JOHN PAUL HUDSON

S&M Slaying....Suspects Nabbed in Reno!

SAN FRANCISCO: Two youths, both 30 years old, were apprehended in Reno Nevada, on December 17th for the slaying of George F. Corrigan, a postal clerk. Corrigan was found dead by the manager of his building, with his hand and feet tied by wires and phone cords. A rope was tied to his neck, and he had a gag stuffed into his mouth. A break has come in the case, as a former leader of the GAY CRUSADER about the parts of the two, and the one's relationship with the slain man.

JOHN MOELLER of Gurneville and DANNY GRAHAM, also known as "Spider", who are both well known in the Tenderloin area of town, were apprehended in Reno Nevada at the Nevada Street Hotel in which they were staying. They were caught because of the car believed to be Corrigan's, which was traced by the FBI to Reno.

John Moeller who had a slight disfigurement of the face due to a former injury, was known in the Tenderloin as a "pusher" and "runner" at one time. He had been known as a hustler or even as gay.

But, his partner, Danny Graham, was well known as a hustler in the Tenderloin. The Meetrack (Mason & Market Streets) for a long time was one of his regular stops.

The slain man, George F. Corrigan was a regular client of Grahams. Graham, according to our sources, used to take "chains" and "other playthings" with him when he went to the home of Corrigan.

Corrigan was the 60th murder of the year, but now, there have been four more, bringing the total homicide rate in '74 to 644.

63 MURDERS

According to the San Francisco Homicide unit, San Francisco is far ahead of last year's record setting high of 154 murders. The SFPD Inspectors assured the GAY CRUSADER, than none of the murders have been as a result of pornography.

Drugs, robberies, remain the causes of violent crime in SF, and not exotic!

The so-called zone in Boston has resulted in a festering ghetto of depraved and deranged people that became so dangerous and crime-infested that the Combat Zone was dubbed "the combat zone". Death is common in the "combat zone" he continued.

GAY CRUSADER

This Happy 4th Anniversary note from all at GAY CRUSADER John Paul Hudson should be addressed with a smile on his face. His wit, his wisdom, has been appreciated by the editor of this paper for years. John is truly one of the few stellar lights in the gay movement to NY.

Force does not represent us, how about you?" ...[END NOTE: Dear John I can assure you that they do not represent anyone here on the west coast except the queens of the David R. Goodstein (aka: Tokih), etc......] our May 21st Coalition plans to mount a demonstration outside the Superior Court Bldg.

THE GAA (Gay Activists Alliance) pulled off a highly successful protest outside of the Singer Sewing Machine headquarters recently, in the Rockefeller Center, letting them know what we think of Anita Bryant.

There were upwards of 300 of us, it was like the old times!... David Goodstein was booted when he spoke (inexply and ineffectively) before the New York West Side Discussion Group, with lusty cries of, "ADVOCATE GO HOME!" And a group of politicians who are far from radio-remaindered.

Did you read any of this in your publica-
tion? Now you know why I said what I did in the first paragraph, I call Goodstein the William Randolph Hearst of the gay press, while untouchable friend (who shall remain anonymous) refers to him as the "Idi Amour" leader of the Gay Liberation Movement!.

I also identify, have you noticed that the NGTF ("National" Gay Task Force) and all that bunch speak about Gay Civil Rights, but seem to have excited Gay Liberation and Gay Love from their official vocabulary. Think about it! I may achieve the former at the expense of the latter.

PORNO ZONE LAW ENDANGERS CIVIL RIGHTS!

CITY HALL: The anti-porno law which has been introduced by Supervisor Dianne Feinstein, continues to find great opposition from the neighborhoods Supervisor Feinstein wants to place all porno bookstores and motion picture houses in.

Fifty irate neighbors from the Bayview Hunters Point area, led by Espanola Jackson, told Feinstein and the Committee, chaired by Supervisor Ron Pelosi, that, "Just who does this white woman think she is that she can try and dump pornos in our front doors. We are trying to uplift our area, and in the areas in which she wants most of it, which is zone M, we are trying to bring in business...with her legislation, she'll drive businesses out of San Francisco. Let her have it across the street from her fancy all white Pacific Heights neighborhood home!"

More reasonable voice, proposed a "grandfather clause" to the Feinstein ordinance which would allow all businesses which have been in business at their current location to remain there, if they have been there more than five years, and that only the newer and shabbier fly-by-nite operations would have to move to a "zone".

COMBAT ZONE, is what many say the Feinstein ordinance would create, and are fighting it bitterly.

The so-called zones have not worked out well in Boston or in Detroit, the crime statistics indicate.

Ms. Feinstein, formerly an ally of the gay community, is seeking an appointment to the Carter administra-
tion, and shows little concern to the views of opposition to her pro-
posed law.

Supervisor John Molinari told the luncheon-meeting of the Teddy Ro-
seau Republican Club on May 21, that "I am opposed to Dianne's law, for it is going to solve anything, and may well compound problems. I will vote against it for many reasons!"

Tom McNamara claims the Feinstein ordinance is a "smoke screen" to create publicity and keep peop-
les eye off the real problems in the City. The RPA (Rehabilitation Assistance Project) which is a pet project of Feinstein, and ever increa-
ting taxes, are all going virtually ig-
ored while the Board of Supervisors comes to a near standstill consid-
erning the unconstitutional anti-Free dom of the Press ordinance. The president of the Roosevelt Re-
publicans, the Rev. Ray Broshears said, "I suppose that she would appear to be a pair of jockey shorts to cover up his geni-
tals." (See picture above)

McNamara, longtime activists said that reports from Boston show that "The zone in Boston has resulted in a festering ghetto of depraved and deranged people that became so dangerous and crime-infested that the Combat Zone was dubbed "the combat zone". Death is common in the "combat zone" he continued.

