Gay Prospects in U.S. House Remain Unchanged

Washington, D.C. — Even though the Congress is in recess, new gay rights proposals are not being ignored in the 97th Congress. Republicans and Democrats, both in the House and Senate, have introduced legislation which would grant gay men and women the right to serve in the military.

Representative Ted Weiss (D-N.Y.), one of the bill's chief sponsors, said in a press statement, "The two do not conflicts with our military policy. We would be to advance our legislation," Weiss said.

Meanwhile, Representative Ted Kennedy (D-Mass.) has introduced a bill that would allow gay men and women to serve in the military.

The bill, which was introduced in late October, has been referred to the House Armed Services Committee. It is expected to be considered by the committee in the next session, a number of members expect to join on the bill.

Endean also said he saw encouraging signs from the work of gay groups at the Clearinghouse and its work regarding violence. The meetings have been used repeatedly to address the issue of violence.

Endean said, "Many of our recommendations may well spill over and be acted upon by other political action committees operating at the local level. The Mayor's relationship with the gay community has been especially restrained, a situation that we would like to change."

Crumpley, who was one of the few gay people present at the meeting, said, "We don't like the way things are going, but we don't like what's happening any better than anyone else."

Everything You Always Wanted To Know... Discussing homosexuality with high school students

By Susan

Between the passing period and their lunch hour, a tall, dark-haired student, wearing a black sweater and holding a stack of papers, sought out several members of a science class. The atmosphere was serious. Each one of them had been invited to speak to a homophile group. The students were aware of the presence of the group, which often organized events on campus. They were also aware that the group had a controversial reputation on the college campus, and some had been suspicious about their intentions. The student, however, appeared to be sincere and earnest in his quest for information.

Hesitant at first, the students eventually opened up, sharing their own experiences and perspectives. They talked about the challenges and rewards of being gay, and the impact of societal attitudes on their lives. They discussed their hopes and dreams, and the obstacles they faced in pursuing them. The conversation was intense and heartfelt, and the students were moved by the candor and honesty of the student's questions and responses.

As the meeting concluded, the student thanked each of them for their time and for sharing their experiences. The students, in turn, expressed their appreciation for the opportunity to engage in such a meaningful dialogue. They left the meeting feeling empowered and connected, with a newfound sense of understanding and empathy.

As they walked away, they were acutely aware of the importance of such discussions, and the need for continued dialogue and education. They resolved to stay informed and involved, and to continue to support the work of the homophile group in their community.

The Chronicle staff writer on the potential for economic downturn.

Mr. Editor,

I am writing to express my concern about the potential for an economic downturn. I believe that the current economic conditions are fragile and that there is a risk of a recession in the near future.

The financial markets have been volatile over the past year, and there are significant concerns about the sustainability of the current economic growth. I believe that the government should be taking steps to address these issues and to ensure that the economy remains stable.

Swoon on Swanson

"What a world!"

Confessions of an ex-porn star. It would be easy to villainize or praise the former "Glamour Girl," but not so simple. She has written the book. It's hard to blame the author. Swanson is honest to a fault. Even the author's rationalizations are triumphantly honest. The book is devoid of the sentimentalized love story-the hero is a charmer and the heroine is a beauty. AIDS and the love of a child are stark realities, and Swanson takes them both in stride. She is a woman of unusual courage and conviction.

Swanson discusses the phenomenon of the world of porn. She shows why it's not necessarily bad. She is aware that it's a business. She has a thorough understanding of the business of the love life.

In the end, Swanson is left with a sense of regality. She has written the book. It's hard to blame the author. Swanson is honest to a fault.
