San Francisco, where it's easier to get a piece of ass — gay, straight, male or female — any hour of the day or night, than it is to find a certain standard electrical fixture for the home. With reference to remodeling, have you experienced the downtown discount building supply houses on Saturday morning between the order desk and the pick-up point? the greatest collection of butch builders and campy contractors anywhere to be found, all members of the Gay Society for the Preservation of San Francisco's Victorian Architectural Heritage. The S.I.R. Board appropriately declined to act upon a request of a fellow homeowner who is suffering from attacks by another minority group but, sooner or later, we're going to have to form a Gay Homeowners Association to act in concert upon unrealistic building codes and unresponsive city bureaucracy, as well as to serve as a clearing house for information about reputable goods and services.

... Speaking of domiciles, what is the opinion about a S.I.R.-sponsored convalescent facility and a retirement home on a non-profit basis? if you don't get the chance to enjoy retirement, prey to come back, gay or straight, as a war profiteer — they're probably the only ones who find it easy to pay their taxes. How inevitable are death and taxes, but the grim reaper, in the form of suicide, would be less probable if we had an enlightened Public Utilities Commission. Part of the suicides which reach their yearly peak this month and next will be due to isolated gays not being able to contact S.I.R. for assistance. Especially the rural homosexual reaches a point where his alternative is either communicating with other homosexuals or ending it all. By not allowing S.I.R. to publicize, PUC blocks this communication and the alternative becomes the only solution. Suicide Prevention will verify the significant percentage of calls in which homosexuality is a factor. Of course, PUC may want us dead, and Ma Bell might not care either. A young male reports that employment with the Pacific Telephone Company requires that you come from a nice family and, if single, that you have a girl friend and a firm wedding date in mind. Do we infer from this that you may pay but not be paid by Ma Bell, or is it that she doesn't care what you do as long as you're married? Also in the area of communications, how fortunate are we to have San Francisco's foremost smut-smitters, Feinstein, Benson and Nollitimer, protecting us from pornography in the movie media — the mind boggles with the psychological speculations motivating this three-way. The latest word on law and order — gays busted for sexual felony offenses are being charged additionally with burglary (and held without bail for VD checks) — is the basis for this that "rip-off" has both a sexual and larcenous connotation and the ancient Common Law has been adjusted accordingly or, perhaps, perverted purposely. The Christmas trial, in which the defendant was accused of intended homicide against the police while his car was backing up out of control — Christian was under the dashboard ducking bullets — ended with a hung jury (can an all female jury be hung?). This interesting forensic force cost the taxpayers, gay and straight, thousands of dollars and is likely to be repeated. How long is the City and County going to continue these costly, cruel circus? Perhaps we need a good gay candidate for the San Francisco Board of Supervisors.

SOCIETY FOR INDIVIDUAL RIGHTS
S.I.R. is now six years old and already the largest active homosexual organization in the United States. S.I.R. is dedicated to giving freedom to the homosexual male and female, freedom from guilt, harassment, and social injustice.

"Believing in our democratic heritage and that ethical values are self-determined and limited only by every person's right to decide his own, we organize for: the reaffirming of individual pride and dignity regardless of orientation; the elimination of the public stigma attached to human self-expression; the accomplishment of effective changes in unjust laws concerning private relationships among consenting adults; the giving of real and substantial aid to members in difficulties; the promoting of better physical, mental and emotional health; the creating of a sense of community; and the establishing of an attractive social atmosphere and constructive outlets for members and their friends."

— Preamble, S.I.R. Constitution

The Editor Comments

Editor Exposes Himself

The past eight issues have been under the direction of your new editor. He alone has been responsible for the choice of content, planning of graphic art, arrangement of photographs and the exhaustive effort of finding writers who can produce interesting articles with a minimum of words. The editor is not paid and if he were there would be no Vector because there is not enough advertising revenue to justify salaries. Only the Business Manager is paid.

Vector is not a newspaper. We must repeat this over and over. We are trying to be analytical and entertaining without being dull and unimportant. Fortunately, some wonderful people are willing to donate their talents as writers, photographers, and graphic artists. Why do they do it? Because they believe in this magazine and the organization that publishes it, The Society for Individual Rights. And if we seem to push the S.I.R. organization, keep in mind that on most issues the advertising and circulation sales income has not paid Vector’s publishing bills. S.I.R. has consistently paid the balance.

