IMPRESSIONS OF BLOODY MONDAY

By Ray P. Comeau

One of the dummies who almost didn't get the word at all, until too late, it was 9:30 or so when I finally flipped on the TV tors washing out their eyes in the Civic Center Plaza pool. I'd been out earlier and was, I thought, ready to settle in for the night. When I heard the TV newscaster report that ". . . thousands of Gays assembled at City Hall protesting. . .," I rushed to the closet, listening as I dressed, the full shock hitting home only when the ver-dict of voluntary manslaughter for Dan White was mentioned by the TV commentator.

The ruling was narrower than had been hoped, but the court said plaintiffs could pursue their claims against the phone company in court. At the same time, the court refused the plaintiffs' request that it rule the state's Fair Employment Practices Act against discrimination on the basis of sex also include sexual orientation.

In ruling for the Gay plaintiffs the court pointed to the equal protection clause of the state Constitution which states, "A person may not be deprived of life, liberty or property without due process of law or denied person may not be deprived of far-reaching despite the nar-rowness of the ruling. They ducked and danced when things got lobbed at them over the heads of the crowd. But you couldn't see their faces. They all looked alike. They all looked like Dan White must have looked when he had been a cop. They were symbols. Symbols of what?

People in the crowd shouted: "Fascists! Fascists!" as the line of Riot Cops swelled outward for a brief moment when one was struck with a piece of flying debris. Uneasily, they fell back into their even

I moved away, weaving along through the crowd, each of whom — while part of the whole - seemed strangely alone out there, disconnected.

I crossed to a small grassy place at the front of City Hall to the left of the front doors. I hopped up on the wall to get a better view. trashcan down, backed off and then hurled it back up onto the roof of the car. Everyone whooped with delight. The Riot Cops seemed to turn and make a vague movement towards the car. Or did I just imagine it? It was quick, whatever it was, and the roar of fury from the protesters who had also sensed it, following as it did immediately after their joy at the trashcan tossing, forced the cops back. They resumed their stone-like position, nightsticks held protectively in front of their bodies.

Some of the more energetic demonstrators now began kicking the car, knocking dents into the sides and doors. Someone smashed through one of the windows, then another. Someone lit something and threw it into the car. Grey smoke drifted softly out of the broken windows. Then flames erupted as the back seat ignited. Roar of approval. Applause.

I slipped down off the wall. A new flurry of things being thrown against City Hall accompanied the burning of the car. I spotted an empty wine bottle in an open space between the bushes. I lifted and threw it, then moved away quickly. (A small gesture on the part of an otherwise devout

It was psychiatric testimony that made it possible for Dan White to get away with the cold-blooded murder of George Moscone and Harvey Milk. It was psychiatric testimony that established Dan White's "diminished capacity" defense and allowed him to get off with a mere slap on the hand. On Tuesday, June 19, Bay Area residents will have the opportunity to hear Dr. Thomas Szasz speak out on the Dan White verdict. The author of such books as Psychiatric Justice. The Myth of Mental Illness, and Law, Liberty and Psychiatry, Dr. Szasz is widely recognized as today's leading critic of the role played by his own profession -psychiatry - in criminal cases. He has spoken out vigorously, in hundreds of articles and interviews in magazines, newspapers, and legal, medical and psychiatric journals, against a system which routinely permits both involuntary imprisonment of the innocent and speedy exoneration of the guilty, on no basis but the say-so of psychiatrists playing "expert witness." For years he was one of the leading psychiatric opponents of the American Psychiatric Association's labeling of homo-

sexuality as a "mental disorder." Come

and hear this noted critic on the Dan

White verdict.

Thomas Szasz Speaks Out On The Dan White Verdict Tuesday, June 19, 7:30pm Mission H.S. Auditorium At Church and 18th Streets Admission is Free Also featuring Supervisor

Carol Ruth Silver*, Ed Clark, Bart Lee, LP candidate for District Attorney; and others.

"While White pulled the trigger on the gun that killed Moscone and Milk, American psychiatry pulled the wool over the eyes of lawmakers and journalists and the public, leading to the courtroom scenario of psychiatrists lying through their teeth and having their lies legitimized by the court as 'expert medical testimony.'

"On Mondays, Wednesdays and Fridays the psychiatric liars first go to court incriminating the innocent: that is called 'civil commitment.' On Tuesdays, Thursdays and Saturdays the same liars go to court exonerating the guilty: that is called a psychiatric defense. The lawmakers, the judges and the attorneys for both sides all shamelessly use these hired liars, which is why each of them is as reluctant to expose and demolish the psychiatric defense of the guilty as to expose and demolish the psychiatric incrimination of the innocent. For decades, the homosexual has been the psychiatrist's favorite scapegoat. American psychiatry's true feelings about the homosexual showed its ugly face once more in the trial of Dan White. Let us hope that the White affair may arouse the sense of justice in the gay community in America and in the hearts of all those who sympathize with their victimization."-Thomas Szasz

At the corner of Turk Street, other people are walking and running up Polk. A man supports a woman whose shoulder has been injured. My bladder is aching. I unzip my wornout, seat-ripped cords and piss out over the edge of the roof, out onto the City, watching the black smoke flattened against the night sky beyond and wishing in my heart that City Hall had also burned - a giant torch to show the disgrace of a place where trust and justice that day had died.

Viewpoint The Afterburn

We will witness over the next weeks and months two not unusual phenomena: the whitewash and the back-

Every official involved (and even those not involved) in the Dan White farce and Bloody Monday will employ every and any device to wriggle off the hook or make political hay out of the episodes. A D.A.'s career is on the ropes as is that of the Chief of Police. And America's Sweetheart is sporting her first political shiner. The POA will muddy the cesspool to both snuff the Chief and cover up for their own members' misconduct. Out of the bloodbath will ooze the bullshit bath. And we will all play the game. Gays included.

And if anyone thinks the Mayor's smokescreen committee will ever find her partly responsible for May 21 think again. If it has taken the multiple white-ribboned Kennedy Committee only 18 years to explain his assassination, what are we to expect from 60 days.

