QUEENS RETORT:
FROM THE CLOSET

For the information of our readers: If you happened to have read the article in the March 15 issue of the BAR, Headlined "Hey -- a Job Opening for Closet Queen", the Gayzette editors would like to comment as follows:

Adz Gayzette hired a Managing Editor on a trial contract of one month. When the hiring took place we knew of the employee's radical past, however we informed him that he had completely changed his views. Unfortunately, it became apparent with his first major news story that no such change was ever intended. In fact, the article was written as though it should appear in a couple of other Bay Area underground publications. In this article in the BAR the past editor in question mentions a number of instances that we would like to clarify:

1) "My boss told me when I was fired that the paper is not interested in news at all, but exists only for its advertisements". The truth of the matter is that, at that meeting the editors said Gayzette exists on revenues from advertisements. Although we want news items, we cannot afford to employ full-time reporters to obtain and verify news.

2) In answer to the statement that Gayzette dupes people into voluntary work, we are fully confident that our staff have the intelligence to know whether or not they have or have not been duped.

EXPERIMENT IN ECONOMICS

Adz Gayzette has been, and we hope will continue to be, a free weekly publication. Advertising is our main source of revenue, however product costs continually eat up revenues from this source. At the same time, it is our intention to slowly enlarge and improve the paper. To achieve this, additional income is needed. We have investigated charging for Gayzette. However, of the amount the reader would pay, only about 20¢ would be realized by the paper. Another approach is to schedule monthly activities for our community. The proceeds from functions of this kind will pay for the paper and printing costs, and the Gayzette will remain free to the public.

Our first activity of this kind will be EL BASHAROO DANCE AT CALIFORNIA HALL, featuring THE CLEVELAND WRECKING COMPANY. Your support of this and future activities will prove our experiment in economics to be a success, and all will have fun in the process.

COOKING...WITH Chris

Every now and then, especially late in the evening and when you've had your share of the usual fare, it's time to experiment. Let's...
The Editors of the GAYZETTE cannot help but wonder if the Managing Editor in question was not really in secret assignment from another organization.

Further, the GAYZETTE did not call us to verify any allegations in their article. It is our opinion that the final Managing Editor violated the confidence entrusted to him in matters pertaining to the GAYZETTE.

We find it unfortunate that a paper of long-standing like the BARB should find honest validity in debating another paper's efforts to channel productivity into areas of Gay Community Unification and acceptance.
