BAR CONDUCT

One of the facets in every day living that interests us is the interpretation of conduct. What makes an act lewd in public and not in private? What makes an act lewd when performed between two in most places yet not lewd when done before thousands? The only conclusion that we can draw is the intent of the act determines the lewdness of the act.

Therefore a ball player who makes a home run is entitled to get a pat on the ass with the entire world watching, yet a pat on the posterior in any bar in California is a lewd act.

We went to a bar on Maiden Lane, in San Francisco to see what acts were allowed by the management. Let it be known that any act outside copulation is allowed there. Yet how were these acts performed that made them less lewd? It again could not have been in intent because the obvious intent was to arouse the response of the girls. At the bar there was a young man standing beside a seated girl who apparently was paying no attention to the fact that he had his hand in such a position that it must have been caressing her vulva. Did he know that this act, if seen by a police officer could get him a fine of $500 and let him have a six months vacation at County expense? Did he know that his arrest would make him that Interests us.

TEXAS

On April 21st, thousands of Texas Aggies got down on their knees and -- paid homage to their alma mater. We must understand that 'Aggie' in this case is not necessarily a short for 'Agnes', but rather is a short form of Agricultural and Mechanical College. April 21st was the 128th anniversary of the battle of San Jacinto where General Sam Houston won the independence of Texas from Mexico. He did it by methods not considered strictly gentlemanly, that is, while General Santa Ana and his soldiers were taking a siesta, old General Sam snuck up on them. The only fatality was when one of the Mexicans got his high heels caught in the stirrup and was dragged down the road.

In Houston things are back to normal, more or less. Several years ago Houston had a Chief of Police indicted by the grand jury as one of the big narcotics pushers in the City and was himself an addict. Now today, going about 1000 yards south of Houston, there is a little city called for no good reason, Pasadena. The former mayor of that City is charged with about everything in the book including kidnaping. Pasadena under Mr. Hoover, the former mayor, was surely a paragon of virtue, closed down tight as a drum. You have to be careful about a saint.

In Dallas things are really normal. Except for a heat wave that persists, there is the news item that the police in University Park have had to mount a dual patrol in the 'sorority row' area to keep the fraternity boys off the rooftops.

The Chief of Police is disturbed because he thinks the boys who have been crawling around on the rooftops might be potential rapists. Did you ever try to get into a house from the rooftop? Try it sometime.

SMUT IN LA

NEW SMUT DRIVE UNDERWAY

County Supervisors of Los Angeles County have mounted yet another drive on what they call "smut", not to be confused with another Los Angeles characteristic called "smog".

Chairman Warren Dorn gave the send-off to the latest drive with the display of a group of 'girlie' magazines and entered a resolution to have the chief administrative officer and the district attorney and the sheriff go to work with the County Grand Jury and the state Attorney General's office to keep such magazines off the market.

District Attorney William McKesson, who was in the audience when Dorn brought up the issue, stated that new legislation is needed to effectively fight the traffic in smut.

Supervisor Kenneth Hahn said attacking the magazines on the newsstand or in the mails is not enough.

"Some of these magazines are printed right here in Los Angeles," Hahn said, "Let's close them up."
executives were stopping in for cocktails. Frankly, it was not too busy, and the legal action to close this bar had not been filed. The bartenders and alohol solicitation and groping in gay bars — both in other places there was no problem.

CROPPING IN GAY BARS

We have in the past, noted that the bar scene in San Francisco is a unique place, as is also performed in every large city. We are prone to be goodly amount of "groping" involved in this and have realized the seriousness of these actions. The admittedly the same act that does not occur in any other place. It is also performed in every large city. We had no heard from the people who are charged with receiving 590 copies of the book in question were figments of the imagination, yet most of them are able to prove their innocence.

It is a serious charge when perpetrated in court, that you did willfully commit a lewd act.

We had not heard from the "LC" Cabin on the California bowling circuit. This series of obscene and lewd acts was to be considered for hurting people. We do surprisingly, and we do it poorly. We are abandoning all punishment in favor of our passion.

I'LL CLOSE BOURBON STREET
Jim Garrison, New Orleans DA, made the statement that he was going to close Bourbon Street when he was elected. After his election he tried, but every time he got ready to go into court the Judge of the courts had gone on vacation. When this remark was made to Justice Hugo Black in the Supreme Court of the United States, the Justice despaired that this was "pretty soon." In one case a visiting Judge held a trial of a case by Mr. Garrison and fined Mr. Garrison $25,000.

