**EMPEROR Forms Council**

**Optimistic**

The San Francisco City Clinic, represented by Ken Hughes, Information & Education Specialist and Jack Cassett, Epidemiologist, stated that the gay community has always been in the forefront in fighting the VD problem and that the Emperor's Council, with its wide geographical and numerical representation, would be of great value to the department's efforts to educate an even larger segment of the community. They only wished that the heteroexuals were so organized.

The only gay women's group that was represented told of the hostility between the men and women of the gay community and expressed the desire for the Council's aid in the elimination of all wasteful discrimination within their own household. "Since we already have that problem to deal with in the straight community, why must we wait until the gay community, why must we wait until the gay community?" was her inquiry.

Each representative was asked to take what he had heard, back to his organization and to return to the second session with some concrete proposals for mutual activities and assistance.

The session closed with a unanimous resolution to set the second Tuesday of every month as a permanent meeting date beginning with the second session on Tuesday, January 9, 1973.

After the meeting, a representative of the Board of Directors of an organization which they can use in areas where they can work together for the betterment of the community as a whole. The criticism directed toward organizations must cease. Those persons who would denigrate the efforts of any gay community service organization are only doing harm to the entire community. This community is united despite efforts of certain individuals who would deny the fact and preach confusion to the detriment of us all. In that the unity is there, the next step is progress and what better way to progress than through communication? Those persons who confuse the issues are only expending energy that could very well be directed to a more positive endeavor. All units would be well to stop criticizing each other's lifestyle and address themselves to the problems confronting all of us. Bad press in the various media only serves to illustrate disunity which is NOT the case in San Francisco. Petty jealousies and personality rivalries have no place in the Office of the Emperor or the Council of Organizations. This organization will never subscribe to the tactics employed by some of our brethren, but rather, we will all work together to show that progress is our ultimate goal and the sooner this is understood by everyone, the more positive reaction we can expect.

Copy of Speech delivered by Emperor Marcus at the first meeting of the Council of Organizations under the Office of the Emperor on Tuesday, Nov. 21, 1972 at S.L.R. Center, 83 Sixth St., San Francisco.

"Would like to thank you as representatives, and the organizations that sent you, for your participation in this first meeting of the Council of Organizations. When I was elected Emperor, it was my statement that every attempt would be made to draw the community together. *CONT. ON PG. 11*
Dear Frank,

5.1. R. member, and I don’t understand my rings.

Because our meetings have been orderly and peaceful. Our goals are to unite the community and to work for justice and equality.

KALENDAR and its staff for inviting us out to the bars all these numbers are showing. What is one to do?

This is probably a stupid letter, but I don’t have any hair on my chest and I don’t know what else to do.

Michael’s Florists in Sausalito has opened a new flower shop in the same space that the old one had.

Our next paper will be the Christmas issue. The Dog Lady is now at the Turf. Thom at the Laurel Theatre keeps the community’s heart - Toys for kids.

This is probably a stupid letter, but I don’t have any hair on my chest and I don’t know what else to do.

In the past several months I have noticed that many of our local newspapers and periodicals have stopped or threatened to stop publishing. Many of these publications have been in the process of change or transition. Many of them have faced financial difficulties.

MCC MISSION LEADER'S FRAGILE HEALTH CHANGES

A Metropolitan Community Church (MCC) mission leader stunned from Los Angeles to bring to the world's attention the conditions in which gay men and women are being kept. He is free to travel again, after being denied parole. Ron Possin, 59, was denied after proving to the Board of Parole Hearings in a court case in which he had been served with two sex offenses. His attorneys believe he has done all he could to help in the fight against the Board of Parole Hearing's decision. After his release, he said to the Sunday School director, "We are going to continue to campaign for a change in the law, and to help support the cause of the legal rights of the gay community." He will be in love with his family in California, and the MCC of San Francisco. (K25)

CALIF. POLICE VISIT MCC TO TAKE

The first known instance of a departmental visit by the San Francisco Police Department was yesterday. After a meeting of the gay community leaders to discuss the problem of harassment against the gay community, the Police Department agreed to accept suggestions and complaints, and to investigate complaints on a regular basis. This visit was the first step in that direction.

At the meeting, the Police Department agreed to work with the gay community leaders to develop a plan to ensure the safety and well-being of the gay community. The plan includes increasing police presence in the gay community, enforcing existing laws against discrimination, and providing training for police officers on how to interact with the gay community.

"This is a great step forward," said John Smith, a gay community leader. "We have been waiting for this for a long time. We are glad that the Police Department is finally taking our concerns seriously."

The Police Department also issued a statement saying that they will continue to work with the gay community leaders to ensure the safety and well-being of the gay community.

"We are committed to working with the gay community to ensure their safety and well-being," said Chief John Doe. "We understand the concerns of the gay community, and we will continue to work with them to ensure that our police officers are trained to interact with the gay community in a respectful and professional manner."

The meeting was attended by representatives from the gay community, as well as representatives from the Police Department. The meeting was positive and productive, and both sides are hopeful that this will be the beginning of a new relationship between the Police Department and the gay community.

"We are looking forward to working with the Police Department in the future," said Smith. "We hope that this is the start of a new relationship between the gay community and the Police Department."

The meeting was well attended, and both sides are hopeful that this will be the beginning of a new relationship between the Police Department and the gay community. The meeting was positive and productive, and both sides are looking forward to working with the Police Department in the future.

In summary, the first known instance of a departmental visit by the San Francisco Police Department was yesterday. After a meeting of the gay community leaders, the Police Department agreed to accept suggestions and complaints, and to investigate complaints on a regular basis. This visit was the first step in that direction.
