## EXPOSE OF INFORMERS

SPECTACULAR EXPOSE OF GAY NARC INFORMER... JOHN STANLEY GROSS, HAS SET-UP DOZENS OF GAY ARRESTS FOR NARCOTICS SQUAD... COP USING THE FAG-ALIAS OF "JIM JAMES" BUSTS OVER A DOZEN.

CONFESSED

John Stanley Gross, who sports a handle-bar mustache and stands about 5'8" tall, has "set-up" at least 12 Gay people, some of whom you have read about, so the person posing as his "sugar-daddy", an Officer Curtis Casheen could arrest them. Gross would make "buys" in front of his "sugar daddy" who he said to his supposed friends, "daddy has a big one", then Casheen would leave with John Stanley Gross and go secure court orders for arrests of the individuals allegedly participating in the arrests.

John Stanley Gross' favorite hangout was the Sutter's Mill, and he fit right in with the crowd. Gross, used the Sutter's Mill crowd to make "contacts" for various of his illegal actions, one allegedly involving a museum in Oakland where four thousand dollars worth of artifacts were stolen from. Our sources have informed us that Gross is involved in other activity, all of which Officer Curtis Casheen, and other members of the Narcotics Unit of the San Francisco Police Department have been fully aware of, which in the opinion of certain attorneys we have spoken with, could make them accessories. The set-up arrests by Casheen and Gross certainly smack of entrapment, all attorneys agree on that.

But, John Stanley Gross is not the only Fag-informer the cops have working for them. A GAA spokesperson says that the San Francisco Police have 32 active workers from the Gay Community, and the GAA spokesperson went on to point out one that is fairly well known, a Lenny Green, who formerly worked at the defunct Babylon Ballroom the Lion at Sacramento & Divisadero and the Cabaret/After Dark at 936 Montgomery. Lenny is tall, slender, big buns, and curly blonde hair, it used to be very long, but sometime back he cut it. Lenny Green is from Miami, and has a winning way about him. He recently set-up and had arrested his best friend, the person whom he gave as a reference when Lenny himself had been arrested a few weeks ago. Lenny has admitted to the editor of the Gay Crusader that he made a "deal" with the cops to inform for them in return for lesser sentences, all suspended, and his immediate release from jail.

## JOHN BURTON CHARGED

ALAN REEVES CHARGES JOHN BURTON

At the Gay Voters League Candidate's nite, U. S. Congressional candidate Alan Reeves charged his Democratic primary opponent, Assemblyman John Burton with "being the Watergate type, and the public should know all about him and his criminal record." Reeves made this charge to a stunned room full of voters and candidates who listened as Reeves revealed that John Burton had been arrested and convicted of the crime of destruction of public property and charged Reeves "he was too cheap to pay the nickel for the parking meter so he jamed it, and was caught by the police in the act and was found guilty. Can the American people, who have suffered through months of Watergate corruption have a man in Congress who is so petty?"

Reeves also revealed to the assembly, that John Burton had been arrested for the transportation of gambling devices and drunkenness. Reeves harped on the theme of Watergate, and that "John Burton is not one bit better than Richard Nixon."

A MESSAGE TO THE VOTERS, FROM REV. RAYMOND BROSHEARS

"The revolt of thousands of concerned, thoughtful Democrats and Republicans against the innumerable blunders and obvious incompetence of their own parties is the sure sign of a new spirit in the nation.

Too long we all have heard the same old song of the Democrats and Republican parties. Too long we have listened to these two parties cry aloud, do not vote for third parties, you are just throwing away your vote. Poppycock, pure poppycock, for by voting for the candidates of the Peace and Freedom Party you are sending a message loud and clear to the bureaucrats of the Republican and Democrat parties that you are fed up with empty promises, that you are tired of having your ears tickled by their sweet sounding words and promises, for you are tired of having empty pockets and stomachs which come from empty promises.

I believe the song we now hear being sung by the Democrats and Republicans is their swan song. They are dying in their own filth, the filth that comes from so many thousands of lies piling up inside them and are now spilling out for the world to see, and to smell. The Democrat and Republican parties are now the cesspools of humanity, for they are both full of. . . . well you can smell it!

The muddling of the leaders of both parties have brought the world to the brink of chaos, and our nation to it's knees in near abject poverty.

The Peace and Freedom party offers to you hope, hope for a change, a change that will flush out the Democrats and Republicans who have been clogging things up for too long.

The Peace and Freedom party has courage and vision, and most importantly, the unyielding determination to find a sensible, just way out of the evils which threaten our nation.

The candidates of the Peace and Freedom party are alive, and have a grip on live issues. With the Peace and Freedom party, you do not have to go back to dead statesmen for inspiration, or dig out of books ideals for which to make sacrifices for. The candidates of the Peace and Freedom party have principles which they fight for, to risk their lives to bring into being. The Peace and Freedom party stands for liberty, freedom and progressive government of and by the people.

The Peace and Freedom party believes that the people should rule, and that the voters should have assured and effective freedom of choice of those who would make and execute the laws. The Peace and Freedom party believes that labor should participate more actively in public affairs than union leaders have allowed.

The aim of all government should be to secure for the workers as large a share as possible of the fruits of their labors. For is it not labor that creates all things?

The Peace and Freedom party should be your party because it holds fast to the three elements of human liberty... free speech, a free press, and freedom of assemblage. The Peace and Freedom party understands that to sweep away the rights of the people by legislation and force is not progress, is not justice, but is decadence. The Peace and Freedom party has discernment, and perceives that the ills which America is now suffering are economic rather than political.

The Peace and Freedom party realizes that the curtailment and limitation of wealth and special privilege are essential to the building up of honest government, of a government by the people and for the people.

There is a spirit marching through our land today, and that spirit is one of freedom, complete and absolute, and it will not be stopped by the decadent leadership of the Democrats and Republicans, for it is too strong and the Peace and Freedom party is feeding that spirit of change, and it shall grow and grow until it triumphs over these who keep our people in chains. With the Peace and Freedom party comes a bright and redeeming dawn. The Peace and Freedom party comes with peace and brotherhood and sisterhood to make sweet the bitter way of capitalism. We are marching, the people are marching, they are casting aside the Democrat and Republican leadership. All along the road to a representative peoples government, women, children, men, the elderly, the disabled, all races, colors and creeds are joining the ranks of our comrades. Our brothers watch us from barred windows with their hearts aflame, untamed, glorying in martyrdom they hail us passing quickly. And I urge those comrades here to join with us, as the star grows brighter in the distance join with us now lest you perish, and work to bring about a peoples representative government now, before it is too late. Only if you vote for the Democrats and Republicans will you be throwing away your vote. I ask for you vote, vote for the Peace and Freedom party and vote for Raymond Broshears for Congress, 5th district."

## S.B. 39

S. B. 39 BOTTLED UP IN COMMITTEE... TIL DEATH?

According to Assemblyperson John Foran, and members of the Assembly Committee on Criminal Justice which is hearing S. B. 39, it appears that they will not vote on the bill this session, in effect killing it. Foran has a "red flag" on S. B. 39, and should there be the slightest move on the part of Republican members of the Committee to move the bill, Foran will notify the GAA immediately, and the GAA of course will notify the entire Gay community. GAA president, Rev. Ray Broshears made another trip to Sacramento to see what the mood of the legislators were in response to S. B. 39. The Committee members, seven of them, remain the same, four against passage and three for passage. The four against S. B. 39 are Democrats, so little chance is seen of it coming out of Committee.

Broshears then released the results of the GAA questionnaire to legislators as to how they would vote if it accidentally got out of Committee, and the results are that there are at least 33 votes against S. B. 39. So, should it get out of Committee it should be voted down on the floor of the Assembly.

Have you signed the GAA petition against S. B. 39 yet? If not, please do so now. You may sign one at 225 Turk Street, Helping Hands, or you may circulate petitions if you desire by dropping in and picking some up.

At the end of time,  
Is a world of love.  
Come and be mine,  
To be my dove.  
Peace be my pleasure,  
Love be my food.

## GAY CHURCH STORY

### BOOK REVIEW

THE GAY CHURCH by Ronald M. Enroth and Gerald E. Jamison

"The Gay Church is alive and well... and growing... not only on the West Coast, where it originated, but across the country. That's the conclusion of just published study on an unprecedented religious phenomenon."

After having reviewed this 144 page book, which is the first of its kind, and certainly it won't be the last of its kind, the Gay Crusader staff all agrees, that, "The Gay Church pulls few punches, and shows to the religious world for the first time, that Gay-peoples are concerned about their spirituality, and are doing something about it, however pathetic it appears in portions of the book. And at last, it shows clearly, that Rev. Troy Perry may have been the first biggie in the Gay church movement, but he was not first, and now due to his lack of religious dogma, the very church he founded, is not holding together well across the land, for Rev. Troy Perry's Metropolitan Community Churches only have two things in common; (1) they are all homosexuals; (2) they all are seeking a new spirituality. Perry's denomination is not a religious denomination as it has no theology; it has no dogmas; it has little direction; but has an "anything goes" type of theology which is confusing and leads to splits within the various Churches. We commend the authors, as well as the publishers, and to those who cooperated with the authors on a most difficult task.

The reception of the book "The Gay Church" in San Francisco has been quite lukewarm, this due to the fact that the Metropolitan Community Churches here are not in love with the content, as it has shown that the MCC has flaws, and that Troy Perry is not "pope". For those of you seeking truth about the Gay churches in America, and some of the clergy, you are urged to purchase a copy of the Gay Church by Ronald M. Enroth and Gerald E. Jamison, which is published by Wm. B. Eerdmans Publishing Company, 255 Jefferson Ave., S.E., Grand Rapids, Michigan 49502. It sells for \$2.95 and here in San Francisco, may be purchased at the Cokesbury Book Store on McAllister at North Seventh Street at Leavenworth, in the Tenderloin area.

There are many quotes from Rev. James Sandmire of the local MCC, as well as from the Rev. Wm. Johnson of the Council on Religion and Homosexuals; Rev. Raymond Broshears of the Helping Hands Community Center; Rev. Howard Wells of MCC; Rev. Nick Benton of Berkeley; Rev. Jonathan Schnieder; Ms. Phyllis Lyon; as well as comments on "Father" Robert "Bob" Richards, and Laurence Gerard of Berkeley and the Haight-Ashbury.

An interesting book, well written, and is highly recommended by the Rev. Raymond Broshears, to whom it is not too flattering.

Elizabeth Keathley, candidate for the Peace and Freedom nomination for Governor, anarchist, and a spokesperson for the California Liberation Alliance.

It is curious to some people that an anarchist should be a candidate for political office. The purpose of her campaign is to gain a forum from which to promote anarchism, the philosophy that each individual is capable of running his or her own life, and to apply the precepts of anarchism to contemporary issues.

The primary issue of her campaign is one of concern to Californians and to people throughout the world: the power of the U.S. government. Each year the federal government steals tens of billions of dollars in taxes from Californians and uses the monies to finance the destructive machinery of the warfare-welfare state.

I advocate an end to government indoctrination of students by abolishing public schools. I propose that California sell at public auction the University of California and the State College system and all other state-held lands.

I call for immediate repeal of all laws which create crimes without victims, or, more accurately, victims without crimes, since any person punished in accordance with such laws is indeed a victim.

## GAYS SELL FASCISM

WHITMAN-RADCILYFFE FOUNDATION APPLIES FOR FASCIST FUNDS.

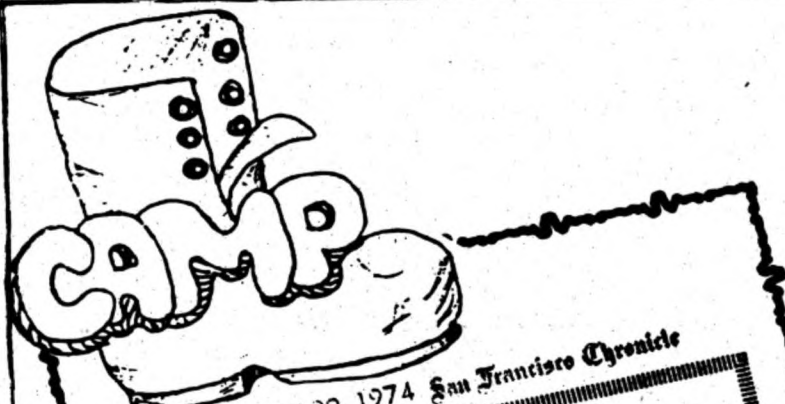

Whitman-Radclyffe Foundation, headed by the mysterious attorney David B. Goodstein, and the not so mysterious, but devious James M. Foster, has applied for and RECEIVED funds from the Law Enforcement Assistance Administration (LEAA) through the California Criminal Justice Council (CCCJ) and via the Sheriff's Department through the Mayor's Council on Criminal Justice.

The funds are being used to open the Whitman House, which Foster claims will help ex-convicts and drug addicts. Some mention has been made of alcohol abuse treatment. Gaypeople joining closer with the fascists of the LEAA which is run by the CIA. Very interesting so much so, that we have to look much closer at the mysterious David B. Goodstein.

