Open Letter To

Gentlemen:

It was a pleasure to have you in our city last week. Investigating committees such as yours can provide us with information that is of the utmost importance. As police chief I am a police officer’s dream. Regardless what one of his men does they can depend on being backed up by the Chief. This is good for the officers, but the public suffers.

Ninety percent of the police department of San Francisco is fair and honest. I do not feel that there is any direction by higher authority to violate the rights of citizens. I do not feel that the higher authorities would undertake to violate the rights of citizens themselves.

In the field of law enforcement it is commonplace for officers to arrive at a place “on the basis of” a report. As a rule such reports are not confirmed by the entire police force. In one establishment, this has taken on the semblance of a personal vendetta against the owners. Very few arrests have been made, but the officer seems disturbed that none of the female employees have been arrested.

In the case of the Police Dogs: The Chief told you that the men who are handling the dogs are expendable and the police department does not have to do anything or get by with it. They feel that they have been allowed to do whatever they want, regardless of the consequences.

After the Negroes, has been refined to the point of being almost an absolute language. When it comes to harassment, all the tricks that the police learned while they were after the Negroes is evident in the treatment of social variants. There is one new innovation that is very effective. The use of the Make Card. It works this way: Officers go to a certain area, ask your name, address and where you work. The law is the law. If a man is an officer where he works, there is always the possibility that his Chief will be notified that his employee is a person that might not meet with the approval of the boss. It is a commonplace thing for officers to stop suspected social variants on the streets, fill out these cards and order the persons to “get the hell off the streets”.

Again, in the field of harassment it is commonplace for officers to arrive at a place “on the basis of” a report of patrol wagon and act as though the entire neighborhood had been cornered. In one establishment, this has taken on the semblance of a personal vendetta against the owners. Very few arrests have been made, but the officer seems disturbed that none of the female employees have been arrested.

Drunk arrests made in the City of San Francisco are based on alcohol. The person has consumed more than one instance of police officers asking whether they had a drink. Asking for a person’s name is just a way of being nice, like asking for ice water in hall.

I have come to suspect that the City of San Francisco, is not interested in its public equipment to give such a test. The person, after being released from the jail (three hours after being booked), even wait so far as to go to a hospital and get a sobriety test but was then persuaded to forget it.

The San Francisco Police Department is not the only law enforcement agency that practices illegal activities. The Department of Alcohol Beverage Control is a real specialist at this sort of thing. The ABC, as you will recall, is charged with the administration of the law regarding alcohol.

In a seeming attempt to go ‘above and beyond’ their calls of duty, they have undertaken to be the arbiter of morals in our society. The administration of the ABC in San Francisco has taken over the place that is usually reserved for the clergy. It may be that the alcohol does not meet with the specific approval of this agency would depend on being harassed and finally put out of business by financial retaliation. Again—there is the question of the citizens’ right to violate the law.

The officers, under the administration of these self-appointed moralists, Mr. Herbert Falvey, San Francisco’s Chief of Police, has publicized the fact that he has hired and trained men.

(Continued on Page 2)

NO DANCING

It has been some time since the Tabuhaus 71 is a bar in the community have forgotten exactly what happened there. Just to refresh your memory we will review the action.

It was about 2:30 in the morning and there were 200 people in the place. The Owner had received a warning about his policy. But, to be specific: In the case of the Self-appointed Moralists, Mr. Herbert Falvey, the ABC in San Francisco has taken over the place that is usually reserved for the clergy. It may be that the alcohol does not meet with the specific approval of this agency would depend on being harassed and finally put out of business by financial retaliation. Again—there is the question of the citizens’ right to violate the law.

ROVING REPORT

The editor has received word that they will send a copy to the editor because they were able to get a copy of the paper that was in the office. Early last year the editor received a letter from someone who said that they would send a check. This person wanted to send three or four copies to almost anyone and then send another copy to the editor. The editor asked to have the paper sent to them, and said that they would send a check. The editor obliged and sent three or four copies to almost anyone and then sent another copy to the editor. The editor told them to call again and wanted to know why they had not received the paper. The editor told them to pay up or they would have to stop sending it. In no uncertain terms, the editor told them. The editor promised that they would subscribe if they called again and wanted to know why they had not received the paper. The editor paid up and the editor promised to send them a copy of the paper.

Sedon and Gomorrah

One thing can be expected of Hollywood when it comes to making a sex picture. That is, whenever it comes to the pink of a season or after the core is done, the studio will change it. So it is with the present sex picture. This is a sex picture, with no real sex in it. It is not going to be a sex picture, but it will be a sex picture. The editor received a copy of the paper with a sex picture on it. The editor is going to change it. The editor is going to make it a sex picture. The editor is going to change it so that it can be advertised. The editor is going to change it so that it can be advertised.

