TAKE A COUNT

Probably the most asked question of all is: "How many are there?" To this date there is no effective nor near effective answer. Perhaps there will never be a real answer, but the L.C.E. News has a fool-proof method of determining how many can be influenced by the paper and by the readers of this publication. It is important when representing a group of people that you have a definite number of members to which you are responsible. The League will therefore supply cards listing the names of its members. These cards are now available at the New Office. The cards will be sent out free of charge to any number of people, thus giving the League a method of determining how many people there are who will vote for a candidate. We will also distribute 100,000 postcards through the establishments who have received the L.C.E. News. This will give our customers sufficient material to mail to their friends. We will mail in number of cards on any mailing list furnished the League. We will pick up cards on any envelopes and mail them at no cost to any member of the league.

It is vitally important that all persons interested in the question: "How Many Are There?" get behind this project. Now here is the plan we want every one to vote for and to push to all their friends:

LESLIE B. HIDE FOR STATE TREASURER
Prohibition Party

Or an average of 2,160 votes per candidate. Therefore in the General Election if we all vote for the Treasurer - in order to get an acceptable count for most offices - the average votes of all the Prohibition Candidates for Governor and for Controller and subtract this from the number of votes received by the man we are going to use as a vote controller. Leslie Rice, Prohibition Candidate for Treasurer.

We will then know how many votes are cast by the members of the Community. That is, if everyone gets out and votes for the candidates of the League for Civil Education. It would be difficult to imagine the surprise of Mrs. Rice when he gets up the morning after election and finds that he has thousands of votes that he never expected to get.

IT IS FOR YOU ONLY

The League for Civil Education is intended to serve the Community. We feel that most of the problems that beset us can best be solved from within.

The L.C.E. News is intended to bring the Community to the Community. The distribution of the News is an an integral part of its function. The circulation of the News is to be handled thusly: We will push his mail to his friends to vote for, does not have a candidate for office, but the one number desired.

The News is not aimed at general distribution and we have no desire to have the general public reading the News. Both the League itself, and the News exists only for the Community.

With this issue the L.C.E. News will begin to refer to the Community as the "Cluster" of subscribers. After this it is possible that issue number 1 Volume 11, starting the new year of publication will be a 16 page issue. The News has a circulation of 7,000 copies.

The paper has not been without hazards. Since what has been done is without precedent, we have had to feel our way along. Some of the staff knew anything about publishing a paper; none knew anything about printing; and what is still evident: WE KNOW NOW TO SPEW. (oftimes this is still evident.)

There has been very little change in the news this year, but in reviewing the first issue:

We started out to publish a paper for San Francisco and before we knew it we were publishing a paper for the entire country. In our first issue we asked "Your indulgence as we start on this venture. Who Influences the Editor? It is "the right of a person to arrange his life and business as he sees fit."

Our subscribers constitute one of the most diverse in the world. In many cases we have been asked to "cluster" of subscribers. In most cases, however, we have subscribers. Strangely enough, in San Francisco we do not have a single subscriber.

The L.C.E. News has been a success because we have not endeavored to be all appealing to those interested persons. Our loyal advertisers, our loyal readers, and our many friends. The Editor takes this opportunity to thank all those who, in the past year have made the L.C.E. News the BEST READ NEWSPAPER IN THE WORLD.

The Editor

Pill Pushers

News from the nightmare world of the Pill Popper spells hard times for the Pill Pushers. With the publication of this story by the daily newspapers of the easy purchase of pills from legitimate sources the price of the various medications used by Pill Poppers has dropped fantastically.

One known Pusher complained "The only way I can make a profit is to take something like Anacin and file off the trademark and sell them to the unknowing. Most of the time they don't know the difference anyway." There has been a decided decrease in persons obviously under the influence of drugs on the scene lately here in San Francisco. This has been attributed to deaths of prominent persons from overdoses of some drugs plus the lack of tolerance on the part of the Community for users.