Admits Calls to A. F. P. MILITARY BOUNTY HUNTERS AROUND IN CITY

It has come to the attention of the staff of the Crusader that the Armed Forces Police at Treasure Island pays a "reward" for each and every AWOL/DESERTER turned into them. This came to the attention of a staffer after a charge had been made by Michael Music of the Central City office of the Neighborhood Legal Assistance Foundation that someone he knew, a John Curry, who frequented the Shed, Hospitality House and other such areas, had been "turned in" by Rev. Ray Broshears.

The Crusader went to work on this, for this is the second time Michael Music has made such charges. Music has continually denounced Broshears, it was learned, ever since Broshears exposed him and "father" Robert Richards a few years back concerning Richard's claim that he was a Roman Catholic Priest and Gay. It turned out that while Richards maybe was Gay, he sure wasn't a Roman Catholic priest.

In checking with authorities at Treasure Island at the Military police (Armed Forces Police) headquarters, it was learned that Rev. Broshears did NOT TURN in John Curry, but it was someone close to John Curry, who evidently had done the same thing in the past to others. Now, the whole stinky slanderous scene came to the attention of the Crusader after Broshears informed us of a surprise phone conversation with his arch-foe, Sgt. Elliot Blackstone of the SFFD Community Relations Unit, who has been working to discredit the Reverend Broshears and his word very hard, since Broshears exposed Blackstone for being a typical cop, "all cops are liars and worse" said Broshears. Blackstone revealed to Broshears that Music had "again" charged him with "turning someone in".

Broshears, under heavy fire from the Justice Department here, and as well from the Police, charged that the San Francisco Neighborhood Legal Assistance Foundation is just another police informer filled organization which serves the best interests of the employees only. One thing, Rev. Broshears didn't turn anyone in, and the Crusader staff can assure you that we shall not rest until we reveal to the whole world, just who the person(s) was.

## SIR is Ten!

HAPPY TENTH BIRTHDAY TO THE SOCIETY FOR INDIVIDUAL RIGHTS "SIR IS ALIVE AND WELL" SAYS DAVID STAHLMAN AND ELMER WILHELM.

Vice-President David Stahlman of the Society for Individual Rights, SIR, told the Crusader that SIR is indeed very much alive and functioning quite well. Stahlman is at the Center at 83 Sixth Street almost daily, overseeing the office duties of that ten year old group. Stahlman pointed out that the Job Referral Program which is now being directed by another elected official of SIR, Trustee, Elmer Wilhelm has interviewed 147 people in three weeks and obtained employment for 67 of them. This is outstanding of course!

And the Job Referral Service as directed by Elmer Wilhelm is open daily, Monday thru Friday, from 10 AM til 4:30 PM, with at least two counsellors on duty. Elmer told the Crusader that "SIR is very much alive and serving the Community daily!"

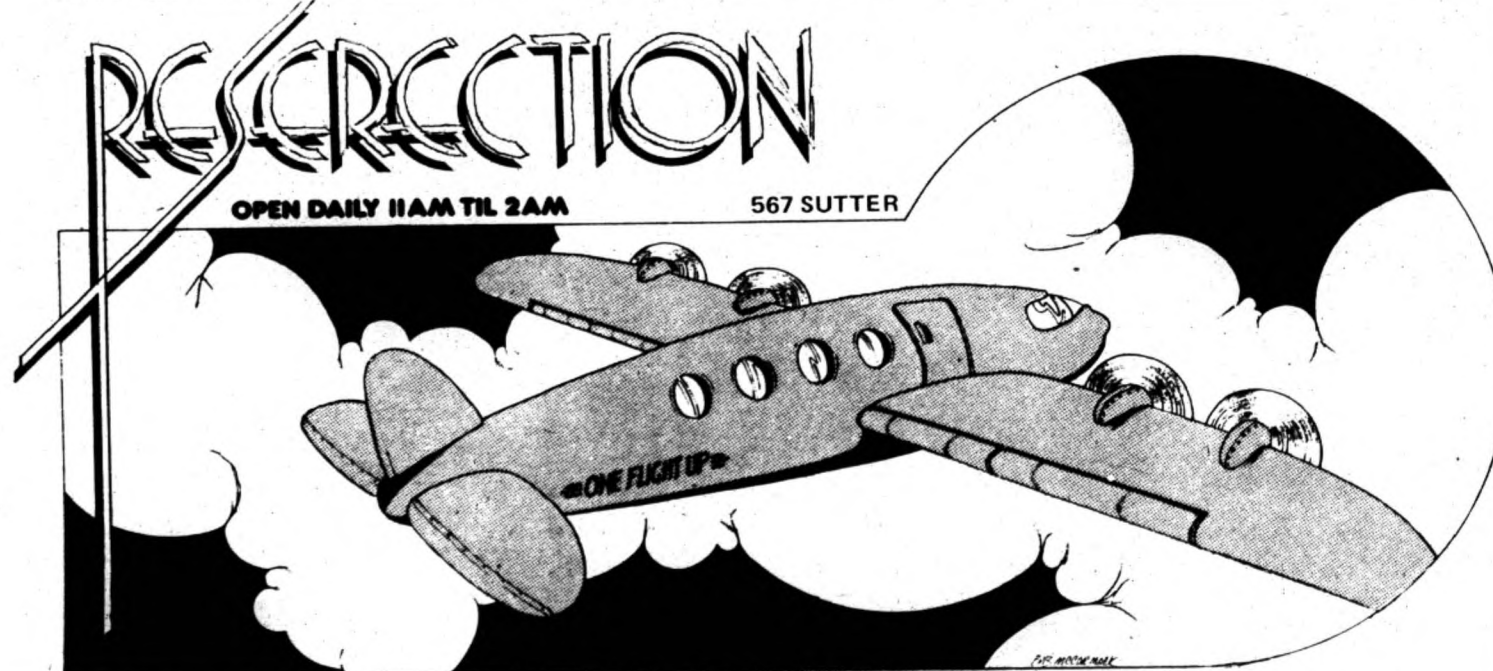

## NGTF DISGRACE

NATIONAL GAY TASK FORCE A FARCE!

Last December, the GAY CRUSADER ran an article criticising the National? Gay Task Force as being mis-leading and representing the elitist element of the Gaysociety, which mean capitalist ripoffs. Now, with this issue, we can only say to the whole world, "we told you so". For an article which appeared in the Chicago Daily News and was carried in several papers across the country showed to America at large the deceit of those in the National Gay Task Force of NEW YORK CITY.

A letter, very deceitful, was drafted by the National Gay Task Force, Dr. Brown, Dr. Voeller, Dr. Frank Kameny, and Barbara Gittings, and was sent around the nation to psychiatrists telling them to vote for the American Psychiatric Association Board's proposal that homosexuality be removed from the classification as a mental illness. This is well and fine to many elitist Gays, as they are all plastic, as they have the morals of the Watergates, they don't mind using trickery to gain support for the resolution which is really quite meaningless. After all, just because someone says that you are not mentally ill as the APA has done, it hasn't changed society's taboo's on faggots and there is little doubt this shall ever come about in the lifetime of those reading this article. After all, just because Lincoln freed the slaves, they weren't really free, for Whitey kept them in defacto-economic slavery for over a hundred years later, and even now, Black is Not Beautiful to a hell of a lot of people. This is a sad commentary of life, but it is true. Racism shows its evil head all of the time, witness the so-called Zebra killings here in our City. Well, faggots are evil people too according to most people who just put down their evening paper from reading about the Houston sex murders trial going on in San Antonio.

Thusly, by their action, the National Gay Task Force has pulled "a Jim Foster", meaning the phoney McGovern letter endorsing Gay rights, which McGovern said he never wrote. The National Gay Task Force has discredited the hard work of many thousands of Gayrights workers throughout the land who will now find it hard going in gaining the trust of certain heterosexuals who have helped us somewhat. If you don't believe this article, just write to Dr. Harold M. Voth, MD, at the Menninger Clinic in Topeka, Kansas, and Dr. Herbert Modlin of the same clinic. They have much to say on the dishonesty of the National Gay Task Force. Dr. Judd Marmor of the University of South California says that "I was burned by those people (National Gay Task Force), but never again." The APA is now considering a recount on the vote due to the dishonest tactics of the National Gay Task Force. We may have won the battle, but we may have lost the war!

## WILLIE IS A SHUCK!

WILLIE BROWN'S BIG SNOW-JOB ON GAYPEOPLE... SEX LAW REFORM BILL A SHUCK!

As Nick Benton in issue #3 of the Gay Sunshine said, "Willie Brown's bill is a pig bill. This bill to change the sex laws badly misses the point of Gay liberation. Basically it comes out supporting establishment (heterosexual) rejection of homosexuality."

For seven (7) years now, Assemblyman Willie Brown has been "playing" with our minds. He continually leads us to believe that his bill which would legalize sex between consenting adults will solve all our problems. Let us be real. What goes on behind closed doors now is protected essentially by the Constitution. There has not been many recorded cases of doors being broken down and the cops coming in and busting doors down to arrest someone for a sex act, (unless it is with two underage 17 year old sailors, a recorded incident that happened in San Diego with one of our well known SFTG figures). Sex in private while maybe not legal, is a factual practice, and that's where it's at. So what does the Brown bill offer us in all reality? Nothing we don't already have.

Now, if, and I repeat, IF WILLIE BROWN WERE SERIOUS, if Willie Brown really wanted to help end discrimination against Gaypeoples, he would introduce a law which would abolish 288a and 286 (oral copulation and sodomy). The Brown Bill does NOT abolish the laws, but reduces them from felonies to misdemeanors, which still makes oral copulation and sodomy a crime. So Willie Brown's bill is one big shuck.

Willie Brown's bill in its present form would never be passed anyway, as it has the most controversial item attached to it that continually flares the bible-bangers ire. That being the section dealing with pimping and pandering. What Willie Brown is doing with his bill, is essentially helping the pimps, for as we said earlier it doesn't really help Gaypeople. And you know the bible-bangers are never going to vote for any legislation that would end the laws against pimping and pandering.

Assemblyperson John Foran told Willie Brown that his bill in its current form will never pass the legislature. But "cool Willie" who "knows it all", said, "mind your own business". Foran has the right idea, he wants to drop the part about pimping and pandering and just have the consenting sex between adults in private, go to the Assembly for a vote. Foran knows that it would pass.

It is time that Gaypeople let Willie Brown, John Burton and Terry Francois know that we as Gaypeople are fed up with their "carrot before the donkey" kind of legislation, that we want legislators who will give Gaypeople fairness and truth, something which Willie Brown, John Burton and Terry Francois do not seem to be able to do.

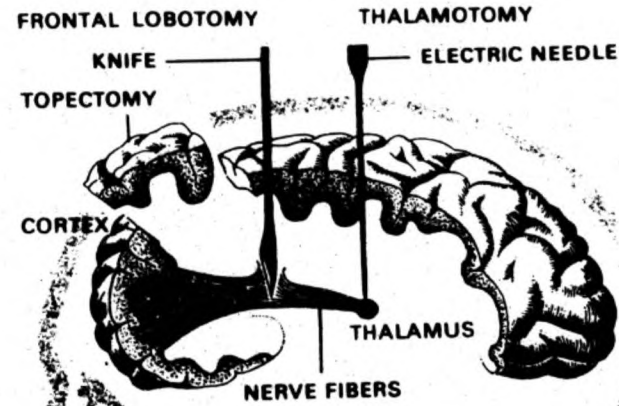

Say no to sexual law reform!... Say yes to sexual law abolition! Say no to the Burton-Brown gang! Say yes to Gaypeople political power!

# BRAIN DRAIN

## PSYCHOSURGERY... COERCIVE PSYCHOLOGY... JUST FOR YOU!

Behavior modification is what the State of California, the Justice Department, the Central Intelligence Agency, all call "psychosurgery", and it's partners, chemotherapy, aversion therapy, and electroconvulsive shock therapy. All of these type programs were described in a book written by Dr. John Rawlings Rees, called, The Shaping of Psychiatry by War. Rees calls for the development of psychiatric shock-troops of well-selected, well-trained psychiatrists who are free to move around and make contacts with the local situations in their particular area. Today, these shock troops are being deployed everywhere in America with the full consent of the Justice Department and their "monster" LEAA (Law Enforcement Assistance Administration) which deals out the money to make some of these programs go. Drugs, conditioning and introspective gimmicks are used pragmatically and electrically, singularly or in combination, by the majority of the present day "doctors".

Psychosurgery: A patient screams, "I'm dying," the doctor orders the patient to sing "God bless America", and then describes how the patient becomes more disoriented and passive with each stab into his brain with the lance-needle. Psychosurgery, it is being inflicted upon over a thousand people each year, it destroys the mind, the obliteration of human consciousness.

Psychosurgery is basically the technique of destroying tissue by

lesions and ablations. The most popular of these treatments has been the prefrontal lobotomy in which the patients frontal lobes are partially separated from the thalamus, a part of the midbrain described as "involved in the experience of emotion". Newer operations attach the brain lower down in the "limbic system".

Dr. Vernon Mark and Frank Ervin received \$100,000. from the LEAA for further work in the field of psychosurgery. Police and psycho-surgeons working together does not paint a very pretty picture for the future of our land.

