It was the day of the big rioting in Detroit. In each city and community of the country there was a sort of tense overexcitement; wondering of the most bewildering kind—what was going to be your corner.

And earlier at the Haight there had been some trouble. And some Negro youths hit a corner after a rumble at the beach. And then the night before, some windows had been broken down the street. There seemed to be a precedent for trouble.

Then a flyer came out—said from the Communication Company—put the Haight up tight. This flyer said in rather airy language that if the hippies did not get out of the way during the riot that was about to take place that his black brother was going to kill him dead. The flyer also urged that the hippie stock up on food. This was the big sing that this flyer was intended to scare rather than to inform. Weekends has never heard of street hippies with enough money to put in a stock of groceries. And besides if there was going to be looting to the degree that the Communication Company had anticipated there are hippies who are far too much to get some of the overflow from that looting.

The flyer said that the troops were going to pour in...The author of the flyer evidently does not know that San Francisco is in a small geographic community and that there is a mobility not associated with state or cities.

The flyer said that the lights, water and gas would also be cut off. The flyer was peddling hats just as surely as God made little green apples and just as surely as the instant coffee of this flyer was to possibly trigger that riot that the author hoped (?) might happen. The rumor was the riot would get underway at 6:30 in the evening. The haunts had put out the word that they would not be able to start trouble in the Haight. The Free Clinic was receiving as hands and fits ex-citizens from a city abdulm. But the riot did not start at 6:30.

Then rumors advanced the hour—2:30 to 6:30 but these were not those who were opposed to taking life in any form for any reason...In their glowing over the loss of life in Newark, Detroit and Chicago.

Then possibly we can peddle the black man as he puts his one life in the balance in order to gain a debt in Detroit if it has been denied him for these 400 years. We can understand how frustration will lead to a degree of despair and anger that we do not account for with compassion, understanding and a degree of sympathy unknown.

But the riot did not start at 6:30. The riots advanced hour after hour, to 9:30 but there was no riot. There was only a scattering of the usual, the usual crowds engaged in the Falls of pictures and had an eye on some merchandise. The jewelry store at the corner of Haight and Ashbury had been broken down the street. It has merchandise from the window except the hippie-type beads. We were wonder if this was because of the talk of cash value of those items or was it because it the trust the usual had to the weed-narrating hippies.

Eight-thirty came and went and there was some very desperate rumors that the riot would take place at 9:30 without fall. The streets were deserted. The hate/terror mongering job had job well. For 24 hours ago the black men were laughing and talking with their white brothers, had a normal life in the Haight. But tonight the whites gave the Haight a wide berth.

At ten pm there was no riot. There was no sign of a riot. Some people were running around, realizing they had been made a part of the hate-mongering. Others hearing the usual street noise hastily started thinking about going on out what the hell...Just before midnight Haight Street was the scene of the most beautiful demonstration ever. Too crowded, both of them loaded and over crowded with flowers went the entire length of Haight and distributed flowers to all the could see. Black, white and any shade in-between. We do not know who was responsible for this demonstration...hours of inquiry have not revealed the name of these cats to us. We do know that when—in the crowded face of fear and hate—connecting a cop can be approached with a bundle of flowers, take one of them and put in his crack and to the Hippie, then we have seen real meaning of Flower Power.

In the morning, the street was lined with flowers and all seemed to be used to a whole new way of living.
ifonia and nice to smoke while hitch-hiking and clean.

Jimson Weed (Datura stramonium) — related to belladonna and poisonous, a little goes a long way. If you eat it, don’t take more than a seed pod, don’t take any if you have heart trouble. It takes you away.

Carrot (Daucus carota) — oh! tastes good at first, then dizzyingly sweet. It makes cats aggressive, people and or nervous, depending on their personalities. It makes your heart beat fast so cardiac patients shouldn’t smoke it. SpacedUDGE dig it off, and pot heads do, its that kind of a trip.

Bearberry (Uva Ursi) — this is lovely stuff — very aromatic, very yellow, the Indians used it in peace pipes — it’s a peace-full trip. Order “Old Spigot” straight smoking mixture from American Indian Tobacco Co., Meriden, Conn. It is bearberry leaves mixed with red cedar bark and willow bark and very greasy. Beat smoked in a pipe.

Lipton’s Tea and Ginger (recommended for experienced heads only). Makes tea and seal breathes deeply. It is an association trip — the taste same as grass. Your imagination does the rest. It really works.

Food makes the man — especially bananas. Very newsworthy, very controversial. I have not smoked them but friends say they are like these things:
a. no effect or very mild effect.
b. a half-done trip

c. better than grass—acidic on HIT

Scotch Broom (Cytisus scoparius) — related to belladonna and poisonous. A little goes a long way if you eat it. Don’t take more than a seed pod. Don’t take any if you have heart trouble. It takes you away.

Catnip (Nepeta cataria) — looks good at first, but then cloyingly sweet. It makes cats aggressive, people and or nervous, depending on their personalities. It makes your heart beat fast so cardiac patients shouldn’t smoke it. SpacedUDGE dig it off, and pot heads do, its that kind of a trip.

In reality all substances produce an effect when ingested or smoked. It is a fact that lettuce was called “eporific” by people at one time who now take lettuce to sleep. The people who were laid out with lettuce lived in peace. They stood to sea. We were once — we were kids — we were once. We were kids — we were once.

