PROPOSITION No. 1.

Introduced by Delegate George A. Tracy, San Francisco Labor Council:

"WHEREAS, the International Typographical Union has, for the past year, been engaged in a determined struggle to establish the eight-hour day in the printing industry, at an expense to its membership heretofore unheard of in the annals of trades union history; and

"WHEREAS, certain publishers, from a purely selfish motive, have left nothing undone to defeat the aims of the International Typographical Union in this laudable and unselfish effort to ameliorate the conditions existing within the ranks of its own organization and to uplift the condition of all wage earners; therefore, be it

Resolved, That the California State Federation of Labor, in seventh annual convention assembled, hereby unequivocally condemns the action of the enemies of organized labor in struggling to withhold from the printers the enjoyment of the normal and reasonable eight-hour day, which is recognized by a large majority of the employing printers of America; and be it further
Resolved, That we especially condemn the attitude of the Curtis Publishing Company of Philadelphia, Pa., proprietors of the Saturday Evening Post and the Ladies' Home Journal, publications of national reputation and world-wide circulation, in refusing to recognize the just demands of the International Typographical Union; and be it further

Resolved, That we also condemn the attitude of the publishers of McClure's Magazine, a widely-read and prosperous publication, especially appealing to the working classes for patronage, in their attempt to inaugurate the open shop and to maintain a workday and shop conditions inimical to the best interests of those from whom they must look to subscribe for their publication and toward whom they should show a spirit of fairness rather than contempt; therefore be it

Resolved, That the names of these publications be placed on the unfair list of this Federation and that the Executive Council of this body be, and they are hereby, instructed to notify the membership of the Federation of the unfair attitude of the proprietors of the publications mentioned, with a request that all affiliated bodies of this organization shall cease to patronize them and that they shall give such publicity to the facts herein stated as may be within their power.

REPORT ON COMMITTEE ON RESOLUTIONS.

The Committee on Resolutions made a partial report as follows:

January 8, 1907.

To Officers and Delegates of the Seventh Annual Convention of California State Federation of Labor:

Your Committee on Resolutions makes a partial report as follows:

The subject matter of Proposition No. 10 is covered in the report of the Executive Council, consequently your committee recommends that said proposition be referred to the Committee on Officers Reports.

PROPOSITION No. 2.

Introduced by Chas. F. Fleishmann, Cooks, No. 44, San Francisco; indorsed by Geo. A. Janssen, Butchers, No. 120, Oakland; J. D. Kirkpatrick, Waiters, No. 30, San Francisco; Fred Emery, A. C. Buck, Herman Hollander, Cooks and Waiters, No. 31, Oakland.

Resolved, That the incoming Executive Council be, and is hereby, requested to instruct all organizers of the State Federation of Labor to pay especial attention to the organizing of the crafts employed in the various provision trades, especially in the towns surrounding the bay counties.

Committee recommended its adoption.

Moved that the recommendation of the committee be concurred in.

Carried.

PROPOSITION No. 16.

Introduced by Walter Macarthur, Sailors of the Pacific, San Francisco:

Whereas, bids have been asked by the Panama Canal Commission for the supply of 2,500 Chinese laborers, under conditions virtually amounting to involuntary servitude; therefore be it

Resolved, By the California State Federation of Labor that we protest against the proposed employment of Chinese on the Panama Canal, as a violation of the Chinese exclusion and alien contract labor laws; further

Resolved, That we especially object to the terms under which it is proposed to hold the Chinese laborers to their contracts with the "labor agents," said terms being a violation of the Thirteenth Amendment to the Constitution of the United States, inasmuch as they clearly imply and necessarily involve a state of involuntary servitude; further

Resolved, That copies of these resolutions be forwarded to the Panama Canal Commission, the President of the United States and the Secretary of State.

Committee recommended its adoption.

Moved that the recommendation of the committee be concurred in by a standing vote. Carried.

PROPOSITION No. 17.

Introduced by Walter Macarthur, Sailors of the Pacific, San Francisco:

Whereas, President Roosevelt, in his message to the present session of Congress, makes certain statements concerning the attitude of the people of San Francisco and "one or two other places," in their treatment of the Japanese now resident in these localities, with reference specifically to the common school regulations adopted by the San Francisco Board of Education, providing for the accommodation in separate school-houses of Caucasian and Mongolian pupils; and
Whereas, the President characterizes these regulations as evidence of a "most unworthy feeling," as a "wicked absurdity," and as a "confession of inferiority in our civilization"; and

Whereas, based upon such conception of our municipal and State policy, and the motives inspiring it, the President declares his intention to "deal summarily," so far as the present power of the Federal Government permits, with the "very small body of our citizens that act badly," and gives notice that "in the matter now before me affecting the Japanese, everything that it is in my power to do will be done, and all of the forces, military and civil, of the United States which I may lawfully employ, will be so employed"; and

Whereas, the President, still proceeding upon the grounds herein noted, makes certain recommendations to Congress, to wit, "that an act be passed specifically providing for the naturalization of Japanese who come here intending to become American citizens," and "that the criminal and civil statutes of the United States be so amended and added to as to enable the President, acting for the United States Government, which is responsible in our international relations, to enforce the rights of aliens under treaties"; therefore be it

Resolved, By the California State Federation of Labor that the views expressed by President Roosevelt concerning our attitude toward the Japanese indicate misinformation or misconstruction of the facts; that his threat to "deal summarily" with us is therefore entirely uncalled for, and his request for an enlargement of his powers quite unnecessary; further

Resolved, That the action of the San Francisco Board of Education, in providing separate school-houses for Caucasian and Mongolian pupils, which action is authorized and in fact required by the State Constitution, is indorsed and supported by the practically unanimous sentiment of the State, and cannot by any reasonable process of construction be regarded, either in intent or in effect, as "shutting them (the Japanese) out from the common schools," and is therefore not open to the terms of expletive which the President has applied to it; further

Resolved, That we insist upon, and shall to the limit of our power maintain our right under the Constitution of the United States and the Constitution of California, and as a matter of practical necessity to the moral and mental well-being of our people, to segregate the pupils in the common schools in such manner as reason and experience shall dictate, and to adopt and enforce such other regulations as may be deemed wise and expedient in the conduct of our educational and other State or municipal affairs; further

Resolved, That in its treatment of the Japanese and other aliens now resident within its borders, California cannot justly be charged with unfair discrimination, but, on the contrary, is entitled to credit for liberality exceeding that of many other States in the matter of the rights and privileges accorded aliens; further

Resolved, That we deplore the tenor of President Roosevelt's message, in so far as it treats of the Japanese in the common schools of San Francisco, as misleading in its statements of fact, unwarranted in its inferences and conclusions and unworthy the dignity of the high office whence it emanates; further

Resolved, That we resent the President's threats of compulsion by armed force in a matter clearly within the purview of municipal and State authority, as insulting to the State, and as an intolera ble reflection upon its rights as a sovereign constituent of the United States; further

Resolved, That we are opposed to the President's recommendations that an act be passed specifically providing for the naturalization of Japanese, and that the powers of the Federal Government be enlarged for the purpose of subverting the proper authority of this and other States; further

Resolved, That the powers vested in the Federal Government by the respective States are designed for use in protecting the latter in the exercise of their reserved rights and functions; consequently any-
attempt or threat to use these powers to prevent or obstruct the freest possible exercise of these rights and functions must be regarded as an act of usurpation, menacing the freedom of the American people, endangering the stability of American institutions and demanding the strongest possible protest on the part of every patriotic citizen; further

Resolved, That copies of these resolutions be submitted to President Roosevelt, the members of Congress and United States Senators from California, and the press.

The committee recommended its adoption.

Moved that the recommendations of the committee be concurred in. Carried.

PROPOSITION No. 18.

Introduced by Walter Macarthur, Sailors of the Pacific, San Francisco:

Whereas, Secretary Metcalf, in his report to President Roosevelt on the Japanese question in San Francisco, makes numerous misstatements and misrepresentations, among which is an implied charge of bad faith against the Japanese and Korean Exclusion League, in connection with the action of the latter body in advising the segregation of all Mongolian pupils in the public schools, and in the matter of discrimination against Japanese restaurant keepers; therefore be it

Resolved, By the California State Federation of Labor that the action of the Japanese and Korean Exclusion League in the first named of these matters is in no sense inconsistent with its constitutional declaration that "the League, as such, shall not adopt any measures of discrimination against any Chinese, Japanese or Korean, now or hereafter legally resident in the United States," but, on the contrary, is merely an exercise of the unquestionable right of our citizens, acting individually or collectively, to secure the enforcement of all laws of the State designed for the regulation of the relations between the respective races; further

Resolved, That the allegation that the League has formally and officially participated in a boycott on the Japanese restaurant keepers is contrary to fact and based chiefly upon a misinterpretation of press reports of the League's proceedings; further

Resolved, That we deny and protest against these and other features of Secretary Metcalf's report to President Roosevelt as unjust, untrue and misleading; further

Resolved, That the report of Secretary Metcalf is utterly unworthy of credence in any particular, the same being an obviously one-sided and grossly exaggerated presentation of incidents which, so far as they exist at all, bear no significance to the question at issue between the Governments of the United States and of Japan, or between the State of California and President Roosevelt; further

Resolved, That we hereby express our lack of confidence in Secretary Metcalf, as one who, having been honored and trusted by our citizens, has sought to betray our interests in a matter affecting the welfare of present and future generations, with the object of bolstering up an assault upon our rights as a self-governing commonwealth, and with intent to justify a blow at the most fundamental principle of national liberty.

The committee recommended its adoption.

Moved that the recommendation of the committee be concurred in. Carried.

The Chairman of the Resolutions Committee announced that the committee would meet at headquarters in the Yosemite Hotel every day at 1 p. m., and requested that any of the delegates who may have resolutions before the committee, and wishing to explain, could come there at that hour.

Moved by A. J. Gallagher that the committee from the Japanese and Korean Exclusion League, Messrs. Arnold and Bowlan, be accorded the floor. Carried.
While the committee from the Japanese and Korean Exclusion League was preparing some literature, a recess of ten minutes was taken.

The convention reconvened at 3:20 p. m. and Mr. Arnold was introduced and addressed the convention. He made a strong appeal as to the necessity of the trade unions standing shoulder to shoulder against the Asians. Mr. Jas. Bowlan was then introduced by the Chair, and spoke of the great amount of work accomplished by the Japanese and Korean Exclusion League and the necessity of the unions affiliating with the Japanese and Korean Exclusion League.

D. H. Leavitt, Federal Laborers Union of Vallejo, offered the following resolution:

Moved, That we indorse the Japanese and Korean Exclusion League and recommend that all affiliated organizations join said League and render it all the aid in their power; further, that this convention hereby reaffirms the action of previous conventions in opposing any modification of the existing Chinese Exclusion Act, and urging the passage by Congress of a bill extending the provisions of that act so as to exclude all classes of Asiatics, especially Japanese and Koreans.

Moved that the resolution be adopted. Carried.

MISCELLANEOUS BUSINESS.

Chairman S. D. Simmons announced that his attention had been called to the fact that delegates were patronizing restaurants employing Chinese and Japanese.

Jas. Wood, chairman of the local entertainment committee, announced that on Wednesday evening, January 10th, a banquet would be tendered the delegates in Masonic Music Hall. He also stated that union waiters had been procured from San Francisco, as, unfortunately, none were available in Stockton.