Psychosurgery, along with other behavior modification programs are conducted on regular basis at Atascadero State Hospital despite the printed lies in the Advocate fag paper. And is it not a bit more than mysterious that the fagchurch, M.C.C. was allowed to hold a party inside Atascadero with the held of the Advocate. The Advocate sold the Gaypeoples of California a bill of good when they said that "nothing wrong was being done at Atascadero". Yet, while the MCC and Advocate people are partying at Atascadero, patients are being "wasted". Curious that the MCC and Advocate people got in to give a party for SOME of the inmates, yet constructive groups such as the Medical Committee for Human Rights (MCHR) are denied admittance to Atascadero except as visitors. MCHR brought Dr. Peter Breggin to California to expose the evils of "modern psychiatry" sometime back and since Breggin has become the acknowledged expert in this field, his articles carried in all the major newspapers in the land. Yet, the "major" fagpaper, the Advocate has comparatively lulled the faggots of america into a slumber, telling them that everything is lovely at Atascadero as they eat their cake and ice cream with the "selected patients" who have been brainwashed for them. For further information in this most important field, I urge you to read the following books, articles etc.: The Shaping of Psychiatry by War, by John R. Rees, published by W. W. Norton & Company; The Struggle Against Fascism in Germany by Leon Trotsky, published by Pathfinder Press, page 402; Psychosurgery in the Treatment of Mental Disorders by Walter Freeman, published by Charles C. Thomas; The Phenomenology of Mind by G. W. F. Hegel, published by Harper Torchbooks, pages 361-362; New Information in the Debate Over Psychosurgery by Peter Breggin, published in the Congressional Record, March 30, 1972, Behavior Control... ## "The Buildings of Hate & Neglect"

by Joseph J. Crum

Prisons were built, to make people wilt, in the endless procession of time. You can hear People moan, as their blood turns to stone, while they pay with their life, for their crime. Maybe they'll see when we're finally set free, that prison's a useless expense. For, all that you learn, is Hate! in return for the punishment that doesn't make sense! To put a man in a cage, just builds up his rage, and resentment towards authority. Why can't they forgive, and let a man live, away from the hateful majority?! They can't leave you alone, and let you go home, they can't bear to see you set free! to make a new life, without stress & strife, and find love, where hate used to be! I hope that Someday, they'll see prisons don't pay, and learn to forgive! and forget! then tear down with haste! and lay them to waste!

## The GAY CRUSADER

The Gay Crusader is published bi-monthly, in a continuing effort to inform you, the public of what is going on everywhere. The Crusader is a humansexual publication, meaning that we are working to create a consciousness in people that there is nothing such as heterosexual, homosexual, bi-sexual, etc., but that by tearing down the labels, we become as one, a human being.

The Crusader prints the news that other papers are afraid to print. News that offends some, news that stimulates the minds, news that creates a new awareness in people, politically, economically and culturally.

NATIONAL LEAA FIGURE SHOWS UP AT SF COMMUNITY RELATIONS MEETING: RUNS INTO U. S. LABOR PARTY BUZZ SAW

A leading Law Enforcement Assistance Administration figure turned up at a police-community relations meeting in San Francisco Wednesday, 5/6. Dr. Bruce Johnson, an expert on police facilities out of the LEAA's "national clearing house" at the University of Illinois (Urbana), who has been spending time in SF on an LEAA grant to help in developing a master plan for police facilities, made a timely appearance at a meeting of the Eureka Valley Police-Community Relations Council meeting -- the first one convened in over two years in this neighborhood.

Johnson, as well as the LEAA cops, the community leader-agents present, the meeting and the overall LEAA program were effectively indicted by six NCIC and NUWRO organizers present, including SF, Nick Benton, who issued the official indictment just after Johnson was introduced midway through the meeting.

Johnson's late arrival with Lt. Frank Jordan of the SFPD's Planning and Research Dept. to make a presentation (including slides) on prospects for police facilities reorganization, was very untimely from the LEAA's standpoint, given NCIC/NUWRO interventions up to that point, and the insistence of the chairman of the meeting, community-cop-butt-licker Thomas Edwards, to "keep all political discussion out of the meeting."

"Given a national LEAA leader is present in the meeting, discussion of the LEAA is quite appropriate," Benton then intervened, and outlined the national scope of the criminal activities of the LEAA. The hysterical Edwards kept trying to interrupt with "what is your question; do you have a question." "It is not a question, it is an indictment," Benton concluded.

The handful of working class people who attended the meeting who were not cops or community leader-agents rushed up the NCIC/NUWRO organizers after the meeting to buy New Solidarity and find out more about the national campaign to dismantle the LEAA.

When a woman asked why the handful of youths watching the circus from the back of the room were not brought into the discussion, our organizers intervened with "yes, tell them about the youth diversion centers, tell them what "behavior modification" means." Smiles left the faces of the soft-cops who try to swallow dissent with marshmallow "listenability" as our determined organizers broke through the barriers of being seen as "leftist crazies," and began to penetrate with the seriousness of our campaign and our charges over the course of the meeting.

Our organizers talked for over an hour after the end of the meeting with angry but impotent youths who gather around the park every night to drink beer and gripe about the world -- including some of the youths who watched from the back of the room.

This working-class neighborhood (white and chicano, mostly) has found itself invaded over the past two years by a "gay" population to the point that the area is billed as "the most densely populated area of 'out-front' gays in the world." The strategy of the LEAA is the world into a fight between straight-gay, to the point that one of the young machos who hangs out in the park asked us, "who's side are you on, the straights or the gays?" The purpose of the meeting was to peddle "localism" in this particular form, also. One of the PCR cops introduced was Elliot Blackstone, PCR cop to the "Sexual" (as he calls it) community.

This father-of-three faggot is guilty of crimes against humanity for his role in setting up a Transsexual Counseling Center in the Tenderloin "skid row" area of SF in the mid-60's. Aimed at cooling out the gang and proto-gang structures of transvestites and young men -- many black -- in that area, which borders on the black Western Addition ghetto. Blackstone's role was to introduce transsexualism into the area, by setting up this counselling center co-founded by the SFPD and the Ericson Foundation of New Orleans -- to deploy counterinsurgency through literal castration. Working with Stanford University's medical center (along with Johns Hopkins in the forefront of transsexual operation experimentation), Blackstone put hundreds of ghetto youth through phase one of what was presented as a two stage operational process... the first stage being hormone and drug treatments to deform the body, and stage two the operation at Stanford University. The result was that very few ever went so far as to actually get the operation (only the prettiest ones, according to one transvestite), and most were left with deformed bodies, drugged out impotent zombies.

When NCIC's Peter Wyer began to introduce reality into the meeting, the most noticeable response was whispering and facial gestures communication between Lt. Kelley of the Mission Station of the SFPD, and Harvey Milk, a "gay community leader." IT WAS KELLEY GIVING MILK ORDERS ON HOW TO STOP THE INTERVENTION!!

Milk, a "gay businessman" on Eureka Valley's Castro Street who ran for city council as an "out front" gay who wants less prosecution of victimless crimes so there can be more cops on the beat to deal with "serious" crime, tried desperately to bring the issue back to "gangs of young straight men making attacks on gays in this neighborhood." Milk's history goes back to New York, where he was a consultant to a brokerage firm,

where he was known as a rabid right-winger, bordering on a John Birch, with a vile hatred of trade unions -- and yet he has been operating under the cover of being a "radical" since his arrival in SF, and authors a "Waves from the Left" column in a local gay rag!! Our organizers exposed Milk for the agent he is, exposing his political position as being identical to that of the emerging national gestapo. Both the little faggot chairing the meeting and Harvey "I'm just a faggot" Milk screamed in unholy rage, while the "faggots in blue" squirmed...

NCIC's Rich Clancey intervened with news of the food shortage... and chairman Edwards screamed that "no politics" are allowed in the meeting (an announcement he made at the beginning of the meeting when he saw us present). So Benton intervened with the "problem of crime" being the SLA as a CIA operation! We announced that the crimes of the LEAA are in the public record, announced the Boston hearings, and welcomed people to speak with us for more details. The meeting was described as "brainwashing" and "turning us all into police informers" at a time when the economy is falling apart.

## Duke Paid \$500 Fee!

NORTHEAST MENTAL HEALTH DISTRICT VOTES "NO" ON MEMBERSHIP TO HELPING HANDS COMMUNITY CENTER.

For the umpteenth time, the bid of the Helping Hands Community Center to join the board of directors of Northeast Mental Health District has been rebuffed by Harold "Duke" Smith, of the Society for Individual Rights and the Whitman-Radcliffe Foundation and Kevin Norton. Smith and Norton, both knowing which side their bread is buttered on "do not want the Helping Hands on the board, for they might not get all they want then. Northeast Mental Health District is run by another LEAA "tool" Dr. Arthur Carfagni, who fears the presence of the Helping Hands on the board.

## GAY ACTIVISTS ALLIANCE THREE YEARS OLD NOW

The GAA (Gay Activists Alliance), San Francisco's most controversial and political group to ever exist, is now three (3) years old. The GAA was founded in April 1 of 1971 by a group of Gaypeople who had just came from a "peace rally" at which they had been attacked and beaten by a gang of male-Chicanos, when a Gayperson was scheduled to speak. Since the founding of the GAA, much has gone down about the group. It has had six different presidents, and has had three different constitutions, and has had at one time an active paid membership of 173 people. It now has an active membership of 84 people in San Francisco, ten times that of SIR, and has a "paper membership" of 349, which is 450 less than SIR's paper-membership.

GAA has conducted 51 demonstrations during its three year history, and all have been non-violent, well, almost all.

GAA began the employment discrimination war against Pacific Telephone on behalf of all Gaypeople, back in 1971, at which time they gained considerable concessions from PT&T. GAA has picketed other Gay organizations which were holding expensive functions for plastic purposes, which include SIR, Alice B. Toklas, and the Tavern Guild Beaux Arts Ball(s). GAA has pointed out that there are thousands, tens of thousands of dollars spent on these bullshit balls, while less than 100 dollars to Gay service organizations. GAA set up the first non-SIR Candidates Night, and have consistently outdrawn all other groups political candidates affairs.

GAA has fought day in and night out, the police abuse of power, and as well the GAA is the first and only Gay group to be actively involved in combating the growing drug plague. GAA is the only Gay group which has a public stand against the public sex acts performed by some of our wayward brethren.

GAA's first home was in an apartment on 22nd Street in the Mission, later moving to the Odd Fellow's Building at 26 Seventh Street, downtown, and has for the past year and a half, been a tenant of the Helping Hands Community Center at 225 Turk Street. GAA's membership is still an active membership and a paper membership (paper members have no vote.). GAA is still growing, and fighting fascism, racism, sexism, and ageism every day and night.

## RUDE RUTH

MADYLYN MOCKINGBIRD GETS DIRTY DIRTY DIRTY.... RUDE RUTH & MARCUS GETS IT ON?... NOVAK JOINS FFA?... BILL BAILEY WON'T YOU PLEASE COME HOME?... CAVALLIO CAVORTS WITH THE UNIONS.... ALL THIS AND MUCH MORE IN THIS VILE COLUMN, WHICH MEDICALLY IS NOT RECOMMENDED FOR THOSE WEAK OF HEART, OR FOR THOSE FEEBLE OR DENSE OF MIND, AS MADYLYN MOCKINGBIRD, NO RELATION TO MAVIS OF THE ROUND UP, DIGS "IT" ALL UP AND PRESENTS IT FOR YOUR VIEW.

LOVE? What is love, well THEDA MAE of Donna Mae's Place sez, "Love is the 'tie' that binds, and 'whips' the heart to a frenzy. Yuk, yuk, she's such a trip, in fact, Theda Mae is a REAL Rocky Mountain high.

FILTHY FILM TIME: Bill Mc Williams is making the "boyfilm" cinema on Powell Street a daily stop now. Just two daze ago, he was there doing what cums naturally, and, in walks the child he "broke in", ole Mark Calhoun, and Mark shouts, "hi Bill", and the old flame Mark, quickly caused the "new flame" Bill McWilliams was trying to "light", to "go down". Mark, you receive our "party-poofer of the month" award.

KALENDAR & DATA BOY COLUMNISTS MERGING? Could be, for strong feelings between Dennis Charles and Randy Motormouth Johnson have led to love according to insiders. Sorry about that Rude Ruth!

DONNA MAE'S PLACE: Chatter overheard in that place would make Brandy blush, especially when John of the Grand Hotel is in there. You all remember John (No Name)! So pretty and if you don't believe me, just ask Theda Mae and Dwight Letchworth. The race is to the swiftest!

LEE RAYMOND'S OTHER HALF: Richard Hayward who sez he's old to sleep alone but not dumb enough to do it, is in stitches about the phone calls tying up the lines at his place of biz between Lee Raymond, his "other half" and the radical Reverend Broshears. Richard, don't you know true love when you hear it?

GOLDEN SHOWERS: Dave Drummond sez he knows where you can buy it in the bottle? Where at? The VD Clinic? Or could he be talking with one of the Wild Geese bartenders who just love "recycled" beer.

BAR SALES: Is it true that the Male Box which a certain person paid the total sum of \$16,000, for is up for sale? 'Tis true and now he wants \$30,000, for it. Maybe he should send some bar sale notices to Napa, someone up there might go for it!