We want at least an eighty-page Vector with color photographs, a paid staff that does not have to work 40 hours a week and then work on the magazine and to be able to use nationally known writers. Fortunately, under the new Vector Chairman, Martin Stow, some firm steps will be taken to improve the business side of Vector.

WHAT ARE WE?

"Whatever you are, be a good one." Vector is not a cooking journal, an astrology forecaster or a fashion magazine. It is a magazine for and by homosexuals and dealing with the one thing our readers have in common...their homosexuality. Being a "good one" in our case means having the income to expand...and, believe me, when we do have that additional income we will expand.

Efforts have been made to buy Vector, to take it away from the S.I.R. organization and to put new financial backing behind it as a profit-making enterprise for the investors. This happened with The Advocate newspaper. Others would reduce the size of the magazine and publish it on cheaper paper so that it has more income. We are violently opposed to these efforts but we are also aware that almost every magazine in the U.S. is now operating at a loss. The answer, hopefully, is in improving the business management of this magazine.

TRAVEL WITH THE BEST!

Editor, Vector.

I have heard that your organization is a means by which the police get the names of individuals and identify them. They use this information to have people removed from their jobs if they are working for the government. Or if they don't remove them they manipulate things so that these people become completely isolated socially and emotionally, unable to function among other gays for fear of detection.

I believe that this is so but if it is not so, what sources are available for "safe" counseling for someone who believes it?

Name Withheld

All of the membership and subscription files at S.I.R. are locked and only one reliable person has the key to these files. At no time in the history of S.I.R. has any name or address been requested or given from our files to any law enforcement agency. Most of the satisfied requests come from homosexuals trying to find friends but NO ONE is given any information from our member files at any time! Some people join S.I.R. or subscribe to Vector using other names, which is O.K. with us.

Our office manager can assist you by advising you whether you are a member of S.I.R. If you are, the contact will be confidential. Thank you for your letter. Many share your problems. You are not alone.

Editor, Vector.

Regarding Ernico del Telm's letter (March Vector). I am perfectly aware of the fact that Maugham has been an extremely popular writer for many decades. So are Zane Grey and Mick Spillane. I never read their work in depth but once you get beneath the surface some...thing so that these people become completely isolated socially and emotionally, unable to function among other gays for fear of detection.

I am afraid that Mr. del Telm, like so many other people, has cast Maugham only a superficial reading. On that level, M. is indeed a...ction among other gays for fear of detection.

Drew, Vector.

Dear Mr. Mendenhall,

An advertisement appeared in the Feb-

uary Vector from Rogue Studios advertising a book, How to Enlarge Your Peni... Vector, you take Compass? We hope that our readers use some general horse sense when reading anything...

Name Withheld

Our ad refers only to a magazine. We can not possibly check all of the claims made inside of the many magazines advertised in Vector.

It is understandable that some claims are ex-

aggerated. Do you "marry the perfect mate" because you use Erox? Are your "worries generally less" when you take Compass? We hope that our readers use some general horse sense when reading anything...

We believe the adage: "It is not what you do... . It is what you can do with it."

Editor, Vector.

Martin Stowe suggests that clergymen would make better vice officers because they would be better able to distinguish between church and state. Theology is much more en-

tranced by than stretching.

Clergymen are drawn to vice law enforce-

ment like ducks to water. Many years ago, fun-

damentalist clergymen began infiltrating vice

squads. Most vice squads have long since fallen into the tight clutches of the predators with guns.

In Los Angeles, for example, the vice

Two of San Francisco's greatest dancers... Vector cover-man Eddie Van and Tullah!

The mind-blower at work — this time on the honorable editor, George Mendelsohn!

the real Tullah
Vector Frolics With A Lovable Rebel

"The most uninhibited woman to come out of Hungary since Zsa Zsa Gabor," is the way Time magazine recently described the exciting personality, Tullah Hanley. Tullah, as she prefers to be addressed by acquaintances, recently slowed down between a Tullah Manley. Tullah herself, were taken on a Sunday while Tullah danced and danced.