The same events will also encourage our enemies to bare their fangs and go for the jugular should they sense the Gay community is vulnerable. The tactic will be fear: "The Gays are out to take over your city." Homophobe rhetoric will become respectable, and we will be targeted for every civic ill from alcoholism to housing. With each new slur, a hundred more will be hissed.

Neither coverup nor counterattack should surprise us not deter us. The Gay human rights movement has

The picture is not all that bleak. The standing firm has solidified the Gay community as never before. We have demonstrated we are no paper tiger. We have demonstrated we can be peaceful and rational and fun-loving (which we all prefer). We have demonstrated we can fight back and be irrational and ugly if pushed too far. (We have demonstrated both within a 24-hour period.)

Over the ensuing months we can make striking advances - as the hack politicians fall into disarray and our enemies flaunt their intolerance.

VIOLENCE UNDERSTANDABLE TO LEFT

* The verdict in the Dan White trial serves notice that it is now open season on Lesbians and Gay men in San Francisco. When defense attorney Schmidt said that "good people from good backgrounds don't commit murder," he should have added that when they do, they get off with a slap on the wrist. The jury's decision makes it clear that if you are from a 'good" background, meaning that if you are white, neterosexual, middle-class and male, you are not subject to the same laws as everyone else.

Monday night's violence did little except to vent the considerable rage and frustration in the Gay community. But it is not surprising that the Gay community finally erupted over this insulting and outrageous verdict. Perhaps if someone had been able to put those feelings into words at the demonstration, rather than the same old platitudes about working within the system and being tolerant and loving, a riot would not have occurred.

In the face of escalating attacks against not only Gays, but women and minorities and workers as well. in the face of a growing right-wing movement in this country which is out to demolish every movement for social change, the liberal leaders of the Gay commu nity still preach business-as-usual Democratic Party politics, compromise and deals with our enemies.

The capitalist system depends for its survival on the oppression of Gays, minorities and women. Gays, particularly, are seen as a threat to the nuclear family Dan White stood for everything that is oppressive and exploitative in this society with his well-known hatred for Gays, blacks and liberals. The Gay movement must make common cause with other oppressed groups and build a united front against reaction so that there will be no more Dan Whites

* * * * * THE INJUSTICE OF WHITE -

* The problem with the Dan White verdict is not how shocking it is but rather how expected, how predictable. We've all seen how the "justice" system has dealt with Patty Hearst, Richard Nixon. We've also seen how a Black man spends his life in prison until murdered there for robbing a gas station — George Jackson. Or how an Asian woman is still in prison for maybe renting a garage - Wendy Yoshimura. The INjustice of the Dan White verdict is something we're all too familiar with and our outrage with that injustice was vented on Monday night. Riots do not construct anything, but they do serve notice on a system that is simply intolerable.

We who are women, people of color, Gay, workers without money or connections know what our verdica would have been if it had been our trial. We know how we are found guilty and sentenced without ever seeing a courtroom every day as we are harassed, beaten, arrested in our own neighborhoods.

streets, in the fight against our right to abortion, in the rise of police brutality across this city, across this nation, and we know these are not isolated issues. The reactionary forces of the right-wing are on the move, and though they would pit us against each other (as they try with the "Gay speculators" myth as if most people weren't workers, as if most landords weren't straight, white men) we are not fooled.

We must see our survival in each other's struggles we must come together to fight for our rights. As we organize to take action, we cannot accept the liberal eadership of those who ask us to calm down. We must build and support a leadership who will guide and use our rage. We are the majority, the foundation of this country, and united we have the power.

* * * * **SALUTE TO HARRY BRITT**

* I want to make it clear that this is one Gay guy who is proud of Supervisor Harry Britt's comments and actions during the aftermath of that infamy known as the Dan White verdict and I believe Harvey Milk would agree with me.

For years homosexuals have been beaten, harassed, viciously abused in every conceivable way, dismissed from our jobs if discovered, occasionally ostracized by family and friends, blackmailed, and sometimes killed by punks, cops and "solid citizens." What happens when we come to civilized, sophisticated San Francisco? Often more of the same.

We have lived here entertaining tourists on sidewalks and streets, serving as waiters in chic restaurants, clerking, bell-hopping, and bartending in opulent hotels, rip-off bistros and cute boutiques so the City grudgingly tolerates us because economically it pays to do so. We are all right as long as we serve the purposes designated for us by the straight establishment here; as long as we know our place. Harry Britt and the angry, bitter men and women at City Hall Monday night were telling everybody, among other things, that we are not going to be the slave eunuchs of Baghdad by the Bay any longer.

As that All-American wonder killer Dan White said, "The gloves are off."

* * * * * PUNKS & PROTESTS

* Undoubtedly, the majority of people in the San Francisco Bay Area viewed the Dan White jury verdict with disdain. Equally frustrating to those in the Gay community (or the independent Gays) was the fact that the jury viewed the murder of Harvey Milk with less concern than that of George Moscone. Having different sexual preferences certainly did NOT make Harvey Milk less of a man or a person.

At this juncture we must recognize that the verdict is irreversible — unless it is determined that gross trial errors existed. But this will be a matter for the courts to subsequently decide

However, the actions of the punks in the streets CANNOT - and WILL NOT be condoned by the responsible people in the San Francisco Bay Area be they Gay, straight - or both

I was not present during the violent demonstrations which took place at City Hall - and subsequently in other areas. But, reflecting back on the anti-war demonstrations - I realize that violence is NOT always precipitated by the police. But, let's not forget that IRRESPONSIBILITY exists on both sides - on the part of the police and the demonstrators.

The actions of numerous people last night - and early this morning - have - unfortunately - set back the cause which Harvey Milk believed in. Unless I am mistaken, I felt that he believed in fairness, importantly, RESPONSIBILITY.

While I sincerely applaud the efforts of those who tried to maintain calm, I am disappointed with those individuals who let their emotions obscure reason. They did a disservice to the Gay community - and those straights who support the Gay community.

Harvey Milk would have been deeply ashamed

INJUSTICE

★ The injustice of our judiciary system was proven again, Monday, May 21, when the Dan White verdict was announced. In essence, we were told that if you are a white, straight male from a "respectable" background you can get away with murder.