Delegate J. D. Kirkpatrick, Waiters Union, No. 30, San Francisco, thanked the entertainment committee for its action taken in regard to securing union help for the banquet.

REPORT OF COMMITTEE ON OFFICERS' REPORTS.

The Committee on Officers' Reports reported as follows:

Stockton, Cal., January 8, 1907.

Gentlemen—in the matter of reports of officers, we desire to call your attention to pages 6 and 8, under head, "The Seamen's Strike and Lockout."

The last clause of the last paragraph of the said report contains the language: "The Seamen's Union made a gallant stand and should go down in trades union history as winning one of the grandest victories ever obtained—considering that they stood the fight alone, financially and otherwise."

Now, we complain of this report and can show that more than 1,000 union longshoremen were in this fight for sentiment, and many are in it now, suffering and still fighting this battle to its finish. For example, the longshoremen of Eureka, Cal. (numbering 240 men) who went into this fight at the direct solicitation of the seamen, have spent in wages, etc., thousands of dollars, and today are still continuing the fight with no assistance (in sight) except their own efforts. We are still aware of the fact that the longshoremen of Eureka are locked out because they refused to work with the scab substitutes for sailors in the strike referred to, and we request that the report of Executive Council of the State Federation of Labor be corrected to show facts as they actually were and are.

Respectfully,

E. D. HAWKINS, Trades Council, Eureka, Cal.
EDWARD L. LEWIS, Blue Lake, No. 7, Eureka, Cal.
PERRY BURLINGAME, Local 1040, C. & J. of A.
A. H. McIRVIN, Local 1, I. B. W. & S. M. W.
S. F. KELLY, Eureka, No. 2, I. B. W. & S. M. W.
We, the Committee on Reports of Officers, concur in the report of the Executive Council, except the clause touching on the Coast Seamen's strike. An objection has been raised by a delegate from the Trades Council of Eureka to the last paragraph, on page six—a statement to the effect that a settlement has been made; but in our investigation we find that the longshoremen of Eureka were involved in the strike at the suggestion of the seamen, and they are still out on strike. We, the committee, would like very much to have the reading of that paragraph changed.

Moved that the last sentence in the Secretary's report, in reference to the sailors' strike and lockout be stricken out. Carried.

The committee recommended that two lines in the letter of Thos. J. Mahoney be stricken out where reference is made to the Oakland Labor Council, viz., "There was no one present from the Oakland Labor Council, although they promised to send representatives." Mr. C. W. Petry, representing the Oakland Labor Council, claims the Council knew nothing of the meeting of the Glove Workers.

Moved that the recommendation of the committee be concurred in. Carried.

We also recommend that Proposition No. 10, which was referred to us by the President, on recommendation of the Resolution Committee, be adopted.

PROPOSITION No. 10.

Whereas, certain facts were presented to the last convention of this Federation relative to the management of the Napa State Hospital for the Insane; and

Whereas, the statements of the conditions at this institution were such as to cause the State Federation of Labor to request the appointment to the Board of Management of said hospital of a member of organized labor; and

Whereas, owing to the fact that the efforts of the Executive Council in this direction did not meet with the desired success, and still believing that it will be to the best interests of the employees of this institution to have a representative upon the Board of Management, in the person of a tried and true trades unionist; therefore be it

Resolved, That the California State Federation of Labor, in regular convention assembled, petition the Governor of this State, the Hon. James N. Gillett, to appoint upon the Board of Management of the Napa State Hospital for the Insane a member of organized labor, to the end that justice may be secured in the event of any charge being brought against an employee of said institution.

Moved that the recommendation of the committee be concurred in. Carried.

REPORT OF LABEL AND BOYCOTT COMMITTEE.

Committee on Labels and Boycott reported in part as follows:

PROPOSITION No. 4.

Whereas, the trades union movement, as an aggressive and reform movement, should use every agency possible to secure prominence and for propagation of its ideas; and

Whereas, the union label is to the garment or to the article bearing it a guarantee that said garment, or article, has been produced under conditions satisfactory to the producer; and

Whereas, the strict observance of the label is a direct and effective blow at the sweatshops and child-labor emporiums, the evils of which are patent to all; therefore be it

Resolved, By the California State Federation of Labor, in annual convention assembled, that it urge upon its affiliated unions a strict observance of the union label; and be it further
Resolved, That this convention instruct the Executive Council to request its organizers to encourage the formation of Women's Label Leagues, and to work in conjunction with the various central bodies throughout the State, thereby adding renewed vigor and impetus to the observance of the label.

Committee recommended its adoption.

Moved that the recommendation of the committee be concurred in. Carried.

Moved to adjourn till 9 a.m. Carried.

The Sergeants-at-Arms reported on attendance as follows:

Third Legislative Day – Wednesday, January 9, 1907

MORNING SESSION

President pro temp S. D. Simmons called the meeting to order at 9:20 o'clock.

The Chair warned delegates that failure to deposit attendance tickets, in the box provided for such purpose, at each session, would place them in the absent list.

Provided, that the Judge of the Juvenile Court of the county, or city and county, or in any county or city and county in which there is no Juvenile Court, then any Judge of the Superior Court of the county, or city and county, in which such child resides, shall have authority to issue a permit to work to any such child over the age of twelve years, upon a sworn statement being made to him by the parent or parents or guardian of such child that such child is past the age of twelve years, that the parent or parents or guardian of such child is incapacitated for labor through illness, and after an investigation by a probation officer or truant officer of the city, or city and county, in which such child resides, or in the cities and counties in which there are no probation or truant officers, then by such other competent person as the Judge may designate for that purpose. The permit so issued shall specify the kind of labor and the time for which it is issued, and shall in no case be issued for a longer period than shall seem necessary to the Judge issuing such permit. Such permit shall be kept on file by the person, firm or corporation, employing the child therein designated, during the term of such employment, and shall be given up to such child upon his quitting such employment. A certificate of the principal of such school shall be held to be sufficient evidence of such attendance.

Sec. 4. Every person, firm or corporation employing minors under eighteen years of age, in any manufacturing establishment, shall post, and keep posted, in a conspicuous place in every room where such help is employed, a written or printed notice stating the number of hours per day for each day of the week required of such persons.

An age and schooling certificate shall be approved only by the Superintendent of Schools of the city or county, or by a person authorized by him, in writing, or where there is no City or County Superintendent of Schools, by a person authorized by the local School Trustees; provided that the superintendent or principal of any school of recognized standing shall have the right to approve an age and schooling certificate and shall have the same rights and powers as the Superintendent of Public Schools to issue the certificate herein provided, for children attending such schools. The persons authorized to issue age and schooling certificates shall have the authority to administer the oaths necessary for carrying out the provisions of this act, but no fee shall be charged for issuing such certificates.

An age and schooling certificate shall not be approved unless satisfactory evidence is furnished by the last school census, the certificate of birth or baptism of such child, the public register of birth of such child, or in some other manner, that such child is of the age stated in the certificate.

A duplicate copy of each age or schooling certificate granted under the provisions of this act shall be kept by the person issuing such certificate, such copy to be filed with the County Superintendent of Schools in the county where the certificate was issued; provided, that all such copies of certificates issued between June 25th and December 25th of any year shall be filed not later than December 31st of such year, and those issued between December 25th and June 25th of the ensuing year shall be filed not later than June 30th of each year. Every person authorized to sign the certificate prescribed in this act who knowingly certifies to any false statement therein, is guilty of a misdemeanor, and upon conviction thereof shall be fined not less than five nor more than fifty dollars, or imprisoned not more than thirty days, or by both such fine and imprisonment.

"1. Whereas, the entrance of the Japanese and other Asiatics into the United States is a menace to our entire citizenship, inasmuch as their mode of living tends to lower the standard of living of the people of our county; therefore be it

"Resolved, That we favor the exclusion of Asiatics from the United States.

RESOLUTION No. 13.

Introduced by L. B. Leavitt, Shipkeepers’ Union, No. 8970, Vallejo, Cal.

"WHEREAS, The shipkeepers on the Mare Island Navy Yard were, prior to August 20, 1900, compelled to work an average of twelve hours for a day’s pay, in violation of the eight-hour law; after said 20th day of August, 1900, by a decision of the Secretary of the Navy, the hours of said shipkeepers were reduced to eight for a day’s pay, thereby confessing that when compelled to work twelve hours the shipkeepers of Mare Island worked in excess of four hours’ overtime on each calendar day; and that

"WHEREAS, The said shipkeepers have made demands upon the proper authorities for pay for overtime for this excess of four hours for each calendar day so worked, yet the Navy Department has persistently refused to pay said claim for said overtime, though the fact has been called to the attention of the Navy Department that the claim of shipkeepers at other navy yards has been paid for this overtime in former years; and that

"WHEREAS, The said shipkeepers have been compelled to work the Saturday half holiday, the seven national holidays prescribed by the laws of Congress; that said shipkeepers have been compelled to work holidays without extra compensation for said holidays; and that

"WHEREAS, On the Fourth of July, 1906, and the several holidays intervening from that date, the men on the day watch from 8 a. m. to 4 p. m. have been paid double time, thereby admitting that we are entitled to extra time for said holidays; and that
"Whereas, The men on the night shift have not as yet received any pay for overtime; and as twenty-four hours compose a calendar day, and that in other departments of the Mare Island Navy Yard men working the same time and hours are paid double time for said holidays; and, believing that we are entitled to the same consideration as other Government employes; therefore, be it

"Resolved, That the California State Federation of Labor, now in session in the city of Stockton, have investigated this claim of said Shipkeepers' Union, No. 8970, of the A. F. of L., and being fully convinced of the justness of the claim, hereby indorse the same, and also urge Samuel Gompers, President of the A. F. of L., and the Executive Committee of the same, to use all honorable means within their power to aid the attorneys for the Shipkeepers (Messrs. Herbert & Micou, of Washington, D. "Resolved, That a copy of these resolutions be forwarded to the Secretary of the Navy, Samuel Gompers (President of the A. F. of L.), Senator Perkins and Congressman J. R. Knowland, with the request that they use all honorable means to the end that all shipkeepers employed on Mare Island Navy Yard are paid for all overtime, for Saturday half holidays, and also double time shall be paid to all men who are required to work upon the night shift, the same as those employed during the day."

PROPOSITION NO. 57.

Introduced by A. Seaman, Sailors' Union, San Francisco:

"Whereas, Emigration of Japanese and Koreans is rapidly increasing; and

"Whereas, With the present ratio of increase of the Japanese and Korean immigration to our shores, the half-million mark will be attained in a very few years; and

"Whereas, It is an undisputed fact that most of the Japanese emigrants are ex-soldiers and practically all loyal subjects of their parent country; this fact, and the undisputable fact that their arrival and residence amidst us, from an economical and racial point of view, is dangerous and injurious to the Caucasian race, and makes them most undesirable emigrants to our shores; and

"Whereas, The time the Chinese Exclusion Law will be applied to the Japanese and the Koreans, or a separate exclusion law passed, seems to be in the distant future; and

"Whereas, Economical exclusion, as it has been carried out in Humboldt County, Cal., has proven most effective, not only in excluding those who desired to enter the borders of this county, but also in transporting those who had already entered the confines of Humboldt County, Cal., and
"Whereas, The best law that the most optimistic ones expect our Congress to pass would be the rigid exclusion of Japanese and Koreans, but the transportation of those already here has not even been thought of by the most radical of the exclusionists; therefore, be it

Resolved, That the California State Federation of Labor call upon all of its affiliated unions, and upon all the people who are desirous of Japanese and Korean exclusion, to emulate Humboldt County, Cal., by withdrawing their patronage from all Japanese and Koreans, and all those who are employing them."

