High Tech Gays win security clearance lawsuit

by Rick Redy

One year and four months after taking the case under submission, Federal District Court Judge Thelton Henderson finally issued a ruling on High Tech Gays -- DISCO (Defense Industrial Security Clearance Office) on August 19 and decided strongly in favor of High Tech Gays.

Henderson agreed with attorney Dick Gaye's arguments that gays are unfairly and unconstitutionally discriminatory through bigotry and delays in obtaining security clearances for work with civilian defense contractors.

Henderson cited violations of both the First and Fifth Amendments to the U.S. Constitution, covering due process and freedom of association.

"Defendants (the U.S. Government) are enjoined from refusing to issue or renewing security clearances to members of High Tech Gays, et al) to expand investigations, mandatory adjudications, procedures based on plaintiff's sexual orientation, homo/bisexual activity, or membership in a gay organization," the case had been brought originally by Tim Doilling, at Research tax credit proposed by Gray Davis

Sacramento-The franchise Tax Board voted 2 to 1 on July 28 to endorse a proposal by the Assemblyman Johan Klehs as it would introduce a voluntary contributions to the State Controller Gray Davis for tax credits.

"AIDS is a battle against AIDS," said Davis.

Finance, that there was no need to fight against AIDS.

"We're facing a medical emergency," said Davis.

"In the same amount of time that polio took 7,500 lives in the early '50s, AIDS will take 22,000 lives in the '80s.

"This credit will result in a private-public sector partnership to find a cure, vaccine or treatment."

Davis strongly rejected the notion that the large number of signatures to the tax credit proposal was based on an increase in AIDS research by offering a 5 percent credit against state income tax.

"We are facing a medical emergency," said Davis.

Rich Nichols appointed to Santa Clara County Human Relations Commission

Rich Nichols, a member of the BAYMEC Advisory Council, has been appointed to the Santa Clara County Human Relations Commission, BAYMEC reported in its August newsletter.

Nichols' appointment marks the second openly gay commissioner to serve during the existence of the Human Relations Commission.

Nichols is a native of Saratoga and, except for seven years in San Francisco, has lived there all his life. While in San Francisco, he served as an advisor to the late openly gay Supervisor Harvey Milk. Nichols also served as president of the Haight-Ashbury Merchant and Improvement Association for two years.

BAYMEC lobbied heavily with Supervisor McKenna to make the HRC appointment.

"You bet this is good news," said Ken Barner, founder and treasurer of BAYMEC.

"It's a major breakthrough. All we believe BAYMEC will have an easier time getting gays and lesbians appointed to county and city commissions because of it."

While praising the Human Relations Commission for its work on civil rights in general, BAYMEC notes absence of investigation of gay and lesbian issues (including AIDS) and believes that the commissioner's neglect of gay issues is not accidental.

"Although in 1975 the supervisors amended the original ordinance to allow the commission to address matters relating to prejudice and discrimination on the basis of sexual orientation," BAYMEC reports, they added the qualification that "the commission shall not investigate or initiate its own investigations of complaints from individuals or groups on the basis of the sexual orientation until such time as the Civil Rights Act of 1964 and state law are amended to prohibit discrimination on the basis of sexual orientation."

Nichols and BAYMEC have pledged to work together to change this exclusionary language.

"I feel that the Human Relations Commission is an organization that can help maintain and protect the civil rights of all citizens," said Nichols.

"I bring a unique perspective to the commission, and hope that gays and lesbians will be more willing to come before the commission now that I am there."

To thank Supervisor Diane McKenna for making this appointment, call 299-2323 or write to the Board of Supervisors, 70 West Hedding St., San Jose, CA 95110.

"Please help BAYMEC in its gay rights efforts, call 297-1024 or write to BAYMEC, P.O. Box 90070, San Jose, CA 95109."
AIDS opponents testing and exclusion of aliens

The American Civil Liberties Union and numerous medical experts voiced their opposition to a proposed regulation requiring all aliens to be tested for exposure to the AIDS virus.

The opposition of the ACLU and public health experts comes in the Department of Health and Human Services. A proposed rule to require aliens entering the United States to be tested for AIDS is the latest in a series of tests proposed to add infected with Human Immunodeficiency Virus (HIV), the apparent cause of AIDS, to the list of other contagious diseases for which aliens can be excluded from entry.

The comments point out that barring aliens who may not have the AIDS virus will have little effect in stemming the tide since AIDS is a U.S. problem. The U.S. has already had two cases of AIDS among travelers, one in November and one in December. The virus is known to AIDS in the world and is much more "successful" than an "importer" of AIDS.

The proposed regulation calls for testing of aliens who have lived and worked in the United States. Only 20 percent of the world's population has been tested, and that means that 28 percent of the population that may be present in the U.S. has not been exposed to the virus.

AIDS screening will have particular salience for its possible effects on US immigration since the AIDS epidemic in the U.S. has reached epidemic proportions.