As feminists, Lesbians, women of color and workers we realize that the Dan White case is only another indication of the right wing backlash that is mounting force in this country. Every day we are fighting for our rights, our lives, as another woman is beaten outside of or inside of women's bars, as abortion rights and the ERA go down to defeat, as affirmative action takes a nose dive with the Bahke decision. as pot shots are taken at the poor, as the Weber Case

The violence that erupted as a result of the Dan White case did little except release anger and frustration and demonstrate that we need to unite, to connect all of our struggles in our fight for equality.

WELCOME BACK CAMP

Paul-Francis Hartmann:

It's been a depressing week, so I was especially appreciative of the beginning of your series on Capri.

I still remember with pleasure your earlier series on Gay life in San Francisco in the forties and fifties. At the age of 40 I know that Gay liberation had beginnings before Stonewall, but many of my friends have little sense of such history. If you have not already done so, I hope you will present a copy of the San Francisco series to the History Room of the San Francisco Public Library; it should be available to a wider public than the readers of B.A.R. Thanks.

Matt Lowman

* * * * * **B.A.R. EDITORIAL**

* I was deeply impressed with your editorial on the City Hall riot that appears in the current issue of B.A.R. and I felt compelled to write and tell you so. Like you, I was there - and my reactions to the entire experience were identical to yours. Frankly, I never felt more assertive nor proud at being Gay.

I can still hear the cops sweeping through Civic Center and the surrounding streets shouting, "Get out of here, you fucking faggots!" Like you, I didn't throw any bricks physically - but my spirits soared with

At any rate, thanks for your astute and perceptive words. You hit the nail squarely on the head - we have nothing to apologize for.

(ED. NOTE: The B.A.R. office received scores of appreciative calls on the "Riot" editorial. It was written at 3:00am - my emotions still reeling from the events of Bloody Monday. Laying the paper out the next afternoon, I sense it as perhaps a bit overwrought. However, subsequent events have only reinforced my convictions. As the civic officials weasel, point fingers, and cover up - my Gay pride has magnified . . . P. Lorch)

DEPLORES RABBLE

* The verdict of Dan White is an unquestionable miscarriage of justice. His jury has informed the world that cold-blooded murder is now acceptable in San

As wrong as this verdict is, it does not justify the outrageous incident at City Hall, Monday, May 21. A few young punks that supposedly represent the Gay community took it upon themselves to wreck personal property without regard to endangering innocent people in the process. This behavior does not and will not help the Gay cause, and if a brick wall is suddenly placed between the Gays and the Straights, we have only these selfish punks to blame. They have tarnished the memory of Harvey Milk and George

I believe these young rabble rousers joined the parade from Castro Street to City Hall with the intention of being obstreperous, odious, and totally ignorant of what the consequences might be afterwards. Furthermore, probably most did not know why they were in the march in the first place, as this rabble is only concerned with "turning on" which doesn't give them time to read a newspaper. Most of them do not know what it was like being Gay in the terrible 50's. People like Harvey Milk and George Moscone have handed them their rights on a silver platter.

And to think that Carol Ruth Silver, a champion of human rights, had to be hurt in the melee.

Let us pray that the Gay community will not be linked with the troublemakers. Already the national news is saying that the homosexuals in San Francisco have caused "A Night of Fury."

I bow my head in shame for the few who have spoiled it for the many.

Dick Bumpus San Francisco

* * * * **OPEN LETTER TO THE MAYOR**

★ In view of the upcoming Police Officers Association vote of lack of confidence in Chief Gain, I am urging you to keep Chief Gain. Let's look at the motive behind this vote.

Many policemen want to see our city in a tight controlled context without obvious individual freedom (i.e., differences) expressed. They are willing to go so far to realize this goal that they support Dan White's murders of more progressive leaders, they have rioted in the Castro, and they would like to dump Gain in favor of someone who will let them brutalize our city to their liking. Well, Mr. Policeman, San Francisco did not earn the title of America's Favorite City by being boring and orderly. The city earned it with a rich history of individual expression

These policemen are afraid that through our various liberation movements (Black, women, Gay) that one group will get ahead of another. The point is not to turn back the clock on everyone, but to learn by example so that everyone gets ahead and becomes

I have spent years observing who is happy, who is not, and why - especially in the context of rigid rules vs. personal choice. The answers are there.

* * * * * THE ASSASSINATION

★ An article on assassinations in the 2/19/77 issue of The Saturday Review forecasts the City Hall murders of Mayor Moscone and Supervisor Milk.

"Assassinations of national figures are not ordinary murders. When bullets distort or nullify the national will, democracy itself has been attacked. When a series of such events changes the direction of the nation and occurs under suspicious circumstances, institutions seem compromised or corrupted and democratic process itself undermined. It was Robert Kennedy's (also Moscone and Milk's) special gift that he understood the new realities of power in this country and could make people believe that if they roused themselves to the effort they could reclaim

"Perhaps that helps explain why the pain of his (their) loss remains so great after so long a time."

He had damned well better; the guy will be finding out soon enough how really desperate his campaign is. One wellintentioned Gay man told me last week that he is still supporting Joe because "Freitas is learning by his mistakes." My question to that man was how many mistakes is the guy entitled to? How many scandals is the D.A.'s office allowed? How many Wheaties fiascos? How many scandals by members of the District Attorney's own staff? How many People's Temple foul-ups? How many "redlight abatement" schemes? And then, of course, there is the matter of the Dan White

The District Attorney told some of us at the time of Harvey Milk's funeral that he, Joe Freitas, would personally try this case. Instead, Freitas ended up putting up his "best man available," Tom Norman, on the case and let Norman be made a fool of by a slick young lawyer while the District Attorney was off doing male fashion shows on local television stations. At the very Mayor, has announced she least, Freitas should have been had withdrawn her support for calling the shots at that trial; and if he claims that he was really in charge, then he must be held responsible for the incredible results.