The committee recommended it be not adopted.

Proposition No. 40.

Introduced by E. D. Hawkins, Trades Council, Eureka, Cal.:

"Whereas, The American Federation of Labor and the California State Federation of Labor are opposed to Mongolian labor competing with the existing labor in this the United States of America; and

"Whereas, During the year 1906 a number of Chinese were imported into the county of Humboldt, Cal., after all such had been deported and excluded for the past fifteen years; and

"Whereas, The citizens of Humboldt and the labor unions did, in mass meetings at different places, assemble and did by their overwhelming and irresistible protests and determined stand deport these Chinese back to the firm shipping them, thereby, for the present at least, forbidding their return to compete with American citizens as laborers; therefore, be it

"Resolved, By the California State Federation of Labor, that we especially commend the said actions of citizens of Humboldt County, and especially the labor unions and the active "Committee of Fifteen," for their brave and prompt actions, thereby settling a grave question in a manly, patriotic and lawful manner, and do furthermore return a vote of thanks to those mentioned above for services rendered. And that a copy of these resolutions be sent to the Chambers of Commerce of Eureka and Ferndale and to the Trades Council of Eureka, Cal."

"WHEREAS, The various locals of the Cigar Makers' International Union of California have expended thousands of dollars in the past in agitating and advertising their label, and have vigorously and persistently appealed to the union men of California to aid in driving from the market non-union, child-labor, and Chinese-made cigars; and

"WHEREAS, The organized forces of labor in California have been continuously increasing from year to year, except the cigar makers, regardless of all they have done in the past and are at present doing to increase the demand for union labeled cigars; and

"WHEREAS, The Cigar Makers' Union of California once more calls the attention of the California State Federation of Labor and its affiliated unions to the numerical strength of their organization as compared with the ever-increasing strength of other crafts, and ask in all fairness: 'Are the union men of this State doing their duty to the Cigar Makers' Label?'

"WHEREAS, In support of this contention, we cite the fact that the ever and constant increase of the business of the American Tobacco Company and the United Cigar Stores, who are the unscrupulous enemies of organized labor in general and the Cigar Makers' International Union in particular; and

"WHEREAS, The Cigar Makers of California expect that the delegates to this convention will bear in mind that these resolutions are intended to operate after the convention as well as while in session, and are not introduced merely as a formality; therefore, be it

"Resolved, That each of the delegates to this convention consider it a solemn duty to bring before their respective organizations the necessity of an aggressive warfare against all cigars, regardless of where they are made, that do not bear the blue label of the Cigar Makers' International Union of America. By so doing, results will speak for themselves, and then the members of the Cigar Makers' International Union of America will have no complaint to make."

"Resolved, That the California State Federation of Labor does hereby indorse the request of the employes of the State Hospitals that their wages be moderately increased, as follows: Head attendants to receive $75 a month; assistants, after eighteen months' continuous service, $65 a month; assistants who have served six months, $50 a month until they have been employed eighteen months continuously; assistants during the first six months of service, $45 a month.

Introduced by Edward J. Lewis, Woodsmen and Sawmill Workers, Local No. 7, Blue Lake:

"Whereas, The conditions in the sawmills and timbered regions of California are ripe for organization into locals of the International Brotherhood of Woodsmen and Sawmill Workers; and

"Whereas, If such organizations are formed and those already formed are properly assisted at an early date, there are excellent prospects for a substantial increase in wages and a shortening of hours; and

"Whereas, The men in many of the camps work twelve hours per day; and

"Whereas, The work is extremely hard and dangerous; and

"Whereas, There are about 250,000 men in the United States and Canada engaged in the manufacture of lumber, indicating that if properly organized the Woodsmen and Sawmill Workers could be made one of the strongest internationals in the State, if not in the world; therefore, be it

Resolved, That the State Federation of Labor, in convention assembled at Stockton, January, 1907, pledges the International Brotherhood of Woodsmen and Sawmill Workers its sympathy and support in their efforts to ameliorate their working conditions."

Resolved, That all unions throughout the State of California using a monthly button be requested and urged to adopt the colors in force for the year 1907, which are as follows:

PROPOSITION NO. 59.

Introduced by Geo. W. Edwards, of Carpenters, No. 180, Vallejo, Cal.:

"WHEREAS, The Government of the United States has over 1,500 employees at work at the naval station located at Mare Island, Cal.; and

"WHEREAS, the regulations of the War Department prohibit these employees from residing on the island, thereby making it necessary that they reside in Vallejo; and

"WHEREAS, The transportation facilities between Vallejo and Mare Island consist of a ferry service that is inadequate and unsafe, and owned and controlled by a corporation; Government tug boats and rowboats owned by individuals; and

"WHEREAS, The free use of Government tugs for transportation purposes between Vallejo and Mare Island is permitted to a certain class of Government employees, numbering about 200, and denied to the 1,500 or more workingmen employed by the Government at Mare Island; and

"WHEREAS, The Government annually pays to the corporation which monopolizes the ferry service between Vallejo and Mare Island many thousands of dollars for transportation which, if expended in extending the transportation facilities it now maintains, would enable it to do away with the unjust discrimination now practiced against a majority of its employees at Mare Island; therefore, be it

"Resolved, That it is the sense of the California State Federation of Labor, in regular convention assembled in the city of Stockton, that the Federal Government should build, equip, maintain and operate its own ferry between the naval station of Mare Island and Vallejo, and extend the privilege of free and safe transportation to all employees alike, and thus do away with the unjust and unfair discriminations that now exist in favor of certain special employees of the Government, and save the money now paid annually to said private corporation, and secure a service in every respect superior to that which now exists; and, be it further

"Resolved, That a copy of these resolutions be sent to the Representatives and Senators of California and to the Secretary of the Navy, to the end that Congress may at once authorize an appropriation of sufficient money to provide for the above necessities."

Committee recommended its adoption.

"WHEREAS, Every step in the arrest, kidnaping and detention of Moyer, Haywood and Pettibone of the Western Federation of Miners shows a well developed conspiracy against the lives of every loyal servant in labor's cause, against organized labor in general and against the foundation of civil liberty; and
"WHEREAS, Silence in this matter now by any body of organized labor anywhere would nerve and steel the hand of criminal capital against us everywhere; and

"WHEREAS, The press of the land are not giving as much publicity to the status of the case as we deem its nature requires; therefore, be it

"Resolved, By the California State Federation of Labor, in regular convention assembled, that we warn the Citizens' Alliance and the Manufacturers' Association that they cannot smother our imprisoned brothers in silence, and that we hereby renew our pledge to secure a fair, impartial and speedy trial of Moyer, Haywood and Pettibone; and to this end we heartily recommend to local unions throughout the State to provide full information concerning the progress of the cases to the entire community through public meetings, trade union conferences and publications at frequent intervals in convenient places, and that the Western Federation of Miners be tendered immediate, undivided moral and financial support.

The following substitute was presented by the Resolutions Committee:

"WHEREAS, The arrest and detention of Brothers Moyer, Haywood and Pettibone, executive officers of the Western Federation of Miners, under circumstances virtually amounting to kidnapping, are acts that, considered in all aspects, furnish conclusive evidence that they were the result of a conspiracy against organized labor, and these acts are an injustice to these men and a menace to the constitutional safeguards of accused persons; therefore be it

"Resolved, By the California State Federation of Labor, in regular convention assembled, that we hereby renew our pledge to secure a fair, impartial and speedy trial of Moyer, Haywood and Pettibone; and to this end we heartily recommend to local unions throughout the State to provide full information concerning the progress of the cases to the entire community through public meetings, trade union conferences and publications at frequent intervals in convenient places, and that the Western Federation of Miners be tendered such moral and financial support as it may require."

To Officers and Delegates of the Seventh Annual Convention of the California State Federation of Labor:

Brothers—In compliance with the Constitution and By-Laws of the California State Federation of Labor, I hereby make my report as President from February 25, 1906, at which time President G. S. Brower resigned.

During the three years that I have served the Federation in the capacity of Vice-President, I can frankly state that for the year 1906 your Executive Council has met with more difficulties and had a much harder time than any previous year.

On April 18, 1906, the California State Federation of Labor, like a great many other organizations in San Francisco, lost all of its records and accounts. As soon as headquarters were established on May 1, at 835 Webster street, San Francisco, I immediately called a meeting of the Executive Council to devise ways and means whereby the Federation could be brought together as rapidly as possible. One of our greatest difficulties was the securing of names and addresses of the secretaries of affiliated unions, and it was several months before your Executive Council could tell with any degree of accuracy how many unions affiliated would be affected by the earthquake and fire, especially in San Francisco and vicinity. This was the direct cause of preventing the Council from advertising the labels as extensively as would have been done had not the great catastrophe occurred.

After the call for financial assistance had been sent out for the Santa Rosa Unions in February I addressed several unions in Oakland as to the necessity of assisting the Santa Rosa Unions financially and was generally successful.

I addressed the Amalgamated Iron Workers of Oakland upon the question of affiliating with the State Federation of which I later secured their application, likewise the application of the Junk Wagon Drivers of Oakland.

The Horseshoers Unions became involved in a dispute with the firm of Lereman & McGuire, which I successfully settled after getting them together and then secured their application to affiliate with the Federation.

In conclusion I wish to state that your Executive Council has worked in harmony, unison and for the best interests of the California State Federation of Labor. With best wishes for the success of the organization, affiliated unions and the trade-union movement in general.

Respectfully submitted,

THOMAS F. GALLAGHER,
Acting President.
REPORT OF EXECUTIVE COUNCIL

1906

To Officers and Delegates of California State Federation of Labor:

Greeting—The Executive Council herewith presents to the Federation and its representatives the following report of its labors for the past year:

The present conditions of the trade unions throughout the State of California are in a better organized condition than they have been in former years and the prospects for the future are very bright.

The great disaster of April 18th which befell San Francisco and vicinity had a tendency for a time to demoralize the trade unions, especially in San Francisco, but the rapidity in which the trade unionists rallied to their organizations and regained their former standings was marvelous and without parallel in the trade-union movement.

The Executive Council of the State Federation of Labor immediately saw the necessity of organizers being put to work in San Francisco and they unhesitatingly employed C. W. Holquist and T. E. Zant, and the work accomplished by them during the five weeks of their organizing was gratifying. (See their reports printed in full under the head of Organizers.)

The communication addressed to the Sixth Annual Convention of the State Federation of Labor by the Santa Rosa Labor Council, appealing for financial and moral support and referred by the convention to the incoming Executive Council was taken up at the first regular meeting of the Council, and President G. S. Brower was instructed to go to Santa Rosa and make a thorough investigation as to the conditions and needs of the Santa Rosa Unions involved in the strike and lockout over the "Open Shop" question, and report back to the Executive Council. President Brower's report was destroyed in the fire of April 18th and cannot be reproduced. Following is the agreement entered into by President G. S. Brower with the "Builders' Exchange":

Santa Rosa, Jan. 22, 1906.