TOILET TOILETS: Two of the Bay Areas biggest "shit-spreaders", spread their malady (oral diarrhea) down in Los Angeles a couple of weekends ago. Smogland was not ready for these two highly promiscuous creatures, both of whom drove up to Fat Shirley's door in a new yellow car. Seems to me that I have seen that car parked in front of the Boot Camp many a night. Guess Patrick wanted to share his "love" with the Cobra Woman and the Rat, for they are all of a kind.

SWEETLIPS REVEALED: Did you know that the Kokpit, home of Sweetlips is owned by a heterosexual person? And did you know that Sweetlips is the person who scratches like a vampire-bat against "straight-owned" bars being in the ineffectual Tavern Guild, and blackballs them? Hype!

END UP ANNEX: That's what they call Donna Mae's Place on Ellis, as TERRY OF HOLLYWOOD who has this "just a friendship" with THEDA MAE, was in their again and again and again, telling about his new found love for "arm length brown gloves" which, wash right off. Ugh!

NOVAK LOST HIS CURLS AND HUSBAND: Richard Novak, who doesn't seem to know the way to San Jose or was it Yosemite and wound up in Los Angeles, has lost all those golden curls, has now lost his lover who is now his ex, Ken Leetlow to Rude Ruth. I saw them "doing things" at the Boot Camp parking lot. Dickie, "when you lose it, you lose it all".

SPEAKING OF RUDE RUTH: Who is the biggest trash-slut-whore in Los Angeles outside of the Cobra Woman and Nasty Nan? Rude Ruth, that's who! Rude Ruth is burning with passion for Marcus who won't give Rude Ruth a tumble (except down a flight of stairs maybe). Being "big" is not everything Rude Ruth.

BILL BAILEY: Is it true Mr. Bailey that you and Charley Brown are "that way" in name only? Only the bedsprings know for sure! UNION SUITS SOME: Did you hear about the letter Cavallo wrote to the union about his beloved Fickle Fox? Just ask him about it! LARKIN LANE: Dorothy sez "fuck off" to the unions! Dorothy, an old McKinley Republican just won't accept anything new. The only things Dorothy accepts new, are men, and then some of them have been recycled. We luv dirty Dorothy tho.

BOOT CAMP HACIENDA: You might as well call it that. What do you get when you cross a Tennessee Stud with a Spanish Bullfighter? You get alot of "hotstuff and big too!" A 12" torch has lite the candle and caverns of the Tennessee Stud of the Boot Camp, Bill McWilliams. In fact the 12" flame was so large and bright and beautiful, that it caused Bill to cancel his scheduled flight to Portland. He heard that someone wanted to use "his torch" to light their fires while he was gone and Bill was having none of that! Keeper of the flame? No, keeper of the "torch"!

HAPPY ANNIVERSARY: To my favorites at the Polk Gulch Saloon, I NOW wish them a happy anniversary! Jim and Bruce were pissed that I didn't do it in my last column, but I wanted to make sure they stayed open one day past their first anniversary. They are nice boys, and have some nice bartenders, even if Kenny is a chicken-hawk, and Larry love pupils, and Richard doesn't like me

Each Wednesday evening at 8:00 p.m. dozens of Gaypersons who have been addicted to alcohol meet at the Helping Hands Community Center. Everyone who has a drinking problem is invited to attend. Tenderloin A.A. Meeting, 8 p.m., each Wednesday, 225 Turk Street.

### AUCTION AT SANCTUARY A FUN TIME

Naomi Mudach, Lee Raymond, Grand Duchess Perry I, Queen Mother Donna Mae, along with a host of celebrities, the fund raising event for the Helping Hands Community Center (Refugee Camp) was a delight.

Much thanks to all who helped especially Naomi, Perry, Lee and Susan Dicked Hayward. A wonderful time was had by all, even the impossible to please Flying Nun, the Rev. Raymond Broshears. Madalyn Mockingbird

### APOLOGY OF SORTS TO THE PHOENIX BAR

Minnie Gersbach telephoned the Crusader office and shouted violently that he was going to sue sue sue sue, ala Bishop Itkin, concerning Gay Crusader EXTRA regarding the recent drug busts, when Minnie's bar, the Phoenix on Post, was announced to have had an on sight sales bust evolve out of his beautiful bar (for elitist Gays only).

It was incorrect in that no one working at the Phoenix was arrested. The Phoenix was not involved, except that one of its customers was busted, not at the bar, but at home for drugs. So Minnie, please note. This is a formal apology.

UGH! ME, PATHFINDER: That's what Al Hanken is pushing, the Pathfinder Club, a group which anyone can join and go on trips around the state, and even nation, even cheaply. Sounds like a grand idea, so why don't you contact Al or drop in to the End Up and "pick up a flyer" on the subject.

MAVIS ROUNDSUP: Mavis has taken over at the Round Up, which should be good news. Maybe Mavis can do something to bring back to life a place that, was once, the liveliest in the land. Mavis should start by getting some "go-go-get-it-on" nice looking type bartenders, for with the current stable (few exemptions), it looks like a Polk Street bartenders convention. In fact, the Polk Street bartenders are younger than the Round Ups. Good luck Mavis and ride em hard.

DAMERON DOODLES: Bob Dameron, the "howard hughes" of the gaybar scene, hit the jackpot with the Mind Shaft, how he is about to duplicate that fete, plus top that "toilet" on Polk Street, with his HOLLYWOOD HOTEL, a new bar to open on Mason Street in the Tenderloin where the Frolic Room was/is. Dazzle, glitters and glamour plus hunks and more hunks will jam into the most fantastic place to ever be built. The same dude who designed the Mind Shaft is doing same with the Hollywood Hotel.

THAT'S ALL FOIKS: Had best wind this matter up with a few words of warning to ye ole tavern guilders: "You began that organization with good intentions, but the road to hell is paved with good intentions, the winds of change are blowing, and they are blowing hard, a suggestion from one who cares is, mend all the fences you can now, for times are going to be tuff on you soon."

Tatatata and luv to Foxhole Tillie, and Jeff of the Boot Camp (form-erly.)

FANATICAL SECT SEEKS DESTRUCTION OF PEACE AND FREEDOM PARTY... DEFAC TO AGENTS OF FBI.

A group of individuals, most all of whom are candidates for political office on June 4th, are trying to take the Peace and Freedom Party for a one-way ride, a ride to oblivion. They are centered out on Mississippi Street and their sources of finances is a great mystery to all. A motley crew arrived about two years ago from Texas, and proceeded to establish themselves as the Peace and Freedom Party for San Francisco, ignoring those registered as such for many years. They now claim to represent the party here in San Francisco, but in honesty, they represent a crew of people who call themselves socialists. Well, if you recall, Hitler called his party "socialists" also, but these people do support the SLA which has certainly proven to be a police-brainwashed crew, but we cannot even say that they are in truth anything but opportunistic individuals who are destroying the Peace and Freedom Party with their fanatical demand that the Party adopt "their brand of socialism" which is not the working-class brand of socialism at all, but the high-school dreamers brand. They are working to undermine the Party at the Statewide convention in Sacramento in August, and will most likely do so if those who believe in true freedom, do not rally round and stop their fanaticism.

They have a statewide ticket, comprised of Trudy Saposhnek, Marilyn Seals, Kay McGlachlin, Gayle Justice, and a local slate of Pat Propst, Emily I. Siegel, and Kayren Hudiburgh. All of those mentioned here are considered to be agents defacto of the FBI which has tried to destroy the Peace and Freedom Party since its inception in 1967. A vote for any of these people is a vote to destroy the Peace and Freedom Party.

The Loyalist Caucus of the Peace and Freedom Party urges all to standfast, stand for freedom, stand for a Peace and Freedom Party of all people, a party of progress, and to vote for, Governor: Elizabeth Keathley... Lt. Controller: Corey Cassanova... U.S. Congress, 5th District: Rev. Raymond Broshears.

For more information on the Peoples Peace and Freedom Party, contact Lee Cole in Oakland at 843-4382 or Ray at 775-0119 in San Francisco. Vote for the Loyalist coalition, keep the Peace and Freedom Party on the ballot, keep it free of the fanatics from Texas.

HELPINGS HANDS COMMUNITY CENTER TOTTERS ON

Desperate pleas for money to the wealthy Tavern Guild, to the Society for Individual Rights, to the Advocate, to the Metropolitan Community Church and to the Pride Foundation, all gay groups with some capital, have gone unheeded, and the Helping Hands Community Center, 16 1/2 months old, is tottering down the road to ruin, except that a bulldog-like clik of people refuse to see it die away like the Tavern Guild wants it to. Money from various sources trickles in monthly, the revenue from the Gay Activists Alliance publication, the Gay Crusader is so small that it doesn't even pay the phone bill. ## POLICE CONTROL OF GAY MOVEMENT

ORPHEUS COMES INTO THE SUNLIGHT, WITH THE HELP OF THE "ARMY" MOVEMENT. ADVOCATE PUSHES THE LEAA, DOMESTIC GAY OF THE CIA, LEAA/CIA THINK TANK IDEOLOGY USED FOR PSY WAR AGAINST WORKING CLASS, "WICKLESS CRIME", POLICE-COMMUNITY VIGILANTE GROUPS, AND THE CONCEPT "GAY" ITSELF.

by Jim Rankin

It's all over. At last we are free of the beast. If we dare to act. The LA ADVOCATE, nationally known "homophile" newspaper, has revealed itself finally as fully a police tool. In its May 8 issue, the lead editorial of the ADVOCATE begins the open campaign for the domestic arm of the CIA, the Law Enforcement Assistance Administration, a special product and tool of the Rockefeller/CIA faction of world capitalist interests, designed to create and maintain a vast gestapo apparatus to divide and control the mass forces of the working class and its allies as the world's economy dives headlong into a Great Depression that will make the last one look like a Sunday picnic. Without such a continental gestapo apparatus, and without such a mass base such as that provided to Knapp, IG Farben, Rockefeller and their economic planner Hjalmar Schacht by Adolph Hitler and his terrified and wretchedly impotent macho/faggot followers, the Rockefeller faction cannot hope to succeed in its immediate plan of a 40% across-the-board cut in the standard of living of the working class and increasing austerity to maintain the value of its paper. Hell is real, and it first appears as "economics".

Orpheus (as the CIA likes to think of itself) now has a deliberate policy of "coming into the sunlight", of revealing itself nakedly and brutally, even in its illegal-domestic operations, such as the LEAA. The spooks are now trying to come out into the daylight. They have some tasks to perform. And all the little spooks, the assistant spooks, the junior spooks--the ones we knew were there all along, but couldn't quite get a focus on (all we could sense was the horror, the terror, at different moments)--all the little spooks, the "gangs and counter-gangs" (of counter-insurgency, are "coming into the daylight" also, to do the jobs they have been paid, trained, planted and brainwashed to do. All the "sleepers" are awakening, only it's 1984, and they're to help make it happen.

While the ADVOCATE gives the LEAA publicity in Los Angeles, Harvey Milk in San Francisco joins with Tom Edwards in setting up a police "community" vigilante group in the Eureka Valley, setting up the scenario of a LEAA "gay-straight" battle (to be arbitrated by "you-kne-who") which will advance the CIA's Operation Chaos and Confusion. (already well underway with food and fuel hoaxes, the SLA, the Zebra operations, the Market Street gangs, and so on) immeasurably nation-wide. It's so beautiful to find out what you're saying is true, to sit in a meeting and watch the play go on: kids from the local Catholic youth group, the angry parents, Tom Edwards, president, and forcing conversion only one way, and Harvey Milk taking sage directions from Lt. Kelley of the San Francisco Police Department, while Elliott Blackstone (castrator of fathers in the Tenderloin, through his Transsexual Counseling Unit) acts as a "nationally known authority on homophiles", pure psychodrama, pure brainwashing, a deliberate use of modern psy war techniques ("The Untrue is real; the real is untrue" "Keep 'em going around in circles" "Don't let reality enter." "Keep them focused on their navel, or the equivalent of their navel, say, maybe their neighborhood.") And all the while, Dr. Bruce Johnson, of the LEAA's national operations staff sits "benignly" in the back of the room smiling his Tavistock grin, and decent people vomit.

Meanwhile, almost every "gay" operative spotted and rejected by human beings over the last few years appears on the list of endorsers of Mother Eugene Boyle, an organizer well-schooled in the anti-human techniques of Saul Alinsky, with a very vicious career in various areas of the country. Boyle, using the inner nature of machos and faggots, the fear of the mother coupled with a profound "respect" for mother images like the Mother Church, organizes well among the farmworkers, the Mission machos, the supposedly non-macho faggots, and the deprived, terrified, mother-dominated youth of the black ghetto areas ("Yes, dear, mama loves you... even if nobody else does. Yes dear, you really ARE a turd, and nobody could love you but me. You can never reach out into the world. THEY will only hurt you. Poor dear. Poor castrated little man. Do you REALLY expect them to understand? There's no one out there... so stay home with mama. So, little boy, do what mama says, get married to another little man, who will treat you just like I would; have children, and watch us raise them the same way. There now, that's mama's good little boy. That's mama's little cock. Good little boy!")