I covered that murder trial on a fairly regular basis, and it was clear from the start what was being put over on us. Clear from the very selection of the jurors. There were no Gays, no Asians, and no Blacks on that jury. I ask you, does that sound like a fair cross-section of this city — a town that is made up of minorities? I submit that the defense and the District Attorney's office wanted the jury to be lily white so as to move the trial along and get this damned business off the front pages after all, it is re-election time

There are a number of questionable areas: ask any Hastings law student; any one of them could have handled this better than Joe Freitas and his "ace" 19-year veteran Norman, that Freitas and Norman fell down on this case. First, the D.A. played into the hands of the defense by the could have used, but chose not to. Certainly had he exhausted all the jury challenges due him, he would have finally ended up with a Gay person or a Black person on that jury. But that might have taken a week or possibly longer and the D.A.'s office wanted no part of that.
The District Attorney and his "ace" failed miserably in the key issue of the determination of Dan White's state of mind. While Schmidt called for the defense a total of four psychiatrists and one psychologist. the District Attorney called only one so-called expert who was • LIFE & MEDICAL • LIABILITY • WORKERS COMP • BONO so inadequately prepared that

I met the man hell — and tell it to him loudly. many times, and White actually had trouble even looking you POLITICS & POKER... in the eye if he saw you going out of Milk's City Hall offices. White, of course, voted against Milk's Gay rights legislation on the Board - the only one to do so - and voted consistently against anything that even hinted at being pro-Gay; even against closing Polk Street for the Halloween celebration, although his beloved Police Department urged the closing. But none of this was brought out at the trial. It would have taken little effort to establish the fact that Dan White had a long record of being anti-

Another foul-up was the so-called "confession" of White; a confession obviously staged and directed by White's longtime friend on the Police Department, Frank Falzone. The tape had even the jurors crying along with the All-American Killer as it was played in the courtroom; and any observer could plainly see that the "confession" was doing nothing but aiding the defense. Would you believe that it was, of course, the decision of the D.A. to introduce that tape into the evidence — the next single most important item in establishing the emotional content of the case, and it was the centerpiece of the defense. It is hard to understand how Freitas could later complain about the verdict, saying that "the jury was swayed by a very sophisticated emotional appeal," when he himself was responsible for introducing that evidence. The jury (the jury, remember, that D.A. and the case he run against Scanlon next time presented to that jury. Brian Miller, a southern Californian counselor, presented to an annual convention of the American Psychiatric Association a three-year study of 50 Gay fathers. Miller found that Gay fathers find that their children accept their homosexuality but wives are upset when they get the news.

Said Miller, "Children feel their Gay father's openness and honesty about his life bring them closer." Miller's study molest their children, nor do they raise a disproportionate number of offspring who turn out to be Gay."

During the same symposium Dr. Martha Kirkpatrick, a teaching psychiatrist at UCLA, presented a study that compared 20 Lesbian mothers and their children with a similar group of divorced heterosexual mothers and offspring. Now that some of the dust has settled and I have had time to think and talk about the trial

and its repercussions, it has become clear to me that it is not just a question of who was on the jury, or which psychiatrists said what. The cause of our despair is that a cold-blooded, well-planned political assassination was tried as if it was a crime of passion.

Dan White was the only member of the Board of Supervisors who could be relied on to vote in favor of the Police Officers Association; the whitemale dominated, consistently reactionary organization that claims to represent the majority of police officers in this city. At the time that Dan White resigned his seat, the city was negotiating a lawsuit that had been filed by the Officers for Justice, the police organization that represents the minority officers, the National Organization for Women, and others. Dan White represented an important vote and, with his resignation, it became much easier for the more liberal members of he Board to settle the suit.

Moscone and Milk were key figures in the settlement of the lawsuit as well, and both favored a settlement that would bring more minorities and women into the police department, an anathema to the more fascistic members of the POA and its leadership.

Gay Runs in Austin

Of more than passing interest to Houston's large Gay community was the recent municipal election in Austin. Fred Ebner, vice-chair of the Travis County Libertarian Party, became the first openly Gay candidate to run for office in the capital city.

In his first race for public

office. Ebner was sponsored by Government Reduction League, an organization designed to promote a truce between liberals and conservatives and thus end their attempts to use "government to gain advantage over each other." The GRL was founded by Terry Parker who gained notoriety several years ago by establishing a clothing-optional/liberated environment apartment complex in East Austin. According to the University of Texas at Austin's Daily Texan, at his New Manor Apartments residents "may do anything they like, such as go naked, copulate in the swimming pool, smoke pot, etc., so long as they do not physically aggress upon one another.

Ebner, a UT graduate, class of 1950, with a Master of Arts in government from Yale. came in second in a field of four with 10.5% of the nearly 50,000 votes cast. This showing was achieved at a phenomenal cost-effectiveness of 2.8 cents per vote, far less than the nearly \$1 per vote spent by the incumbent in his successful reelection bid, and far less than any other candidate for council. The following is a speech that was written and delivered by Gwenn Craiy, Vice President of the Harvey Milk Gay Democratic Club, at the May 29 meeting of that club:

I'd like to talk about: when people are pushed to the wall.

In order to understand last Monday night, I think you have to understand that the Dan White verdict did not occur in a vacuum - that there were and are other factors which contributed to a legitimate rage that was demonstrated dramatically at our symbol of Who's Responsible, City Hall. each other, "Something is wrong; something is wrong."

Let's go back as far as Harvey Milk and George Moscone. I don't think I have to reiterate what their presence meant to us, and what their loss meant to us - and right here, when I say "us," I don't mean only Gay people, I mean all people who are getting less than they deserve - to all oppressed people in particular, to all San Franciscans as a whole, the assassinations of our friends Harvey and George were a crime against us all.

And then, at the same time that we were struggling to deal with our grief, and to analyze what changes would occur as a result of these murders, the results were coming in, in brutal detail. Attacks all too similar to the one that eventually killed our brother Robert Hillsborough, began and kept coming. And when we turned to our protectors, the police, they seemed at best as what could be described as "inattentive

And we began to hear of harassment by the police themselves as well. There was obviously an increased police presence on the streets of our neighborhoods, and people began to report that they were being unjustly hassled, and sometimes abused, and never treated with respect. And the police began appearing in our bars - officers that I personally questioned as to why they were holding up space at the door of Amelia's told me they were "just hanging out" — at the same time that punks were just hanging out, and looking out for some queers to beat up or stab.