The Louisiana Attorney General insisted that Mr. Garrison had called the judges "naked cows" and fellow members of one city judge have been going around saying, "What's every time the judge went into the New Orleans Athletic Club. Chief Justice Earl Warren asked the Louisiana Attorney General, "Was there really no vice in the French Quarter?" He replied, "No, I do not take that connection. Another Justice asked if perhaps Mr. Garrison was mentioning about that. Mr. Garrison has been flustering quite a few places the State's Attorney responded, "This has been a very heated controversy in New Orleans, the attorney said."

That's apparent," responded Justice Brennan.

Draft, payoffs, and violence connected with the State Liquor Authority in New York may well cost presidential candidate Rockefeller his chance of getting the nomination. With the pressures that have been brought by the scandals that have rocked the state, all the gay bars in Manhattan have been closed along with other places that are at all questionable.

One of the big unspoken-of facets of the investigation has centered around the criminal control of the gay bars in Manhattan. Alcho the legislators have balked at giving the governor authority to clean up the liquor authority in New York, they have killed time and come up with a "comromise solution" that deals directly with the restaurant that food be served in a various bars. Therefore, the semi bars in New York that have always been legitimate restaurants are still in business, along with the bars that were located in such hotels as the Actor, The Waldorf Astoria, The Plaza, etc. The Governor has fought long and hard to open up the licenses so that there would be more bars and liquor stores but the liquor lobby has had its way and that portion of the reform schedule has been defeated.

The 20th Century has produced a prodigious number of

literary giants—men of the stature of the Irishman James

Joyce, the German Thomas Mann, and Marcel Proust.

Proust's father was a distinguished physician

and whose mother was a Jewish heiress, the usual early

twenty years of training. But Proust's

association in the 1890's with some esthetics of the period

led him to the discovery of French romanticism.

Proust's most important work was the

Faubourg St. Germain and it was in this rarified sphere

of aesthetes that Proust wrote and translated the

material he recorded in his "search for times past." 

"A Prince of the Novelists," Proust's

chronic illnesses, withdrew from society, barricaded him¬

self in his apartment, drew his shutters to shut out the

light, and produced his literary monument.

Reminiscences of Times Past has Paris and the provinces as

its setting in the period before the upheaval that result¬

ed from World War I. After the Four-Hour Battle. Paris was

the 20th century. (Remember, it wasn't till after World War I, that American artists and intellectuals

had fled to Paris for a new lease on life."

Dr. Malcolm is a relative of the famous Malcolm. As far as VD in San Francisco is concerned here are the figures, and the only figures that Dr. Malcolm has to draw his conclusions. April

ROVING
REPORT

First we had better get a little understanding. In a recent issue we made a social blunder in this column. Never mind what it was, but we stepped on a couple of toes unknowingly. Some of the people reading this may have gotten the idea that we were doing a little advertising here. They asked what the price was for advertising in the Roving Report. So just for the record let's clear it up—we do not and will not accept money for anything mentioned in the Roving Report.

We know that the larger newspapers sell space in gossip and society columns but not this one.

Onward and Upward—The Eye Ball Palace has been getting a lot of the out of town arriving here has climbed the hill regularly.

Of this—we announced the publication of the reprint of the Dirty Book from Florida in the last issue. There is a group in San Francisco who also reprint books of this sort. They had been unable to get a copy so they wrote to the Secretary of the John Committee complaining that we were going to reprint the book and could not understand why they were unable to get a copy. The Secretary of the John Committee called the CH and talked to the Senator. He explained to the satisfaction of the Secretary. However he was advised that the State of Florida would probably put a restraining order out to prevent the reprint. So far the restraining order has not been issued. And the guy that complained has not yet got a copy. Who was that?

Have you seen that awning now decorating the entrance to Town Squire? Smart is the word for it and it sure as hell adds to that end of Polk Gulch.

Speaking of Polk Gulch we may as well kill a few rumors about the activity at the Frog the other night—By this time the girls in Istanbul are whispering that there was a raid there. But truth again, is no where near so interesting. Here is what happened: One guy, a visitor to our fair city, was disturbed because he could not buy a drink. He was asked to leave and started causing a scene. The management called the SFPD to come and take a look. They did, but in the meantime the unruly character took off. The PD then sealed off the place to look for a weapon that the guy had pulled. No weapon. No arrest. No raid. Dullsville, but it will still not stop the girls in Bombay from saying that the place was raided.

