SAN FRANCISCO, Ca//., Sept.15.—GAY NEWSPAPER PAPERS BY ORDER OF FEDERAL COURT

The Sentinel, the second oldest gay publication, has been declared bankrupt and the legal and U.S. District Court, King gave the order, thus allowing the creditors to try and gain some of the money owed them by the Sentinel. Staff members arrived at the office of the paper on Monday only to find the door-looks changed. They went to the home of publisher Morris on Hartford St, off Castro to try and seek the why and wherefore, particularly in regard to their pay checks. Morris was unavailable for comment. But he did say one local daily that he owned the same Sentinel and that the corporation which he hosted, "I had enough, not him, and that he was still going to try to publish the paper. Yet, his principle Warren's Walker Press was one of his creditors. Morris bought the paper from Walker's Edwards, a local daily in Mendicino County, and it is reported that he still owns him some money too.

HOUSTON, Texas, Sept.5.—KILLER OF GAY ACTIVIST FREED! Houston Police Officer, Kevin M. McCoy, 26, who was charged with having murdered gay political activist, Fred Paz in June 1980, was found not guilty, by a jury of "his peers" only after four hours of back and forth debate. The Officer claimed that Paz, 27, offered to "perform certain activity" with him in a Houston, Tex., car. He stated that they both attempted to arrest the gay activist and that the gun "went off acci
dently." But, the Grand Jury indictment stated that the off-duty cop was "arrested, and had admitted to the Grand Jury that he "had thrown the loaded gun at the scene of the crime." Yet this testimony was not allowed in the actual trial, so the obviously guilty killer cop goes free to terrorize more gays in the city of Houston Texas. Justice down Texas way.

Ms. Feinstein has shown absolutely no sympathy for the poor of San Francisco. She continually endorses candidates in the SF General Hospital, as well as clinics in social services and housing sectors. Ms. Feinstein lives and eats extremely well in her high-fenced mansion. This is perhaps why she is so cold and indifferent to the needs of the poor. The squatting and prisoners’ rights for the many of us who are not in her City this week they stand to the heavens. It takes courage, almost to the level of foolhardy bravery, to produce an original show in a theater in San Francisco using boat talent. San Franciscans tend to poke fun at themselves as part of their self-awareness, so they are unimpressed by attempts to play for laughs. However, when a group of boat people (come on, admit it, don't you really constantly call "Boys" either, unless it's within the past few feet of being a movie) (Kathleen Higa, Colleen Cullen, and Debra Enge) produce and star in their own productions rather makes this a hollow boast. Deliberately slack or gulf tournaments can be a lot of fun, but are hardly taken seriously by knowledgeable heads of either sport.

All of which is particularly apropos right now because there are currently two locally produced original musical reviews that each stage now that entertainment. Their common denominator is that they are keenly interested in the past. Having been a chronicler of the times, I was extremely impressed at how accurately the show captures the feelings of those years. Thousands were killed on battlefields all over the world, millions separated from home and those they loved; but, my God, they were exciting days — there was a passion to it — a sense of purpose, and, which seems to be an only in today's America. Reality has a sense any production as an essentially optimistic piece of escapism.

The show's done through illusions (rather than Charles Pierce type recreations) of that era's stars and in almost every case, that work extremely well, we recognize Sinatra, Kate Smith, Lauren Bacall, immediately. However, the highlight of the show must be the one with a cross, but on a swastika; a soldier crucified, not on a cross, but on a swastika; a soldier, crucified, not on a cross, but on a swastika. The horror of that performer or enhance the reviewer's love for the show. FURTHERMORE...

...a fun production.

It's a dance review of the Dotted Young People that she took in decades of music: Art's current, Art's the duets and Art II of the Thirties. Unfortunately, the latter two don't live up to the sparkle of the first act but excellent entertaining number, a superb costume, some hilarious repartee, and a highly talented, enigmatic star (although I wish they wouldn't deadpan quite so much) contain to make it a fun production.

NOTE TO PUBLICISTS: The above show and all coming up:

Reminiscent and original, but the audience will clearly appreciate your listing the performers in each number. The most astonishing aspect of this rarely performed musical is how tame such once controversial material seems today. Not that it is dated, it isn't: Its inherent truths so accurately reflect all of this.

The plot line of Neville Chamberlain's announcement of a non-aggression pact with Hitler. It is subtitled on the program as "Boy's plays in the form of a tragiparody happening on a small stage". When the present owner bought this hotel back in May ‘79, he proceeded with a mass eviction of its tenants (some of them elderly; two of them died during the eviction hassle), so he could turn the hotel exclusively for tourists. But the tenants are fighting this eviction and are confident that they will emerge victorious.