Tullah came to America at 14 and in 1945 was performing at a Buffalo night-club when she met Edward Hanley, who had accumulated a modest fortune out of the family brick and natural gas business. The intrigued Edward fell in love with the 24-year-old dancer... "I was his Madonna. I wanted a spiritual man because, since 13, I was pursued by physically minded men." Tullah learned to love art and their marriage was most successful. Mr. Hanley died in 1969. Tullah continues an active and busy life; at 47 she has the trim body of a young girl.

DeYoung Museum in San Francisco was gifted by Tullah in 1970 of one of the most extensive art treasures ever assembled. DeYoung trustees have also been somewhat overwhelmed by their benefactress' antics as Tullah likes to wear a minimum of clothes and needs little encouragement to do an interpretive dance.

She is truly a woman who accepts others openly. Tullah is a warm, sensitive woman who has a sense of humor about herself and a never-ending consideration for others.

Tullah is also a frequent item in the society pages and is frequently mentioned in the columns of San Francisco's Herb Caen and New York's Cholly Knickerbocher. What many people who have read of her clowning do not know is that she has a sharp mind and that she can express some strong opinions about almost everything... including homosexuality.

Next month, Vector allows one of its readers, Tullah herself, space to discuss homosexuality... how she relates to homosexuals and how she thinks they should relate to the "straight" world. Next month: "The Gay Liberation Front!"

Vector wishes to thank Tullah Hanley for her generous cooperation with this magazine. We hope that our readers enjoy sharing some of the fun and intellect of this most exciting woman.

Dinner at Omar Khayyam's

The mouthes fell open on the dinner guests in San Francisco's Omar Khayyam's restaurant. Tullah had arrived in a skimpy dress with eight guests. Included in the party were two young Chinese-women from an Oakland art institute. Vector Cover Men Phillip and Eddie Van plus the Vector editor. Not all of the free-wheeling exchange could be captured, but here are some of Tullah's observations garnished from a delightful dinner conversation.

Editor: Tullah, short dresses and no-ha seem to be popular in fashion now. Do you think it is right to show so much skin?
Tullah: My idea is, if you have nothing to hide, show it. If you have nothing to show, hide it!
Editor: You have the figure of a young girl. How do you stay so trim?
Tullah: I keep my figure by dancing and exercising daily and by curbing my appetite, because kissing and love are more important than eating... unless you eat the right kind of meat, which is another matter.
Editor: You are a happy woman who travels about the world. Is there someone else somewhere who is your real love?
Tullah: I don't believe in loving only one, or one of a kind; you have the full joy of living if you keep yourself open for enjoying beauty in any form, kind, shape or size. I regard myself as the Ambassador of Joy, Friendship, Love and Culture... even French Culture.
Editor: You are a very sexy woman. What is the key to being sexy?
Tullah: Your greatest sex appeal is if you are a good dancer and toss about a mean, trim hip. Thank Heaven, brave men, for your hip-hugging tight pants where all of your delicacies are on exhibit.
Editor: I am overweight. Does that bother you?
Tullah: Well, you should not indulge your appetite. Lose five pounds... five times.
Editor: Time magazine said last year that you were working on a new book, but it isn't out yet. Why?
Tullah: Yes, I am writing a book called "The Love of Art and the Art of Love," but my research keeps me so busy I don't have time to write.
Editor: It is said that many homosexuals are "size" conscious; that they keep looking for a giant one. What has been your experience with size?
Tullah: Baby, it's not the size that counts; don't be so damn proud of your big wicks... only the feeling and passion matters. You can be the greatest lover with a three incher, if you put your heart in with it. My most beautiful lovers were small. You get the joy without a pain in the assets, if it is not oversized.

Editor: Is there anything further you wish to say?
Tullah: For now, I wish only to send my love to all the Vector readers. Next month, I shall have more to say when I write an article for Vector about The Gay Liberation Front.

Editor: Is there anything further you wish to say?
Dr. John Gigl's long-awaited doctoral study of the S.I.R. membership and Vector readers has been published. We present here the summary of the study, The Overt Male Homosexual: A Primary Description of a Self-Selected Population. Regular Vector readers will remember the questionnaire that appeared in the September, 1968 magazine. As an extra, Close to 1,000 of you responded.

