Demands Grow by Gays for "Fair Share!"

Paul D. Hardman of the Pride Foundation announced that various gay organizations would be seeking funding assistance from the City for a gay community center in the near future. Attorney B. J. Beckwith, has been authorized by a gay organization to send a letter to Mayor George Moscone, requesting that a fair share of the tax payers dollar be utilized for the gay community!

TRUMAN DEMOCRATS ELECT PRESIDENT.

Famed gay attorney B.J. Beckwith was elected President of the HARRY S TRUMAN DEMOCRATIC CLUB at their August 22nd meeting. The resignation of the former president and the election of Beckwith came as a surprise to most gay political observers. Beckwith is well known for his many victories in the City Courtrooms, told the CRUSADER that he wanted to be politically active for sometime to a larger degree, and he felt that the presidency of the Truman Club was just a first step.

Beckwith, an early supporter of Jimmy Carter for president, stated that the Club meetings would be held on Friday evenings, and that persons interested in joining the Club could contact him at (415) 552-4428 during the 9-6 PM office hours, Monday thru Friday. Hal Wagner is the Club Secretary, and Mr. Elisa Riegh is the Club Treasurer, and the only woman officer in a gay Democratic Club. Truman Club does have some straights.

NINTY MURDERS IN THE STREETS OF SAN FRANCISCO.........SO FAR THIS YEAR, AND WE HAVE FOUR MONTHS TO GO! CAN THE CITIZENS OF OUR CITY LIVE ANOTHER FOUR MONTHS OF CHIEF OF POLICE CHARLES GAIN'S ADMINISTRATION?

14.8 of every 100,000 have been killed so far, this year, and chances are, 57 more people will be killed this year at the present rate of murder....will you be one of those 57 people?

If you are a gay person, your chances of being murdered are excellent "as the San Francisco Police Department have failed to solve even one of the last 18 gay murders....not one! Of the total of 90 murders this year, the SFPPD Homocide Unit has only "solved" 32% of those, a very poor average indeed, for a City 49 square miles large. Chief of Police Charles Gain has been good for public relations with the general communities of our city, but he has been lousy as far as communicating with the patrol officers, the ones who have the day to day job of protecting our lives.

Chief Gain does not think that the "street drug pusher" should be busted, yet, the fact is, 83% of all street-crime in San Francisco is drug-related. If Chief Gain would have the street-pushers busted, you would find the street crimes dropping rapidly. Chief of Police Charles Gain is a complete failure is relating his ideas of law enforcement to the "cop on the beat". Gain spends so much time in public relations, that the soaring crime rate is virtually ignored by him. He spends so much time explaining it away to the citizens, and doing little to stop it.

Chief Charles Gain is a "political" Chief of Police....a "hack" of the Mayor. He was Sheriff Hongisto's "under-sheriff" before becoming the Chief of Police. The man is out of date with the problems of the average citizen. He is "afraid" of the "bleeding heart liberals", that accounts for his failure to bust the "druggies"; organized prostitution, the numbers racket, the bad-cops.

MURDER.....that is what San Francisco is all about! At least during the Chief Gain administration. Mr. Mayor...save lives, fire Gain now! Fire the Homocide Unit director! Save lives Mr. Mayor, not money! Sorry Charlie, you tried, but you just don't have it!

M.C.C.'S BIG PUS! POLITICALLY!

POLITICAL CHURCH IS CHARGED BY
BOWLING ALLEYS AS MCC GENTS
GET INVOLVED IN DEMOCRATIC PARTY M.C.C.

This issue we can put CRUSADER EYE towards the opera­tion of the Gay Liberation House. At least that is it is customarily called today. It is being called several names, depending on who is talking to whom. The "Buffer Room," the "EMMAUS HOUSE," and even the "Ideal House" are a few of them.

They opened a very nice coffee house and drop-in center. It is only open from 10 a.m. to 10 p.m. every day. The politicians were not inside, they were not about. The founders were very admirable people. Really prohibiting the operation of the house to a frame-like political atmosphere. It is a well-organized operation, and when it comes to the question of the people at the house, they put them to work. The area is the Water Tower, and there is a resident whom you can consult with. It is then an experimental run-of-the-house. Within the next week or so, there were no "teach conferences" or anything of that sort going on.

There is an outside telephone service there for some time, doing an excellent job of the Gay security movement, which has proved to have a great point.