"Builders' Exchange in Council assembled. The proposition submitted by Mr. G. S. Brower, President of the State Federation of Labor, on behalf of the various unions of this city, in order to settle the difficulties existing between employers and employees, to wit:

"The President for the various unions agrees to the open-shop proposition for six months from February 1, 1906; everybody to be declared off the unfair list in all lines, remitting all fines, providing the present scale of hours and wages be maintained.""

The settlement made by President Brower was the direct cause of charges being preferred against him by the Santa Rosa Labor Council and the necessity of the Executive Council of the State Federation meeting in Santa Rosa for the purpose of securing the evidence pertaining to the trial; the result was that President G. S. Brower handed in his resignation before the investigation had been concluded, which was accepted.

First Vice-President T. F. Gallagher assumed the duties of President and carried on the work of the Federation with promptness and enthusiasm.

When the Council adjourned in Santa Rosa Fifth Vice-President C. W. Holquist was instructed to remain there for a period of two weeks and use his best endeavors to bring about a settlement, and build up and strengthen the organizations. The work done by Brother Holquist was satisfactory to the Executive Council. We later found it necessary, on account of a settlement being made by P. H.
McCarthy, President of the State Building Trades Council, to send a special organizer to Santa Rosa, and Brother T. E. Zant was selected to go, and remained in that city until the earthquake of April 18th. (See reports of Brothers Holmquist and Zant in full, under the head of "Reports of Organizers.")

The Executive Council sent out two appeals for financial assistance for the Santa Rosa Unions to the affiliated unions of the Federation with the result that $435.50 was collected and turned over to them.

NAPA HOSPITAL EMPLOYES.

A committee from the Vallejo Trades and Labor Council appeared before the Executive Council of the Federation and filed charges against certain officials of the Napa State Insane Asylum, and requested the Executive Council to make an investigation of the same. The Council complied with the request and forwarded to Governor Geo. C. Pardee a copy of the charges with a request that a committee from the Executive Council take up on a certain date the charges and statements submitted by the committee from the Vallejo Trades and Labor Council, with the officials of the Napa State Insane Asylum. Governor Pardee very cleverly side-stepped the investigation as proposed by the Council and made the investigation himself, taking the written statements of the officials in charge of the Napa State Insane Asylum, which were the denials of all charges and statements filed by the committee, and submitted a copy of the same to the Executive Council, which was a very lengthy one, covering about forty pages of typewritten matter. The Council was not satisfied with the investigation as made by Governor Pardee and sent a second communication to him again requesting that the committee from the Council be permitted to make the investigation personally at the Napa Insane Asylum; this brought forth from Governor Pardee a very sharp and curt reply to the effect that Trade Unions had no right or authority to question the acts or doings of any State official. All of the evidence and communications secured thus far were destroyed in the fire of April 18th and could not be replaced. The committee of the Vallejo Trades and Labor Council did not press the case further.

FLOUR AND CEREAL MILL EMPLOYES, LOCAL NO. 80.

The Flour and Cereal Mill Employees, Local No. 80, of Los Angeles, became involved in a strike and lockout with the Globe Milling Company, which company has mills located in Los Angeles, Colton, Woodland and San Francisco. In the early part of the year, through the Los Angeles Central Labor Council, they requested that the State Federation of Labor place the Globe Mills on the "We don't patronize" list. The request was granted and immediately the manager of the San Francisco Mills took up with your Secretary-Treasurer, J. H. Bowling, and D. Schwarting, Secretary of Bakers' Union, Local No. 24, of San Francisco, the questions in dispute, and after one or two meetings and several communications being addressed by himself to the President of the Globe Mills, who was located in Los Angeles, a meeting was arranged between the President of the Globe Mills, a committee from the Flour and Cereal Mill Employees and the Los Angeles Central Labor Council. An agreement was reached satisfactory to both parties, the President of the Globe Mills requesting the Flour and Cereal Mill Employees to write to their national for an agreement which he would sign as soon as he returned from San Francisco; the agreement was secured by the Cereal Mill Employees from their national, but when the President of the Mills returned to Los Angeles he stated that he had changed his mind and could not sign the agreement as he had agreed to do. The former action taken by placing the Globe Mills on the "We Don't Patronize" list was then taken up by your Executive Council and all of the Bakers' Unions throughout the State, Central Labor Council and affiliated unions were requested to
take similar action in regard to the Globe Mill's products. In some parts of the State the work was very effectively carried out, but in others we are sorry to state that the Trade Unions and Central Bodies failed to give the matter serious consideration.

The Globe Mills are still on the "We Don't Patronize" list. Hundreds of circulars have been sent through this office to the affiliated unions and Central Bodies throughout the State and to the Trade Unions in Arizona, where considerable of the products of the Globe Milling Company is sold. The delegates to the Seventh Annual Convention should report this back to their respective organizations and request them to place the Globe Mills on the "We Don't Patronize" list.

**THE PRINTERS EIGHT-HOUR DAY.**

The strike of the printers to establish the eight-hour workday in all offices under the jurisdiction of the International Typographical Union, which has now been carried on more than a year, is unique in the annals of great strikes for the reason that aside from the activity of the parties directly concerned in the struggle there is little outward indication that a great battle is being waged having for its purpose the establishing of the normal workday in the great industry mentioned. The latest figures obtainable place the cost of this strike to the printers, up to the present time, at approximately $3,000,000. This sum represents actual cash expenditures only. The number of members now working eight hours is placed at 42,000, those still on strike, 2,000; working under nine-hour contracts, 2,500. The number of locals having received the shorter workday is placed at 490. Between sixty and seventy locals still have strikes on, but in a number of instances these unions have signed up with a majority of the firms in their jurisdiction. There has been no trouble on this coast in establishing the shorter workday, with the single exception of Los Angeles. A bitter fight has been waged in that city since January last, but at the present time the printers have the situation so well in hand that the executive council of the International has seen fit to drop the name of Los Angeles from the list of struck towns, more than 90 per cent of the membership being steadily employed.

The recommendation made to the affiliated unions by the Oakland Convention, that they assess themselves 5 cents per member to assist the Los Angeles printers in their strike to establish the eight-hour day was the means of $2,267.42 being collected and turned over to Secretary G. W. Bowman.

**THE SEAMEN'S STRIKE AND LOCKOUT.**

On May 29, 1906, a strike of the seamen, members of the Sailors' Union of the Pacific, Pacific Coast Marine Firemen's Union and Marine Cooks' and Stewards' Association of the Pacific Coast, was inaugurated for the purpose of securing an increase of wages in the class of vessels known as "invisible steam schooners," engaged in the Pacific coastwise trade.

The proposals of the unions involved an increase in wages from $45 to $50 per month for sailors, certain overtime payments for firemen, and an increase in wages from $30 to $35 per month for certain classes of labor in the stewards' department of these vessels.

The vessels in question are controlled by an organization of shipowners known as the Steamship Association. An agreement had existed for several years between the latter body and the Seamen's Unions. This agreement expired on January 31, 1906. Some time prior to that date negotiations were opened between the association and the unions, looking to an improvement in the conditions of labor.

These negotiations continued for nearly three months, but without success. The prevailing wage rate had been in operation for about ten years, during which period wages in other callings had ma-
terially increased, while the cost of living had risen in even larger proportion. For several years the Seamen's Unions had sought to secure an increase of wages, but, falling in that object had renewed the agreement with the association, rather than declare a strike. The old conditions having become no longer tolerable, the unions, by a secret ballot of all their members, determined to put the new scale into effect on May 1, 1906. This vote was taken on or about April 16, On April 18 the great calamity befell San Francisco.

Immediately thereafter the unions met and determined to suspend all action toward securing an increase of wages and in the meantime to do everything in their power to relieve human distress and save property.

Several weeks after the disaster, namely, on May 29, the unions put into effect their demand for an increase of wages. In the interval the conditions resulting from the disaster of April 18 had been greatly relieved. There was no longer any danger to life or property. The shipping of San Francisco, which had suffered little or no damage at the time of the disaster, had begun to reap a great advantage from the increased demand for lumber and other commodities; freights had increased, on the other hand, the seamen had to bear a share of the increased cost of living in San Francisco, besides having to work harder as a result of the greater strain put upon the shipping of the port.

A number of ship-owners conceded the terms of the unions; a larger number, however, refused their terms, and tied up their vessels, thus cutting off the shipment of supplies to San Francisco.

This condition was greatly aggravated by the action of the United Shipping and Transportation Association in locking out all the men, including the longshoremen employed on the vessels under its control. The latter named organization comprises the shipping and stevedoring concerns of San Francisco, among which is the Steams-hip Association, the immediate employers of the seamen involved in the strike. The objects of the United Shipping and Transpor-tation Association include the establishment of the "Open Shop" on the water front of San Francisco, for in the attainment of which object the association has an agreement with the "Citizens' Alliance."

The effect of the lockout was a complete tie-up of the entire shipping of the port. This situation aroused much complaint on the part of the press and public. The evident intention of the United Shipping and Transportation Association being to involve the whole maritime industry in a strike, the Seamen's Unions took steps to checkmate that plan. The unions withdrew from the City Front Federation in order that the association might have no excuse for continuing the lockout of longshoremen and other crafts not directly involved in the original dispute.

After a brief period the longshoremen were returned to work. The ship-owners endeavored to run their vessels with non-union crews composed of landsmen picked up in the interior (but in many cases shanghied), assisted by professional gun-fighters. As a result of these tactics one member of the Sailors' Union of the Pacific, Andrew Kelner, was murdered, and a number of others were shot and otherwise injured while seeking to interview the non-union crews. Among the latter a number of accidents occurred, at least one man being drowned and another killed, largely due to their own incom-petence.

Arbitration was urged by the press and public. A formal proposal to that end was made by Mayor Schmitz. To this proposal the unions readily assented. The ship-owners, however, rejected all proposals of the kind, taking the usual ground that they had "nothing to arbitrate."

From time to time during the progress of the strike individual firms of ship-owners conceded the terms of the unions and engaged
union crews. Finally on October 30 and 31, respectively, formal terms of settlement were made by the unions and the ship-owners concerned, others bringing the dispute to a successful termination.

Numerous injunction suits were brought against the unions during the strike, several of which are still pending. The murderers of Andrew Kelner are now on trial. Apart from their cases the relations between the Seamen's Unions and their employers are peaceful, a condition which it is hoped will endure indefinitely and redound to the advantage of all concerned.

JAPANESE AND KOREAN EXCLUSION LEAGUE.

The recommendation made by the Sixth Annual Convention of the California State Federation of Labor to the affiliated unions, requesting them to affiliate with the Japanese and Korean Exclusion League resulted in a great many unions affiliating with that body.

The Japanese and Korean Exclusion League have sent hundreds of communications to the Senators and Congressmen, requesting them that they declare for the strict maintenance of the Chinese Exclusion Act without modifications of any kind and for the extension of that act so as to exclude Japanese and Koreans; they have also distributed large quantities of literature throughout the Eastern States which has had a telling effect. It is necessary to educate our Eastern brothers to the necessity of keeping out the Asiatics, therefore this work must be continued if we expect to obtain the desired legislation.