Gigl received his college degrees locally and his doctorate was obtained from the University of Oregon, where he has taught in the public schools. More recently he has served as a Psychologist at St. Mary's Hospital and as principal of a local intermediate school in San Francisco.

In order to discuss the data it would seem necessary to make some comments about the sample. The respondents were either members of The Society for Individual Rights (S.I.R.), or other readers of S.I.R.'s publication, Vector. From an inspection of the nomothetic data, there were no striking characteristics of the sample that would make them obviously identifiable from other male members of society.

Over three-fifths of the respondents stated that they came from intact families. Of the 38.11 percent who came from families with a natural parent absent, 11.95 percent claimed divorce as the cause. Remarriage was not a significant factor since only 10.94 percent of the mothers and 3.49 percent of the fathers remarried.

MOTHERS FAVOURED

The choice of a favored parent becomes significant in view of the high percentage of intact families. The mothers were favored by 68.09 percent versus 12.70 percent of the respondents who favored their fathers. A careful analysis of the parental characteristics reveal that the two most frequent descriptive characteristics for the mother were positive and the two most frequent descriptive characteristics for the father were negative.

The total percentage figures reveal 50.30 percent positive versus 36.42 percent negative characteristics for the mother. In contrast the father was described in positive terms by 26.73 percent against 41.46 percent negative descriptive responses. What should be noted is the higher percentage of the respondents who failed to characterize their fathers versus 2.02 percent failed to respond when describing their mothers.

The literature on homosexuality, which is the psychology of legal or religious, is overwhelmingly concerned with pathology. In this study 276 or 31.12 percent of the respondents claimed that their homosexuality never made them feel guilty. The data regarding favored parent is coupled with the respondents' description of both mother and father. We come close to Bieber's (1965) description of the classical homosexual family pattern. Bieber stated that the family triangle involves a mother who is close-binding intimate with the son and a hostile-detached father. Although the writer is not in complete agreement with Bieber's terminology, the evidence remains clear that the mother was the favored parent.

Regarding the subjects' familial religious background, it is noted that the respondents reported a "No response" of 3.50 percent for mothers and 7.90 percent for their fathers. In contrast, the one-half (48.24 percent) of the respondents indicated "No response" regarding their own religious affiliation.

NON-RELIGIOUS?

There have been sporadic attempts to welcome the homosexual into the church community. The Council on Religion and the Homosexual in San Francisco, California has made continued efforts to inform clergymen of all faiths regarding the spiritual needs of the homosexual (Kuhn, 1964). The religious writings, teaching, preaching, and thinking men as long as there has been a religious system. Central to it is the explanation of why they are homosexuals, involving the question of choice. The majority believes that they were born as homosexuals or that familial factors operating very early in their lives determined the outcome.

It would also seem that if they (the respondents) are educated readers, especially homosexual literates, they will have discovered a preponderance of literature dealing with environmental causative factors and no conclusive evidence of genetic causative factors.

VOCATION

Vocational interests of the homosexuals have never seemed to be of great concern to researchers on homosexuality. It may be true as pure speculation that certain occupational interests may attract the homosexual, such as hairdressing and store-window decorating. This study does not confirm this speculation.

The Special Hollingshead Occupa
tional Inventory was used to determine the occupational breakdowns for the respondents of this study. Because of the high incidence of educational attainment, it is not surprising that the upper half of the Occupational Scale covers 75 percent.

[Editor's Note: This scale showed that 16 percent of the respondents were clerical and sales workers, technicians, owners of small businesses, business managers and other professionals. Approximately 12 percent were executive.