THE SOUTH SEAS

by Joe Black Smith

With apologies to all my friends on both sides of the continent, I have decided to stop rowing for a few hours and to see what my friends are up to. That is if I can make out the notes I have written on the backs of dinner checks that I forgot to pay. So here we go.

Arrived at Bora Bora on Christmas Eve for only an 8 hour stay but found the Tahitian people very friendly and helped us to the hotel. The Bora Bora had a quick Tahitian Bun Punch and then back to the hotel and had a good time.

Arrived at Tahiti early in the morning, on the shiny, a cool breeze blowing and was met by the pier by my good friend Royce with his beautiful blonde partner and an arm full of very fragrant flowers. Royce took us to an island on frangi pagi for my friend. With this I felt as spectacular as a Frenchman, Roman Canades and all.

Royce has a charter boat business in the island of Moana. This is the island that they used for the "Halt Hal" in South Pacific and you do the same thing just as beautiful in real life.

Made arrangements to spend the day at the "Upstairs" for some fun. There are three of the most wonderful guys you will find in the Pacific. Kelly, Nuck, and Bill. These three boys are really living it up over here and the natives think they are the greatest in the world. Went swimming, had a drink, went for a walk on the beach and visited the Market Place, had a drink then back to the hotel and had another drink. Wanted to come back to Tahiti before dark to watch one of the native police shows on Tahiti. So we watched the sunset, had another drink and came back to Papeete for dinner.

We - Royce, Coco, his wife Irene, and the others had a ball at Tahiti for dinner and to catch the "Upstairs" show there at the hotel. In these girls are the dancers you will see in the movie "South Pacific", as always the girls danced wonderfully. Coco informed me that he had just finished a part with James MacK and in a movie called "Tarat Tahiti" and plays the part of a native police man. Be sure and watch for the show and Coco. He is easy to spot - six foot three, 190 pounds and one of the best guides on the island.

We watched the show and since it was so good we stayed for another show and had a few drinks.

Arrived at Pago Pago. The D'Oak Room has just completed the "Hula Shack" and we are very excited about it. schön is here and he is a big ball. There is a lot of fun.

AUCTION

The collection for the D'Oak Room Auction items continues with such a variety that the D'Oak Room will have to be a big evening. The auction has been organized for the auction such as platter casts, a life preserver from Jack's Waterfront Hangout, an Oil painting by Pudgy, now at the Jewel Box Revue in Kansas City or some of the best personalities going. Auction items to be given for the auction that do not have transportation may be left at the Jewel Box Revue in Kansas City or at the D'Oak Room.

Items to be given for the auction may be delivered either to the D'Oak Room or to the LCE Offices. Persons having items for the auction that do not have transportation may contact the LCE and transportation for the items will be furnished.

The auction will be held on the 19th of February starting at 7 PM. Information regarding the auction is available at either the D'Oak Room or LCE Offices.

The sale of business is giving gift certificates, meal tickets, etc. instead of the usual. Items such as leather goods, plastic goods or jewelry will be sold.

CLEARANCE

Cleared Customs on a very rapid basis. I worked out to buy as much as I could. Very famous Waikiki Beach. This City never stops growing. Every Friday there is another hotel or store that has been built somewhere. They are popping up like weeds and more pop up all the time. Somewhere in the middle of the City. A few to be disappointed in not seeing grass hats and pineapples growing in the middle of the streets. But we have a few of that kind in San Francisco, also.

I met so many interesting here I won't even try to remember their names, but I can imagine how代表大会把我们带到了这里, 我被送到了一个非常美丽的午后。这是其中最重要的美丽和粗俗的人们, 但是我把它们看到非常大的一年。那里仍然举行一个晚宴, 举行地点在白色教堂旁边, 在教堂旁边还有一对男女, 他们坐在非常舒适的沙发上。这是一个由非常美丽的椅子和粗俗的人们, 但是我把它们看到非常大的一年。
**Dishonor, Disease, Death...**

Mr. Dave Heyler, Editor of the Hollywood Citizen-News, has undertaken the task of publishing a series of articles under the title "The Hula Shack." At least this is his announced intention. After carefully reading all the materials written by Mr. Heyler and by the reporter he has assigned to this project; it is the feeling of this editor that the real purpose is to sell newspapers.