So now we know even more clearly than ever just who the police are, just who the Rockefeller agents are, just what is the nature of "communities" and their use in counter-insurgency, and just how we have been caught in gangs and counter-gangs most of our lives: the gang and counter gang technique of population control Britain's Major Kitson used in Kenya, in Ireland, in Malaya, and is now proposing for England itself, and for Canada and the United States! You really didn't think that strategic hamlets would be used ONLY in Kenya and Viet Nam, did you? Those were only the testing grounds. That was only Phase I, and maybe Phase II, of the real operation: military rule in the advanced industrial sector of the world economy by the mid-seventies. Austerity economics and slave labor. That's the future, if we don't change it. That's the only way Rockefeller thinks you can get through this collapse. That's true, for him. He's got all sorts of paper values to protect. Strange, though, how all the rest of us think we gotta go down with him... or instead of him. It never seems to occur to us that human beings are valuable, are precious for the future of the human race, that what needs to be done is to call in and cancel false paper values, and restart the economy based on actual production or developable productive capabilities.

So we know what "brown power" was, what "gay power" was, and "black power" and "women power" and all the rest. There is only human power, to build the human world, and love and treasure it and all its people. So now we know about the so-called gay, homophile, homosexual, and now "bisexual", world... from the late forties and early 1950s on. We know about Tom Maurer, who in 1969 helped do a psy war preliminary psychological profile on the gay population here, selecting out certain "leaders" or people to be "developed" as "leaders" and spokesmen for a "COMMUNITY" WHICH WAS TO BE DELIBERATELY CREATED, which actually did not exist in the form it was to be given. We know SIR, and its early psychological profiles. We know the Alinsky organizational center at Glide Church, which "organizes" and buys and sells blacks, gays, prisoners, old people, domestics and anyone else who are on the agenda for "dev-

elopment" into an interest group or community which will then act not on their TRUE self-interest, their unity with humanity as a whole, and its need to stop fascism and restart and expand the world economy, but rather act on any limited (false) or deluded self-identity or illusory self-interest, to their own ultimate ruin. (Yeah, Cecil, ain't it so great to be "Somebody"? Cecil "Big Mama" Williams. What's the matter, honcho, those numbers not coming along so well anymore? Notice yer dashiki gettin' a little long lately. Looks almost like a dress. Still wear pants under it, though don't cha?)

So we know about the Rev. Bill Johnsons of the world, the sweet little old ladies, the Ganymedes ("Butter wouldn't melt in his mouth.") who wouldn't DREAM of being nasty to anyone, who just can't STAND all those nasty street people, who just wouldn't DREAM of being so "political", but who sells his brothers and sisters, and all of humanity, into a living hell. Strange how all the saints of the world, the good little boys, always wind up leading or selling everyone else into horror and defeat and whoredom... and then pretend to be exempt and above it all... and even "worshipped" by those they have delivered over to the enemy: the mellow ones, the gentle ones, the noble ones, the kindly murderers who accompany you to the gallows as your "comforters" (we know what the clergy are): their hands are black with the dried blood of their brothers, these sweet ones who always talk about "we all have to get together" in such nebulous terms. They are like marshmallow fluff when you talk with them. Empty inside. They don't know what's going on. How could they? They're just fooled. On yeah, so how come they're always right in the middle, always there being good and anti-nastiness, and why don't any of their good things get realized UNLESS it is precisely as a counter-insurgent operation needed by their masters AT THE TIME? Marshmallow fluff has a purpose: it ties you up, confuses your clear ideas about your human needs in clouds and mists of good ness and sweet intentions, postpones action, disbands movements with REAL reasons to exist and real ideas into vagueness, and clears the way for only the police operations to succeed, for only the LEAA to succeed, for only Rockefeller and the CIA to succeed. Aren't they nice? Aren't they sweet? Why THEY would NEVER hurt anyone. Yeah. So we all remember that little fucker "Saint" Francis of Assisi, who preached "non-violence", long-suffering, patience, and "nobility of spirit" to the suffering wretched of the earth just as they were getting a little surly. He made them remit themselves to the corrupt Mother Church of Rome, and mercantile and agricultural interests; he gave them "nobility" and internalized oppression just as they might well have fought. He restored the Church of Rome, for several hundred years more of corruption! The Pope was right to kiss his foot. And as for Cesar Chavez, Alinsky operative who prevented a repeat of the 1930s organization of workers in fields and sold his brothers and sisters "nobility", failure and defeat... we shall deal with him and his friend Boyle later in other articles. Meanwhile, take a look at the list of Boyle endorsers, and know who your local agents are. Remember their histories. Remember what people and projects they were associated with. Think of them as you have known them. That's right. You were right all along. Now, do something about it. Turn them in. Indict them for crimes against humanity under the Nuremberg judgements of international law. Demand commissions of enquiry into the operations of the LEAA, and their part in it. Blow their cover everywhere you can. Spread the word: anything they do is suspect: blow their operations: make them useless to the CIA. That's the beginning: stop the people who are trying to stop the working class organizers... stop the people who are trying to keep mass resistance and mass strike ferment from coalescing into a movement that CAN quite literally and quite deliberately stop fascism and stop a depression, that can rebuild an economy and provide the way for all people to become fully developed and fully creative human beings, with a world standard of living that allows this.

So it's over for them all, the ones we've named and the ones we haven't but will in good time. To be a man in this generation under capitalism is to be a fucked father, a castrated father, to be impotent. To be a woman is to be fully impotent. That's why "mother fears" can be used as a force for stopping human growth, in sons and daughters both. The question is humanity. To be free from father-rapists and mother-fuckers both. Both are products of terror, the terror of the punk. He will be macho because he is afraid. He will beat up or sell or organize his brothers and sisters, his parents, his children, because he is afraid. He will become a police officer, the supreme faggot, because he is afraid. He will work for the CIA, or for any fascist force going because he is empty inside, and afraid, and in desperate need of outside strength and "authority": that is the nature of fascist organizing, whether Hitler or the renegade coward Mussolini, or Delancey Street, or any other operation based upon false authority, any operation based upon "jacking up" the destroyed and wounded ego of the castrated animal who might have been human if humanity were possible. We know about punks.

A gay man is an impotent father. The question is the become potent. Potency is not "balls" but the seizure of humanity, working with other people to build a world. "Death in Venice" is a movie about a faggot who could only wander about after the ass of a youth in the midst of decay, depression, and pestilence. He sought, perhaps, his own youth and creativity as he wrongly perceived it. But most probably not. If you take the notion of the father, and of the youth needing to be taught about the world, needing the knowledge and tools to work with so as to be able to take command of the human processes of the world (creative mention), then you know the full tragic impotence of the would-be father. Powerless himself, and failing more under illusion than age, he first of all cannot see reality, or if he sees it cannot convey it, cannot break through the crap the "youth" is laying down, and cannot see the real need of the youth, but in both of them) to reach out, seize the world, change it, and become human. And to break away from the mother. But if the breaking away from infantile forms is only to move toward the elderly infantile mother domination of another man, a man crushed and impotent, what then is the use? Where is the hope? Where is the father? Fatherhood being understood in the capacity to "be responsible for the world", for explaining and analysing it, teaching, and developing the creative capacities of the young vis-a-vis NOT THE WORLD AS IT IS, but the world as a truly human species and truly human species individuals make it. To be a father is to lead the way into the human world; to develop the capacity to go on developing, in oneself and in others; it is to seize upon, take action in, and change the world. IT IS NOT to submit to the world "as it is", in pure dionysian fashion. It is negentropy, not entropy. It is hope, not despair. And it is love.

It is possible to know and change the world. That is the secret that psy war is trying to conceal. It is possible because the bases for that already exist, or can be rapidly brought into existence, based on what

already exists. It is not only possible, but historically NECESSARY. There is no way for humanity, and the human world, to continue if the working class does not at this point break out of its mental chains and illusions and begin to wield the powers of human creativity and human development to that it alone (ALONE!) is capable of taking up, at this point, for all our sakes. And we will either succeed in taking up and fulfilling this task, or there is no humanity. It's as simple as that. If there are any doubts, take a good look at the world situation, and take a good look at the hysterical drive of the Rockefeller/CIA/LEAA forces to deny reality and try one more time (to your current expense, and have never understood. They are preparing the hell for the human race, and holocaust. And upon that basis, the indictment of all the agents of that factor or any similar factor rests: the indictment by human beings of sub-human beasts, of animals, for crimes against humanity. No matter what the level of commitment or cooperation, every criminal will be exposed and dealt with. When the power exists, all will be brought to trial. Not for purposes of retribution, but for the sake of humanity.

To those who turn their back on their own humanity, on the possibility to develop their potential human powers for the sake of humanity as a whole, and even turn instead to work with the very forces trying to impede and destroy the absolutely necessary creative development of the common powers of the human species to advance qualitatively its powers to develop, we have only one thing to say: give up your criminal complicity, turn yourself in, begin to work to create the human world; the beginning of your "penance", your only real "retribution", is to regain your humanity; the cost if you do not is your humanity itself. Let that seem a moralistic thing, along the lines of the obscene and bestial "individual" morality of neither you nor any other individual exists in himself, as some kind of individual member of a species. The identity of a person is rooted in that species as a whole, in what it is, in what it is becoming, in what it has possible at that time, and what it hopes to or can accomplish. Only that. What is being torn away from you, what you are helping to tear to shreds beyond all recalling, what even the factions of capitalism are destroying for themselves because of their ignorance, is the very ground of your being (which is not mystical thing, but very concrete: it is the human species itself, and the universe it creates and develops). You have before you life and death: choose life.

## SITTING ON THE DOCK OF THE BAY

SITTING ON THE DOCK OF THE BAY... News, Views and Comments by Rev. Raymond Broshears As I sit here looking out over the bay, everything looks so serene, so happy, yet all is not well in Fagdad by the Bay. In recent months, much federal money has come into the San Francisco Police Department through L. E. A. A. (Law Enforcement Administration), which is a documented front for the Central Intelligence Agency, formerly the OSS. L. E. A. A. was established after the Omnibus Crime Bill was passed in 1968, better known as the "Safe Streets Crime Act". Since that time, LEAA has made sweeping changes in the local police departments around the country, and our town has been hit the hardest outside of Boston and Detroit. John Rees, longtime CIA figure wrote, "The day of the army looking for an invasion from without, is gone, for the invasion will now be from within, revolution. We must change things, and quickly, for dissent is growing across the land, and we must move to change the various police departments into a "blue army". Local police units must be mechanized, computerized, they must be trained in urban guerrilla warfare, for that is where the next war America is facing comes from. We can stop it if we act now, by establishing behavior modification centers, at which those who are causing dissent can be dealt with. This is typical of L. E. A. A. funded programs, and they are going on right here in San Francisco. You all remember the furor over the helicopters? Well, there have been more. For now the whirl-birds are equipped with zoom-video cameras which are capable of zooming into your living room window. Then you all remember the "video cop" installed high on a pole at the intersection of 5th & Mission? Well, there are more to come, such as the ones planned for 18th & Castro, another at 7th & Market, another at Ellis & Mason, and yet another at California and Polk. Yes, Big Brother arrived sometime ago in San Francisco with the full approval of Supervisor Terry Francois, Supervisor Robert Gonzales, and Supervisor Ronald Pelosi, just to name three of our elected officials who voted for many of the L. E. A. A. programs for the police department. Now, a new federal law has gone into effect, and the Board of Supervisors can be bypassed by L. E. A. A., who can now deal directly with the police department.

ADMISSION FREE... That's a bargain that you can't beat, and you will

see the most fantastic theatre in the history of San Francisco. Festival of Gay Liberation at the Neighborhood Arts Theatre, 220 Buchanan Street, on Friday June 28th at 7 PM and Saturday June 29th at 4 PM. SHORT ITEMS: R. I. P., Ms. Beverly Jean Loos, former of the Daughters of Bilitis. Beverly was quite outspoken, a trait which caused her much loneliness and sorrow. She contributed much to the women's liberation movement, and she died recently, alone and unwanted and unloved. Her body found after days of decomposition. The death was called to my attention by sister, Beth Elliot, noted folk singer. Tis such a shame that one such as Beverly must die, alone, unwanted, merely because she spoke out, loud and long. The Gaywomen's movement does not have any loud voices, but that's their problem. A plague upon all who scorn such as Beverly. R. I. P. dear sister, I and others remember the good you did.

GOLDEN GATE ASSOCIATION OF COMMERCE: Is a new group, comprised of businesses (including the Gay Crusader), which is something of a Gay Chamber of Commerce. Officers have been elected and membership of businesses is near 70, which is mighty fine.

IN TOUCH... OUT OF TRUTH: Another Los Angeles rag, In Touch, is doing the ADVOCATE-trip. Could it be that there is ADVOCATE support in it? Another one, ERA has much of the old ADVOCATE in it, via the "saint". Jim Kepner is a fine person, just trust that he doesn't allow some of the venom found in In Touch splatter on him, right Lyn Pedersen?

HELPING HANDS COMMUNITY CENTER: During my time as director of the Center, I have not had much time to do some of the things I would like to do, nor can

I afford to do so. Let me say this to my detractors, the sour-grape-queens. If each of you, put 1% of your money, and time into helping others, as I have tried to do through the Center, we wouldn't have any problems in San Francisco. "Put your money and time where your big fat mouths are!"