CRYSTAL GAZING AND OSCAR PICKING TIME IN TINSELTOWN DEPT. I shall again make bold my predictions on this year’s Oscar winners – an annual Magda tradition with this column now in its third big year. This year the Academy has outdone itself as far as a weird assortment of nominees go – I mean really. “Airport”?! Oh well, onward to my Big Crystal (no relation to the Empress of the same name) Ball in the Sky as I pull all my ESPower together to come out with the following: BEST PICTURE: A reel mind boggler, but I think the golden goose will go to – "PATTON." BEST ACTOR: I’ll make a bold one – MELVYN DOUGLAS. BEST ACTRESS: If her husband gives it a little nudge with the help of his studio, it could well be, outrageously enough – ALI McGRAW. BEST SUPPORTING ACTOR: With all the headlines on Indian problems, who else but – CHIEF DAN GEORGE. BEST SUPPORTING ACTRESS: The only category that made any sense at all in the nominations, my personal pick and favorite – SALLY KELLERMAN. Well, I must now depart from the hubbub and brashness of this outrageous metropolis and thus give a biopic to this column for awhile. Hopefully when I return from my New York venture with reports of all the new shows. "No No Nanette" and "Bolles" etc. etc., maybe God and your editor will grant me a little space again in this glorious gay mag. Till that time, thank you faithful readers for your many cards and letters . . . byee-ee- and keep it together till we meet again . . . Luv, Magda.

Magda’s writing style will be missed by us all as she is discontinuing this campy column. Her movie and play reviews, however, will continue on a regular basis . . . the editor.

OUTSTANDING FEATURES OF THE WEEK:

IN MY JUDGMENT, HOMOSEXUALITY IS NEITHER A BODILY DISEASE, NOR A MENTAL ILLNESS, NOR A SYMPTOM OR MANIFESTATION OF "PSYCHOPATHIC PERSONALITY." Dr. Thomas S. Szasz

"THE AVAILABLE DATA INDICATE ANY HOMOSEXUALITY WOULD BE NO MORE LIKELY TO BE PSYCHOPATHIC THAN ANY RANDOMLY SELECTED HETEROSEXUAL." Dr. Peter M. Bentler

"JUST AS HETEROSEXUALITY CANNOT BE AUTOMATICALLY EQUATED WITH HEALTHY PERSONALITIES, SO IT IS IMPOSSIBLE TO EQUATE HOMOSEXUALITY WITH PSYCHOPATHIC PERSONALITY." Dr. Lester Kirkendall

CRISTAL GAZING AND OSCAR PICKING TIME IN TINSELTOWN DEPT. I shall again make bold my predictions on this year’s Oscar winners – an annual Magda tradition with this column now in its third big year. This year the Academy has outdone itself as far as a weird assortment of nominees go – I mean really. “Airport”?! Oh well, onward to my Big Crystal (no relation to the Empress of the same name) Ball in the Sky as I pull all my ESPower together to come out with the following: BEST PICTURE: A reel mind boggler, but I think the golden goose will go to – "PATTON." BEST ACTOR: I’ll make a bold one – MELVYN DOUGLAS. BEST ACTRESS: If her husband gives it a little nudge with the help of his studio, it could well be, outrageously enough – ALI McGRAW. BEST SUPPORTING ACTOR: With all the headlines on Indian problems, who else but – CHIEF DAN GEORGE. BEST SUPPORTING ACTRESS: The only category that made any sense at all in the nominations, my personal pick and favorite – SALLY KELLERMAN. Well, I must now depart from the hubbub and brashness of this outrageous metropolis and thus give a biopic to this column for awhile. Hopefully when I return from my New York venture with reports of all the new shows. "No No Nanette" and "Bolles" etc. etc., maybe God and your editor will grant me a little space again in this glorious gay mag. Till that time, thank you faithful readers for your many cards and letters . . . byee-ee- and keep it together till we meet again . . . Luv, Magda.

Magda’s writing style will be missed by us all as she is discontinuing this campy column. Her movie and play reviews, however, will continue on a regular basis . . . the editor.

