See and Be Seen.

The difference is clear once you step inside. Trinity Place was built for comfort and diversion; there's simply no comparison to be found in San Francisco. It's not surprising that such a wide cross-section of men find us a cause for occasions all through the week. No matter who you are, getting together at the right place is always a good time. And you know what that leads to... More of the same very soon.

Propositions A & B: Last Hurrah for the Old Gang?  
Gary Collins

The background
In the last general election in San Francisco, Proposition A, which changed the method of electing supervisors, Proposi­tion B, which allowed district supervisors, and Proposi­tion T, all of which were defeated, was a three-part package. All three were narrowly voted down; Proposi­tion T, which required citywide elections for every seat on the board, seemed to be the most politically viable. Proposition T was defeated by a margin of about 6,000 votes, and Proposi­tion B, which would have allowed district elections, lost by more than 14,000 votes. Proposi­tion A, which changed the method of electing supervisors, lost by the largest margin of all, with 20,000 votes separating the two sides.

Unfortunately, Proposi­tion A does not wipe the slate clean. It is just a part of it. In fact, it is highly unlikely to pass this time around as well.

Proposi­tion B is the only one that really offers an incentive for the mayor to shift priorities. If Proposi­tion A is defeated, then Proposi­tion B moves up a notch in importance. If Proposi­tion A passes, then Proposi­tion B goes to the sidelines.

In addition to winning some, any citywide election is likely to be a victory for the liberal majority on the board. Proposi­tion A could be won by a small, cohesive neighborhood group.

Now we come to the two main actors in this debate. First, there is the question of whether you like the old-style supervisor or the new-style supervisor. Second, there is the question of whether you like the old-style city government or the new-style city government.

Unfortunately, Proposi­tion A does not wipe the slate clean. It is just a part of it. In fact, it is highly unlikely to pass this time around as well.

VOTE NO AUGUST 2 ON A&B!

A political advertisement

KALINDAR urges a NO vote on both Proposition A & B. We feel we should not have to pay taxes for services that other people will use. We feel the city needs to be more efficient and stop using tax dollars to pay for non-essential services.

Mental Health

Indeed, there are efforts of the last few years that have been made, and still are being made, to educate the public about the issue of male prostitution. However, these campaigns will not only make the problem more visible, but will also help to reduce the stigma associated with it. They are also important in that they will try to make the public more aware of the rights and services available to men. These important news in the media will have a major role in this battle.

The need for male rape victims to be treated with care and respect, as well as the need for male rape victims to be able to receive the support they need, is not always recognized. Male rape victims are often left to suffer alone, with no one to reach out to. Male rape victims need to have a safe place to turn to, where they can get the help they need. Male rape victims need to have a special person in their lives who can help them through this difficult time.

HEAVY EQUIPMENT
by Mike Schmitz

One adult film took a big step forward last week with the opening of the world's first homosexual-oriented feature picture in spacescope (a 3-D process) used for the production of HEAVY EQUIPMENT, which premiered on July 13th at the Nob Hill cinema.

HEAVY EQUIPMENT was written and directed by Mike Schmitz of "Erotikus" and "Dust Unto Dust" fame, the film features some excellent outdoor shots complete with construction equipment and construction workers - crane, art and all, plus powerful studio sets including all of the stars in various "pin-ups".

The 3-Dimension process used for the first time is not bad, but compared with the process used in movies like "Charge at Feather River" it is nowhere near as effective. The film itself is less than exciting, but the cinema looks like they are trying out the audiences which is most unusual, and the cinema looks like they are showing off too much anyway. The audience is most likely bored to death but one can't blame the director, who is giving it all his best shot.

"The Nob Hill will continue to offer an unashamed appearance of the incredibly popular and well endowed Roger, who is the perfect marketing man for the film. This is the way this film was intended and this is the way it should be."