STRIKE OF THE CARmEN, ELECTRICAL WORKERS, FIREMEN AND OILERS AND STREET RAILWAY CONSTRUCTION WORKERS.

About the 18th day of July, 1906, the Electrical Workers, Local No. 151, after several weeks in negotiating with the officials of the United Railroads in regard to the linemen employed by said company, and failing to adjust the differences with the company, ordered a strike of all the linemen employed by that company. The company endeavored to fill the places of the striking linemen with non-union men, who were protected by armed guards, furnished by the company. After this condition prevailed for a couple of weeks the Firemen and Oilers from the several plants of the United Railroads quit in a body about 5 p. m., and their places were immediately filled with non-union men and the roads put in full operation in less than two hours. In the meantime Brothers C. W. Holmquist and T. F. Zant had organized the Construction Workers, who were engaged in changing the cable roads into electric roadbeds. This was entirely a new organization with about 1200 members, the majority of which were Greeks and Italians. They made a demand for $2.50 a day, which of course was refused by the United Railroads, and they in return struck.

On the 19th day of August the Carmen's Union, Division No. 205, presented a communication to the assistant to the President of the United Railroads, requesting that their hours of labor be reduced to eight and their wages increased to $3 per day; the Carmen's Union not receiving any reply which was encouraging, or which would warrant them making further delay, and because of the bitter experience in the past, and knowing the tactics pursued by the officials of the United Railroads, did on August 26, at 1 a. m. order a general tie-up of the street-car system of San Francisco, which practically involved all of the employees of the United Railroads. The particular feature of this strike (which has no precedence in a street-car strike of the United States), was the fact that the Motormen and Conductors were on strike for eleven days, and during that period not one car was operated, nor was there an attempt made to take the cars out of the barns.

The four unions then on strike voted to return to work and leave the disputed points of hours and wages to a board of arbitration com-
posed of three members—the unions jointly to select one, the company to select the second and these two to select the third. The three members so selected were not to be connected with either the company or the unions. Their decision was to be binding upon the unions and the company. The awards of the arbitrators at this time have not been received.

INJUNCTIONS.

In pursuance to instructions of the Sixth Annual Convention of the California State Federation of Labor, a circular letter was sent to all the unions in the State of California asking for information in regard to judges who had issued injunctions against any trade union, or curtailed in any way the constitutional rights of any labor organizations. This was sent out in the early part of March and a great many replies had been received before April 18, all this information thus far secured was destroyed by fire, and the expense and necessary time to secure the same was limited. After the fire there were two communications addressed to the various Central Bodies in the State seeking information along the same line, but as they failed to comply with the request it was found to be almost impossible to secure the information desired in order to make a report to the Seventh Annual Convention. We find that the carelessness and negligence of many of the Secretaries is responsible in a great measure in keeping back such information. If an organization has ever had an injunction issued against them, the Secretary of that organization should know in detail without having to refer to any files or court proceedings. The communications on an average sent out to the unions, asking for information, not one in twenty is answered, and this of course makes it almost impossible for your Executive Council to report on matters or subjects where the information must be secured from the various secretaries throughout the State.

We believe that in the year of 1907 the effort again should be made to secure this information. The last communication sent to the various Central Bodies, but two replies were received stating that no injunctions had been issued against any organization in the county. The information secured at this time is so meager that the Council does not feel justified in making a partial report as the causes and particulars involving the organizations and the effects on unions have not been secured.

NATIONAL FEDERATION FOR PEOPLE'S RULE.

Your Executive Council has received a great many communications from the National Federation for People's Rule during the past year, requesting that we co-operate in demanding the initiative and referendum vote, and further request that a convention be called for that purpose. Your Executive Council therefore refers the entire subject matter to the Seventh Annual Convention of the California State Federation of Labor, and recommends that a special committee be appointed to go over the communications and report back to the convention.

LABELS.

The Sixth Annual Convention of the California State Federation of Labor authorized its Executive Council to expend $450 for the advertising of the various labels during the year of 1906. Your Executive Council has not expended that sum, because of the catastrophe of April 18, which had a tendency to demoralize a great many of the trade unions, especially in San Francisco. For several months it was impossible to determine with any degree of accuracy as to how many unions would be affected financially or otherwise, on account of the great amount of money that was being paid out by the trade unions for relief purposes to their individual members and it was only during the last two months, November and December,
that the Council could tell just how much per capita tax was going to be paid in by the affiliated unions.

A few months after the fire the treasury of the Federation had decreased to about $500, which sum would not be any more than enough to carry on the convention. The great amount of organizing work that was ahead of us, the Executive Council deemed it advisable to leave the advertising of the labels in abeyance for the time being. We did send to the A. F. of L. for 1000 Label Bulletins, which were issued by the A. F. of L. and distributed the same throughout the State. This particular work of advertising the labels should be carried on more extensively during the year of 1907.

Previous to the fire considerable advertising of the labels had been already accomplished and an elaborate system had been laid out for advertising the labels of the various unions, to wit: Broom Makers, Garment Workers, Glove Workers, Laundry Workers, Flour and Cereal Mill Employees, Hatters, etc.

CHILD LABOR LAW.

During the past two years the Bureau of Labor Statistics has made the Child Labor Law fairly effective throughout the State, especially in the larger cities. To do this, it was necessary to force suits through the lower courts, the Superior and Supreme Courts. About nineteen arrests have been made throughout the State, especially in San Francisco, Los Angeles and Oakland, convictions being secured and fines imposed in almost every instance. More than 5000 children have been returned to the schools as a consequence.

In the general work of the Bureau including child labor, upwards of 5000 establishments have been visited by the Commissioner and his aids and detailed information obtained covering rates of wages, hours of labor, sanitation, etc., and definite knowledge concerning the proportion of females and children employed in the different industries through all parts of the State, and in every instance where violation of existing laws was discovered such action was taken as was necessary to bring about the proper conditions. The results of this work together with many other details outlined by statute, such as statistics on employment agencies, over which this Bureau is given jurisdiction to a limited extent, can be found in the Twelfth Biennial Report, now about to be issued.

The Bureau has also been able to bring about a satisfactory arrangement in two or three hundred instances, where men were unable to obtain small amounts of wages to which they were legally entitled, employment agents who had sent men out to work under false or misleading representations, have been made not only to disgorge the fees already collected, but also to reimburse the men injured, the total amount of their traveling and other expenses, amounting in the aggregate to several hundreds of dollars.

All of this work, however, has been performed in an unsatisfactory manner, in that it lacks completeness, owing to the limited force of help that is allowed the Commissioner. We are decidedly of the opinion that the statute creating the Bureau should be changed to read that six special agents might be employed instead of three as at present and an appropriation commensurate with the increased staff should be allowed, much more satisfactory results could be obtained, and there is nothing unreasonable in this request, the population of the State having doubled since the present arrangement became operative and we should still be far behind by comparison with other States of similar conditions.

AMERICAN FEDERATION OF LABOR, POLITICAL CAMPAIGN.

The lobby maintained at Washington for the purpose of securing legislation beneficial to organized labor has been treated in such a manner by the representatives of the American people as to arouse
the American Federation of Labor to the necessity of organized political action. President Gompers and the Executive Board have come to realize that labor cannot secure all they seek without uniting politically, commercially and otherwise.

On March 21, 1906, the organized labor unions through the duly authorized representatives, presented a bill of grievances to President Roosevelt, Senator Frye, President Pro Tem of the United States Senate, and Speaker Jos. Cannon of the House of representatives. This document contained the recital of the following subjects which are so essential to the welfare of the laboring people: "Eight-hour law, convict labor, immigration, Chinese exclusion, seamen's rights, ship subsidy, trust and interstate commerce anti-injunction bill, committee on labor and rights of petitions and redress of grievances denied government employees." It is sufficient to say that the rebuke and rebuff the representatives of the American Federation of Labor received from the Senate and House of Representatives, and Speaker Cannon in particular, seems to have convinced the Council of the American Federation of Labor that if organized labor would have influence at Washington it must be a force in politics, and that force such as shall be known as tangible and certain. The reprimand administered by these government officials has at least raised the curtain of "no politics in unions," and brought to the foreground subjects whose consideration urges working men to cease being the slaves of either the Democratic or Republican party and vote with an eye single to their own interest and it is the belief of the Executive Council that careful consideration should be given to the political program as laid down by the American Federation of Labor and recommendations made to the affiliated unions along these lines, or if an improvement can be made whereby the Trade Unions can better their conditions by uniting politically the same should be done.

We have maintained at Sacramento a committee to lobby through labor legislation for the benefit of the Trade Unions, and it is high time that the trade unionists cease bending the knee and begging the Senators and Assemblymen to pass favorable upon such bills as presented, but to the contrary, demanded such legislation and be prepared to back the same up at the ballot box. The cry of "no politics in unions" is beginning to be looked upon with suspicion by the real and genuine trade unionists. We find that organized capital does not hesitate in promoting its interests and does promote its interests through class legislation. If we propose to fight organized capital we must fight with the same weapons and the same solid front that is used by organized capital.

BY-LAWS AS AMENDED.

The amendment to the By-Laws giving the Executive Council the power to employ organizers instead of electing a State Organizer has proven to be entirely satisfactory and the reports of the Organizers will show the amount of work accomplished along this line.

In securing the services of L. D. Biddle of Los Angeles saved the necessary expenses of transportation and the time required in coming and going, and when it is within the power of the Council to secure such Organizers there should be no doubt as to the results.

Your Executive Council was unable to get the A. F. of L. to bear a portion of the expenses of a State Organizer, whereby we would be enabled to keep the Organizer in the field the year around. If this could be accomplished, whereby an Organizer could continue in the field without interruption on account of the finances, we believe that it would be the best possible movement that could be made, for we find that if the organizations are not kept built up that they are apt to become disorganized through the lack of enthusiasm or prospects for the future.

Your Executive Council believes that if the Seventh Annual Convention of the California State Federation of Labor could place a
5-cent assessment for the month of January upon the affiliated unions said money to be set aside to be used only in organizing and advertising of the labels. This would amount to about $2000 in addition to what is already being expended each year for organizing purposes and the advertising of the labels. The unions affiliated would not miss the 5-cent assessment and would be so greatly benefited that it is our opinion that at the next convention it would be made a permanent law.

We suggest that this plan be given a trial for a year.

REPORT OF AUDITING COMMITTEE
1906

To the President and Delegates to the Seventh Annual Convention of the California State Federation of Labor:

Gentlemen:—The Auditing Committee submits the following report:

We have this day examined the books, accounts and vouchers of the Secretary-Treasurer from April 30th to December 28th, 1906, and find the same in excellent shape, and all expenditures and receipts correctly accounted for. Owing to the late calamity which overcame the city of San Francisco, and the loss of valuable records, etc., belonging to the Federation, we think the Secretary-Treasurer has done splendid work, and is to be highly complimented for the same.

(Signed) A. M. THOMPSON,
GEO. W. LANE,
GEO. W. BELL.
REPORT OF SECRETARY-TREASURER

1906

To the Officers and Delegates to the Seventh Annual Convention of the California State Federation:

Brothers:—I have the honor to submit to you a report of the receipts and expenditures for the last eight months beginning April 30, 1906, and ending December 27, 1906. It is with satisfaction that I report at the time of closing the books on December 27, 1906, $1,909.39 on deposit with the City and County Bank, San Francisco.