OUTSTANDING FEATURES OF THE WEEK:

IN MY JUDGMENT, HOMOSEXUALITY IS NEITHER A BODILY DISEASE, NOR A MENTAL ILLNESS, NOR A SYMPTOM OR MANIFESTATION OF "PSYCHOPATHIC PERSONALITY." Dr. Thomas S. Szasz

"THE AVAILABLE DATA INDICATE ANY HOMOSEXUALITY WOULD BE NO MORE LIKELY TO BE PSYCHOPATHIC THAN ANY RANDOMLY SELECTED HETEROSEXUAL." Dr. Peter M. Bentler

"JUST AS HETEROSEXUALITY CANNOT BE AUTOMATICALLY EQUATED WITH HEALTHY PERSONALITIES, SO IT IS IMPOSSIBLE TO EQUATE HOMOSEXUALITY WITH PSYCHOPATHIC PERSONALITY." Dr. Lester Kirkendall
Mental Health

The professionals have been picked for their competency in understanding the problem of which the Public Health Department's Center for Special Problems is an excellent example. The Center is a large outpatient clinic dealing in what has been termed classically "character disorders"; especially problems relating to sexual orientation, drug addiction and anti-social behavior. Its staff resources are competent and diversified; the problem lies in the maintenance of good mental health.

One of the most important factors in the maintenance of good mental health is the availability of the alternative. The aspect of life which I viewed as most negative during my recent visit in Russia was the absence of an alternative choice in practically everything which we take for granted in the United States. In the area of love life, we have public, as well as private, facilities. We have a new phenomenon, people's facilities. These are characterized by their volunteer nature and their attempts to humanize the public patient beware.

One of the most important factors in the maintenance of good mental health is the availability of the alternative.
Words and Stories Harmful to Society?

Analysis By Don Collins

"In the countries in which the doc­
trine of the sovereignty of the people ostensibly prevails, the cen­
sorship of the press is not only dangerous, but it is abused. When the right of every citizen to cooper­
ate in the government of society is acknowledged, every citizen must be presumed to possess the power of discriminating between the dif­
derent opinions of his contemporaries, and of appreciating the different facts from which inferences may be drawn."

Alexis de Tocqueville

My introduction to pornography came when I was seven. My brother was fourteen. He and a group of his contemporaries had obtained a carbon of a scandalous magazine called "Dude," which they were reading in the bathroom. I was too young to understand the material, but I do remember one passage.

"Temporarily had obtained a carbon of a magazine called "Dude," which they were reading in the bathroom. I was too young to understand the material, but I do remember one passage."

But the times have changed. The laws have changed. There are still approximately the same percent­
age of young people viewing pornography, but it is the pornography and availability of it that has changed.

In the last few years the "Adult Bookstore" has become part of the Amer­
can scene. In our modern-day heavens of erotica, the typewritten manuscript has been re­
placed by slick paperback books; many of which are accompanied by lurid photographs. The typical "picture books" of yesterday are no more than re-photographs of full-color picture books that show all.

But the commission's report makes it clear that minors are hardly big buyers of pornography. "Young people aren't interested in buying erotica;" the report says, "they are interested in other books that show all.

The report states: "Young people aren't interested in buying erotica; they are interested in other books that show all."
Dear Ann Landers,

I want to marry and have a family.
But when I see a pretty boy -

Dear Ann Landers: I can't sign my name and I can't get any mail at home because if someone should open your letter I would die of shame. I am 18 and a homosexual. Some gay boys love the life and don't want to change. I am not one of them. I want to marry and have a family. But when I see a pretty boy I become so depressed that I can't eat, sleep or think of anything.

Where can I go for help? After one of my letters I would die of shame. I am not one of them. I want to marry and have a family. But when I see a pretty boy I become so depressed that I can't eat, sleep or think of anything.

Dear Woody: You need therapy at once. If your parents can send you to a private doctor, I recommend it. They need to know the nature of your problem. Many teens seek psychiatric help for "severe moodiness." If you can't afford private treatment, get counseling through a mental health clinic. Look in the telephone book.

The importance of the replies in love/heart columns like Ann Landers cannot be overestimated. Literally millions of people read columns daily.

Vector was in disagreement with a reply appearing in Miss Landers' syndicated column. We enclose a copy of a letter to "Woody." We invited our readers to give a better reply and a reply box has been overflowing ever since. A small cash award has been given to the writer who has written the best reply in our opinion.

Ann Landers gives wholesome, helpful advice. In my experience, a homosexual cannot be totally "cured" of his desires. A straight marriage, unless she is totally understanding, would be out for you. You would find a way to cheat, hurting both yourself and your deep desire.

