Plath Assails Policy

The publishing of unreliable sources accompanied with requests from reliable sources to submit "the other side of the story" implies that a community is deliberately trying to provoke controversy and divisiveness in a community.

The true facts of S.I.R. Candidates Night are as follows:

"An individual garbed in clerical costume arrived at the S.I.R. center at approximately 7:45 PM on the night of Candidates Night. This man, accompanied by approximately half a dozen, sat at the side section of the auditorium. He was approached by the Community Center Chairman of S.I.R. and was informed that S.I.R. had received calls earlier that day in reference to him that he had stated that he was going to "cause trouble" when two candidates were asked to speak. This man yelled, "F**k You, Mother Fucker," at the Chairman in Charge. The two youths yelled phrases like, "SIR Sucks" and SIR IS PIGS." A screaming match ensued. The Chairman of the Community Center and the Political Committee Chairman then asked the man and the two youths to step outside in the hall way. The man refused to leave, and the two youths shouted obscenities to the chairman. One youth cried, "I'll spit on your bald head!"

This is one reason that the Gayzette is having increasing trouble in finding suitable outlets for the responsible gay bars, realizing that the Gayzette is doing a disservice to the community by preaching unity and practicing divisiveness. The [name], who responded promptly. The extremely polite police removed the group to the street. The police left the group screaming and shouting obscenities.

William Plath President

(EDITOR: It is disconcerting to observe that the President of S.I.R. was not choosing to dissemble the name of the social organization that hosted a chartered motor-ho trip to Reno last weekend.

Sipping, dipping and other 24-hour recreation at enchanting Dave's Westside Motel kept our large party properly and other non-suspects from making reservations next year, this considerate girl wouldn't dream of divulging the name of the social organization that hosted a chartered motor-box trip to Reno last weekend.

The ADZ-GAYZETTE paper and its editors fully support a united Gay Community and, as that unity is based upon MUTUAL CO-OPERATION between the various Democratic organizations, it would appear that for the most part, personal animosity clashes between community leaders are being aired in public thereby becoming detrimental to organizations and the community at large who suffers most.

Miss Gayzette Speaks

Hello There! It seems that things are a little quieter this past week, but that's because we've had lots of fun at the many Halloween events! It will be easy again, but I'm still a head left in the hopping. I've had a blast this year and will do it again! It's too much fun. (Sorry, Roxanne, you wanted your name mentioned and it's the only way to get yours.)

BRIAN'S (415) 776-8645 keep it together! It was a great night and make the Halloween the most campy and gay along with some glitter and glamour and sparkle and pate, but do check first of due public recognition. It's the same place. I suggested to phone in advance or announce the time of your arrival. (Meet bar public.)

One of the highlights of Halloween night are the parties, so as to keep off the evil associations with black magic, voodoo and religious cults. In the last 50 years, its use. Hindu fakers, of old, considered the Third Eye, by inserting compound within the forehead of the Lama. These types of operations can be tapped and the sub-conscious is released to subconscious awareness. This can be done by saying to a hypnotized subject, "I am holding up my fingers behind your eyes."

Laterly a competitor of mine has been advertising a larger circulation than all other Bay area Gay papers. This has forced me to re-examine my work with hypnosis. Through hypnotic suggestion, this workshop explores the latent talents of the Third Eye, which is released to consciousness awareness. Through hypnotic suggestion, this workshop explores awareness.

This can be done by saying to a hypnotized subject, "I am holding up my fingers behind your eyes.

The mysterious phenomenon of hypnosis has been with us almost as long as recorded history of mankind. Egyptian history describes the technique of steeping the feet of the priest to tell us of its use. Hindu fakers, by application of autogenic training, have awakened the high degree, enabling them to walk on fire, and tread through the flames without forming so much as a blister. Because of the onset of anxiety, the hypnotist is able to subdue the subconscious mind to a certain extent, allowing him to cause the subject to perform feats, considered the practice of black magic, usually and otherwise, with black magic, usually and otherwise, with which the hypnotist had to deal with..."

To begin with, Gayzette again advertises its circulation. The word 'Gayzette' itself is justifiably a very exclusive word, a word that, once pronounced, is imprinted in the mind by an independent gay entity, a unique standard, a word that cannot be uttered by just any newspaper. Gayzette's circulation, therefore, is a word that can only be prudently ascribed as 'exclusive'. Gayzette, in order, has to provide its best to their readership.

Coits after the Tavern Guild's bake sale.
The staff of Don't Panic Press have to provide much excitement for their readership, and really know it. Do you? If not, take a little time and find out what's going on for you. If you are doing so, drop me a line and let's see what can be done together. Always support your gay community writer or the management. That's what they depend on you, just as you depend on them.

Dear Gayzette,
They are just a bundle of energy and always provide their best. For you, I understand the candidates for San Francisco press are really going to compete. We'll see a new and different environment and filled-up excitement.

Support your favorite bars. They have super-happenings! Let's paint the city truly red and really get-_it_together.

P.S., For every pot there is a lid. If you don't have your pot, you don't have your lid. Be careful with your lid, since new lids are always hard to find and easy to lose without the pot.

BRITISH WEEK

Welcome to British Week! This is the biggest celebration of its kind ever staged in the United States.

For nine fun-filled days you will also find British goods crammed on the shelves of shops and stores, not only in downtown San Francisco, but also in the Cannery, the Ghirardelli and Stonestown Shopping Centers. This is where the action is. But you will also find it overflowing into Golden Gate Park, Civic Center Plaza and many other San Francisco locations.

There will be military bands, a Royal Navy visit, London 'bobbies', a town crier, beauty queens, and a host of other colorful figures from Britain.

San Franciscans will find their lovely city not only decked with British pageantry, flags, bunting, bands, spectacle, and a glittering list of events which offer something for everybody.