I received the books from my predecessor on January 8, 1906.

The officers and delegates to the Seventh Annual Convention may readily understand the duties imposed upon your Secretary-Treasurer during the year of 1906, because on April 18th all of the records, books and accounts were destroyed by fire. Upon opening offices at 835 Webster street on April 30, 1906, my first duty was to secure the names and addresses of the secretaries of all affiliated unions. This was an endless task, as I was unable to secure a mailing list that was anywhere near being accurate.

The numerous duties imposed upon your Secretary-Treasurer by the Oakland Convention in regard to sending resolutions, etc., had all been complied with before April 18th. One of the most important duties was the securing of the names and addresses of the various judges in the State of California who had issued a writ of injunction against any trade union curtailing in any way their constitutional rights. A communication prior to April 18th had been sent to all of the trade unions in the State and a great many replies had been received giving the desired information. This was also destroyed, and the expenses necessary to gather this data again and the time required was considered too great in view of the great amount of work necessary in San Francisco and vicinity in building up the organizations which had had their members scattered because of the earthquake and fire.

Another one of the duties laid down by the Oakland Convention was the advertising of the various labels to the extent of $450; some of this work had been accomplished prior to the fire, and it was only during the last two months that your Executive Council could tell with any degree of accuracy as to how the finances of the Federation would be; therefore, the advertising of the labels was not carried on as extensively as would have been done had not the catastrophe occurred.

In order that the delegates to this convention may have a clear understanding of the financial transactions since April 30th, 1906, I have segregated the accounts and give in detail the various receipts and disbursements under the several heads.

I would call the attention of the delegates to one particular thing, and that is the necessity of the affiliated unions keeping this office promptly notified as to the changes in the names and addresses of the secretaries.

CONCLUSION.

To the members of the Executive Council I owe a deep debt of gratitude for their advice and assistance in carrying on the business of this office. I wish to thank the officers and members of affiliated unions for the promptness in replying to the communications sent
out in behalf of the Printers eight-hour strike and the Santa Rosa
Unions involved over the "open shop" question.

I cannot claim that this report is as complete as it should be or
that it is even satisfactory to myself.

Respectfully submitted,

J. H. BOWLING,

REPORT OF THE LEGISLATIVE COMMITTEE

Sacramento, December 9, 1906.

To the Executive Council of the California State Federation of Labor:

Brothers—In reply to your request for a report from the Legislative Committee, I will say that my report will, of necessity, be brief.

As you are aware there was no regular session of the Legislature in 1906, and the special session, called by Governor Pardee, was for the purpose of effecting legislation deemed necessary owing to the great catastrophe of April 18, 1906, and was confined exclusively to the subject embraced in the call for same.

I will here repeat my recommendations made in report as Legislative Agent, to the Executive Council under date of March 30, 1905.

I am of the opinion that there should be one reliable man constantly on duty in each house, paid by our organization for their services, as it is too much to expect or ask of men otherwise employed to attend to these matters, nor can they give them proper attention if in other business at the time. It is enough for one man to look our for our business in one house only, and, as very often our agent will be needed in both places at one time, not to mention attention to committee work. I am further of the opinion that the Federation should purchase a copy of the California Codes for use at our next annual convention by its officers and the Committee on Law and Legislation, and that the same should be in the custody of our Secretary except when in use by the Legislative Agents at Sacramento.

In addition to the above I would recommend that one of the two parties engaged should be put in charge of the work and have full control of the services of his assistant, as one must direct matters so there will be no conflict of authority.

I would also recommend that the Executive Council have the selection of the agent and assistant, and that they be sent to Sacramento early in the coming session. They should be under instruction to forward all legislation in the interest of labor and defeat all inimical measures, paying particular attention to all matters specifically referred to them by the State Federation and the San Francisco Labor Council, provided the two bodies act together.

I think it would be wise for the Executive Council to take immediate steps toward acting conjointly with the San Francisco Labor Council and make arrangements for an equitable division of the expense.

I would suggest that, if possible, the two bodies secure the services of Walter Macarthur as Legislative Agent and provide him with a capable and congenial assistant; as this gentleman is, by long experience, favorably acquainted with hold-over Senators and re-elect Assemblies, by his sterling integrity and by his recognized ability (particularly in presenting measures before committees), peculiarly well adapted for this very important work.

In my opinion we will be fortunate if we can induce him to take the position.

It may be possible to employ an efficient assistant resident in Sacramento and thus save considerable expense.

Personally I shall do all I can to assist whoever may be put in charge of this legislative work and aim sure that Sacramento Federated Trades Council will lend all aid possible through its Legislative Committee.

The railway organizations and the Miners’ Unions should be kept in touch with, for, although not affiliated with the American Federation of Labor, their interests are identical with ours, and they can
be of weight with legislators from district where they are numerically strong.

Trusting my recommendations and suggestions may be given consideration and with best wishes for success, I am,

Fraternally Yours,

D. D. SULLIVAN,
Third Vice-President,

Following are the reports of the Organizers engaged by your Executive Council during the year 1906.

The reports speak for themselves and do not need any comment or explanation except that the southern trip laid out just before April 18 for Fifth Vice-President C. W. Holmquist and the sum of $125 advanced him for same was interrupted by the earthquake and fire of April 18. The rooming-house that Brother Holmquist resided in on Seventh street collapsed and he lost the $125, which he promised to return as soon as possible; this required the abandonment of the proposed trip at that time.
Santa Rosa and Petaluma Trip:

Report of Organizer on the Santa Rosa Trip—Under orders of the Executive Board I remained in Santa Rosa to use my best endeavors to settle the troubles existing between Lee Bros. Transfer Co., the Builders' Exchange and Organized Labor. I met with the Labor Council on Monday evening and after a thorough discussion of the situation it was decided to visit the merchants and business men for the purpose of using their influence with the various parties involved. Vice-President Caldwell was appointed by the Labor Council to assist me in this work, which he did to my entire satisfaction. I visited the merchants during the week, but in nearly every case found them on the side of the opposing forces; we then decided to interview the Hon. Mayor Overton. Brother Caldwell arranged for said meeting for Friday afternoon; met Mayor Overton in the rooms of the Labor Council and after a very pleasant interview the Mayor took the case under advisement until Saturday, 3 p.m., during this time he interviewed Lee Bros. and arranged for another meeting for Monday afternoon with prospects of an early settlement. We met Mayor Overton on Monday evening after his interview with Mr. Cooper and Lee Bros. Mr. Cooper was very agreeable to a settlement, but Lee Bros. emphatically stated that they would close up their stables before they would sign any agreement with the unions. This settled that phase of the negotiations. We then decided to arrange for a conference with the Master Builders' League. Said meeting was arranged through the efforts of the Hon. Mayor Overton for Monday evening at 8 o'clock; met with the Labor Council and requested that they await my return. In company with the Mayor we visited the meeting of the Builders' League and after a lengthy conference lasting until 11:30 reviewing both sides of the troubles and the repudiation of the Brower settlement, we finally agreed to disagree, as the League stood for the open shop and I stood for the closed shop in behalf of Organized Labor. I then reported back to the Labor Council the results of my conference with the understanding that the Council call a special meeting for Tuesday evening to decide on whatever course they wished to pursue. Tuesday evening the Council met in adjourned session and after several lively debates it was decided to call a mass meeting of all the union men of Santa Rosa for Friday evening, the Council to hold a meeting immediately after the meeting to take final action. Mr. Schad, who was President of the Labor Council and a member of Carpenters' Union, took it upon themselves to send for P. H. McCarthy to come up on Friday night, as he was afraid that the Council would call a general strike of the Building Trades. Mr. McCarthy arrived on Friday evening and met with the Carpenters' Union, until about 9:20, when he appeared at the mass meeting with the committee of one, Mr. Schad, and members of the Carpenters' Union. After addressing the meeting with his "pet stories" and a general roasting he retired to the Carpenters' Hall and met with said body until 2 a.m., leaving on Saturday evening for the city. This caused a general dissatisfaction, as the President of the Council did not remain to call said body in session, and Mr. McCarthy, ignoring the other unions involved in the trouble, as well as the representative of the State Federation of Labor which had been in the field for two weeks. On Monday evening, I met with the Labor Council, there being no definite action taken. Mr. McCarthy arrived on the 7:15 train and in company with Mr. Schad visited the Builders' Exchange, remaining with said body until 2 a.m., leaving
on the 6 a. m. train for San Francisco, after giving the press for publication that all labor troubles were off, that all work was fair in Santa Rosa and the slate wiped clean. This action caused a general dissatisfaction among the union men of Santa Rosa in as much as they were ignored completely, only the Carpenters' Union having been consulted and they were divided on the settlement, as there really was no settlement, except "go to work on any and all work," or in other words, "open shop." After consulting Vice-President Caldwell I wired Secretary Bowling of the matter and he came to Santa Rosa on Wednesday morning and after an all-day consultation with Vice-President Caldwell and myself we decided to let the matter stand as it was until the Labor Council decided whether they were going to accept the proclamation issued by P. H. McCarthy or remain under the guidance of the State Federation of Labor. This matter we left in the hands of Vice-President Caldwell. Secretary Bowling and myself left for Petaluma on the same Wednesday evening, Secretary Bowling returning to the city on Thursday morning. On Thursday morning I met with several members of the Carpenters and Painters and met with the Shoe Workers' Union, and on Thursday evening addressed said meeting, urging the formation of a Central Labor Council and they agreed to have their delegates meet on Monday evening for the purpose of forming said Council. I met with the Carpenters' and Painters' Unions and addressed said unions along the same lines, and prospects looked bright for the organizing of a Central Labor Council on Monday evening.

During my stay I endeavored to organize the Bartenders and Teamsters, but as the Citizens Alliance was still in the field my work was futile. On Monday evening met at Carpenters' Hall for the purpose of organizing a Labor Council, the only delegates attending were the Carpenters and Painters, the Shoe Workers, Plumbers and Silk Workers not attending. I concluded further time spent there was simply thrown away and an extra expense to the Federation, so I returned to the city on Tuesday.

This covered a period of time commencing February 26 to and including March 29, 1906.

During my stay in Santa Rosa I organized the Women's Label League, assisted the Bartenders' Union in securing new members and met and addressed the various unions meeting during my stay in Santa Rosa and also the placing of the four prominent labor leaders of Santa Rosa, Messrs. Seymore, Schad, Wolf, all of the Carpenters' Union, and Mr. Cozad, of the Teamsters' Union, in their true light before all Organized Labor in their city, as they proved to be traitors to the cause and were only working for their individual gain.

Respectfully submitted,

C. W. HOLMQVIST,
State Organizer.

CHICO TRIP.

After a week's layoff I was sent to Chico. Arriving in Chico I met with the officers of the Carpenters' Union and arranged for a mass meeting for Friday evening; during the meantime I assisted the Carpenters' Union in securing several new members, arranged for a meeting with the Barbers' Union, but as there were not enough members for a quorum it was declared off. Addressed the mass meeting on Friday evening, and after same started a nucleus for the Painters and a Federal Union; also worked among the Bar- tenders. During the week I sent for a charter for the Painters' Union and on Saturday I sent for a charter for a Central Labor Council. The Bartenders and Laborers could not see it to their advantage to organize. I dropped their work and visited among the Plumbers and arranged for a meeting with them, as they were
not holding meetings and were just about to collapse; after meeting with them on Monday evening they decided to hold regular weekly meetings. As this was about all that I could do in Chico at this time I returned to the city, after being away two weeks.