Dear Woody: You need counseling at once. If your parents can send you to a private doctor, I recommend it. They need to know the nature of your problem. Many teens seek psychiatric help for "severe moodiness." If you can't afford private treatment, get counseling through a mental health clinic. Look in the telephone book.

We invited our readers to give a better reply and a reply box has been overflowing ever since. A small cash award has been given to the writer who has written the best reply in our opinion.

Dear Woody: The crisis you describe is almost universal among homosexuals: a heterosexual orientation in conflict with a deeply-rooted need for homosexual activity.

I find it ironic and amusing how a homosexual can disguise himself for being "that way," can even despise his parents for "making him that way," can attend weekly sessions with his psychiatrist, pour forth all his bitterness and self-hatred, and then turn right around and refute everything by the sheer excitement and enjoyment he receives from a sexual contact with another male. Which leads to the following question, Woody, that you must sooner or later answer for yourself: "Is it really my 'deviation' that disturbs me, or is it only society's attitude toward it?"

If you can find a way to resolve these two conflicting points, the pattern of your life should emerge quite rapidly and take shape. If it is marriage and a family, so what? ... After all, it is your life and a family, so what? ... And don't ask what's all about?

Dear Woody: You do need help but I believe that you are writing to the wrong columnist. You should have written to Ann's sister, Abigail Van Buren. I believe she understands sexuality better. Here is a reply she wrote recently:

April 21, 1971

Dear Woody: The desire to be a minister requires professional help.

Don't go to a psychiatrist until you talk to the counselor. Many psychiatrists are moralists and are unable to give good advice to homosexuals. The counselor can also refer you to a minister who can help you resolve the religious questions.

Don Jackson

Homosexuals are notoriously easy dupes for anything promising youth or vitality. Muscle-building devices, ‘‘health foods,’’ aphrodisiacs, all find a ready market in the cultible gay community. One of the most flagrantly offensive campaigns currently in vogue combines vitamin and mineral supplements. Of these, Vitamin E has been advertised as the surest way to achieve super organims and perpetual youth! Just what is known about this vitamin that has created such a stir? In 1922 a group of rats were fed a diet containing all known nutrients prepared, artificially. The female rats were unable to produce live offspring and the male rats developed sterility. First synthesized in 1938, alpha tocopherol (the chemical name for vitamin E) which derives from the Greek roots ‘‘toco’’ (childbirth) and ‘‘phero’’ = to bear was easily proves the missing ingredient. Added to the diet of those love-lorn rats they maintained their fine petes and had lots of baby rats. Other studies showed that vitamin E deficiency resulted in muscular dystrophy (atrophy of the muscles) in chickens, dogs, guinea pigs, and monkeys. Some animals developed degenerative diseases of the heart and brain. Monkeys and men developed anemia.

Subsequently, very extensive studies in depriving man of the vitamin for prolonged periods were able to show NO EFFECT WHATSOEVER with the exception of a very mild anemia. Despite these studies on man, vitamin E was given in high doses in attempts to treat habitual abortion (women who have repeated miscarriages), muscular dystrophy, cardiac disease, vascular disease, menopause, sterility, and impotence! All without any positive demonstrable effect. A low blood level of vitamin E has been found in certain diseases which affect the absorption of fat in man. In 1964, vitamin E was given in your diet. In 1964, vitamin E was given the blessing of the ‘‘Food and Nutrition Board of the National Academy of Sciences and National Research Council.’’ Thus it has taken its place as the thirteen essential vitamin and now appears in all ‘‘complete’’ vitamin preparations.

The tocopherols (there are many varieties of which the alpha and beta varieties are the most important) are found in just about everything that is edible! That is probably why it is so difficult to find anyone short of starvation deficient in it. The best sources in nature are cereal products, eggs, butter, liver, vegetables, and vegetable oils. Among ‘‘health food’’ addicts wheat germ is an absolute essential to the diet. Wheat germ oil happens to be the very best natural source of alpha tocopherol. In fact, vitamin E was first isolated from wheat germ oil. Wheat germ also happens to be a rich source of the basic amino acids which have no relation to vitamin E, but are a major component of sperm. Many people who have used wheat germ discover that they have a hell of a lot of cum. Whether this is really so has never been scientifically investigated, but a lot of ‘‘joy juice’’ does not make you more virile, potent, or sexy.