TERROR ON MARKET STREET

The area of Market Street, just west of Market, as well as Turk Street, is the scene of the MEETBACK OR MEETRACK of San Francisco's Hom­

ers, where they can go and make a quick ten or twenty for several fac­tors almost any hour of the day or night.

In recent weeks, police reports have shown an unusually high amount of violence in the area. Longtime guys who frequent the area point out that killings, beat­ings have become quite a daily e­

vent. "Next sidewalk, con­

nives who on the sky, will sell "it", but they don't want their buddies to know, for they want to keep their "machoism in tact." In time, these types have been the main sources of most of the trouble, as they have been the main off rolling, clients and being and arts into dating dogs as well.

 Violence, nothing new to the Ten­

decision, but such a sudden rush and seemingly organized crush of it has many oldtimers frightened to come into the area.

The San Francisco Police Depart­

ment, as a result of the violence, has increased the amount of en­
sure of these areas, including the encoun­

ting of Chief of Police Charles Curb's office. Two bars, one allegedly gay and the other a dreary haven for clo­

set queens and hustlers, are the central points according to the sources of most of the trouble, as these types have been the main sources of most of the trouble, as they have been the main off rolling, clients and being and arts into dating dogs as well.

One natural phenomenon which has been the source of much wonder and study has been the so-called "Pyramid Power." This is a term used to describe the energy that is believed to exist around the ancient pyramids of Egypt. Many people claim to have experienced extraordinary effects when they visit these sites or even when they are exposed to the energy from their images.

Pyramids were built as tombs for pharaohs and their queen. They were constructed to house the souls of the dead and were considered sacred places. The Egyptians believed that the pyramids contained the secret of eternal life and that they were a means of communicating with the gods.

Some people believe that the pyramids possess a form of energy that can heal and energize the body. They claim that this energy can be accessed and harnessed for various purposes, such as improving health, increasing vitality, and even controlling the weather.

Pyramid Power is said to work in different ways for different people. Some claim to feel an immediate sensation of energy, while others report experiencing changes in their mood or even physical changes. The effects of Pyramid Power are said to vary from person to person and depend on the individual's level of consciousness and state of mind.

For example, some people report feeling a sense of peace and relaxation when they are exposed to Pyramid Power, while others claim to feel energized and invigorated. Some people report that Pyramid Power can help with spiritual growth and development, while others believe that it can aid in physical healing and recovery.

Many people who have experienced Pyramid Power say that it has had a profound impact on their lives. They report feeling more balanced and centered, as well as more connected to the universe and the natural world.

However, there is still much debate and controversy surrounding Pyramid Power. Some scientists argue that there is no evidence to support the claims made by those who believe in it, while others believe that more research is needed to better understand the phenomenon.

Regardless of the nature of the debate, Pyramid Power continues to fascinate and inspire those who are interested in the mysteries of the universe and the connection between the human body and the natural world.

Gays and other people are arrested for homosexuality all over the United States, and the madness continues here in America. Homosexuality is the dirtiest and most proscribed of all the offenses known to mankind. If you are a man and you are found to be a practicing homosexual, you are thrown to the lions, burned at the stake, or otherwise punished. The Muslims are known to throw homosexuals off a cliff or the highest point in the city. As time progressed, others began holding public displays of homosexuality. The Muslims were known to burn homosexuals alive. The Middle Ages.

The earliest views saw homosexuality as a problem of nature. Often regarded worse than murder, it was not uncommon for homosexuals to be thrown from a cliff or the highest point in the city. This in effect was a green light to the police departments in America's major cities. Another reason for punishments is the fact that homosexuality is considered today as being immoral. Homosexual rape flourishes many times with the help of the pederasts who get an outlet out of stealing others' virgins. One poor San Francisco man was misused around the 1968 period and by 1976, he was a total wreck, his life totally destroyed. Gaypeople are now the only unprotected minority in the United States. The First, Eighteenth and Fourteenth Amendments in the Constitution are in effect, yet the homosexuals are still being treated as second-class citizens.

In the Church and State is written and not practiced.... homosexual persons are the only unprotected minority in the United States. As it turns out, we are not protected from cruel and unusual punishment, we are angered and discriminated against, yet not protected. Such discrimination has gone on since the beginning of the nation. One night which is gone, and now, this experience has totally destroyed his life.

In the Church and State is written and not practiced.... homosexual persons are the only unprotected minority in the United States. As it turns out, we are not protected from cruel and unusual punishment, we are angered and discriminated against, yet not protected. Such discrimination has gone on since the beginning of the nation. One night which is gone, and now, this experience has totally destroyed his life.

In addition, we are denied the pursuit of happiness which is still being used right here in California. The Muslims were known to throw homosexuals off a cliff or the highest point in the city. This in effect was a green light to the police departments in America's major cities. Another reason for punishment is the fact that homosexuality is considered today as being immoral. Homosexual rape flourishes many times with the help of the pederasts who get an outlet out of stealing others' virgins. One poor San Francisco man was misused around the 1968 period and by 1976, he was a total wreck, his life totally destroyed. Gaypeople are now the only unprotected minority in the United States. The First, Eighteenth and Fourteenth Amendments in the Constitution are in effect, yet the homosexuals are still being treated as second-class citizens.
