Phytoplankton in Tokyo, Japan, recently were amazed by the excellent health of the two World War II soldiers who had been living in the jungles of Guam and the Philippines and recently were discovered. After performing over 200 tests of the most recently discovered soldier, Lieutenant Hideo Onoda, doctors said he was in better shape than Japanese who have been living in modern urban environments.

This week the nation's largest oil companies announced their profits for the first quarter of 1974. Exxon, the world's largest, reported earnings up 39.9%, Texaco Inc. reported a rise of 238%, Gulf & Standard Oil of Indiana both reported rises of 75%. Corporate profits or earnings are the equivalent of a company's net income after taxes. The firms have stated that a large portion of their profits will go towards increased exploration & development of new energy supplies.

Senator Henry Jackson, (Dem. - Wash.) said that the figures show "the bankruptcy of the government's energy policy." He said higher profits & prices "make the working man & the people who employ him, the orphan of neglectful - even reckless - government actions."

Two reports by the S.F. Police Department Planning & Research Bureau indicate that the crime rate in the area where the Zebra murders occurred has decreased by 30.7%. Bumper indicates that the crime rate in the area where the Zebra murders occurred has decreased by 30.7%. The survey does not contain figures for the period since the "manhunt" has been stepped-up. But police sources expect an even more dramatic decrease in this period.

Sounds at the END UP

The Endup at 665 Harrison has undoubtedly become one of the city's most successful dance bars. The decor is raw wood with a somewhat circular bar in the center. Of special notice, are the slings of Hunky Dudes that pack in nightly to dance to a fantastic sound system on the bars elevated dance floor. With Sounds you can see it feel. This sound system took over a year to build; the custom built system at The Endup is one of the few "Total Quadrophonic" music systems in San Francisco. With push button touch control it wraps you in music.

Each Tuesday is reserved for the building structure by its own innovation; this allows a distortion free sound with sharp rich clarity, that is easy on the ear. Dance Floor. The elevated dance floor is surfaced with plexiglass lit from beneath by vivid lighting. The unique lighting effect in the floor is emitted by a 4 channel color organ controlled by a computer.

Jockey Shorts Dance Contest the Activities. After our 2nd very successful Jockey Shorts Dance Contest the management has decided to promote a third contest. The Lucious Lorelai being the M.C. puts most candidates at ease immediately. If you missed the last one, don't forget the next one is on May 5th at 5 p.m.

What's Up

Join Hands, a Bay Area gay men's prison support group, needs gay men who would like to write to a gay brother in prison. Our work here is mainly composed of setting up correspondence between gay men inside of prison and those on the "outside". Right now, the number of number letters we have far outnumbers the number of names we receive from people who want to write gay prisoners. Gay prisoners desperately need our support. Although all prisoners suffer many inequalities, gay prisoners in particular are doubly oppressed because of their sexuality. Please write us for a prisoners name.

Our address is: Join Hands, P.O. Box 42412, S.F., 94142. Also, come by and visit us at our offices: 321 Leavenworth. Rm. 4002, S.F.

The G.G.G. L. H. is badly in need of new craft hosts and for our old craft hosts to please call or drop by and let me know if you wish to continue with your hospitality this spring and summer. If you feel that you cannot house a gay brother you could house a gay brother's sister on one night basis please call or drop by.

Our new phone # is: 431-7658.

**WORD OF MOUTH**

**BODY TALK**

by Apollo

Your body is your portal to the world. What you choose to wear and how you carry yourself speaks volumes about who you are and what you value. So how do you feel about your body? Do you love it, or are you ashamed of it, even if it's only one part you don't like?

Do you exercise regularly? Do you try to live a healthy lifestyle? Do you wear clothes that make you feel good about yourself? Do you surround yourself with people who support you and encourage you to be your best self?

It's important to remember that beauty is subjective and there is no one-size-fits-all approach to wearing clothes or living your life. What matters most is that you feel confident and comfortable in your own skin.

CAPRICORN (Dec. 22-Jan. 19)
CAPRICORN: Lots of changes in your life. Confirmation of the unforeseen and all for the best. Do what you can and don't worry, it's too bad that you moved into the here and now, 'Till it's too late...

AQUARIUS (Jan. 20-Feb. 18)
AQUARIUS: Ideological problems? Just keep on drowning with your notions. Want to steady ship? Well you'll just have to make room for it in your life and give up some of your so-called independence or go mad. Can't have both. You'll have to work. On the other hand this may be all well and good. Anyway you look at it you'll just have to give in to get...

PIECES (Feb 18-Mar. 20)
PIECES: This period seems to find you very idealistic and dreamy. In which case you had better keep a clear head and heart. On the 25th you'll be needed in several ways. Only this time it may be your turn to practice a little hard, maintenance, don't be stubborn. The problem is you are spending money wildly and making a good impression, real people will love it. On the 26th start getting your act together, come up and properly, everything should be in proper correct right now. On the 26th something may happen to improve your state of mind in the long run. You may start to believe in utopian dreams of which the 26th don't get carried away with...
