According to Gay Left, journal of Gay Liberation in the United Kingdom, Gay Liberation is gaining greatly in the Central American countries. This point was verified by our correspondent who just returned from Costa Rica. He urged that North American gays not be planning to take any vacations in any of the Central American nations especially if you are looking for a Club Bath Chain house, and you won't even find the Advocate there, let alone the Crusader.

In Nicaragua, which just went through a terrible bloodletting revolution to overthrow the vicious Somoza dictatorship, gays have played a role in the revolution there and in the United States. Gay Nicaraguans who have been in exile in the U.S. are returning to their homeland, assured that the revolutionary government welcomes them. But some gays in that nation are watching the new government with a close eye, and saying that they are a long long way from being "liberated."

In El Salvador, gays have been tortured and on New Years eve, seven gays were castrated and left to bleed to death in front of the cathedral in San Salvador by radical right wing terrorists with a message warning that all deviates would meet similar fate. El Salvador now in the throes of a revolution, is under a rightist government for the time being, a government which president-elect Reagan supports.

In San Francisco, El Salvadorians have gotten funds from gays sympathetic to the revolution. If you are planning a trip to Central America, obviously Panama would be the country to visit, safely, for gays. But there too, gays are not given equal rights by the dictatorship either. But there are gay bars, but they are not like bars in the Castro or on Polk. Gay bars there are very sexual, something you don't see in San Francisco.

In Guatemala things are changing rapidly thanks to a concerted effort by members of Grupo Lambda which was formed in 1974. They even publish leaflets, and have news items in the underground press of this impoverished nation. Guatemala, unlike El Salvador, has greater degrees of freedom for gays.

In the nation of Honduras, Grupo Lambda has even greater influence and gays are actually recognized by the police and work with the police to solve crimes against gays. In the sister nation, British Honduras, Belize, homosexuality is wide open, as this nation is controlled by the United Kingdom and under the laws of the United Kingdom. But it is still very taboo due to the strong influence of the Roman Catholic Church, just as it is in all Central American nations.

A conference called by the Latin American Homosexual Bloc (BHOLA) is going to hold an international conference in Mexico this year in cooperation with gay liberation groups such as FHAR and LAMDA. Such a conference would be the target of extremists in that nation but gays are willing to take the chance, as they know they must, for gay liberation is ever to become a reality in Central America. Mexico of course, has had gay groups such as FHAR and LAMDA for some years and gays are becoming more open in Mexico, thanks to the gringo influence. But, still, homosexuality is against the law in Mexico and gays are hunted down by packs of drunken youths in weekend sprees (hmm, sounds like the Castro and inner Missions doesn't it?)

But after all is said and done, gay power is growing south of the border and we in the U.S. should do all we can to help make it become a reality in any way we can. We are one, politically. Our sex and our oppression bind us!
PADRE turned the angels! PRIDE that shames on charity, on mercy, on justice, on love—PADRE—in others—PRIDE and weakness, are trigger words. The political label, PRIDE innately great! PRIDE before destruction, and an army before a fall. Pride is when the "I" becomes bigger than all other "I's"blanketed with pride, pride, pride. PRIDE is not material things rather than spiritual things.

PADRE is now in the majority of what mankind has created. What God has created, mankind, has now turned on the created. For perhaps mankind before it is too late will turn man back to what it is, to what it was created.

PADRE is completely restored in his worship of PADRE to what mankind has memory of his relationship to the true Creator, and when that is lost, it is the loss of destruction.

Man's instruments for creative expression, education, government, economy, radio, and press, and other sdowns are now no more than PADRE, in the use to him as how do his life force is sucked out of him. This will be done by the very instuments he had set up to serve him. Man's ego... the "I" in his pride is what is destroying mankind. The PADRE in man will not allow him to accept that there is something higher than he, and when this happens, in the pride of man, no other man and striven through the use of body, mind, and soul, and at the end of the life long after the soul has left it. It is a PADRE that man has sent his own man out of the church, refusing to how to something that the "I" is most clear cut.

PADRE is a small "I" when the Creator's forces clash against man in the forms of love, kindness, peace, earth and earth, kindness and the PADRE was cleared.

No one of these unfortunate events has turned the "I" in PADRE, and PADRE is trying to re-establish the PADRE radical right wing government.

The revenge will be taken by all PADRE forces; the Coast Democratic Club, the Gay Liberation Alliance, and the SF Crusader.

THE WORLIES: The motion of the Worlie's Wallabies' will be shown at the Red Victorian Movie House, 1659 Haight Street, starting at 6:30 this evening. This is an early entry in PADRE in America and holds a really big kick for San Francisco. The Worlie's Wallabies are the Worlie's Wallabies.