NEW BOOK... THE GAY CHURCH: To my friends in the Metropolitan Community Church, let me say this. My only criticism of MCC is that it is trying to be all things, theologically, to all people, and it just won't work and it isn't fair to your members. I think that an MCC is basically a good trip. Good and competent clergy in Rev. Howard Wells, Rev. Ms. Frieda Smith, Rev. Roger Harrison, Rev. Ploen, and others whom I have not met. But, when one makes a statement about Rev. Troy Perry, it is about him, and not the MCC as a body. He is not God, he is not above a tongue-lashing, he is not above reproach. And those MCCers who defend him at every turn do him a dis-service, for by criticism only, can he ever learn how to rectify wrongs. I commend the authors of the book, the Gay Church, except for one point, they could have taken it a bit easier on the Itkin.

CONGRESS TALK: My bid for a Congressional seat representing the 5th District, San Francisco-Marin and Sonoma is quite exciting. My reception has been quite good, with the exception of that from the so-called leaders of the Gay-community and their dupes. Overwhelming support from senior citizens in both our town and Marin has been heartening, as well as from the rank and file of labor. Some labor bosses have even approved and endorsed me. I thank them all. I believe that I am going to win.

## A Cutting Trip

FROM THE MOUTH OF ONE SURGICALLY BRAINWASHED? REMOVED.

In the Tuesday May 7th San Francisco Examiner, there appeared an article entitled, "Inmate's Free and Blind". "Even though blind, Eugene Austin is glad he is going to be free after 33 years in Nevada prisons. Austin, 51, went to prison in 1941 at age 18 for slaying a woman during a shooting spree in Fallon, Nevada. Austin said he had no hard feeling about the MORE THAN TEN YEARS IN ISOLATION, ... HIS BLINDNESS. ... or the PRE-FRONTAL LOBOTOMY HE UNDERWENT IN 1953." Good God, there it is, for all to see and read. A man who allowed the Nevada doctors to experiment on his brain, to surgically destroy his life, to have blindness strike him down because he did not receive adequate medical treatment, and who spent ten years in isolation due to his refusal to allow them to lobotomize him, which he finally did. Now, he just loves the prison officials even though they butchered him. Isn't "big brother" wonderful? "Big Brother" makes you love him for making you blind, for slicing your brain, and on and on. This is a factual case, but just one of thousands and thousands.

## More S.L.A.'s!

BROSHEARS PREDICTS MORE SLA'S

On KQED-FM radio, in a half hour show centered around his quest for the 5th Congressional district post, the Rev. Raymond Broshears, Peace & Freedom Party candidate for Congress said that, "unless there is immediate change, far sweeping, a complete about face by the government, and a change in the system of government, I can see only further Symbionese Liberation Armies springing up around the nation. The government knows this too, that's why they are making the big-brother type attacks on various militant groups. But the stupid fools in Washington just can't understand that it is individuals, the people who are fed up with the corruption, the unemployment, and all that crap, they are the ones creating the revolutionary armies. And I don't blame them one damn bit."

## Tenderloin Jerry

TENDERLOIN BUSINESS REVIVAL

Business continues on the upward swing in the Tenderloin for Gay-people at least. That is the official word of the Gay Activists Alliance deputy-chairman, Jerry Salazar. He pointed out that with the mid-summer opening of the Hollywood Hotel by Bob Dameron in the old Frolic Room location which he purchased from Meyer Neff last spring, and Neff's transfer of a live drag show from the old Frolic Room to the new location, that the Tenderloin will be swinging as never before. Rumors continue to fly concerning the Sound of Music reopening now that Wild Bill Hitchcock is back with us once more. The Sound of Music is one of the most beautiful bars in the City and we need it back in business. The Red Lantern at Golden Gate and Leavenworth continues to pack them in, as does the old timer, Blue and Gold. Harry Ho's Landmark on Turk Street does a nice supper crowd business and bar. Now that Madame LaFarge has full ownership of the 1001 Knights at 335 Jones, that place will become a real standby and most successful business with Roxanne helping out. The Roadrunner with Mama Peck continues on and on. Donna Maes Place, "Hula Shack" at 187 Ellis continues to grow and grow, giving much zing to the Tenderloin. Business at the Score II is very nice and will be much nicer after the opening of the Hollywood Hotel. The Body Shop remains the same with Big Frank on hand to help out. The Windjammer is packing them in on Geary at Leavenworth as is the Hob Nob. Yes the old Tenderloin is doing great, even without the Kokpit.

## WAYNE COUNTY

WAYNE COUNTY PLAY BEING PRODUCED HERE

The bizarre, the shocking, the one and only Wayne County, of New York City, leader of a drag-rock pack, was outrageous at the Wesbeth Video Exchange, where his performance was video taped by Ingrassia and recorded by Mainman of David Bowie fame, who are thinking of putting out an album, even though Wayne County has no label deal yet.

Wayne performed such original numbers as "It Takes a Man Like Me to Like a Woman Like Me." One of Wayne County's costumes reminded one of the triple-tiered tutu made out of three dozen blown-up prophylactics. Wayne's production of "World, Birth of a Nation" which he wrote, stood New Yorkers on their asses, and now Wayne's three act shock of shockers, pure madness, pure insanity and joy, is being done by the Festival of Gay Liberation Committee, which will have the play at the Neighborhood Arts Theatre, 220 Buchanan Street at Haight, on Friday June 28th at 7 PM and on Saturday June 29th at 4 PM. This is a play that has to be seen to be believed.

Some former members of the outrageously wild Cockettes are co-directing the play and performing in it as well. If you desire more information, call Peter or Marshall through the Helping Hands Center at 771-3366. Join in the fun, this could be your chance to be an actor or actress.

## GAA Manifesto of action!

Gay Activists Alliance Manifesto  
STRIKE FOR FREEDOM...DARE TO STRUGGLE

In the chaotic period of the existence of the so-called Gay Liberation movement, which has sputtered to a grinding halt as it found itself coopted by opportunistic capitalist, it was able to bring into the public view for the first time, the fact that there was a group of people, of all races, all religions, all creeds, and all colors, whose single binding tie was that they were homosexuals. The Gayliberation groups were not together people, and thus it was they had to "die" as they did, and the old style homophile groups returned to power, with the exception of a few still burning lights around the country. Now, only Detroit, Ann Arbor, New York, San Francisco and Miami have anything resembling true peoples organizations, ones that have not been coopted by the greedy capitalist who make money off the oppression of the homosexual. With the advent of study groups in the cities mentioned above of Marxist study groups within certain Gay groups, we have found a growing revolutionary movement within the homosexual world. And now, within a brief period of two years, the Gay Revolutionary movement has brought together many people throughout Amerika to agitate around issues relevant to the Gaypeoples: police harassment and entrapment of Gay peoples; anti-homosexual laws; social discrimination against Gaypeople in housing and employment; the "blue terror" which vamps upon Gaybars and upon street-people; and of course, the cultural hostility toward the Gay communities and the Gaylifestyle. Gayrevolutionaries around the country are confronting local fascist departments, courts, the straight-communities, and the mental health establishments.

The Gay Revolutionary Movement is part of the revolution which is occurring throughout Amerika today. The revolution is a dual revolution; a social revolution aimed at abolishing the institutions of social power and exploitation and creating new participatory institutions of a syndicalist society in which all people can be free. It is important for the Gay Revolutionary Movement to link up with other revolutionary movements, for the goal is not to create a "liberated Gayghetto" within this society, but to overthrow all authoritarian forms of government in general and create a liberated society with a limited amount of government for all the peoples of the world.

The Gay Revolutionary Movement seeks to build a strong, popular, community based revolutionary movement with an action program of social and cultural revolution. The GAA/SF (Gay Activists Alliance-San Francisco), presents an outline for such an action program, not as demands, but as guidelines for the Gay peoples of Amerika.

### Action Programs for Gaypeoples by Gay Activists Alliance

- Gaypeoples must confront the straight culture through: the media, rallies, zap-ins, guerrilla theatre, and legislative zaps, and other appropriate confrontation tactics. Gaypeoples must never let an opportunity pass by, to challenge the system at every turn. Social taboos must be ignored for they were created to keep "people in their place". In challenging the fascist-dominated system, anything is proper. Too long Gaypeoples have allowed straights as well as Tavern Guild-types to tell us that "if you want something, you do it in the proper way!" Bullshit, their proper ways have held us in chains, and the Gay Revolutionary Movement of the GAA is breaking the chains that bind us at every chance. There is pain in progress!
- Gaypeoples must confront reactionary-Chauvinist attitudes within the Gay communities through consciousness raising sessions in Gay institutions, functions, even if it leads to disruptions and possible arrests. If you dare to struggle, only then do you have a chance to win.
- Gaypeoples must confront the puritanical, sexually repressive culture and reactionary authoritarian family structure, which brainwash youth into sexism and chauvinism. We must ally ourselves with other movements such as the true women's liberation movement, and various other groups which lead to a free culture and a liberated sexuality.
- Gaypeoples should support the freedom struggles of other culturally oppressed groups in Amerika. We must ally ourselves more strongly with such groups as the U.S. Labor Party, the North American Unemployed Welfare Rights Organization (NUWRO), with all Blackpeoples liberation movements, with the Chicano peoples liberation groups, with all movements dedicated to fighting fascism and racism, as well as sexism and ageism. Gaypeople should become a part of the cultural revolution of the young people which is making waves throughout the nation, overturning traditions, customs, beliefs and superstitions which prevent people from being free.
- Gaypeoples must confront the fascists which control the police departments and create waves of "blue terror" at given moments throughout ghetto areas. We must educate the people to the methods the police use and from where they originated. We must encourage Gaypeoples to greater use of self-defence to defend ourselves from terrorism.
- Gaypeoples are oppressed not only by the power structure of fascistic state capitalism in Amerika and the west, but also by the socialistic-fascists of Cuba, Albania, and other "alleged" socialist nations which suppress individual freedoms. The Gay Revolutionary Movement here in Amerika must support the freedom struggles of people throughout the world living under authoritarian regimes of state capitalism (Israel, Brazil, Greece, etc.) and state socialism (Bulgaria, USSR, North Korea, etc.) and oppose both the western and eastern imperialist camps as a part of a world revolutionary movement.
- Gaypeoples must create and operate community oriented projects to serve the needs of all the peoples. Social actions, survival centers, human care-services centers, legal assistance projects, etc., all must be a part of the Gay Revolutionary Movement. Group as well as individuals should aid and become part of community free clinics, drop-in educational centers, and we must provide greater psychological care for our people who have been devastated by the brainwashing of the heterosexual society.
- Gaypeoples must work for the day that there shall be neither the heterosexual nor the homosexual, but on the humansexual. But we must use Gay-oriented bases from which to work for that day. It shall be a difficult struggle. The Roman Catholic Church with its doctrine of machismo must be overthrown, for the devastation

## PCR CASTRATES Gay

"GAY" COP APPLAUDS STREET SWEEPS OF GAYS!  
POLICE WAR ON TENDERLOIN STREET PEOPLE...17 ARRESTED

The "blue-devils" of the San Francisco Police Department led by Sgt. Tom Stack of the Central Station of the SFPD, made a series of sweeps in the Tenderloin district of the City in an effort to "clean up the streets" and to "protect the drag queens from the Zebra-killers", as well as "keep Henri and Werner Lewin, those loveable German brothers at the Hilton Hotel happy". Stack made the sweeps after midnight in retaliation to the organizing going on in the Tenderloin by the GAA. But GAA spokespersons said that they will not be deterred by this action and asked the people to come to the Helping Hands Center where a GAA representative will take your complaint about the police.

GAA officials have set up a "cop-watch" program where two patrols of two have been watching key businesses for "cop-take-offs". A "take-off" is taking free meals and other free-zies for just being a cop off of some poor merchant or restaurant. After all, if the cafe or bar owner complains, they don't get "good service from the cops anymore". Actions such as this have angered the beat cops as well as the vice-cops, who are noted for "take-offs". Also the GAA in recent weeks stepped up operations concerning slumlords, an action which has angered the bureaucrats at City Hall, some of whom have been negligent on their jobs regarding inspections or they have been "bought". In nine out of ten hotels and apartments which were inspected by GAAers, violations of monumental proportions were found in areas of health and safety of the tenants. The tenant is afraid to make a complaint due to the danger of being beat up or evicted. San Francisco has no housing rights laws for the tenants. GAAers believe that this is all part of the police wave of "blue terror", and certainly a drive on the part of the police to turn the community against the GAA organizers.

Tavern Guild officials applauded the recent police sweeps and so did one prominent Tenderloin Gay bar owner who all want to "get rid of the drag queen". Elliot Blackstone gave his approval of the "sweeps" also, but what can you expect from a cop.

Gaypeople have been found to be working with the police in helping them make the sweeps, at least that is the charge of Rev. Ray Broshears of GAA who says that he has proof of faggots cooperating with the police in several areas. Broshears has released to the underground press the names of four faggots who have turned others in for favors from the police. Best known is Ronnie Rosselli; Sean Collins; and one former employed bartender of Cabaret, Lenny Green.