Within the upcoming issues of the GAY CRUSADER, I will take you behind the curtains of this adventurous world, called "Doo-Mania", to see the word "adventurous" badly because in every way, the disco-world is an adventure...from next week, until then.

Within the framework of a "disco party", there is an obvious that two other worlds would have been obvious for people who are not tuned in. One from the Truman Club and a second one from the Mission Club.

The second one has the hand-picked successor to the, and it is a very popular club. The gay club was a corner of the Truman Club, and the gay club has been a corner of the Mission Club. They opened a very nice coffee house and drop-in center. The founders were very admirable people. Really prohibiting the operation of the house to a frame-like political atmosphere. The Lavender Panthers functioned as a vigilante group in San Francisco in the 1970s. They patrolled the streets nightly with chains, billy clubs, and guns to protect gay men and women from homophobic violence. The group was proposed by the Rev. Ray Broshears, who is not as radical as he used to be, is simply "no". He claims that there are only a couple of isolated cases of "queer-bashers". He says, "But I have a problem with the word 'queer'. I think it's misleading. It's not an accurate term."

The Panthers have been used against the police department, who have not interfered with the patrols. They have also been used against other gay organizations, who have been used to keep a lid on the groups. The Panthers have even been used against the police themselves. The Panthers have also been used against the drug pusher and the pimp in recent months. They have also been used against the drug pusher and the pimp in recent months.

The Panthers were formed and directed by the Rev. Ray Broshears. They were headquartered out of the old Helping Hands Center on Turk Street, which is now closed due to failure of the gay community to support it. Helping Hands Services continues, but the Center and the Panthers are gone.

With the recent rise in street violence against gay people in the Castro, Mid-Market and now the Polk area, a cry has gone up for a "vigilante committee", and one group of gay men has even asked the government for funds to operate such a group. The Panthers have operated as a vigilante group, and now need the support of taxpayers.

The answer to that according to the Rev. Broshears, who is not as radical as he used to be, is simply "no". He believes that it is not practical with the wild communist type gays that are in abundance today, that such a group could be formed. He does not want trouble with was the Lavender Panthers, a stiff armed group of gay vigilantes who have taken to the streets regularly.
THE DISTRICT ELECTION PLAN IS ANTI-GAY!

"CARDS ARE STACKED AGAINST POSSIBILITY OF GAY WINNING IN DISTRICT RACE"...THE WAY THEY DISTRICT ELECTION PLAN IS ANTI-GAY!

In November, gay people will be asked to vote for what is essentially a runoff election for candidates. The campaign would be limited to four weeks. All candidates would appear and be introduced for the first time. It was poorly drawn up...for instance, it places the battles nearly all black and chicano district....which is a very sad one and must be defeated if we want to keep the city for the young gay people.

The campaign and the candidates can be made more accessible to the community, but it will take some radical changes in the campaign and election system.

1. Candidates should be selected by acomputer-analyzed process of all areas of the city.

2. After being accepted as a candidate, he/she should have four weeks to form a Committee and write a platform.

3. All candidates would appear and be introduced (by our campaign) at the Closet Ball. This would start the period of campaigning.

4. The campaign would be limited to four weeks.

5. Campaign spending would be limited to $1,000 for each candidate.

6. Each candidate would be limited to two functions a week.

7. The candidate would be required to make a minimum of one check each week for a campaign fund.

8. All candidates would be scheduled to be on the time every week, with no maximum exposure to any candidates and charities.

9. One "candidates night" would be held each week in a different district, with all the candidates present.

10. Voting would take place at the "Caste Street Fair."

"All baptized in Christ, you are all clothed yourselves in Christ, and there are no more distinctions between Jew and Greek, slave and free woman, but all are one in Christ Jesus." (The Letter of Paul the Apostle to the people of Galatia)

Religion voting is hated by all that has been in the western world, the greatest obstacle in the path of people who want to realize their full potential and be free to love as they see fit. It is God's will that all nations be freed from the shackles of religion, and that all people be allowed to love as they see fit.

"Men and women are liberated to be themselves, open to others on all levels. We must work to free all people from the shackles of religion and allow them to love as they see fit." (The Letter of Paul the Apostle to the people of Galatia)

"The impact of the Good News is not a restraining list of laws and conduct, but a call to love others in harmony with the truest teachings of their hearts. This is the truest obstacle in the path of people who want to realize their full capacity to love and participate in affection and joy." (The Letter of Paul the Apostle to the people of Galatia)

Blessed Paul, the Apostle to the people of Galatia.