Reports from Hollywood have it that the Citizen-News has bought up just as soon as it reaches the newsstands. Here in San Francisco, the local newsstand has all copies in quantities except those that carry the article "Disease, Death..." The corner of the newsstand told me that the had never noticed the 16th of the month until this series was started.

We respect the right of Mr. Heyler to write on any subject that he may choose; we doubt, however, that he respects the right of this paper to answer his assertions. We get the impression that he is bombastic, and in fact, uncourteous, the statements he makes and illegal searches and seizures. We get the impression that Mr. Heyler is becoming a "Red." He assigns to his series an absolute immortality, for it is a fact that he has differed with the Social Sanitation Department, The San Francisco, and The Social Pathogen. In the series he keeps confusing them either intentionally or accidentally.

Paul Coates (Reported) did not have too great a respect for the truth in any statements.

---

**STATEMENT OF THE LCE NEWS**

The League for Civil Education does not condone slander. We do not condone slander solicitation. We are unalterably opposed to public display of any type of sexual activity.

However, we are sufficiently disturbed by the articles appearing in the Hollywood Citizen-News. Our feelings that right will prevail have not diminished. We do not think that the people of Hollywood and California will be taken in by this attempt to bolster circulation.

We do not share Mr. Heyler's contempt for "the people of the individual. He seems to think that they might be well off in a 'ghetto.' He has inferred that they would restrict their right to walk or drive along one corner of Hollywood. He is, in the opinion of the right of assembly.

We have talked to people who know Mr. Heyler personally and they, without holding me to say that he is an honest man. We find this difficult to comprehend in the light of the falsehoods that are manifest in the articles that have been recently published.

We would be happy to work with the LCE, the Board, and the Hollywood Citizen-News to arrive at a solution for the situation there. As above, we insist that the final determination of anything that is to be done must be in the right of the Constitution of the United States. No federal or state legislature is above it.

Again we reiterate: The LCE is unalterably opposed to any legal or illegal solicitation for funds or aid, and regardless of the sex or proclivities of the solicitors.

The tone of these articles by the Hollywood Citizen-News is alarming in that such journalisms appear in 1963. We might expect to read this in a En Elia Elia, Knights of the White Camelia, or Citizens' Council publications of the 20's but that such things appear in print today is cause for genuine alarm.

What is to be done? Those people who feel that the distasteful new circulated by the Citizen-News is unnecessary, must let their feelings be known. We are opposed to public solicitation for funds or aid, and regardless of the sex or proclivities of the solicitors.

It is our feeling that some of the people of Southern California are about to lose their citizenship. Allow this to happen and you will really find out how poignant "Playful Parker" can become.

The Editor

---

**PAUL COATES**

Paul Coates, columnist for the "La
day Morning News," has commented on Mr. Heyler's sudden concern over the loss of Hollywood's scandalous moral virtue. He says Mr. Coates:

"Now, then, I see by the papers where Hollywood is happily engaged in an orgy of self-vilification these days.

"The tarnished little village has been allowed to discover, and apparently to exploit, that its star-studded streets are being garnished upon the costume of young men.

"Well, could really say that a lot pleases, didn't it?"

"I could, for example, borrow the following prose crafted by the great fearless editor of one of the Hollywood newspapers. Single-handedly, he uncovers this menace on the sidewalks."

"He calls these unfortunate souls 'B.D.'s,' which is a clever abbreviation for 'necromancers.' Or, let's get specific, (variant)."

"In spare headlines stories designed to partially assume, to warn the alarmingly public, he describes them as the most part of the arbitrary in trying to convert the uninstructed to his way of life, and is in a position...

As a result, any attempt to explain the rapid spread of the disease is of the most pressing importance to the U.S. Postmaster General. He points out that the rapid spread of the disease is due in part to the fact that the disease is not confined to one region, but can be found in any part of the country.

The Postmaster General also points out that the spread of the disease is not confined to one region, but can be found in any part of the country.

NEW LAW

continued from page 1

The New Law that has taken effect in the United States is the result of a comprehensive effort to control the spread of the disease. The law is based on the principle that the disease is not confined to one region, but can be found in any part of the country.

**ROVING REPORT**

Report says when going on to the rest of the country to have seen the sights in San Francisco to be one of those who are often to California because it is better to offer more in life than to have to do with the ordinary. The city is not English. We have seen a few of them. They were found only in a few of the smaller cities of the United States. In the last few years.

And to top it off, "then the mayors" say it is more dangerous and more difficult to have to deal with. The city is not a city of that nature. This is not English. The city is not a city of that nature. It is a city that has been formed and has been formed for all people. Not only for people who have not been formed.
