COULD ELECT WALTER HART!

IF THEY WANTED TO
UNITY!

North San, columns for the San Francisco Examiner, has put forward for election Walter Hart, a candidate for the office of Mayor of San Francisco. The Examiner has endorsed Mr. Hart and has said that voters should be asked to vote for him. The Examiner has also stated that voters should vote for any candidate who is not listed on the ballot and who is not affiliated with any political party.

It is simply the case that the people of San Francisco are not sure who they want to vote for. They have done their duty when they voted in the primary election, and it is the duty of the political leaders to carry on the campaign for the candidate they support. It is the duty of the political leaders to show the people why they should vote for their candidate, and it is the duty of the voters to vote for the candidate they believe in.

Possibly this is because we have been asked to vote for a man because of his personal qualities. We are asked to vote for a man because of his personality, and not because of his policy or his platform.

However, the readers are often asked to vote for a candidate because of his policy or his platform. We are asked to vote for a candidate because of his policy or his platform, and not because of his personality.

But we must ask ourselves this question: Is it simply the case that the people of San Francisco are not sure who they want to vote for? Is it simply the case that the people of San Francisco are not sure who they want to vote for? It is not simply the case that the people of San Francisco are not sure who they want to vote for. It is simply the case that the people of San Francisco are not sure who they want to vote for.

It is simply the case that the people of San Francisco are not sure who they want to vote for. It is simply the case that the people of San Francisco are not sure who they want to vote for. It is simply the case that the people of San Francisco are not sure who they want to vote for.
TEA-ROOMS

Dear Friend,

I'm certain that The Tea Room actively supports the public more than it caters to just a few people, which is why we don't wish to alarm or offend the small group of people who have been writing us letters, so here's one for you. 

The Tea Room is not uncontrolled as other similar establishments. I believe that it would be cluttered with ding-bats and eight balls, but I am willing to give it a try. T-DAY, NOVEMBER 4TH

THE GOVERNMENTS TALK ABOUT SECRET WEAPONS - WE HAVE OURS.

THE ADVERTISING PEOPLE TALK ABOUT HARD SELL AND SOFT SELL - WE HAVE OUR METHOD OF SELLING.

THE TELEPHONE COMPANY TALKS ABOUT COMMUNICATIONS VIA SATELLITES - WE HAVE A FASTER METHOD.

It is a known fact that if a place is raided, that the news can scatter to all parts of the state by telephone - faster than by radio.

To do this I suggest that we designate Monday, November 4th - the day before the election as "T DAY", TELEPHONE DAY. Let us all get our lists of friends and numbers numbers and call them.

Urg us them to vote.

Ask them to please consider seriously and with awareness the position that LCS has taken in this election.

This is something that we all can do.

Use your vote; don't waste it. But most important, urge your friends to do the same. Let us make TELEPHONE DAY a day for City Hall to remember.

Our action means political power in our hands and not in the hands of someone else.

We can still control our political destiny if we can get off our backsides and do what has to be done.

If we do not, we will continue to be the dupes of political hucksters, the targets of police harassment and the ineffective social incompetents.

Remember Election Day is November 5th, but TELEPHONE DAY is November 4th.

DEWEY ELECTED

This is what the headlines in the Chicago Tribune said on that ominous day:

"All the people who voted for DeWitt F. Loomis for the office of the President of the United States."

The Chicago Tribune was a staunch supporter of Thomas E. Dewey, and the New York Sun was not far behind. The editors of both papers had good reason to believe that Dewey was going to win. The Chicago Tribune had not missed by much when it predicted that Thomas Dewey would have 28 electoral votes, 119 more than the 108 given to President Franklin D. Roosevelt. The New York Sun was not far behind in its prediction that Dewey would have 26 electoral votes.

A City Official recently estimated the present total of Negro residents at about 20,000, whereas in 1930 it was 10,000. This means that the Negro population has doubled in the past ten years. The Negroes are moving to the city because of the better opportunities for education and employment. HALLOWEEN NEWS

PUBLIC DEFENDER - What is the legal situation about Halloween when nothing is expected to happen? In the first place, it should be considered that some of the nastiest ideas represent the best in humanity; second, that no one should have a right to put the public in a position where they may be injured; and third, that in any event, the public should be protected by the law. A Public Defender, headed by Ellis Cawman, has been established to act in such cases.

The questions that we asked are as follows:

1. What is the law that applied?
2. Who is the person that prescribed the law?
3. Is there a law which says that dress as a costume is outlandish?
4. Has there been a court when persons have been found to have been costumed in a way that is outlandish?
5. Is there a law that says that there is a legal limit to the outlandishness of a costume?
6. Has there been a court when persons have been found to have been costumed in a way that is not within the legal limit?
7. Is there a law that says that there is a legal limit to the outlandishness of a costume?
8. Has there been a court when persons have been found to have been costumed in a way that is not within the legal limit?