"Jimmy Carter is the best person the gay people of America can have as their President. He has deep religious beliefs, but he doesn't believe in legislating morals. He has a great heart and a great spirit, and he is a very good man." (The Letter of Paul the Apostle to the people of Galatia)

He has been involved in research sponsored by the US National Institute for Mental Health, which still today is a shambles of doomsday research. He was not involved in this research. GREY RYDER, the President of the Polk Street Businessman’s Association, was strolling home from Circus-Circus at California Hall last month, when he was approached by a belligerent young panhandler. Grey unfortunately had no “spare change” to spare so the young man attacked Mr. Ryder with fists and shouts of “faggot”. The beat cop happened over and took the attacker in hand. While Mr. Ryder was pressing charges, a group of the panhandler’s young friends gathered on the next corner with some menacing shouts of their own. Before the beat cop had a prisoner to take in, he had to leave Grey to his own devices, saying that there was nothing he could do about the matter. Grey continued up Polk Street only to be attacked again. This time he wound up in the hospital with cuts and bruises and a dislocated shoulder. All of the panhandlers are back on Polk Street—free to do it all over again. Grey is well and back at work but a little nervous. Aren’t we all?

It looks as if the gay community is going to have to do something to protect the territory it has created for itself. A serious proposal has been made to the Federal government and the local police authorities for a grant and for co-operation, respectively, in organizing a “gay vigilante” group to patrol ready to act when called upon. But bar-tenders, businessmen, and pedestrians, to protect body and/or property from those explosive individuals that are, for one reason or another, turned off by our lifestyle and our identiy. A meeting of the panhandler’s young friends gathered in at a restaurant. Nearly all almost died of fright.

So, after consultation with my Main Man, Sex Shop congratulates ‘Lucky Larry’ and ‘The Dirty Old Frenchman’ of LE SALON international for supplying Sex Shop customers with the most comprehensive collection of quality, Namebrand, male action films to be found anywhere in the world—all right here in The City at Le Salon Bookstore, 1118 Polk Street. Stop in and look at all the expanding film catalogue and browse through the latest in quality porn: paperback, magazines, periodicals, toys, and—all those fantastic films.

Speaking of which

Last column, I raved about GRIFFIN International’s film “Room Service” (29m)—labeled it the hottest, hardest three-way on film. Well, “Room Service” has a brother, BRENWOOD Film’s fantastic 300’ reel called “Marine’s Furlough." Talk about a big cock and hard action—this one I personally, unconditionally guarantee. No film library is complete without it. GRIFFIN isn’t letting any moss grow either. For those Sex Shop customers without projectors and screens, GRIFFIN has turned some of their best films into good quality magazines. Take a look at “The Night Visitor”, “Together”, and “As You Like It”. All new on the Sex Shop shelves.

Hot Spots

After you’ve picked up a bottle of that best-of-the-best “BULLET” liquid at LE SALON, venture down to Castro Village and browse through the JAGUAR Bookstore, 4077 - 18th Street.

There’s something for everyone in this nationally known backroom. Or if the Castro’s too far away, walk up to Pine and Pool to the WILD GOOSE SALON—“the trashiest bar north of Market”. You won’t be disappointed.

A Hot Name

To Remember

The Closet Ball was a hoot. Her most imperial Majesty Flame and the Cardinal Court royally entertained over 700 Members with one of the best gay productions I’ve seen in this or any other city. Watching those butch dudes turn into glamorous gals in just one frantic hour was a unique San Francisco trip. And to see Larry Casas, that sexy bartender that gets me drunk most nights at the *P.S. on Polkstrasse, so coolly walk away with the title really made me laugh.

It was an added pleasure to share a table with State Senator Milton Marks, his wife Carolyn and daughter Carol. The Markses reacted well to pornography are in tandem with black leather, and Mrs. Marks’ views on pornography are in tandem with my own. The Senator is an active supporter of gay rights and was a co-sponsor of California’s “Consenting Adult” legislation. He’s up for re-election this term and deserves careful consideration. Those “confidential files on everyone that has ever worked for him—from traffic tickets to sexual inclinations—” that are kept in his dining room will probably keep me from taking an active part in his campaign; but, let’s face it—files are a part of politics. I hear that senator hopeful Bob Mendelsohn keeps his confidential files in an office in a local exclusive retirement hotel somewhere on Sutter Street.

Remember Watergate fellas!