## RANDY

LIKE IT IS...  
...OR COULD BE  
by Randy Johnson

San Francisco, to me, seems to break you! Why San Francisco? One reason being that achieving here, is at its stiffest. You come from a small town, where you more, or less had your own way, or got what you always wanted. You then move to the Gay Mecca of the world, expecting too much, and from there, you have to learn to adjust, or exit.

To make something of yourself takes time, you can't always have your own way, you can't always get what/ or who you want. As maybe, you were accustomed. It's a gradual climb, but to achieve a goal with all the stiff competition here, and to achieve it honestly, without hurting anyone, is your greatest achievement!

Graffiti, in different forms, and ways, of course just may be the oldest communication between humans!

Willis, always a favorite of everyone, and Rome from The great new Phoenix, were victims of some lunatic roaming the streets. I your alone try to stay in a busy area, and more important, try not to be alone. Hope all is well soon with them both!

Good to see Stanley from The Trapp, back again for a long while --hopefully

Record for jukeboxes, yourselves, or whatever, "Mighty Love" by the Spinners.

Open mouth, insert foot--could be a good way of describing yours truly! To a few security is the reason why insecurity is so common! Not that anyone wants it that way, but it's the way it is. This is how secure, I'm not! I had a job, then two jobs, then three jobs, all at the same time. The reason being--Insecurity. I wasn't quite sure of the jobs I did have. I don't like to say no, and by so doing, lost a lot of respect of friends, or lost the friends. The point of all this being, don't plan too much all at once, and learn to come right out and say what's on your mind. Say no, if you have to but get it over with; If there's going to be hurt, better a small one right away, than a bigger one later! Just a thought! Be satisfied with what you got!

In this day and age, my friends, there are such things, as a necessary evil. But backwards it spells live!

of Gaypeoples by Latinos in particular, who have been brainwashed by the Roman Church is horrible.

9) The Gay Revolutionary Movement must all with other freedom movements as said before, so that we may help to build a broad based constructive revolutionary movement which will address itself to the problems of economic wastes, pollution, education, national medical programs, mass transportation at no cost, and other revolutionary programs which will help the people to help themselves. Revolutionary groups have been agitating, propagandizing and confronting the imperialists, and such work has laid the basis for building a true Peace and Freedom Party movement which will embrace all revolutionary groups in the country. Join the Gay Revolutionary Movement, turn your group into a revolution, dare to struggle, dare to win, dare to be free. Be a part of the peoples freedom movement now!

## ONE BY ONE, YES?

"ONE BY ONE THEY PICK US OFF"

Truer words were never spoken, that according to Jerry Salazar of the GAA (Gay Activists Alliance), who denounced the police-tactic of divide and conquer which is being used in San Francisco today.

Salazar referred to the police harassment of Drag-queen which groups such as the Pride Foundation, Tavern Guild, SIR and others all support.

Salazar said that, "if you support the busting of one element of the Gay Community, you support them all, for that is just what will happen, as all know, a chain is only as strong as its weakest link".

Salazar was joined in this by others attended the GAA emergency membership meeting, which was called by prexy, Rev. Ray Broshears. All felt that the Gay establishment had at last united on one thing, "get rid of, destroy Broshears". Which is a sad commentary on the Gay community of San Francisco.

Broshears obviously has not been out to win friends and influence people, but as he explained at the meeting, "if you have a job to do, you've got to do it, regardless of the price, to yourself or home".

The question that David B. Goodstein, Harold Duke Smith, James M. Foster, Bob Ross, William E. Beardsmiph, Henry Leleu, Harvey Milk, Charlotte Coleman, Don Meissen, and the others are going to have to ask themselves is, "are you willing to sacrifice Broshears to gain a few days, months, or what have you, of police controlled freedom?" A few selfish Jewish people in early Hitler Germany thought they could "make a deal" to get rid of "troublesome Jewish people" with the Nazis, but they too got it in the end. Just what price freedom? The police are not your friends, wake up!

## OAKLAND GAYFOLK

East Bay Gay is a community services agency that has been operating since the opening of the East Bay Gay Switchboard in May 1973. East Bay Gay's varied services fill the various needs felt in the community.

The Switchboard gives out general gay information and referrals. It serves as a gay rap line and crisis intervention line. Also through the Switchboard gay people can get in touch with others who are looking for roommates or rides. The Switchboard is open daily from 12:30 pm to 9:37 pm. In its first year of operation the Switchboard has averaged more than 570 calls per month.

East Bay Gay's Counseling Service offers free counseling for gay men and women for those who want to discuss being gay or any personal problems. East Bay Gay counsels approx. 5 people a week, many of them for the first time dealing honestly with their gay feelings. Positive affirmation of gayness is stressed. Counseling appointments are made through the Switchboard. East Bay Gay sends speakers to talk about gay oppression in the straight society at high schools, colleges, and special groups. East Bay Gay has given presentations to 137 classes and groups in its first year.

Media is an important concern for East Bay Gay. Advertising is carried out by community service ads on radio and TV, plus street posters and paid newspaper ads. A special advertising program carried out in the spring of 1974 was to place Switchboard ads in many East Bay high school newspapers. East Bay Gay did a presentation on television in the fall of 1973, and was filmed by the Japan Broadcasting Corporation for a special about social movements in America. Attempts are made as often as possible to get on the news or in the papers, in order to gain publicity.

Donations to East Bay Gay are sorely needed and are tax deductible. For more information, call Executive Director Richard Boxer, 527-5839.

## GHETTO

As I sit here in my beautiful little studio apartment which I have just leased, I realize how very nice it is! Nice carpeting, tasteful decoration and furnishing, surely anyone would be happy with such a nice place. It would bring \$85 a month for it, I pay \$125 for it, because this is the media described "gay mecca" (another word for ghetto). No I do not have to wear a badge of gayness, it is automatically assumed. I am single and live in the Tenderloin. I am not prohibited from functioning as a worker in the financial district, quite the contrary, they welcome my abilities as an accurate reliable employee. I am welcome in a backroom where I am paid well to parade my abilities to do research and statistical reports, but God forbid I should be sent out where someone else might see me and note my differences. Let it be noted in passing that it must be to the advantage of the employer to hire a member of a minority group, a negro, chinese, chicano, to comply with the law. An employee over 45 for show. One who is handicapped to soothe the conscience and of course a homosexual in case the opportunity to do business with the City comes along. And if not, at least a group joke, since it is no longer popular to tell nigger, hunkie, or kike jokes. There are also no travel restrictions to me...I need not remain in this ghetto. I can move on to any place I wish, such as Los Angeles, Chicago, New York, Dallas, or New Orleans. There I can live in other fine ghettos such as Hollywood, The Village, Old Town, Homo Heights, or the French Quarter. No, I don't have to actually live in those ghettos, I can live where I darn well please, yet, why would I? The bars are oriented towards such sections of town, the Gay peoples will not be in the other areas, the other ghettos, of race, religion, nationality, or financial status.

As a loyal American I am of course a registered voter. I read and listen, especially when politicians address gay organizations. I hear them promise a "fairshake" for Gay peoples, and quell the nausea of the knowledge that a promise by any other name would smell of the same lies in a politician's heart.

If the road to hell is truly paved with good intentions, the names of our politicians must indelibly be stamped in that broad expressway, and since the same party lies of the platform of these people have perpetuated the promises, it is obvious that the Hell Expressway has not exits or cloverleafs to allow a politician an opportunity to turn around.

Yes, the ghetto is a lovely place and it's a lovely day. Not to be wasted in reflection, therefore I must go out into the streets where I smile and parade my homosexuality. To be seen happy in my ghetto ruled by dishonest merchants who take my money, yet in many cases deny me work. And by looking as though I actually have a purpose in being on the streets, maybe I can avoid the harassment of the police, the stopping, shoving, I.D. waiting, while I am checked out, checked over, and cleared of whatever heinous crimes I am suspected (usually most serious being a homosexual on the street).

Maybe today I can walk down the sunny side of Turk Street all the way to Market Street without receiving the insults of teen-age queer-baiters. If not, the other side of the street is safe because of the Helping Hands Center which seems to drive the teenagers across the street, waiting, watching, harassing people, robbing them, insulting the gay and the elderly, both of whom realize that, though it is our ghetto, we must never get out of line, as we know our place. We can be arrested for answering these lovely children, as they are "the hope of our nation". Certainly their parents (in those few sober moments) will fight for their children's right to beg on the street, and rob and fight, because it is their means of livelihood, the parents have no small change, if they had, the grocer would already have exchanged it for liquor.

Maybe I'll stop in one of "our" bars on the way down for a beer, I have the right, I will be accepted, the Tavern Guild has told me so, and they know, for their bars have taken already this week tens of thousands of gay peoples dollars, and converted them into their own higher standard of ghetto living. For they are the "upper-class" gay and certainly though they deplore my conditions they will never allow one of their alcohol outlets to close its doors and leave me without a place to drown myself in the oblivion that makes me what I am; poor gay-trash and by rights, their customer.

Maybe, just maybe, if I live long enough, a Harvey Milk or a Rev. Ray Broshears will actually be elected to office and I will feel that I have a voice speaking for me, but no, not soon, Harvey Milk has lost his election and Rev. Broshears isn't a member of the Alice B. Toklas Democratic Club, too radical my gay "oreo" friends tell me, it would set the movement back 100 years.

I'd welcome that, back 100 years, with a chance to start over, and do the whole thing right this time, educate not procrastinate. Understand, not hide...there I am again, dreaming of happier things, maybe I'll take a chance, vote for a radical, like myself, who is tired of seeing people do a "gay shuffle" before a straight world, with a "yes suh", "no mahn" to let them know we're apologizing for being different and in their world.

Maybe, I'll even...but, no, no one else cares, why get involved, one person can't do much...right Moses? Right Jesus? Right John F. Kennedy? Right Rev. King? Right Rev. Broshears?

### POPPERS KILL... AMYL NITRATE KILLS.

Amyl Nitrate, better known as "poppers" is a drug manufactured for heart attack victims. It causes the heart beat to increase, forcing more blood through the arteries and capillaries. This increases the amount of oxygen sent to the brain.

While the arteries and large capillaries can handle the increased blood flow, it is the microscopic brain capillaries that might be damaged. Continued use of "poppers" could cause brain hemorrhage and even death. There have been numerous reported deaths here in California during 1973 just from this abuse of amyl nitrate.

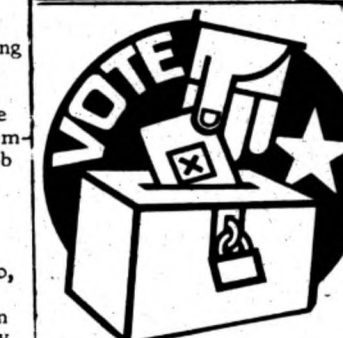

Used as a sexual stimulant, "poppers" heightens the pleasure, according to some, especially

during the climax. Frequent use may result, and does, in the inability to enjoy having sex without them. Addiction to amyl nitrate is becoming quite common now. If you use the liquid amyl nitrate, keep it refrigerated. After it's transferred to your inhaler, don't use it after six days as it deteriorates and becomes highly poisonous. You are also warned not to keep the liquid in plastic containers, as the chemicals are so strong they eat-away at the plastic bottle, and the amyl becomes contaminated.

Continued and frequent use of "poppers" is certainly not good for you... please do not allow your self to get carried away with the now popular, but dangerous practice. Helping Hands Community Center Medical Alert.

## TEAROOM FAGS

TEA-ROOM QUEENS KEEP SEX LAWS ON THE BOOKS. THE WILLIE BROWN BILL, AND ANY OTHER SEX LAW CHANGE BILL IS DOOMED BY THE ACTIVITIES OF THE PUBLIC SEX QUEENS.

After years of frustration, the above statement is holding truer and truer, that comes from numerous Gayrights workers. In Sacramento, daily, the tea-room queens make their propositions and public sex-acts in the restrooms of the State Capitol Building itself, causing badly needed freedom legislation to never be considered.

What is a "Tea-room queen"? That is a person who has severe emotional problems, and can only have sexual acts in a public toilet. There are thousands of such persons, and they and their supporters are keeping the Gay Liberation movement in chains, and enslaving possibly forever, the cause of Gay Liberation.

In Sacramento, a survey was made by members of the Gay Activists Alliance who found numerous legislators in surly moods when it came to the discussion of a Gayrights bill which they should vote for. One Assemblyperson, stated, "My 22 year old son was up here to visit me sometime back, and right here in the State Capitol Building some queer reached over and grabbed his penis when he was trying to use the restroom. You expect me to support your cause anymore? Forget it!"

This was a prevalent statement when speaking to various officials in Sacramento. For it appears that Sacramento is filled with public sex queens. And they are hurting any chances for passage of legislation favoring Gaypeople ever.

While the majority of Gaypeople never engage in "tea-room" activity, it is obvious that they will not speak out against such activities, which is giving support to such people. The public sex acts have hurt the cause of Gay Liberation legislation more than the Houston murders could ever have. The issue is an issue which has caused hard feelings and splits within the Gay movement. It is an issue which has hurt the cause of Gayrights in many states, yet the majority of the so-called Gay leaders will not take a stand against the activities of the "tea-room" queens. Certainly most of us can sympathize with the plight, the mental conditions which lead to the creation of a "tea-room" queen, but the point is, we must not let this sympathy lead us into silence on the subject, for by our silence, many take this as "approval" of tea room activities.