And then our District Attorney turned his powers to harass us, to close some of our bars and businesses, under a seldom used weapon called 'red light abatement.

And there weren't many who didn't know of the famous Peg's Place Incident, where marauding off-duty police MEN pushed their way into a Lesbian bar, causing damages and injuries. The women at the door thought that the solution was to call on Who's Responsible, the cops — and they were told, "WE ARE THE COPS" - the message came through loud and clear.

And it took our mayor two weeks to say that something to show her support for our community, to show her outrage at what was happening in our community, and to be there for us - and NOTHING

Maybe some of you were there - numbers estimated in the hundreds. Our whistles brought those hundreds to the scene of what appeared to be yet another case of police harassment against one of our own. The paddy wagon came, and the police came in numbers with their nightsticks. The police pushed; the people pushed back. Chants went up — "Go Home! Go Home!" "Dan White was a cop!" "Dan White was a COP!" The police were turned away - that time. How must hey have felt to have been turned away by a bunch of dykes and faggots?

> The account of the mini-riot appeared in the back pages of the Sunday paper. One page one was a touching account of Dan White's fascination with Ireland's "terrible beauty" and the feature ended by saying that there were three vic-George Moscone, Harvey Milk, and Dan White.

Were the Ones Who Are Responsible seeing these things? Hearing these things? Were they listening to us? Were they reading the papers? Do they understand about people being pushed to the wall?

Do they know about Stonewall? Do they know what happened when a bunch of Puerto Rican drag queens and some other queers said "Enough"? When they came to close the Stonewall, it was only another Gay bar to be harassed, but to the people inside, they were being Pushed To The Wall. The rest is our history — Do they know our history? Do they understand the lessons

Do they know that this is only one year among hundreds of years that we have been treated as non-persons? We have a history of being pushed

I stood up and walked to the end of our terrace for a closer view. He was young. I continued down to the property's outer wall. He was sensational, and my stomach did a leap frog. Max spoke no English and I spoke no German so we had to make do with our smattering of tourist Italian and textbook French. I made out that he was a soloist with the Hamburg Ballet but worked mostly with several film studios. He was on Capri for the month with his mother and younger brothers. He had seen me before at the Cafe San Justo. We made a date to meet at midnight hoping by then we'd have satisfied our dinner obligations and shaken our respective families. I had landed my own, my first STAR!

The rest of the day I was half out of my head, at one minute cosy inside myself, the next flushed with expectation. My stomach bit back all through dinner; the minutes limped by. Back at the hotel in our room, waited for Livy's first sign of some bedtime preparations. I hid behind a magazine as first she chose to wash some underthings, then to rearrange her suitcase. Knowing if I mentioned anything about going out she'd be ready in a flicker, I kept a curious silence - while growing ever more anxious. When she had wound in the first hair roller, I made my move. "I think I'll step out for a breath of air. . .?" It sounded like Cary Grant in some 30's movie. What othere line was there? "I'm going around the corner for some smokes."

"Air?" Livia repeated, "at this hour? What's the matter with the breeze rushing through the balcony doors?"

The shore line was rocky and the water lapped against slippery ledges and eddied into crevices and back pools. There was an unpleasant seaweed smell. We sat for a while atop a large outcropping rock until it grew too chill and damp. Letting myself down, I slipped and scraped my right ankle on the razor-sharp barnacles. Max cut his hand. We moved into one of the gaping recesses along the shore. I pressed Max against the cavern's wall. Shortly he had to push me away, for water trickling down the wall began to splash on Max's shoulder and run down his back. I didn't mind too much because the golden STAR was reeking of garlic. Neapolitan garlic!

We walked along the beach, a bed of potato and melonsized stones, looking for a spot. We lay down, side by side

(there was no point of one being on top of the other; it was agony as it was). By this time the moon had gone behind thick clouds, and it had turned decidedly cold. We heard something scurry across the slithered over my bare foot, and I jumped up bellowing. The next thing we knew it had begun to mist.

It was all over. Amused and a bit sad, we went back up the hill. I left Max at the lower gate, promising to try another time As it was, Livia and I sailed from Capri the following after-

With a STAR locked in my heart's memory, the slimy, acrid kelp, the garlic breath, the bruising beach rocks grow ever fainter, and yet an ink-black Mediterranean, the opalescent beams gilding the pink and white roses. Golden Max, sunbrushed as if he had stepped from Phaeton's chariot. Those moon-drenched remain and grow ever brighter. And while we made no planet, no mere celestial star stop in its orbit (to gaze a moment in awe), for the briefest second we outraced gravity's pull and bit away at Time's power.

Greek Sun and Sail

by A. Marc Leventhal

Many Gays go to Greece to enjoy the sun, as there are many lovely beaches only a short drive outside Athens on the main road to Cape Sounion.

The first big resort is the beach and yacht basin at Glyfada. Further south is the resort of Vouliagmeni. Here is one of the great resort hotels of the world, the Astir Palace Hotel. Beyond Vouliagmeni, the coast road twists around rocky coves and beaches, leaving most of the hotels and cafes behind. Once you begin this part of the drive, you will come to the first cove which is the socalled Gay beach which is very popular once summer starts. If you drive on past you will come to the next resort, Varkiza. I took the bus out to Varkiza this April and was able to lay out in the glorious sun for hours after stopping at a local and cheese for lunch.

