WE MUST FIGHT NOW

WE ACCUSE

We accuse the law enforcement agencies operating in Northern California and more specifically in the area of San Francisco of flagrantly violating the Constitution of the United States.

In that in certain establishments, those activities are being carried out under the guise of law enforcement agencies, we are convinced that the Constitution of the United States is being trampled upon.

In that freedom of the American right of free speech has been severely limited, we are convinced that the Constitution of the United States is being trampled upon.

In that the right of free speech has been totally disregarded, we are convinced that the Constitution of the United States is being trampled upon.

We accuse the law enforcement agencies of being involved in these activities, and we demand that they cease and desist.

We demand that these agencies be held accountable for their actions and that they be removed from their positions.

We demand that the Constitution of the United States be upheld and respected.

DECLARATION

Within the coming weeks, the League will publish the following: a series of articles that will explain the Constitution of the United States.

We are calling on all citizens to support the Constitution of the United States.

We are calling on all citizens to support the Constitution of the United States.

HEALTH NOTICE

People who have lung diseases should consult their physicians immediately about being vaccinated against influenza, Robert W. Clark, M.D., Chairman of the Vaccination Committee and Member of the Board of Directors of the San Francisco Tuberculosis and Health Association said.

Dr. Clark pointed out that the Advisory Committee on Influenza of the Surgeon General U.S. Public Health Service has warned that there may be widespread outbreaks of influenza this winter.

Individuals who have or have had tuberculosis or other lung diseases could suffer serious consequences from an influenza attack, Dr. Clark warned. They should consult their own doctor without delay to take advantage of the protection offered by polyclonal influenza vaccines.

"It is important to act now because it takes about two weeks for immunity to develop after vaccination", Dr. Clark warned.

Lung conditions, other than tuberculosis, indicating the need for vaccination are asthma, chronic bronchitis, bronchiectasis, emphysema and pulmonary fibrosis.

Other high risk groups include patients with heart disease, arteriosclerotic heart disease and hypertension, with diabetes mellitus, and those with Addison's disease.

Vaccinations are recommended for pregnant women and all people over 45 of age - reports the San Francisco Tuberculosis and Health Association.

 Probably the most asked question of all is: "How may we influence the result of this election?" There is an effective way, and that is to write or call your local or state representatives. When you write or call you are a voice of many, a representative of a group you wish to influence. It is the fact that a few people are to some extent the result that is produced.

The straight party of Papa, Mr. W. W. Rice, is non-communist, has no personal ambition, and the politicians that he has face cannot keep the fact that they are a certain number of votes that will be lost.

Every person is free to take action when they wish. It is not practicable to vote for and to push to all his friends. Leslie E. Rice for State Treasurer

was to do is to remain in my mind until the very end. The military service as a whole was such a moralizing influence. The very ends the services as a separate entity. I was always aware that if I continued to serve, I would be saved. The words of the President and his associates, the influence of the service, the example of the other men who served, the personal experience of service, all these things combined to make me feel that I was in the hands of a great power. The President had said that I was a citizen of the United States, and I had the right to speak out. I had a duty to speak out. I had a duty to speak out.

They knew that was to be denied a mark. "Guy, I know that you do not there has been a concerted attempt to deny 'equal protection under the law'. This is a fight the agencies are under fire for the common good".

The very mention of the two in a single breath is paradoxical. The one considers itself to be above the law, and in many cases, it is.

**COMMUNITY CULTURE**

By Larry Campbell

He began by saying to the audi ence that this was a new and different kind of movie. It was not just a movie, but an experience. The audience was welcome to enjoy the experience and to share their thoughts about it. The film was about a man named Manny, who had encountered many challenges in his life. The audience was encouraged to think about their own lives and to consider how they might deal with the challenges they face. The film was a call to action, to remember that we are all connected and that we have a responsibility to help one another.

ROVING REPORT

Of course at the head of the line of things important in San Francisco is the annual Halloween and Election Time. The election has been called on us, and the last time we were told of this was when we had the last election. We all know who is physically disabled and handicapped. The election will provide transportation for those who need it. This will be repeated. This time the Grey Van Tour was another tour of the City. The last time it will take to bus again for their AZ. This year it will be a Cymbal Tour. The usual flow of traffic will be stopped. The busker entertaining above will be available at $2.00 per gallon with a minimum of 1 gallon. The look will be another First and all establishments should be expected to get an advertisement. head

We Write

To the Secretary of Defense:
Sir: In the course of this organization's investigation into the illegal and unconstitutional means employed by the Armed Services awarding of discharges 'under less than honorable conditions' we have run into a situation that requires the immediate attention of your office.

When men are released from Treasure Island they are transported to a place called 'Federal Clothes'. There they are issued civilian clothes at the expense of the Navy.

We have in our possession some of the clothes issued at this place. The coat is obviously second-hand and was in style in 1938. The pants were 6 inches too long for the person to whom they were issued. The man involved was told that 'if you don't like them you can trade them in on something that fits you'.

I do not necessarily, at this time, accuse anyone of wrongdoing. However we shall continue our investigation. In the meantime your office should be looking into this situation.

Very truly yours,
Guy Strait
cc Senator Thomas H. Kuchel
Senate Office Building.

Weekend Funicular

We hear from Senator Kuchel:

Dear Mr. Strait:

In the absence of Senator Kuchel, who is in California following the adjournment of Congress, I am taking the liberty of acknowledging your letter of October 15.

We have contacted the Secretary of Defense regarding the issuance of civilian clothes to discharged members of the Naval service and have asked for a report about this.

Sincerely,

The Editor
