DISSERTATIONS IN ANTHROPOLOGY

In Numbers 14 and 16 of the Papers, the Society published abstracts of dissertations submitted in partial fulfillment for the requirements of the Ph.D. at the University of California, Berkeley, from 1946 through 1951. That portion of our program to make thesis titles and abstracts available to the public will continue in Number 19. In this number of the Papers we present information on the titles of theses for the Master's and Doctor's degrees in anthropology awarded during the last academic year at a number of colleges and universities. This continues the policy begun in Number 15 of the Papers in which dissertations submitted in 1956 were listed.

The information given here and in Number 15 was furnished through the cooperation of the institutions listed; more titles will be published as data are furnished. Under the name of the institution, below, will be given the name of the author of the dissertation, title, degree for which presented, month and year of award, number of pages, and when applicable, plans for publication and the following symbols: M when the thesis is available on microfilm, IL when it is available on interlibrary loan (note that availability on microfilm from the University of California, Berkeley, may be at the discretion of the author for a two year period after deposit with the Library). Occasional gaps in the information are the result of incomplete answers on the blanks returned to us.

Catholic University of America

Levin, Carlottte B. Some concepts underlying research and some problems of procedure in cultural anthropology. M.A. June 1957. 89 pp. IL.

Stine, Jane. The role of food during the socialization period in the life of the Maori child. (Based on the library sources). M.A. June 1957. 83 pp. IL.