It is the islands that make Greece what it is. Last year I described the excitement of exploring some of the islands (Santori, Crete, Mykonos, Patmos, and Turkish ports). These were via cruise ship, but most of the islands are serviced by ferry or air, several islands very close to Athens requiring but short day trips are easy to

whet your appetite, at least, by sampling nearby islands on a one-day cruise from Athens' port and visit the islands of Aegina, Poros, and Hydra. For under \$30 you can be picked up at your hotel in Athens and transported to your cruise ship, the Saronic Star. Then arrive at your first port o' call, Aegina, where you can swim at leisure at the beach for several hours. Lunch is served on board as you sail for the picturesque port of Poros. Stroll and shop at this lovely port, and then cruise on to Hydra. All the while cruising, you can enjoy the sun on the decks or in the swimming pool. The bars and lounges are attractive. Not bad for a day sampling the Grecian islands. You can even overnite on Aegina for under \$30 additional — including meals!

days on Hydra with friends. As a Travel Agent, I wanted to see how easily my clients could get around on their own in Greece, so I decided to get to the island on my own. I took the subway from Athens to the port of Piraeus. No problem - I just followed some sailors. I also brushed up on the basic Greek alphabet so I could more easily read the names of the subway stops. I arrived in Piraeus and had to find the ferry. Local dockworkers spoke English and pointed me in the right direction. No problem at the If you can't afford a cruise dock as I bought my inexpen-

Hydra is a unique island; its harbor was familiar to me from many of the cruise and Greek brochures on display at my agency. The ferry pulls right up to the harborside cafes. During its heyday, Napoleon's time, the population reached more than 30,000 people. Now the population is under 3,000! The harbor is pretty, complete with a cathedral, sidewalk cafes. quality and cheap handicrafts and souvenirs, and - the School for Training Merchant Navy Officers. And most unique of all - there are no cars on the island.

Kockettes

The Hayward Kockettes, a legend in their own time, got their start about ten months ago. A group of men out to have a little fun. Their home base is the Turf Club in Hayward. They appear at most all Hayward and East Bay functions and can always be counted on to provide their audience with outrageous, fun entertainment. They dress in costumes akin to a drag scene from the old "Hogan's Heros" TV show and put on skits, some of which you might have seen before - but not the way they do them. The Kockettes can be had for as little as \$1.98 per member per function, but they even forgo this fee if they appear at a charity or benefit.

Some of the more active members include La La, Lo La, Pawla, Flo, Tokyo Rose and Carmaletta. These names might sound a little crazy, but then the Kockettes only guarantee two things: they will show up in a group of at least five performers, and they will have you rolling in the aisle with laughter most of the time.

Gay to Head State Human Rights Ass'n

SANTA CLARA

David P. Steward, Chairperson of the Santa Clara County Human Relations Commission, was elected President of CAHRO (California Association of Human Rights Organizations) at their annual statewide conference in Palo Alto, May 18-20. CAHRO is the parent organization of the majority of human rights/relations commissions in California and also contains within its membership other allied human rights groups.

Steward, 36, is the founder and coordinator of The Pearl Project, a county-wide treatment program for Gay alcohol-

Steward is the only openly Gay public official in Santa Clara County, and one of the few openly Gay state officials. He is a founding board member of the Santa Clara Coalition for Human Rights and was Director of Counseling for Metropolitan Community Church of San Jose.

Steward is a graduate of the University of Missouri, and San Jose State University School of Social Work, where he received his master's in 1977.

A former schoolteacher and school administrator, Steward feels that the present is a crucial time for the defense of human rights. "To many in the Post-Proposition 13 era, equality of opportunity is considered a luxury. Others are just using the passage of Proposition 13 as justification for already existing and largely unquestioned racism, classism, and sexism.'

Steward's election as Chairperson of the Santa Clara County HRC was unanimous, as was his election as CAHRO Chairperson. Steward states he "is grateful to be judged on my as would have been the case a few years ago, or even now in other geographical locales."

Although Dave Steward is now single, he is presently hoping "to find a lover, to settle down and to become more of a homebody."

Steward's master's thesis, which is scheduled to be published soon in book form, is entitled "Out of the Closets: A Quarter Century of Change in the Gay Identity.

The school board has been given 30 days to schedule a hearing and grant Ashlie \$10,000 back pay and fringe

Ashlie told Gay News, "I am the first teacher to be reinstated in the country, but it's not really definite. All the judge did was rule that my constitutional rights had been violated because I was dismissed . . . without a hearing."

Ashlie also has a \$12 million defamation of character suit filed against the school board.

N.Y. Stage: "Popping Pussies into Pies"

by George Heymont

Whenever a new work of daring creativity hits the stage, an odd side effect takes place. Critics quickly jump at the chance to overanalyze it in an attempt to reassure the public of the viability of their dramatic insight. In the case of Stephen SWEENEY TODD, the press went so far in overclassifying the show as a Brecht-Weill style opera and warning readers about the "horrific gore" onstage that they almost scared away the audience. As a result, SWEENEY has been hanging on for dear life in recent weeks playing to partially filled houses. Audiences nervously enter the Uris Theatre, worrying if they will have to flee for their very own lives. In a matter of weeks the show will sweep the Tony awards. Business will be assured, people will feel it is safe to see the show, and Sondheim's show will enjoy a decent run. It damn well de-

Sondheim is noted for his complex writing, intricate word plays and musical jokes. Here he has a solid book and some rare characters to play with. Underscoring his music are Jonathan Tunick's brilliant orchestrations. They capture the raucous moments of bloodthirstiness and undercurrents of lurid grime in 19th century London with uncanny precision. Yet out of the squalor of London's gutters comes Sondheim's most lyrical score to date. The soaring melodies of his ballads far outweigh his pitter sarcastic patter numbers.

Len Cariou heads the cast as the demonic Todd, his friendly razors dripping "precious rubies." His performance is that of a man possessed by anger, revenge, and fetishistic glee as he slits throats with a clean, audience's face, cementing the mood of the show.