The girls in Samarkand are talking about the sendoff for Jose' muni bus and all to the airport.

Got a call the other morning at 3 AM from Lincoln, Nebraska asking for the name of the bar in Omaha. Told him then wanted to know the names of the bars in Denver. Then the names of the bars in KC. He just could not make up his mind where he wanted to spend Sunday Morning. Gave him a few good ideas and told him to check in with Satan. No more calls please. Telephone is silenced after midnight.

Note from Woodsie—Camps in Morrice, Michigan— "We are now prepared for the onslaught of tourists business. You can tell anyone going to the Fair from that direction that this is one of the most spots for a cross country trip. We have every facility to make their stop here one to remember." This place is a sunbathers delight with steam rooms, privacy etc.

Therefore, the CITIZENS NEWS will report on all the news, both good and bad.

We shall continue to keep in contact with both these groups and refer those in need of legal advice or counsel to competent and understanding attorneys. Continued on page 12

PICNIC MAY 31st

For the last three years in San Francisco we have enjoyed a big picnic on Memorial Day Weekend. This year will be no exception. Events are planned with you in mind. Altho our present grounds will not permit swimming, we are negotiating for a place that will.

Naturally no minors will be allowed. Tickets will be refunded if unused. Don's has stated they will serve a special breakfast to the picnic crowd from 6 am til 11 am.

The location of the picnic will be revealed when the group leaves from Don's Restaurant at 7 AM, 9 AM and 11 AM. In order to assure ample supplies of both food and drink only 200 tickets will be sold. If the beer strike is still on the beverage will probably be some kind of fruit punch, possibly with oranges. The food is to be chicken (fried), the Senator's famous potato salad, etc., and hot dogs and buns. The Citizens News will supply both the hot dogs and the buns. Since it is still quite cool in San Francisco, no swimming facility is available but ample sun-bathing is assured.

Tickets are for sale at the best known places in San Francisco and at the offices of the Citizens News for $4.00.

As in the past there is always ample transportation at the place of departure and we have found that most people who are taking their cars welcome additional riders. A person will be at Don's to coordinate the riders and the drivers.

If any tickets are left from the advance sale they are to be bought at Don's Restaurant, open that morning to serve food to those who wish it prior to departure for the picnic area.

The Senator has established a reputation for excellent picnics and this one promises to cap all the others for fun and frolic. Naturally there will be prizes and games.

Thank You

The CITIZENS NEWS wants to take this opportunity to thank each and every reader, subscriber, and advertiser in the Community and outside, who have supported our early efforts.

We feel that we are now an effective news and advertising media and that our supporters have made this possible.

The CITIZENS NEWS is about to enter into a new phase of business with national distribution in many fields.
Tavern Guild Picnic

About 350 persons participated in the first open picnic of the season on May 17 in San Francisco.

The groups gathered at the Embarker at Don’s Restaurant for departures. The location of the picnic was a secret until maps of the routes were given out to those going on the affair.

The site of the picnic was a 100 acre plot north east of the Chicken Capitol of the World, Petaluma, California. This made the place about 46 miles north of the Golden Gate bridge. The weather was not the best that could be expected and the dew was on the grass as heavy that until mid-day it was like wading.

This did not deter the ex­plorers who made frequent and lengthy trips into the woods to find out where things were.

Due to the beer strike in San Francisco the beer was in short supply, the food also was extinct and General Charles de Gaulle’s words were true.

Answers to 75 Questions

The Citizens News, a paper that stands for sexual freedom has cooperated with the coming conference, “Conversations with homosexuals” asked in a recent issue for readers of homosexual orientation to answer 75 questions. Here, the results and conclusions of that questionaire are published.

There cannot be a great mass of conclusions drawn from answers, some of the answers are fairly lumpish, but we are convinced that the questions were answered truthfully but since no control was exercised over the choice of the per­sons answering the questions it would be difficult to say anything other than, “Here are 110 sets of answers.

Homosexuals' New Boldness

Homosexuals have gone beyond the plane of defensive strategy and now argue that their deviation is a desirable, noble way of life, and that they are entitled to the same rights and privileges as other citizens of the United States.