**Goodbye Richie**

The air was warm and the wind was soft in the air as the sun set on August 17, 1987. A car pulled into the driveway, and inside was a small white envelope addressed to "Richie." As Richen Ma's husband opened the envelope, he was shocked to find a letter inside.

Dear Richen,

I'm here to say goodbye. I'm leaving for the last time. I know you were our family, and as a member of Mac's, you've worked at the Garden Restaurant and the Garfield Market. Everyone at Mac's was so happy to have you.

I'm leaving because it's time to move on. I've been working at Mac's for a long time, and it's time for me to start a new chapter in my life. I'm sorry if you're disappointed, but I've made this decision for personal reasons.

I'll always remember the good times we had. I'll miss your smile and your laugh. I'm sure you'll be missed by everyone at Mac's.

Sincerely,

Richie

**Post Office Statement on the Death of AIDS Patients’ Activist Devon Kelly Haber**

SACRAMENTO - Below is the statement by Senate President Pro Tem Darrell Steinberg regarding the recent death of Devon Kelly Haber, a prominent AIDS activist.

"Devon Kelly Haber was a tireless advocate for HIV/AIDS awareness and education. He was a forceful and engaging spokesperson for the rights of AIDS patients. He will be deeply missed by all those who knew him and cared for him."

**Gay Attorney Calls NOLGSTP “inaccurate and prejudicial”**

By Kirk Budy

Kirk Budy, a lawyer who represents the National Organization for Lesbian, Gay, and Bisexual Rights in Labor, has accused the group of making "inaccurate and prejudicial" statements about the Post Office.

Budy, who represents the organization in a number of legal cases, said that NOLGSTP's statements are "inaccurate and prejudicial" and that the organization is "acting in bad faith.

He said that NOLGSTP's statements are "inaccurate and prejudicial" and that the organization is "acting in bad faith.

"We will not accept the organization's claims that it is acting in good faith," Budy said.

"We will not accept the organization's claims that it is acting in good faith," Budy said.

Cops and Gays: A very small slice of NY

Review by Rick Rudy

The Performing Arts Alliance at Foothill College is mounting its first ever gay and lesbian oriented program. The show is called “Cops and Gays: A very small slice of NY”. It tells the true story of how the New York City Police Department became the largest gay police department in the United States. The play is based on interviews with officers and is written by Brooks Atkinson. The show is directed by Michael Kirsh. The cast includes Jim Caruso as Sergeant Joe Kirch, Nathan Vitalis as Officer Tom Nolan, and John Vasconcellos as Officer Tony Pena. The show runs from September 4th to 18th at the Foothill College Theatre, 1234 Main Street, Redwood City, CA 94062. For more information, please call 650-432-1234.
Can't Buy Me Love

Movie Review by Steve Warren

Steven Spielberg's latest film, Can't Buy Me Love, is a nostalgic offering, heavily influenced by the 1980s movie culture that it pays homage to. The plot revolves around a high school student who uses his聪明的头脑 to secure a relationship with a popular girl.

Spielberg has made a film that is both entertaining and visually appealing, with its bright colors and energetic soundtrack. However, it lacks the depth and complexity of his previous works. The characters are not particularly well-developed, and the story feels somewhat predictable.

Despite these shortcomings, Can't Buy Me Love is a fun watch for anyone looking for a light-hearted rom-com. The chemistry between the leads is strong, and the supporting cast is talented and enjoyable.

Overall, Can't Buy Me Love is a pleasant addition to Spielberg's filmography. It may not be as groundbreaking as some of his other works, but it is a solid, enjoyable film that will appeal to a wide audience.
Myths and Misconceptions:

by Rnth Thomas

QUESTION: "I didn't call the police and someone told me that I needed to fill out police paperwork. It's been more than a month since the accident, so doubt, ask your insurance company or they may add additional points to your record. Some companies will not even allow a second chance if you have had continuous coverage for a period of time. It's possible that you may have had an accident but you were not at fault, in which case the insurance carriers will not pay. Some people may have been injured or killed in the collision, so that's in favor of your insurance company may just increase your cost to them. The insurance company will not want to provide any coverage for the claim if you can prove that the accident was not your fault or that you were not at fault. The insurance company will not want to provide any coverage for the claim if you can prove that the accident was not your fault or that you were not at fault. If you can prove that the accident was not your fault or that you were not at fault, the insurance company may not be willing to take the blame for the accident. This is important to know, because if you do not have insurance, you may be responsible for paying for the damage caused by the accident. This is important to know, because if you do not have insurance, you may be responsible for paying for the damage caused by the accident.

In fact, California driver's license points usually mean less than a year old. You find yourself having to pay less than a preferred policy.

That one little ticket has now cost you hundreds of dollars, and you still don't have on the original one. You are now under suspension for six months, and you will lose your license for six months.

The company will not want to take the blame for the accident. This is important to know, because if you do not have insurance, you may be responsible for paying for the damage caused by the accident. This is important to know, because if you do not have insurance, you may be responsible for paying for the damage caused by the accident.