Film: **ALIEN**

EXPENSIVE MONSTER MOVIE

Don't let the \$10 million glossy budget fool you. Don't let the glorious, well done 6track stereo soundtrack and 70mm widescreen hoodwink you. ALIEN is nothing more than a 1950's monster movie, complete with simplistic plot, wars here with allusions to wooden characters, flashy 50's classics as THE BLOB and special effects, and enough IT CAME FROM OUTER deja-vu motifs to keep you SPACE. Similarly, there are guessing where you saw this unbelievable character motiva-

vision commercials so he be entertained, not enlight-knows how to manipulate to ened. The makers of ALIEN sell the product — in this case, know this and have apparently Michael Lasky terror and horror. Because no qualms about leaving in we've become so jaded by Hollywood megaproductions and increasingly sophisticated film technology, Scott had to come up with something that would scare the bejezus out of us — jolt us, not make us laugh. The alien monster seems to be the culmination of market research. They have taken every quirky element that scares people and put it all into one package — a monster so gross, so offensive, so frighteningly full of menace that my fingers (with chewed up nails) ripped through the foam lining upholstery of the theater

The terror begins, as always, slowly, and mounts with typically effective music (by Jerry Goldsmith) both leading the way and detouring us with red herrings.

The story begins in outer space onboard the Nostromo, a commercial space-tug. The crew of seven men and women are on their way back to Earth but are then given new instructions to investigate signals perhaps from extraterrestrial - that Earth has been receiving. The crew comes upon a seemingly uninhabitable planet and send down a search party to investigate the now loud signal. To find an aban-doned spaceship, mammoth in size, with fossilized crew members. And then, one member discovers some eggs that seem to be alive. Quite alive in fact, as one opens up and latches itself on a crew member's face. To save his life back at the ship, the mandatory quarantine is broken. The "thing" on his face has blood of sulphuric acid and a hideous body. As the crew discovers the "thing," — this Alien — changes form so they never know exactly what they are looking for; they do know that it has killed members one by one. It's a battle until the end — the Alien vs. humans.

TUXEDO MOON, NOH MERCY: San Francisco's most powerful art-rock band produce a terrifying, exhilarating urban soundtrack when they don't fall prey to lame posturing. The two women in Noh step out with danger in their teeth when they don't stomp their material. (Eureka Theatre, June 8&9, Midnight, \$3)

RAMONES: The original three chord wonders are probably the world's funniest, most exuberant rock ensemble. By now these suckers are senior statesmen, and, yeah, the cute one is gabba-gabba-gay. KSAN and BAM pick up the tab, so don't miss this. (Civic Center Plaza,

PEARL HARBOR, SIMPLETONES: Pearly and the inimitable Explosions are the hottest team on the club circuit. HOW COME THE LATEST HAIR STYLE ALWAYS LOOKS GOOD ON SOMEBODY ELSE?

Because no two people are alike. The man who looks fine with the latest style is the man whose hair texture and features are complemented by that style. The trouble with any "latest style" is that it can't take individuality into account. So, a lot of men try it and end up looking wrong.

At King's Court we don't try to fit you to a hair style. We do it the other way around, by cutting your hair so that it looks best for your face. We take into account whether your hair is thick or fine and how much of it you have. We'll give you an individual style that will be easy to care for between visits. We'll even give you a cup of coffee and some lively conversation (but only if you want it). And, our prices may surprise you.

MEAGER FARE

BALLAD OF THE SAD CAFE is sad. Downright dreary. Especially when given as unspectacular a production as San Francisco Repertory Company's.

The drama of Edward Albee's adaptation of Carson McCullers' story is in the intensity of the love-hate relationships of its three major characters: Miss Amelia loves Cousin

Lyman who loves Marvin Macy

who loves Miss Amelia. All of which is stated directly in the writing and too little of which comes through strongly enough in this production. The fault lies in the uneven-

ness of the tension accomplished in the playing of this oddball arrangement of misaffection, especially in the lessthan-adequate casting of the pivotal role of Miss Amelia Evans. Linda D. through its pasty pessimism.

It's a shame that you will be reading this after Samantha Samuels will have completed her engagement at The City. After sweeping New York (at virtually every nitery worth playing), the slinky and beguiling chanteuse came to the city last week to conquer San Francisco audiences. Opening her act of torchy ballads and plaintive blues was singer Jim Reiter of "Beach Blanket Babylon Goes Bananas" fame.

One of the last numbers Sam as she is called — does is a jazzy interpretation of Gloria Gaynor's hit "I Will Survive." There's no disco beat here, and for many that is refreshing. For others hooked into the dance beat, the song sounds completely foreign. But Sam communicates, and with a good set of lyrics she lets you know how it is in a "three o'clock in the morning, nobody's around but you and me" style. Much of her show that precedes "I Will Survive" carries the same loveand-life theme. And if the material she has to work with sometimes doesn't work, she does. Putting us right at ease, Sam opens with "I Was A Fool to Let You Go," and then drifts off stage to let Jim Reiter perform his half a dozen forgetable songs. A basically likely chap with a pleasing voice, Reiter never really seems to be comfortable alone on stage. He just stands there — and sings. There is no feeling or soul attached. Here's a talent that works wonderfully in a book There are two ways to ap-show but who is totally without direction on a cabaret stage.

> But soon enough Sam is back on stage to enchant us with her toothsome smile and her sultry demeanor. Backing her up is a tight trio (Peter Fish on piano, Eric Engstrom on drums, and John Donnely on bass) which occasionally played too loud. That didn't stop this singer - she just belted them out above the

New Disco Opens

Studio West, the Gay community's much-talked about new disco, opened Thursday, May 31.

By 8:30 lines had begun to form along Front and Vallejo. The Gay Freedom Day Marching Band and Twirling Corps was on hand to entertain the ever-growing crowd. Under the baton of Jon Sims, the 75 members of the band gave an hour's concert.

The work crews and the last ruck drove off minutes before the doors opened to the expectant new members and

The club's management had no idea such numbers would turn up en masse and had a hard time coping issuing the necessary membership cards. Hundreds had sent in the required \$5 membership fee and their applications had to be processed on the spot.

As a private club, Studio West can operate only with members - both permanent and temporary. The club is open from 9:00 PM to 5:00 AM.

Club owner Frank Cashman expressed apologies for whomever were inconvenienced but hoped those who drifted away would return another night. He said, "It was a cross between opening night jitters and the sheer numbers we didn't

According to some "discoholics" the dance floor could have been a bit larger, but the music was first-rate. The club had assembled a staff of close to 40 and taken on some of the city's top DJ's.