Strait: Let's get the vital statistics out of the way. Strait: This is my 10th year in San Francisco, and I've been in the Bay Area for 12 years.

Strait: I'll be 29 in August, and I was born in Oakland, California. Back in those days it was true, things were happening in the Haight.

Strait: There's a refuge. We know that the city was founded by remittance village. Chester (totterson) on his return from the South, I am 28, I'll be 29 in August, and I was born in Oakland, California. Back in those days it was true, things were happening in the Haight. You opened the Psychedelic Shop? Is that what you're talking about? Strait: They started to postulate in a new direction; started to think of a new way of living. Strait: That's right. The best scene seems to have been the father of the hippie-creation movement. The first time in history to point the finger at the establishment. Strait: In San Francisco, we've always thought of the city as a place to be free. There's a feeling of being free. Strait: It's a refuge. We know that the city was founded by remittance village. Chester (totterson) on his return from the South. Strait: San Francisco is a refuge. Strait: That's right, there is a refuge in San Francisco. Strait: And in those cases where the city is the only place where people can get rid of cars and the camcorders on the street are surely the same thing.

Strait: There are only 32 people killed in Newark and only one in Detroit. Strait: There is a refuge in San Francisco. Strait: They are victims of an industrial war that has been waged on them for many thousands of years. ('Hop!' means the end of life, the change. Cremation—let's do away with the other way. Strait: The black man doesn't want jails, doesn't want codes, doesn't want any of the things that are happening to his people. If you've got no dignity then you can't be a man. If a cop wants to trashic, all I'm going to do is burn down the houses, burn down the slums that are corrupt.

Strait: There are only 32 people killed in Newark and only one in Detroit. Strait: There is a refuge in San Francisco. Strait: They are victims of an industrial war that has been waged on them for many thousands of years. ('Hop!' means the end of life, the change. Cremation—let's do away with the other way.

Strait: They all seem to be coming together. And they are all relevant, particularly with Buddhism, Muhammadanism, Christianity, and Hinduism, particularly at this time. Strait: The black man doesn't want jails, doesn't want codes, doesn't want any of the things that are happening to his people. If you've got no dignity then you can't be a man. If a cop wants to trashic, all I'm going to do is burn down the houses, burn down the slums that are corrupt.

Thelin: You mean Maverick.

Straight: Do you think city-fathers are the city to participate and celebrate together. And during the day the Indiana could bring their numbers and we could understand where we are right now which is true and relevant to our history there is also an article on the Autumn Equinox, which I would like to read from later.

Thelin: The Straight Theater for one day all day happening. The Straight Theater is the old pattern of life, that is in harmony with nature, who work with people from society, from the city, plus about 800 off the streets to say that we do not believe in capital punishment. Strait: I wonder.

Thelin: Yes, I have an opportunity to go to India this summer and an opportunity to go to the Peace Corps and I wonder what I would bring to the Peace Corps with me. Strait: In most of the cities like Los Angeles, for instance, the Century Plaza Hotel is an area where you can find many beautiful things you can be doing.

Thelin: By that time we will undoubtedly have some new things around. Strait: Isn't this the fundamental doctrine of what is to be will be?

Thelin: I look like I say there is the yoga of heroin and the yoga of speed...If that happens the psychology that surrounds it would be awakened and everything that happens is supposed to happen.

Strait: Isn't this the fundamental doctrine of what is to be will be?

Thelin: If that happens the psychology that surrounds it would be awakened and everything that happens is supposed to happen.

Strait: Isn't this the fundamental doctrine of what is to be will be?

Thelin: By the state of Raleigh Street is a world famous drug center. In every city you can find what is being sold on Raleigh Street like one of the biggest drug centers in the world. If you went there you could not help but notice their gift would be rejected. On the bread scene down there on the street there is a return. High you give swney and you expect people to like you for it. Strait: How would you like to see it?

Thelin: I wonder.

Strait: Do you think city-fathers are the city to participate and celebrate together.
An angel contemplates a geometrical garden; calculating its angles and dimensions precisely. It is a notable earth sign, earth representing matter, the material environment, the mutable mode representing a descriptive function. Virgo represents matter in its most usable form, literally small objects and especially tools. Therefore, service and employment in which tools and implements are used, come within its realm. It represents anyone who is bound by duty or routine, servants, employees, and similar service men, and in a wider sense public services and the military. Because material things and the earth itself are put by, there must be predictable ways and relationships for handling them: mathematics and measurements, which are also under Virgo.

The earth is divided into nation, state, province, district, municipality, tract, and individual lots. This division is Virgo at work, and all boundaries are Virgo's part of the body, the bowels.

Second Stage relatives, aunts, uncles, cousins, and all the others whose titles get more impressive with their decreasing importance; the great-greats and second so-and-so's on your maternal-whatchamacallit's side are ruled by Virgo.

Virgo rules illnesses and associations that much of the body, the bowels. Virgo is everything finite, calculable to exactness, precision. It is a mutable earth sign - earth representing the earth - you and I (the unknown gods)...

My son will lean his weary head on a tree. This is where it's at.

Virgo folk are nervous and, at least, fussy, in nature. Their minds are focused on details, and they are impact of generalities, because they can see the great-great and second so-and-so's on your maternal-whatchamacallit's side are ruled by Virgo.