Respectfully submitted,

C. W. HOLMQUIST,
Organizer and Vice-President.

SOUTHERN TRIP AND SAN FRANCISCO AND VICINITY.

After a week's vacation the following route was mapped out by President Gallagher, Secretary Bowling and myself, which would have covered the following cities: Stockton, Bakersfield, Los Angeles, San Bernardino, Riverside, Redlands, Santa Ana, Los Angeles, Santa Paula, Ventura, Santa Barbara, San Luis Obispo, Salinas, Watsonville and Santa Cruz, then returning to the city. I drew $125 advance expense money and was to have started for Stockton on the 20th inst., but the disaster stopped everything; the building I was living in collapsed and burned up and I lost everything I possessed and barely escaped being killed. The trip was then declared off, after which I left for Sacramento. I was ordered back to the city to work among the Debris Workers in conjunction with Special Organizer Zant. I reported on the 19th of June and went to work in the city as per instructions of the Executive Board to try and organize the Debris Workers, Special Organizer Zant having been in the field the week prior found that the conditions had changed, inasmuch as the Laborers were receiving 25 cents per hour, instead of 17 cents, as during the past; this was through the efforts of Organized Labor. We then met with the Organizing Committee of the Labor Council and decided to work in conjunction with said committee; we then decided that to resurrect the old unions would do the most amount of good, as there were many who had not been able to get together and hold meetings, owing that their members were so widely scattered and halls being scarce. I then started to work among the Boat Builders, Boot Blacks, Paste Makers, Retail Clerks and Furniture and Wagon Drivers and the Debris Workers, and was meeting with excellent results, excepting with the Boot Blacks, as they were found without a leader, and so I could not do anything with them. The Laborers' Protective Union having agreed to take the various Debris Workers into their union at a nominal fee, and all those carrying union cards of other locals would be admitted free, I worked among them a considerable part of the time, urging them to join the Laborers' Protective Union, and a great many availed themselves of this opportunity. This brings the time up to June 30th. During the following week we worked among the Street Railway Construction Workers and held a meeting on Friday evening in the open at Twelfth and Market streets, and after addressing same, also Brother Zant, and after a general understanding with the workers it was decided to form a temporary organization, same being the order, and then temporary officers were elected, and another meeting was scheduled for the following Tuesday evening. During the meantime cards were to be issued in the Italian language, as many of the workers were from said country. The following day being July 4th, I spent outside of the city and returned on the morning of July 6th, when I found circulars had been printed calling for a mass meeting of the Debris Workers at Market and Van Ness, said bills being distributed among the various parts of the burnt districts. The meeting was presided over by Acting President Gallagher and was addressed by several speakers, among whom were: Secretary McCabe, Secretary Bowling, Organizer Melrose, Business Agent of the Laborers' Protective Union, Special Organizer Zant and myself, after which they were cordially invited to join the Laborers' Protective Union. Immediately after
the meeting the I. W. W. addressed the audience and urged all to join their organization instead of the one under the banner of the A. F. of L. Secretary Bowling and President Gallagher then deemed it best for the two organizers to work in Oakland during the following week, owing to the rumors that several organizations intended withdrawing from the Federation, and many had not sent in their per capita tax during the past six months. On Monday evening we met with the Central Labor Council and addressed same along various union lines; also in regard to the withdrawing from the Federation, same being referred to the Executive Board to be taken up on Wednesday evening. Tuesday evening we visited and addressed the Teamsters' Union, the main point being in regard to their withdrawing from the Federation. They claimed that they had never considered the matter in their union, but that owing to the existing circumstances of the Federation as to its officers they had not sent in their per capita tax. After some discussion it was brought out that the trouble was simply between their officers and Acting President Gallagher, who is a member of their union; we urged that they attend to their own members and not make the State Federation suffer on their account; same to be acted upon at their next meeting. We retired and met with the Street Carmen, who had a very good meeting; addressed same, urging the patronage of strictly union label goods and along the different lines of unionism. Wednesday afternoon met with the striking employes of the California Door and Sash Company in conjunction with the Building Trades Council; addressed same, urging their joining the various crafts of their profession and that as a body they remain under guidance of the State Building Trades Council; upon a rising vote it was unanimously decided to do so. Wednesday evening met with the Electrical Workers' Union and addressed same along the lines of advancing of the union labels. Thursday evening addressed the Cooks and Waiters on the lines of union shop cards and union buttons and the reciprocation by the purchasing of strictly union-made articles bearing the union label; retired and addressed the Ice and Soda Wagon Drivers, urging them to adhere more closely to union principles and patronage of the various union labels. Friday evening addressed the striking employes of the California Door and Sash Company in Building Trades Hall along the different ideas of true unionism; also called their attention to the fact that the officers of the I. U. W. were present for the purpose of causing dissention among their fellow-workers. Saturday was spent in trying to secure new members for the Soda Wagon Drivers and also urging several of the delinquent members to straighten up their dues, same proving to have good results. During the week I found very little dissention, excepting in the Teamsters' Union. On Wednesday evening the Executive Board of the Labor Council voted to send in its per capita tax, which was done.

I found while in Oakland that Organized Labor is in a stagnant condition, inasmuch as the meetings are very poorly attended, and I further believe that our visit during the week has been of great benefit to the unions of the city of Oakland.

Respectfully submitted,

C. W. HOLMQUIST,
Organizer and Vice-President.

REPORT OF T. E. ZANT.

To the Executive Council of the California State Federation of Labor:

T. E. Zant's Report of Work Done in Santa Rosa, Cal.—

Arrived in Santa Rosa April 1st, 1906; met with the Labor Council that night; discussed the situation with the delegates and re-
quested their co-operation in an endeavor to revive a healthy union spirit, and to maintain the solidarity of the Labor Council and State Federation of Labor.

Visited the unions as they met, had special meetings called of several unions with more or less success, except with the Clerks, who had not met for several months. Two called meetings only had seven members at either meeting.

During the daytime I would meet with active union men, and friendly contractors seek information, or discuss the situation and a possible remedy. We unionized three saloons and added several members to the Bartenders' Union, at $10 initiation fee. Installed a Women's Union Label League. Several members were added to the Federal Labor Union, Carpenters and others.

I went around with the Business Agent of the Building Trades Council; two days visiting jobs, getting applications for membership and incidentally to get him to see unionism as I saw it. Made a good impression on him, but just before the quake came I think Frank Schadt got him biased, as he got quite cold and broke an engagement with me.

I saw Brandon every two or three days after the first week; he had the brick stopped on L. W. Nagle's work, and I was watching all trains and Nagle's jobs to see if he should get brick from any new source and kept Brandon posted. This was having a good effect on the situation (hence McCarthy's butt in): as Nagle did the brick work for Krachendal, one of the largest contractors, and the smoothest and hardest fighters in the building business.

I soon discovered that Frank Schadt was very active in trying to nullify any effect I might have made; apparently that no settlement should be secured, unless his latest fad, the all-powerful and all-wise State Building Trades Council, should have the credit for it. He found fault with everything done, put all kinds of absurd constructions on what was said; would withhold information and go about poisoning people's minds, making tirades of abuse of every one coming from San Francisco, except P. H. McCarthy; would say they did not want or need anybody sent from San Francisco; that they were competent to take care of their own business; that it was an insult to them to send men there to supervise them.

That we fellows just wanted a good, fat, easy job, and spend the hard-earned money they had contributed to the State Federation of Labor going around the State. He had some followers among them—some of those that do most of the talking in the union.

Schadt had a habit of constituting himself a committee of one to call and see parties in advance of regular conferences, which caused more or less confusion. His whole attitude after I arrived seemed to be inspired; it was in many respects verbatim of what I have so often heard in certain quarters in San Francisco. I came to the conclusion that his influence must come to a stop, or it would not take long to completely divorce the building unions from the Labor Council, and that it had better come soon (if it must come) than by a slower process.

Being satisfied that I could outwit him I started after him; so I went to the Carpenters' Union meeting Friday, April 13th, and read an extract from his letter of March 28th to the San Francisco Building Trades Council, assailing E. Brandon and others, in which these words were the climax: "From what I had read and learned concerning the success of the Union Labor Party in San Francisco I had hoped there was no more room in the labor unions for that old time knocker and despicable moral coward with a blasted intellect and a degraded heart hidden beneath a smiling countenance, but like the poor, they will always be with us. C. F. Schadt."

I talked to them of the necessity of confining their activities to the authority given by the union in session, and that one-man power would lead to trouble and discord; that the time to stop it
was in its beginning. Schadt's friends raised a commotion; he raised a point of order, and questioned my right to come into their meeting and talk that way; all kinds of obstructions were resorted to.

I stopped and asked for a motion to decide whether I should proceed; the motion was carried to proceed, only six voting against it. It was lively for the next half hour. After we were on the street, near midnight, Schadt tried to get me in a row, which I avoided; two days after I learned he was going to strong men in unions and getting them to favor withdrawing from the State Federation of Labor and the Labor Council.

Then I got to work to find stronger men to counteract those influences. After talking with several friends contractors we had partly arranged to organize a legitimate builders' association, so as to put that so-called exchange in its true light as a Citizens' Alliance organizations; the greater part of its membership had nothing whatever to do with building business.

On April 12th P. H. McCarthy came to Santa Rosa at 10 a. m. and left at 4 p. m.; was in conference with Schadt, Wilson, Hoyt and Sullivan; he got into a great rage about the forming of a builders' association. He wanted (very emphatic) to deal with the Exchange.

He got them to agree to call a meeting for the next week to consider a proposition to be sent by him in writing; these friendly contractors thought we had better wait until we saw what would come out of it. In conference Mc said Nagle had done right in employing scab bricklayers when union men would not lay brick hauled by a boycotted firm. That he (Mc) would not allow any D—— S—— to dictate to him who should do his hauling. At this stage the earthquake came.

Talking privately to some of the union men the afternoon of the quake, I said to them, in my opinion, if they were reasonably diligent in their union work as the business affairs adjusted themselves, all differences would be corrected. I heard during the day that some of the worst fighters said, "Now we must forget the past and all work together." At 4 p. m. that day I took the train for San Francisco.

The following named persons I investigated and recommended for benefits, and checks were issued to them:

| Teamsters' Union                       | $25 00 |
| Carpenter                              | 5 00   |

REPORT OF T. E. ZANT—SAN FRANCISCO AND VICINITY.

San Francisco, Cal., July 15, 1906.

To the Officers of the State Federation of Labor:

Brothers:—Starting out in the early part of June we found a great many of the smaller unions that had not got into working order since the shakeup. Our first effort was to get some system in the work of clearing out the debris.