Studio West is housed in a red brick Barbary Coast building two blocks off the Embarcadero. The interior had been completely redesigned, highlighting the vintage Victorian structure. The club boasts two dance floors and the sound is so controlled that it is contained within the dancing areas and does not flood the premises. Hence, one can carry on a nor-

HOUSTON

After extensive negotiations between Houston's Gay Pride Week leaders and Houston's Police Department, an agreement has been reached on scheduling the city's first Gay parade in the Gay neighborhoods. A two-mile route has been selected and some 50 units and 500 people will be permitted to march along Westheimer Street.

What's in a number? Well, if the number is 1369 and it's on Folsom Street, I don't think I have to go into detail about the "private" happenings of the Folsom Street Club aka the Corn Holes. The two-story pleasure palace has been attracting some of the city's lustiest hunks for esoteric fun and games, and if you're into pastoral trips, the outdoor patio (barn and all) help make some of those bucolic fantasies come true. The Corn Holes, besides providing the best in mood music, also offers free beer from 4 PM on every Sunday and coming up soon, some films that will sizzle their way right into your libido from the best studios in existence. Fallen Angels at the Fey Way

by Karr

You'll immediately get the spirit when you enter the Fey-Way Gallery and behold a twofoot soft sculpture phallus mounted majestically on a black velvet dais. Priapus is not just King here, but will be wor-shipped as a Diety. And the paintings of Mark Kadota are emphatically devout and ecstatically celebratory.

The first thing noticed in these paintings are the cocks. Not merely cocks of fantasy, these are the cocks William Burroughs dreams about. Thick and smooth. Hard as onyx, full-rimmed and broadheaded, they command the eye, enslave our glance. Escaping the spell of this god is difficult, but pulling back from them will not end the fantasy. Here is where the dream actu-

Our perspective broadens rapidly as entire paintings come into focus, and we leave this world in a sudden second. These worshipful members adorn the bodies of angels and Indians, Martians and animals, men with the heads of hawks. They inhabit the gleaming outer space of star clusters, and the blackest void of infinity. They soar through space and are rooted to earth, these iuman-animals, these dark archangels, who know only the demand of sexuality. Yes, there are also people seen here, caught during the flush of orgasm, their familiarity as momentarily transcated to explicitly Gay subject matter has spoken to Gay artists whose work was not specifically Gay. Mark Kadota is among the first of those previously established artists to take advantage of this outlet and express his sexuality in works of great strength and for ranging inspiration.

Mark's biography explains the exotic underpinnings of his visuals, for he has studied and lived in many unusual locales. His education has been informal and self-taught, relying mainly on his experience lived in Europe and North Africa, working with artists and absorbing museums. Back in this country, he stayed on a Hopi reservation and then not only learned ancient Hula. Hawaiian musical instruments. and potters.

Vagabond Clinches 'C' -

The Vagabond clinched Division C by downing the San Jose Nuggets 10-9 (Ricky-Tick the last inning hero) and the Nothing Special 18-3. Eagle Creek took over second place by blitzing the Heart's Delight 20-0, while Urban Country fell to Deluxe 11-1. Terry Brooks and Peter Jaremko powered Alfie's past The Rookies 24-10 (The Rookies-This Side Up are in contention with the revitalized Phone Booth for the probable last playoff spot).

First place in Division B is still an exciting contest between Gilmore's and Deluxe (the game of the week this Sunday, June 10, 3PM, Jackson #1) both taking their games. Gilmore's 9 - Phone Booth 1, and Deluxe 11 - Urban Country 1. This coming Saturday,

Gilmore's travels to San Jose to meet the Nuggets on their home turf. All American Boy clinched at least third place by passing The Bunkhouse 12-3. An "extra" game was added to this Sunday's schedule when the Fickle Fox will meet the Heart's Delight at 11AM at Jackson.

The Cafe Flore, barring a major upset, has clinched at least a tie for the Division A title when it halted The Fabulous Forties silver-streaked winning streak 12-10 in a tense, superexciting game that brought the large crowd to its feet a dozen times at least. Though San Jose still has a good chance to tie Flore, the race is on for the next three spots. This is very important, since the playoff plan for the Wild Card position in the semi-finals is "seeded." Alfie's, The 'Forties' and San Jose are all in this wild

Charge: Psychoanalytic Testing Penalty for Wearing Gay Button

Carl Hill and Michael Mason, change the Immigration prac-a Gay couple who arrived on tice. Knutson also stated that he is going to take advantage of every legal avenue that is avail-Wednesday, June 13, from London to celebrate their eighth anniversary and to cover the Gay Freedom Day Parade, are still recovering from their treatment at the S.F. International Airport. They stated at a news conference held at the Gay Rights Advocates office on June 15 that they were both shocked and scared by the reception they received by the U.S. Immigration and Naturalization Service at the airport. Hill was taken into custody by Immigration officials after being interrogated and admitting he is a practicing homosexual.

Hill, a restorer of antiques, has not been "legally" admitted into this country but is currently under arrest and on parole. He has been requested to undergo psychological examination or leave the country on the next available flight to London. Don Knutson, Hill's attorney and executive director of Gay Rights Advocates, has agreed to challenge Immigration's action. Knutson stated that it is an interbureaucratic dispute between the U.S. Public Health Service and the Surgeon General's Office. "The Health Service says Immigration is asking them to do something they cannot do - to make a medical judgment based on 19th century science," said Knutson, Immigration insists that Hill's case and similar cases are merely enforcing laws which have been passed by Congress. (In 1967, in the case of Boutelier vs. Immigration, the U.S. Supreme Court ruled in a 4-3 decision that Congress intended to exclude homosexuals when it voted to adopt laws declaring persons with "psychopathic personalities" as inadmissible aliens.)

The office of Rep. Phil Burton (D-San Francisco), along with backers such as the National Gay Task Force, is studying and preparing legislation to cause he enclosed a cover letter stating that he is a practicing homosexual and asking if there would be a problem when he applied for a visa, was denied one. On the bottom of a typed form appeared a handwritten reason for refusal -"sexual deviate." Mason talked to Lord Nicholas Bethall, a member of the House of Lords, who then wrote to the American ambassador.