The study of homosexuality has been greatly increased since the report of the committee of the American Psychiatric Association on the subject of homosexuality. This has been caused by the great interest in the subject and the desire to understand it better. 3) The Law—Although we may publish the laws of the State in the NEWS every issue there is still a question in the minds of many. Therefore we will be happy to read over the telephone or in person, any of the provisions of the California Penal Code.

4) Personal Counseling—The Editor is not qualified to act as a psychological counselor, and personal advice is always cheap and usually worth the price, but the Editor is always ready to offer his services to those in need of such. At least the Editor knows where qualified advice may be obtained.

5) Community Welfare and Cooperation—Anything that adds to welfare of the Community will be supported by the NEWS. Those who are interested in the welfare of the community can always count on the pages of the NEWS for any support needed. Naturally we cannot go along with each and every project as being in the Community interest; no more than we can expect everyone to agree with the stands that may be taken by the NEWS. WHY WHY WHY?

In offering to the Community these services we know that there may be a misunderstanding of motives. There can be no personal gain involved in good works. But if the economic stability of the Community is improved then naturally our status is improved. We are running a newspaper to make money. It takes every friend that we can make to improve this paper. If we are in a position to help improve the economic and legal status of the Community then in the long run we will be assisted to grow and to expand.

We offer these services as a matter of good business. We will not accept any remuneration for these services.

MORALITY

It is not the position of the NEWS to moralize on the activity of the Community.

We can point out the effect that certain actions may bring; We can tell what the penalty can be; We can rely on the reactions of the City to certain actions, but morality is not a proper function for the NEWS.

Morals are a personal affair between the individual and his conscience.

The Editor is not in position to throw stones and does not intend to start now.

ROVING REPORT

The Department of Alcoholic Beverage Control of the State of California has acted against several bars in Northern California.

In San Francisco, Gordon's at 840 Sansome was directed to close for 60 days—beginning June 25, for permitting lewd and lascivious acts by homosexuals on the premises.

The Sabre Club in Brisbane was ordered to close for 30 days for allowing lewd acts by homosexuals on the premises.

After rumors flying about its being cancelled because of the beer strike and the weather, and a dozen other sundry things the morning of the affair was cold. The dew was on the heather, and all was right with the crowd that gathered.

Now it is true that a few of the Community missed the affair. Roughly about 69,000 did not make it, but 360 of the lively ones from San Francisco gathered on the spot overlooking Petaluma, California — The Chicken Capitol of the World.

Let's see—There was Mavis who is the perennial life of any party. Skipping rope like a 16 year old. Speaking of 16-year olds there was the real perennial—Henry Laylow. Little hassel developed about who was to draw the winner of the second prize in the town Squire Raffle. Henry claimed that the Senator was the oldest and that he should be the one to make the drawing, the Senator could not find his glasses to read how old he was. But he did see that it was a Buggy Drivers License and then decided it was the better part of valor to give in.

Then from Jacksonville, Fla, there was John and Ron. John was the only one there young enough to have his ID checked. All the matronly ladies were insisting that perhaps Florida lost its best John. He then retired to examine the fauna and flora on what was later described as "Discovery Hill."

Up on Discovery Hill there was a large amount of interest in the view, from several vantage points. John Deer said it looked as if a football huddle was in progress. Pulling the beer spigot from time to time were some of the most experienced bartenders in the city. The new one from the Wool Box whose name escaped me at the present, did then also. Zelda of KQoit fame at the ball game wanted to have a fight with the umpire. At least it was said that they were going to wrangle.

'Judge' Tresini was there and in his new reserved manner did not participate in the games. At least not in skipping rope.

Everyone swore that Mark, (He was the guy with the telephoto lens) looked exactly like the guy who has been on the photo in Pacifica. 'Twas not him and he was very careful only to take pictures in the open.

One of the thoughtful ones from Sonoma County turned up with a first aid truck. Surely the people of that sleepy old road thought that gold had been discovered up in the hills. There must have been 100 automobiles.

One red Chevieve convertible had a flat just outside San Rafael. We saw them and were going to stop but the situation seemed well in hand. Then later on down the road, after that was fixed, they had another flat.

The California Highway Patrol then took one of the tires in and had it fixed and saved the day.

Stoney in back in town. He was stoned.

Chris—the cook at Don's was there and stayed sober all day. Very quiet too we are worried about his health if this keeps up.

Michelle—one of our best known entertainers—was at the (Continued on Page 11—goof)