A mass meeting was not largely attended, but the efforts caused considerable notice in the daily press and many thousand dodgers were posted up and put into the hands of workers. These and the efforts of the central bodies, together with the State Labor Commissioner's office, had the effect of completely changing the grinding attitude of the employers in this class of work, while the immediate effect on the men, so far as organizing, was slight. It had a good educational effect, as is shown by the success of the Business Agents of the Laborers' Unions, in controlling the work and organizing the men. In an effort to get into action those unions that had neglected to hold meetings, I hunted up men and women whom I knew had been active members and urged them to get after their members and get together. Among them were the Broom Makers, Bottle Caners, Baggage Messengers, Glove Workers, Soda Water Bottlers; spent considerable time and failed to find the Metal Polishers; spent one day and night with the Cemetery Workers, Leather Workers on Horse Goods, Tanners, Press Feeders. The Wool Sorters and Graders I found had gone to other points for the season, only one working in the city; Piano Drivers and Helpers. Went around to most of the stables and called the Stablemen together; they are getting on nicely now; Ship Scalers, Cloth Hat and Cap Makers, Slack Barrel Coopers, Journeymen Horseshoers. Some of these had been holding meetings, but just sort of dragged along.

The last week we spent in Oakland, visiting two or three unions each night until Saturday night, on which night there was no union meeting that we could reach, so we discussed with individual members about the three headquarters. We think we were able to get some of the Oakland people to see some of their mistakes and come to better conclusions.

Respectfully,

T. E. ZANT.

Report of work done in the South by L. D. Biddle, continued:

I arrived home from San Diego yesterday noon. My report gives the amount of work done, but I thought I would give you my impressions of the movement in the Southland.

Los Angeles, San Diego and San Pedro (except for the Longshoremen's and Sailors' strike) are in fairly good condition, still there is room for improvement. The other towns need much organization and awakening. I failed to find one good organizer, or even a good organizing committee in all my travels. Many small towns could be organized with some work. I found out that Santa Barbara is in very poor shape; a few days would be useless; much work is needed.
in San Bernardino. They are waiting for a settlement of the Santa Fe strike. The Women's Label League in Los Angeles and San Diego are splendid organizations, doing good work in their locations. I find quite a number of locals claim they never received a bill from the State Federation, new Secretaries coming know nothing about being affiliated.

I think a general appeal to all organizations for support for the State Federation on the grounds of the great loss to our organizations on account of the fire and earthquake in the North would meet with a hearty response. They should be invited to affiliate with the State Federation by letter which would receive some attention. My addresses have been well received, but very few have taken action; the press of business has caused it to be overlooked. Before I close this letter I went to the Labor headquarters and there I find your two letters—one with a check for $50 (thanks), and one for an extension of time for two weeks. Thanks again. I have quite a lot of work mapped out for Los Angeles and hope for good results. I remain,

Fraternally yours,

L. D. BIDDLE.

The following is a report for the two weeks from September 24 to October 6—12 days:

This time has been devoted to seeing the Milk Wagon Drivers, Milkers, Hack Drivers, Bakery Drivers, News Boys and Ice Wagon Drivers.

The Ice Wagon Drivers and Milk Wagon Drivers have organized and charters have been applied for. I have attended the following meetings and addressed them: Laundry Workers, Machinists and Pressmen, Leather Novelty Workers, Bartenders, Miscellaneous Trades Council and the second meeting of Icemen. The Milkers' and Dairymen's meeting was a failure; only four present; will try again. I have arranged for meetings with the Hack Drivers and Newsboys.

I made one trip to Redondo; after a talk with some of the boys there it was thought best to wait a while as the place is filled up with boys from San Pedro, who are on strike, and they are willing to work for whatever they can get at Redondo.

COMPLETE REPORT OF ORGANIZING WORK DONE IN THE SOUTH.

On Friday, August 18, 1906, I received a commission as State Organizer for four weeks, which was extended from time to time to November 1, 1906—in all ten weeks. I made short visits to Long Beach, San Pedro, Pasadena, San Bernardino, Riverside and seven days in San Diego. The most of my time I worked in Los Angeles. I have visited and addressed over forty unions. A number of the unions have affiliated with the State Federation. The following unions were organized: Ice Wagon Drivers, Milk Wagon Drivers of Los Angeles, and Machinists of San Diego.

The Milk Wagon Drivers were forced to leave their union, but they received a $5 per month increase in wages. The Ice Wagon Drivers and Machinists of San Diego are splendid organizations and in first-class condition. Several open meetings were held, which resulted in an increase of membership. Efforts were made to organize several other crafts, which were not successful. On November 1 I started to work for the A. F. of L. for five weeks. During this time I have visited a number of unions and addressed them on organization and organized the Elevator Conductors, Machinist Helpers and Asbestos Workers—all of Los Angeles. As a rule the unions in Los Angeles are in good condition. I find there are at least one hundred
crafts and callings still unorganized in Los Angeles. There is still a large amount of work to be done in other towns in Southern California. I understand that San Diego is coming to the front and San Bernardino is reviving. I would urge every union to hold frequent open meetings. I desire to thank the brothers and sisters for their kind assistance and urge them to keep up the good work.

Respectfully submitted,

L. D. BIDDLE,
Special Organizer.

The Woodsmen and Sawmill Workers of Eureka requested the assistance of the California State Federation of Labor in organizing and building up the Woodsmen and Sawmill Workers of Mendocino County, etc. Brother M. L. Owen was employed as Special Organizer for that purpose.

Following is Brother Owen's report:

REPORT OF M. L. OWEN.

On September 26 I left Eureka for Camp 5 per instructions from the Executive Council of the California State Federation of Labor through Brother Pape, President of the Woodsmen and Sawmill Workers, Local No. 2, of Eureka, and arrived in West Port on Saturday afternoon and interviewed some of the men last night. I have seen a greater portion of the men about town and they seem to think it will be a hard proposition to do anything unless Fort Bragg makes the start. One of the reasons of their failure before was that too many outside men were in control of the unions. They took in saloon-keepers, bartenders, store-keepers and even v-e ex-Justice of the Peace, who was an open advocate of the Milling Company, and then they drew on their funds to start a labor paper, which went down. Now, my plan would be to start the locals in each port of men who live there all the time. When the camps start up in the spring a local man cannot do anything with these men; it has got to be an outside man. The State Organizer can do good work here all next summer; the Woodsmen’s Union must keep a man in the country from April until July or they will go on another wild-goose strike as before. I will leave here Monday for Fort Bragg. I find the conditions here (Fort Bragg) are not altogether hard. I find a pretty good union feeling here, but they all seem to be afraid to express themselves in public. The only bad actors are the young Americans; the foreigners are strong for unionism. On account of the Fort Bragg strike being a failure it will take some time to get them lined up and I do not think the State Federation of Labor can spare the funds to keep a man here for any length of time. I think it would be a good plan for the Executive Council to request the A. F. of L. to help us out. They requested me to do what I could to stop the I. W. W. and now they will send an Organizer here like they did when I was organizing Humboldt County and I think if they want us to organize they had better help us and help us quick. There are but a few I. W. W. men here at present. I am writing to President Gompers by this mail about this county. I will state that I have great hopes of having a Woodsmen’s Union by next Sunday, also the Carpenters, Longshoremen and Painters, and will have to organize a Trades Council. It might seem a long time, but things are in a bad condition here. The last Federal Union they had here was composed of (so I am told) saloon-keepers, politicians, etc. You understand the Union Lumber Company is placing everything it can in my way, but I have invited the President of the company to attend our first meeting. I hope to convert him; if not, will have to get along without. I am receiving good encouragement from the Woodsmen and Carpenters; the Barbers are going to be hard to organize, because they are all, with one exception, shop-owners, but I think they can be brought to time.
I arrived from Alpine on October 18. Alpine is the station at the end of the railroad and the nearest place to Venion Lumber Company's wood camps. All of their men have been notified that if they were seen talking to me they would be discharged. There are lots of union men (at heart) here, but they are afraid to come out and show themselves. The only way to fix this place is to surround it with unions. I had a hall engaged for next Saturday night, but just got notified that they did not consider it safe for a large crowd on account of it having been shaken by the earthquake. The men who promised to assist me (about sixty-five or seventy) have commenced to turn back, showing the influence of the company is very strong. There are two men always on my trail. Now, considering all these things, what would you advise? It can be organized, but it will take time, and the question is, "Can the State Federation of Labor afford it?" I think it is more of an A. F. of L proposition; still I will do the best I can until I hear from you.

I left Fort Bragg last Saturday, October 20, as soon as I received your letter and made arrangements with my men there, so I can keep in touch with them. The company promised the men $5 per month increase and ordered them to have nothing to do with me.

Respectfully submitted,

M. L. OWEN,
Special Organizer, Northern California.

The Sixth Annual Convention of the California State Federation of Labor called particular attention to the Sugar Workers at Crockett and that an effort should be made to organize that craft. Brother Wm. G. Rusk was employed by the Executive Council for that purpose and sent to Crockett and hereby reports as follows:

REPORT OF WM. G. RUSK, SPECIAL ORGANIZER AT CROCKETT.

To the Executive Council of the California State Federation of Labor:

Dear Sirs and Brothers—At the request of your General Executive Board I visited Crockett on Monday, August 13, staying over the following day for the purpose of trying to organize the Sugar Workers working in the mills of that town.

On my arrival I visited Brother Fox of the Warehousemen's Union, who referred me to a Mr. Clarence Smith, who informed me that the Sugar Workers had been organized previous to April 18, 1906, and had received a charter, books, etc., from their International. Since then they were almost out of existence through the members being discharged or having quit their positions, and having left town, their places being filled by Greeks, Italians, etc.—a very undesirable element even to the business people I met, and who are in full accord with the idea of a union being formed among the six or seven hundred workers in the mills, but think it almost an impossibility, as the white men will not stay any length of time under the existing conditions. They sometimes work only long enough to make enough to get out of town. Mr. Clarence Smith referred to above was the Secretary of the Sugar Workers, but lost his position in the mills, and is now in business in Crockett.

In conjunction with Brothers Lewis, Edwards and Fox we planned to call a meeting for the following night, but owing to non-attendance and the little interest displayed among the Workers themselves the meeting was not held.

Not being conversant with the Latin language I did not deem it advisable for me to go to any further expense, so I left Crockett crest-fallen, feeling my humble efforts in behalf of the Sugar Workers of Crockett and the California State Federation of Labor were of no avail.
During my visit the Warehousemen had made an appeal to their employers for an advance in wages and had received the same.

Respectfully submitted,

WM. G. RUSK,
Special Organizer.

A committee from the Glove Workers, Local No. 17, appeared before your Executive Council and requested that we send a Special Organizer to Alameda County to organize the Glove Workers. The request was complied with and Fifth Vice-President C. W. Holmquist was instructed to put in one week and endeavor to organize them. We afterward found it necessary to employ Thos. J. Mahoney, President of Local No. 17, to do the work.

Following is Brother Mahoney's report:

The Glove Workers of Alameda County made a request for an Organizer to assist them in building up their local. T. J. Mahoney, President of the Glove Workers, Local No. 17, was selected to do the work or secure someone who was familiar with the duties, etc., of the Glove Workers. Mr. T. J. Mahoney reports as follows:

We held a meeting of the Glove Workers on the 30th ult., and November 4, 1906, organized a local, electing temporary officers. I sent for the charter on the 31st ult. There was not a very large attendance at the meeting, still four factories were represented and all signed the roll. They have some good workers in the new local and ought to get in all the Glove Workers on this side in a short time.

I herewith inclose a list of expenses, which is $12.70, and I hope my International will share with the Federation.

Fraternally yours,

THOS. J. MAHONEY,
President Local No. 17.
