DEAR LONELY,

A good start might be to check with SIR

(Society for Individual Rights) 83 6th Street

in San Francisco. They have various activities.

You might also call the Gay Switchboard, since

Seven groups list their activities with them.

This paper has an events column where groups

can list activities free, you might check it.

LONELY

DEAR JOHN,

It seems there has been a major clamp down

gay life in San Francisco. I moved here three

years ago and it was wild. Now you have to be

careful wherever you go. What's happening??

SCARED

DEAR SCARED,

I think you may be right, that is if you're

speaking of places like "land's end", etc.

I understand there is a general clean up

going on, although it is not supposed to be

directed at the Gay Community. Only time and

future police moves will prove that.

Relating to the "small city," the following excerpts are taken from a report by the San Fran-
cisco Examiner, Oct. 18, 1970: "Ich. Hubert Bruns, chairman of the Coun-
ty Board of Supervisors, takes a dim view of the:

move, of course. "We are all very concerned. Nat-

urally, we'll do everything we can to prevent

these things happening over our county."

"If they (the gays) were to register to vote

90 days before elections, the paper (the gay's

two-page document) says, "a great prize would be

their; the primary powers of government."

"It would mean the establishment of the

world's first museum of gay arts, sciences and

history...housing could be erected under public

housing laws...a gay Superior Court judge... a
gay district attorney... a large income from the

cigarette trade."
