The thec within the gay community over the upcoming election is now heating up. Ne ver before has there been so much active campaign plan for candidates and there is a sign that is a sign we are finally coming alive.

But, we also seem to be approaching a danger rising within our bloc between the Feinstein supporters and the Alioto haters.

My personal preference is not with either Alioto or Feinstein but with another candidate. But my 'preference' is not a chance to win this election and my vote for him will be wasted.

The absence of Mrs. Feinstein, Mayor Alioto should have never been a serious contender for our support. Those who are arguing that we never had to give up a strong party. They are forgetting the tardy/barratess, entrapment/assaults on Folsom Street, Poli street, Castro street, and the downtown stores, Land's End, etc. Granted they were small incidents and affected only select targets and a few people, but they were poli tecally ignored.

The uncertainty of the power of the gay and gay sympathizers' votes keeps him and most other politicians from conducting an active campaign for our support. We, along with other minority groups are used by them as an example of our abilities as officials of this city, I.e., arresting "queers" is fighting crime. Fighting crime is one of the big points of Mayor Alioto's campaign, so he doesn't deserve the vote of criminals.

We still need Blood. Stop in the Kok Pit and see Big Lips for details!

The Lonely Bull had a buffet for the candidates with fun prizes. Crystal, Sherry, Fredy and me won. We were pleased to share Sherry's last night in town with him. (The former owner of The Gay Bar.)