**NEWS CLIPS**

$2,000 REWARD
A two thousand dollar reward for information leading to the arrest and conviction of the murderer of a gay man in Buena Vista Park, is being offered by the Chamber of Commerce of the San Francisco Gay Rights Witness Program. The dead man, 43 year old Don Meder, lived at 157 Fillmore Street, and his body was found in the bushes in the controversial park, stabbed to death. This was on November 24th '80.

**POLK STREET BAR IS CHARGED WITH RACE DISCRIMINATION**

The N'Touch, a dance bar on Polk Street has been charged with racism by member of the Gay Asian Information Network, whose members and supporters picketed outside of the popular Polk dance bar for 48 hours. The members of the Gay Asian group charged that Wayne Friday, a bartender at the bar, and political writer for the Area Reporter, with making racist remarks at them. According to the Gay Asian Network, Friday had allegedly made remarks to the effect that Asians were responsible for the "destruction" of business at Oil Can Harry's bar which used to be on Larkin Street. The inference, according to the Gay Asians, was that Asians don't spend money, and have been chased away by many Gay businessmen.

Oil Can Harry's partnership split up and the bar then closed down, to the detriment of some bar patrons. The management changed to a liquor bar and the place closed its doors on January 6th of '81.

**TAVERN GUILD PREXY RESIGNS**

Wayne Friday, according to Vice-President George Banda, was resigning as the President of the bar owners organization on Friday January 2nd. Banda did not give any reasons for the resignation of Friday, but some speculated that the troubles at various Tavern Guild bars over racism may have had something to do with it. Friday was later charged with tax evasion charges and assault on the Chief of Police, Con Murphy, who is pro-gay rights.

**THIRD INTERNATIONAL MR. LEATHER ANNOUNCED**

"The winner is ... Well, you'll just have to wait for that name in Chicago as it prepares for the 3rd annual International Mr. Leather contest on May 9, 1981. Leathermen from all over the world will take part in this contest which will also be held at the Black Blue Ball at Man's Country, and discounts at Chicago's leading leather shops, bars, businesses and a variety of goodies. See next issue!!

**ORGANIZE**

The California Code Reform Bill will be introduced in the 1981 Republican controlled U.S. Senate, it has been learned by U.S. Senator Denton of Alabama. In 1980 the Bill was known as SB 1722, but it is to bear a new number, but it will still be the same piece of legislation which will establish a Federal Penal Code which will pre-empt our state laws in most cases. Preventative detention could very well become a reality in 1981 or '82 under the Reagan administration. Preventative detention would allow persons accused of committing crimes to be kept in jail, to the judge felt that the person "posed a danger to the community." And of course, a Reagan Supreme Court would uphold such a law. In 1981 there are other laws which are to "go down," under the Republican controlled United States Senate, such as the voting rights act of 1961 which must be either renewed or dropped by the Congress this year. And with Strom Thurmond in the Senate, chances of it being continued are slim indeed.

Affirmative action legislation is dead for the next two years, according to the President's Task Force on the Senate. New laws for employment are as well.

PRIVATE COLLECTION...This hands-on Hand Films production is now at the Nob Hill Cinema having opened on New Year's Day, and it draws the largest crowds of any porn film in the history of San Francisco thus far. The film is exciting, it has great clarity, a wide variety of the top porn stars of the past two or so years, all drawn together in this extremely erotic sex film. PRIVATE COLLECTION has Bart Sommers, Dan Gentry, Scorpio, Yogi Rama, Bob Damon, Paolo, Steve York, Dan Gentry and many more Jack Press film stars. The Nob Hill Cinema, 729 Bush St. (see ad page 16)

WANTED...Continuous intake to its 64th big at the Screening Room. This Frank Ross production is the talk of the porn film industry and it will obviously be the top grossing film in the city of San Francisco for some time to come. It's been a long, but WANTED has the magic ingredients to do so. With Al Parker, you have a truly hard-boiled film which will keep the most passionate dreams for someone. The film has a top plot, something needed in porn these days. The film was a hit here, and this is one of the best camera work seen in a porn film to date. It was filmed outdoors, and much beauty has not been seen in any film since L.A. TOOL AND DIE. Screening Room, 220 Jones Street.

LIVE SHOW TO COME TO NOB HILL...an unusual live show of male dance art with two very good looking young men, will open in February at the Nob Hill Cinema. The two will be the talk of the city of San Francisco for some time to come. It is rare that a film is strong enough to hold up very good, man-filled, erotic film palace, the Nob Hill Cinema, 729 Bush Street.

RUMORS & RHINO Rumors are flying high and yonder that Daniel Carson, the actor, who is one of the founders of the Gay Athlete League and who has done one One-Art play in concert with Theatre Rhino, is working on a take on Dawn Dean's humor play, "Special Friends", which opens February 14th at the Kingston of the Red Beach Ballroom on Mission Street near 8th Street. It seems that one of the actors for the Dean Production was desired by Carson for one of his upcoming-one-acts at Theatre Rhino, but the bud performed as established playwright's production over the Carson anti-effort.