The controversy rages on. But the issue of the tea-room queen is the one single issue which does more to hurt the cause of Gayrights than any other at this time.

The Gay Activists Alliance of California, San Francisco Chapter, has been the only major group in California to oppose such activities and for this, the GAA and their friends at the Helping Hands Community Center are denounced as "purists". "Good conduct is never purist, just good sense," sez GAA prexy, Rev. Ray Broshears.

It is time for the Gay communities to stop their defacto approval of "tea-room" queen activity, and give new thought to the subject of why hasn't Gayrights legislation been passed here in California. "Progress is painful in this kind of movement" said Rev. Broshears when we spoke with him on the subject, "for someone's so-called rights are going to be sacrificed, but I do not consider sucking a cock in a restroom a right, but a wrong, and if those people are going to stop us from gaining Gayrights legislation, we must treat them properly."

What do you think about this kind of activity? Let us know here at the GAY CRUSADER. Address your mail to, GAY CRUSADER, 225 Turk Street, San Francisco, CA 94102, and make a note on the envelope, "Tea-room".

## BEARDEMPHL a Scab?

The editor of the San Francisco Sentinel is anti-union when it comes to Gay-owned businesses, at least that is what he said in the early May issue of that paper. He was joined in this sentiment by the owner of the Fickle Fox, Don Cavallo. Tavern Guild prexy Bob Ross would make no comment except to say that the unions had nothing to offer, according to reliable sources. The union controversy does grow daily, and it is being fed by the anti-union people to where they could force action by the unions. Maybe Beardemphl and Cavallo should cool it.

## SHED

A NIGHT AT THE SHED by Kird Dunham

I just returned about a month ago to San Francisco after being in Los Angeles for a year and had occasion to drop by The Shed one night and I must say the place has really changed. The outside of The Shed really looks beautiful since they've decorated it with shingles and rough wood. It now looks like a real Shed from the outside. The people that work there were very friendly and sincere and seem to take an interest in the place and the customers rather than just being in it for the money. The manager (Darrell) is a very good looking guy who greets you at the front door always with a smile and it makes you feel like you're his closest friend.

They have two floors of different things going on. On one floor they have a pool room and a great snack bar with a good variety of sandwiches and salads and you can sit around and enjoy yourself anyway you want without having that feeling that you are obligated to dance all the time or you're a wallflower. If you like dancing, they have that on another floor. An interesting thing they have been doing on the weekends is that they have different types of music for each floor. On their dancing floor, they have the popular records everyone likes to dance to and on the other floor they have good solid rock and roll. stuff like Led Zeppelin, The Who, and The Rolling Stones. Now I found that very interesting. I love the Rolling Stones and I also like the Supremes and Eddie Kendricks, so when I want to change, I can go to another floor. It's really a trip!

In closing, I'd just like to say that The Shed is an excellent place to go when you're up late at night and like to be with friendly people. It is one of a kind place because I haven't seen any other club that nice anywhere. And they don't soak you on admission prices, either. It's only a dollar during the week and two dollars on the weekend. I think that for what they have to offer, it would be cheap at twice the price.

## Dismal Status

SUICIDE - LEADING CAUSE OF DEATH AMONG "DISCARDED VETERANS"

Recent statistics revealed that suicide was the leading cause of death amongst those discharged from the military since 1970. The majority of those were disabled veterans, veterans who did not want to be soldiers, etc., etc.

Many of those who died, did so over discrepancy over failure to receive their veterans benefits at critical times, faced with loss of home as well as other factors, they chose to kill themselves rather than continue on with the monthly hassle of the Veterans Administration bureaucracy. The VA should be charged with conspiracy to commit suicide, and suicide, ironically, is a felony, so, maybe the VA could be brought up on charges of aiding in the committing of a felony.

So many of the Discarded Veterans today turn to drugs, drugs made by Uncle Sam the Pusherman. These drugs they can gain easy access to in VA hospitals such as Fort Miley, where some of the "medical assistants" even bring the shit on base to sell to the hospitalized veterans. Hell, the future some of them have, who can blame them for using drugs, who can blame them for killing themselves. That is the feeling you get after dealing with the bureaucracy of the VA. The so-called VA "counselors" at City College for instance are pitiful creatures. So woefully lacking in compassion and smarts. They bungle up young veterans papers so badly, that many, too many veterans have to drop out of school due to the stupidity of the so-called USVA counselors at City College, San Francisco. You can complain to the high heavens and still nothing is done about the bureaucracy of the Veterans Administration.

At Fort Miley Hospital, San Francisco, the Out-Patient Clinic has to be the worst trip to ever be laid on a Vet. Bureaucracy, bureaucracy, bureaucracy, and yet more bureaucracy! Doctors who care little, except that they are getting their University of California credits for their experiments on the hapless veteran, and administrative assistants who do want things to improve too much or you might see the need for abolishing their job, which they keep by showing people how really busy they are(n't).

Inspections at Fort Miley by GAA officials have uncovered horror stories of drug abuse, and with the repressive bureaucracy of Fort Miley, it is no small miracle that all the veterans are not junkies even. The VA has little understanding of the psychological problems raised by the bureaucracy of a VA hospital. That's like the VA not understanding that psychological problems stemming from the wars. And wars are not always on the battlefield. Too many understand the problems created in the minds of the "drop-out" veterans, ones who did not complete military training due to the psychological warfare the male machismo conduct on their psyche when they go through basic training, and they cannot compete and thus they "fold" and are given any number of a type of discharge for their failure to "be a man".

Things could get better for the VA now that Johnson has been ousted, but with King Richard in power, it is highly unlikely. And with the ageist behavior of such groups of the VVAW, better known as the Vietnam Veterans Against the War, and the rightist behavior of the VFW and the Legion, change for the better, for the veteran of all ages, little hope is in sight.

FRENCH

The realities of modern campaigning unfortunately are such that a simple, single thrust campaign based on a clear cut issue is the most likely to be successful. My issue is the irresponsibility of the modern American Congress. By its inactivity, the Congress of the United States over the last thirty years has been allowing responsible Democratic government to disappear in the United States. As outlined in my literature, I will do all in my power, if elected, to reverse this trend. But the discriminating voter frequently wants to know more.

I often hear the criticism that my political philosophy is unknown, that my position on the political spectrum is not easily defined. Perhaps the reason for that may be that I'm not on the political spectrum, particularly. I'm not a "group-politician", nor a "patron thinker".

People who proudly call themselves liberals or conservatives or even middle-of-the-roadsers and large don't think very much. The politician who always chooses the "moderate" position simply because it is cheats both himself and his constituents. Each problem has its own small set of best solutions, and the suitability of these solutions is not determined by the accidental human historical classification into which they happen to fall.

I BELIEVE THAT IT SHOULD BE THE FUNCTION OF GOVERNMENT IN THE UNITED STATES TO EXPAND THE RANGE OF POSSIBILITIES OF HUMAN FULFILLMENT AS FAR AS POSSIBLE.

## CASE DISMISSED!

FALSE ARREST---HARRASSMENT---UNJUST TREATMENT  
I was falsely arrested, unjustly treated, and harassed by the management of the Pam Pam Restaurant and the San Francisco Police Department.

At approximately 4:30 A.M. on May 3rd, 1974, I entered the Pam Pam Restaurant at 378 Geary and ordered a New York Steak dinner. After completing my meal I picked up my check and went to get my money out of my coat pocket to pay for the meal. I had either lost or misplaced my money. I looked around the booth I used and found no money. I then took my check to the cashier and explained that I would have to return home to get the money to pay for my meal check, and that I would return promptly. She told me I would have to talk to the manager. I explained to the manager what happened. The manager, attracting attention in a loud voice, called me a liar and said that I wouldn't come back. I said I would and turned to leave. The manager and someone else grabbed me, saying, "You're nothing but a dead-beat queer trying to get a free steak dinner from us." He insisted I sit down and wait while they call the police, which I did. He kept calling me a dead-beat and saying I was going to jail.

When the police arrived about 5:15 A.M. I tried to explain to them what was happening. They completely ignored my explanation, and arrested me. I pleaded with the police officers to drive me home to get money to pay my meal check. They just laughed at me, saying "No!" They asked me my name, address, age, and sex. I told them (Becky Bella, 277 Gough #58, age 28, female) and they accepted my statements, EXCEPT the fact that I'm a woman, which they refused to believe.

The police officers took me to the Central Police Station, where I was told to place all of my personal belongings on a counter, which I did. Then I was told to remove my bra and place it on the counter also. I explained that I'd had breast surgery three weeks before, and I had to wear my bra all the time while my breasts were healing. One of the police officers took me into another room and told me if I didn't remove my bra he would take it off me by force. "If you don't take it off I'll rip it off you!" Again I insisted that I am a woman and that a matron be called. My request was refused. I had to remove my bra against my will in the presence of the officer who made the threat, with no one else in the room. I pleaded with him to let me keep my bra, but he grabbed it out of my hands, saying "We don't care about you." During all this there was no matron present, and I was constantly referred to as a male. I was then placed alone in a cell and later transported to the Hall of Justice prison.

Upon entering the prison, I again insisted I am a woman and the police officers called me a liar. An officer took me into a room and told me to strip in his presence. Again I insisted I am a woman and pleaded that a matron be called. Again my request was refused. The officer told me to remove my clothing or he would tear my clothes off me by force. I had to remove my clothes in his presence against my will. He searched my clothing and glanced at me, telling me to get dressed. I was then placed in a cell with two men against my will, being threatened with bodily harm if I didn't enter the cell with the two men. After some time, I was removed from the cell and placed in a room with some more men where my fingerprints and pictures were taken. I was placed in another room and told to wait there. An officer behind the counter asked another officer to lock me up in the men's tank. Again I insisted I am a woman, asked for my bra, and pleaded to be examined by the doctor. The police officers just laughed at me, saying "Lock him up." I went into hysterics as the officers grabbed me and started taking me into the men's lock-up tank.

As we passed the doctor's office, he came out into the hall because he heard my crying, yelling, and screaming. He told the police officers to release me and asked me into his office. When I was in his office, he politely asked me to remove my clothing so he could examine me. After being examined by the doctor I got dressed and we left his office. The doctor told the police officers, "Give HER back HER bra, and put HER in the women's tank!" Prior to my examination by the doctor, I was unjustly treated and harassed by the male officers. I found the matrons and the other women in the cell in which I was placed to be very nice and understanding.

I was released that afternoon after a friend posted bail of \$150, for the false charges against me: 1) Defrauding an innkeeper, and 2) Impersonating a female.

I was still so upset upon my release that it wasn't until the following morning, Saturday, that I went to Pam Pam's. and after identifying myself, tried to pay the manager for the meal check. He refused to accept my money.

On Monday afternoon, May 6th, 1974, I appeared in Department 15 of the Criminal Court of the Hall of Justice. I approached the bench and was appointed a Public Defender, a Mr. Lee. My case was then set aside while Mr. Lee and I discussed the case. After telling him I'm innocent of charges against me, he tried to make a deal with me: If I would plead guilty to the charge of defrauding an innkeeper, the charge of Impersonating a female would be dismissed. I refused his deal. We again approached the bench and I entered a plea of "not guilty" to both charges against me, and asked for a jury trial.

Plays Itself/Sex Garage/Black Music in America/The Dutchman* and so forth. It's Thursdays, 8:30 pm and free. For further information and a free schedule/poster call 332-1514 before 5 pm.

Only a dollar, but good opera... that's the 1974 Dollar Opera Season at the Palace of Fine Arts. The current run is over, but these people keep doing it everywhere. The Western Opera Company--kind of a community wing houses in the W-- Memorial House-- are the perpetrators of such things as the recent tour of Brecht's *Three Penny Opera* in the streets of San Francisco. They too will send you posters/and such if you call them at 415-626-8345 or write to them at Van Ness and Grove, 74102.

Vacation Time! Fellow Cancers! I know that you understand why I must leave for fun and frolic during these hallowed days. So, off to England... but being one not to miss a deadline (nor I admit it, if I do) the very next column will be chock full of nuggets from London/Brighton and points in between. We (my tapeworm and I) will be spending a month over there soaking up the cultural/aesthetic/ and hunky aspects of Piccadilly and Covent Gardens.

You, Curious Savage, you... now playing at the Chanticleers Theatre, 1364 Stanton Place, Castro Valley, Ca 94546, 415-581-24 2. This is the kind of company to do a kooky production of *Arsenic and Old Lace*, which incidentally they are casting for on June 3 & 4. Write (or call) on.

And by the way, I/we do answer my/our mail. Anytime you may have a scoop or a moment to chat, please do communicate. However, we do not accept obscene collect phone calls.

And music--The Community Music Center on June 8th, 8 PM will host Bonnie Hampton, Cello and Nathan Schwartz, Piano performing works of Mendelssohn, Beethoven, Elliott Carter & Chopin. The auditorium is at 544 Capp St., and they seldom charge more than 50¢ for a comfortable treat.
