San Bernardino Butchers, Colton Federal Union, Riverside Teamsters, Pomona Painters, Santa Monica Federal, Long Beach Painters, Santa Monica Painters, Pasadena Shinglers (charter referred to Brotherhood of Carpenters), Long Beach Painters, San Mateo Federal, Truckee Woodworkers, Sausalito Federal Union, Chico Painters, Chico Barbers, Chico Butchers.

Besides these, I have assisted in the organization of thirteen other unions, and have several under way at the present time.

In making the rounds of the unions, I have endeavored to impress upon them the absolute necessity of demanding union label goods.

Many of the unions said that I was the first outsider who had addressed them since their organization, except by committees selling raffle tickets or appealing for assistance for unions on strike or lock-out. It is as essential to nurse new unions as it is to organize them. Too many unions have been organized and then left to their own resources.

The following unions have affiliated with the State Federation through my personal efforts:

Santa Monica Carpenters, Pomona Carpenters, Santa Ana Carpenters, Redlands Plumbers. From Los Angeles, Roofers No. 9539, Trunk and Bag Workers, Machine Woodworkers, and Butcher Workmen No. 265. From Stockton, Flour and Feed Packers, Laborers' Protective Union, Bakers' Union No. 120.

From Oakland, Gas Workers, Tailors, and Teamsters (re-affiliated).

From San Francisco, Bakery Wagon Drivers, Pie Bakers, Bartenders' League, Boot and Shoe Cutters, Carriage Painters, Electrical Workers No. 151, Flour and Cereal Mill Employees, Piano and Furniture Wagon Drivers, Gas Workers, Glove Workers, Ice Wagon Drivers, Mailers, Pipe and Tank Workers, Reed and Rattan Workers, Retail Clerks No. 432, Sanitary Wagon Drivers, Sugar Workers, Wine and Liquor Workers, Cloth, Hat and Cap Makers, Sailors (re-affiliated), Carriage and Wagon Workers, Stationary Firemen, Can Makers, Soda and Mineral Water Bottlers, Butcher Workmen, Boat Builders, Rope and Cordage Workers.

From Santa Barbara, Painters, Santa Barbara Labor Council, Hod Carriers and Building Laborers, Teamsters and Carpenters.

Beside these, about fifteen unions joined through correspondence. Brother Brower of Fresno secured several more.

The new unions have put the Federation in a position where it can now keep an organizer in the field continually.

Complete harmony has prevailed between the Organizer and the Executive Board.

In conclusion, I wish to impress the unions with this fact, viz.: That our weakness lays in the number of men who can be brought in to take our places during a strike or lockout. In the past, when industrial conflicts were on, the employers have sent their agents to the smaller towns in our State, and there they have brought in the men who have caused us so much trouble, and who have not only threatened the life of our unions, but in some cases, have torn down the work that took us years of work and sacrifice to build up. It therefore stands us well in hand to meet the opposition with their own tactics, by sending our organizers to these places to unionize the forces that many times could be used as destroying hosts against us. Beside this, it means that thousands of men in the future will help the city unions by creating a demand for union label goods.

In the past eight months your Organizer has placed over 6000 new men in the unions, and has added over 9000 members to the State Federation.

In my judgment, the California State Federation of Labor can be made a mighty power for the bettering of the conditions of the toilers of our State. Let us build up an organization that will reach to every town and hamlet, so that when an unscrupulous employer tries to take an unfair advantage of one of his employees, or all of them, we can say: "So far and no farther, for we recognize that an injury done to one is an injury done to all."

Fraternally,

FRED C. WHEELER,

State Organizer.