We celebrate a birthday

If he cannot afford it. But last last issue we collected $75.00 from the racks. More than we ever had to give to various places because the coin tubes were so full that not one more coin could be deposited. More often than not, it was a reader who called us. The money collected from the racks merely goes to expand the services of the L.C.E. News to certain governmental offices.

The L.C.E. News has the most loyal readers of any known publication. Who Influences the Editor? It is "the right of a person to arrange his life and business as he sees fit."

Our subscribers constitute one of the most diverse in the world. In many cases we have been asked to "cluster" of subscribers. In most cases, however, we have subscribers. Strangely enough, in San Francisco we do not have a single subscriber.

The L.C.E. News has been a success because we have not endeavored to be all appealing to those interested persons. Our loyal advertisers, our loyal readers, and our many friends.

With the announcement last week that we would now send the L.C.E. News to an-Pacific Coast we have had a large increase in the numbers mailed to San Francisco addresses.

Some of the reasons we found it advisable to make this mailing available were:
1. We have had a bad habit of reading everyone's mail.
2. If not sent in envelope someone in the apartment building would tear the News before it got to the sub-
3. To prevent tattered edges.
4. "I can use the envelope to take my lunch in."

CHRISTOPHER

F. friends of George Christopher and a
few of his enemies will be
interested in the below quotation from
the authorized biography to be
published early this year:

"Christopher had attempted to
fend off the campaign headquarters
of his enemies several times..."—The
2, 1938.

In his authorized biography to be
published early this year, Christopher
speaks not only of the
problems of government morality that
raise questions about the activities of
the Redevelopment Agency, but also of the
worst of his enemies.

It is rumored that pressure has been
put on some vendors to remove the
distributors for years in case
Christopher's political ambition would be
hindered. Following the
redistricting, the outlook for the
Christopher campaign headquarters is in the
same building.

Christopher, if reelected, is unable
to handle it, let us know and we
will send it to you and pay the post-
age. The price of the biography is
$1.00.

This record is the proof that the
people, the Republicans in
supporting the Democrat, the
Governor, Governor Godfrey J. Hughes—
"The man with the蓝图," speaks not
only of the activities of the
California Dairy, but also of the
worst of his enemies.

As a part of an attempt to-battle
the problem of the
succession of the
Cocktail, the
commercial and
financial backers
offered to aid
Christopher in getting
him out of the
milk business.

"Within one year after, he became a
superintendent, Christopher had
enough stock to get a big milk company to
pursue the matter to court, and
the president of the
superintendent's
"Christopher Dairy Farms," ever since
the book, let us know and we
will send it to you and pay the post-
age. The price of the biography is
$1.00.

Christopher had been trying to
obtain the partnership stock, get them out of the
milk business.

"In July of the last year, however.
Christopher had attempted to
force the milk business.

Christopher had failed to

Recent Burglaries

In a recent wave of burglary
amounting to looting, two of the
members of the Community have
been hit.

Last week the home of Michelle was
robbed of everything movable. In
fact, the robbery was so complete that
Michelle has abandoned his home on
17th Street. All the famous 'kick
nacks' with the exception of the milk
glass were stolen. Everything of cash
value or wearable was removed.

There are no clues and the entry
was made by breaking down the front
door.

In an entirely different action
the home of Guy Strait was robbed
of radios, typewriter, all personal
jewelry, electric razors, camera and
equipment.

Immediately upon notifying the
police of the robbery the squad car
came by and surveyed the scene. The
next morning the crime lab men were
on the scene taking fingerprints.
There was a suspect and his finger
prints were found on the outside of
the window, evidently opened to ob-
tain entry.

Inspector Millet was assigned to
the case and ran down the clues and
put out a 'wanted' bulletin.

The suspect, Mike Nolan, was ap-
prehended in Woodland, California on
a stolen motor bike. Questioning
the suspect on the disposition of the
loot is underway.

Guy Strait, Editor of the L.C.E.
News has been unusually complimen-
tary regarding the work of the police in
this matter. "There has been nothing
but the finest of cooperation and
promptness, courtesy and considera-
tion, on the part of the entire pol-
lice force in tracking down the cul-
prit", he said.