The answers to these questions are as follows:

1. There is no law that applied.
2. No, the person who prescribed the law is not mentioned.
3. There is no law which says that dress as a costume is outlandish.
4. There was no court when persons have been found to have been costumed in a way that is outlandish.
5. There is no law that says that there is a legal limit to the outlandishness of a costume.
6. There was no court when persons have been found to have been costumed in a way that is not within the legal limit.
7. There is no law that says that there is a legal limit to the outlandishness of a costume.
8. There was no court when persons have been found to have been costumed in a way that is not within the legal limit.

We would like to see this done, but do not encourage anyone in this activity.

Penal Code of California, 650a: A person who, with intent to accomplish any lewd or indecent act, uses, in an open place or in the presence of any person not under 18 years of age, any dress, costume, or other clothing, willfully and repeatedly employs to disguise his person, is guilty of a misdemeanor. For any person either wearing any dress, costume, or other clothing, while traveling in an automobile, or at a carnival, parade, or other public place, or at an event where there is a possibility of disorder, or where there is a possibility of causing offense or offense to any person, the court may impose a sentence of imprisonment in the county jail for a period of not more than 90 days, or a fine of not more than $500, or both, or both, as the court may determine.

ANSWER: This statute does not apply to the question asked.

ANSWER: This statute does not apply to the question asked.
Dear Mr. Strait,

I debated a long time before sending this to you but after seeing a copy of THE NEWS, I did think that if you would print the following information it could do a little to help break for some of your readers.

I am writing this in New Orleans. A city which has been my home for many years, so you can see the following is not written by a casual visitor to the city, nor as an alarmist.

My advice to anyone considering a visit to this city is - for God's sake - don't. The Witch Hunt is on and has been for over a year. We in the city are accustomed to these "Police War Games", but this has reached an intensity that even people who, under ordinary circumstances, would ignore the whole thing, are up in arms. The Police Report each day lists four or more persons, giving names, addresses, place of employment, etc.

They have a group of trained teenagers who are experts in entrapment.

Many innocent people have been caught up in this. There is no redress to law in this city for such matters.

Movies, Tea Rooms, The Streets, The Bars, no place is safe.

And case I know personally - a friend of mine (who is not aware of my having written this) has two children, in his early twenties, and whether you care to believe it or not is about as square as they come - went into the restroom of his office building, and was himself completely entangled by a group who was obviously-expressed and making a display of himself. My friend glanced at him in much the same manner that you may glance at a drunk on the street. The young man asked my friend if he was interested. Square, as I said, he was unhinged and muttered a negative answer. Yet the young man pulled out a badge and called for the warrant. THE NEWS had his name, address and place of employment in the paper together with the charges against him.

An attorney called shortly after the paper hit the streets, saying for $1500, he would see that he did not do a warrant.

This boy had one failing. If he had been like square he would have made his answer clearer and possibly not have become involved. But then if the Police will resort to this, how far will they go?

This is the mode of operation. We cannot fight it without additional publicity. After your name has been published, why go for more publicity. And if you have lost your job over it, where are you going to get the money?

If you want to help a lot of strangers, who might be coming to this city, tell the now and tell them often - STAY AWAY FROM NEW ORLEANS. I will write again if it ever becomes American in New Orleans.

(Editors Note: We will make a complete investigation of the situation in New Orleans before the next issue is published. We have a few friends in that city that might be able to do something about it. Or possibly from him and we can bring a few things to the attention of people in some high places. Watch for the next issue.)

We have readers all over the world and we very often worry why they bother. The NEWS IS predominately of San Francisco. We ask them, "Why do you subscribe to the NEWS?". Almost without exception the answers fall in two categories. The first group says that it is predominately the same all over the world. They have to have a copy every day in every city. The second group says that the NEWS is exceptional because the editors select the best stories, get the best writers, and publish them in a way no other paper can.

We have two people who not only put out the News but carry on all the rest of the work of the League. Why don't we call for volunteers? We have and they have responded with some writing such as the recent page where anyone thinks of new ideas* for that area. We will get written and appreciated. We work the normal work day. It is rare that someone is free to work during those hours. And with this conflict it is easier to put the paper together by ourselves. In this issue of the paper, we have a letter from a volunteer sending in various articles. We commend this idea. The NEWS is a paper that we can do it.

I fear that I am becoming a cynic when one thinks of new ideas. Most of them entail people who we do not know, getting together with others who they do not know to do something serious.

Now please consider the foolishness of most of us. We will go to public areas and assume the calculated risk.

We will go to beaches and think very little of exposing ourselves.

We go to bars that are so steeped in the past that they appear to be ancient.

We go to places that are known to be under the eyes of the big brothers. Yet we forget to subscribe to a new paper that is so security conscious that they only publish what you are interested in.

The next time you invite someone to your home think of the risk you are taking - yet you will not subscribe to the only paper that would defend you. THINK IT OVER.

Why do we fight? It is simply a matter of sink or swim. We have decided a long time ago that no one would do anything but themselves for us. It is time that we do the same, by ourselves and if we will not then all is lost anyway.

The NEWS is composed of many people. We like to tell our readers in Maine, Florida, Texas and Washington that we have a name of people. It is not the truth. All of the typing is done by the harassed Editors, the layout work is done by the Staff Artist. The mailing is done by both of these. The brutal truth is that we have two people who not only put out the News but carry on all the rest of the work of the League.
