Luella Parkons

Party mood is SO pungent throughout the Gay Area. The electricity seems so untimely, however, with the income tax guillotine about to clamp unmercifully at individual purses. This poor frazzled girl has stipped and staggered Grand Openings and other Gay Fetes until almost nightly, and no immediate rest break is in sight.

The Yellow Brick Road has carried droves of buffet-buffs to silver platters of delectable entrees at: ART'S CAVERN, THE NEW BELL, THE CORNER, THE RIDE ON, and THE PENDULUM, gaming activities. Intimate dance atmospheres in the curtained 'back room' was of an entirely different nature than Luella had imagined. Required dress should have been a sweat-suit and individual pocket-sized de-humidifiers. This girl loves to try to a lively beat, but certain routines are reserved for Luella for private boudoir sessions.

All eyes are mesmerized by the attraction at California Hall on March 27th. Beautiful "HENNY GUYS" will parade for top title under the delicious guidance of "Miss Gayzette the First" El Basharoo and the COIT'S Western Dance. This girl has personally been charmed by the COIT'S membership and would not miss participating in their "COIT WEST" event. Such DOLLS! Especially those most-announced COIT'S - CHUCK, DAVID, ED, (another) CHUCK, and SAM. I must remember to dash off to my seamstress to have my leather riding skirt shortened to reveal lovely Luella knees.

Another event of curious timing to soon after this weekend's exciting events, is planned for the following weekend. Girls, watch your calendars and read Gayzette for coming affairs. Scheduled to Close, your guests have little time to repair budgets and wardrobes - when you don't allow more time between engagements. But a circus is a circus.

I am sick, furious and upset that I wasn't able to attend the luncheon at PAGE ONE for the "HUNKY GUYS". Adorable host HANK set a bountiful table for the beautiful boys, I am informed. As yet, I have not had the pleasure of visiting this GAY Party Girl to partake of "HANK'S Western Dance with the COIT'S". With a subordinate reference to the ridiculous name of "HUNKY GUYS". Adorable host HANK set a bountiful table for the handsome boys. The latter are working on final preparations for "their night" on Saturday at El Basharoo. Getting back to the Peninsula, Luella received correspondence from that community revealing information of a startling and extremely political nature. I regret that I must refrain from reporting on your unhappy circumstances without a complete investigation of the FEBRUARY SCANDAL. Reputations certainly are shaky, but I must offer only my complete understanding and sympathy for the immediate present.

I am completely unfaunted by the lack of preferred judgement on the part of Gayzette, publishers and their new association with some person calling himself GLIDERFOO. With a subordinate referred to by the ridiculous name of GUSPOO, I know Luella will have little time to concern herself over trivial gutterings.

Now that I have exhausted my scoops, poops and snoops, it's time to primp and fluff up this never tiring party girl for her whirl through all this weekend's GALA activities. See you all at El Basharoo and the COIT'S Western Dance. Ta! Ta!

"Go thou and seek out new places where the most deserted shall brighten the pages of this chronicle and gladden the hearts of our readers."

Then I had to drive for three days through the southern reaches of the land where the land was mostly empty. I tried.

Through all the snow-covered south of South City did I go. Redwood City offered hope, but left me disappointed. The streets changed from town to town, and every once in a while I'd find a place I hadn't been before. But when I found one, it was already closed.

I found it very difficult to get into one town. I was required to show all sorts of papers and list.

Then I had to drive for three days through the northern reaches of the land where the land was mostly empty. I tried.

Through all the snow-covered north of North City did I go. Redwood City offered hope, but left me disappointed. The streets changed from town to town, and every once in a while I'd find a place I hadn't been before. But when I found one, it was already closed.