Medicine now recognizes that vitamin E is essential to good health. It is agreed that a deficiency exists in certain serious disease states and under abnormal conditions of poor nutrition. There is no evidence whatever that it makes you more potent or prevents aging! The parallel in the myriad of other ‘‘health food’’ advertisements should be obvious. They aren’t all wrong, but they are almost always exaggerated. Soybean is a good, but incomplete, source of protein. Brown bread is not more nutritious than the ‘‘enriched’’ white breads. Unpolished (brown) rice is an important source of protein and Vitamin B in Asia but it is a negligible source of these things here. Beware of food fads! Physicians practicing in America find cases of severe deficiency diseases among food faddists! Thousands of years of evolution have taught us that a mixed diet consisting of meat, fish, poultry, milk, eggs, fruit, and vegetables is both essential and adequate for our health and well-being. Don’t be fooled by unfounded reports and half-truths.

The ancient Greeks, who knew a lot about the gay life and good physiques, practiced ‘‘everything in moderation, nothing in excess.’’ I heartily agree.

Bon appetit!

By Lawrence Spears

Charges of police brutality and reviving a witness were leveled against Charles Christman, which ended in a hung jury shortly before midnight March 5. Christman is charged with five counts of assault on five separate police officers with a deadly weapon (his automobile). The young man allegedly tried to run down the five officers with his automobile during a fracas between police and patrons of the Stud, a gay bar in San Francisco at 1535 Folsom. The incident happened at closing time on December 12, 1970 (January Vector).

Christman, a quiet, intelligent lad with a Quaker background, evidently panicked and tried to get away from the police in his auto. He was shot down by police after he ran from his bullet-riddled automobile on foot. He is still on crutches.

The Gay Community here have paid close attention to this incident that could have resulted in the death of one of its members over what was obviously a minor incident. Although Christman possibly over-reacted to the situation at the time, the damage to the people present . . . and they had the guns. Since the local press covered the shooting there has been a fund-raising effort, led by Berkeley's Art Platt and the Cocktails entertainers. Christman has received $360 from this fund. This has paid a small amount of his medical and legal expenses. He is an ecology student at San Francisco State.

The Stud bar "broke," as usual, at the 2 a.m. closing time on December 12. Some milled about outside, others moved toward their cars. It was not a riotous crowd, as officers later contended. A patrol car moved by with Officers William Murphy and Gary Fox on a routine cruise in the area. Murphy said a car passed at them and called them "fucking pigs." The officers then ordered the crowd of 100-150 men to disperse more quickly. They then felt it necessary to call for assistance.

Four other policemen arrived a few minutes later in two autos. They got out and the six of them moved into the crowd, moving it along. Officer Fox testified that as he walked toward The Stud he heard an engine. He claimed that he had to jump over the crowd to move toward him, missing "him by three or four inches." Inside the small Toyota was a very nervous and scared Charles Christman. Officers testified that he stepped his car suddenly after being ordered to stop and then took off again down Folsom Street. His car was then rammed by a police car. A confused Christman then backed the car, bumping an Officer Baldocchi who fell to the ground (receiving a minor aggravation of a previous knee injury).

Christman, Fox said, then bolted from his car and ran down an alley next to The Stud, chased by Officers William Taylor, Fox shouted to Christman, he says, "Halt!" Fox then shot at the stricken young man after Taylor fired a warning shot. Christman was shot in the ankle at this point.

Defense Attorney Eavender Smith, former Legal Chairman of The Society for Individual Rights and an attorney for the Tavern Guild of San Francisco, defended Christman. The seven who Smith called as witnesses agreed that there was no order to disperse until the officers got out of their cars, that some officers had beaten people with clubs and that the crowd was not blocking Folsom. Officers testified that the quiet, isolated Folsom Street was being "blocked" by bar patrons, necessitating a was rammed. The other officers denied this at the trial.

CHARSTMAN TALKS

Who swore at who seemed to be a minor issue but possibly a major one to the jury. While an officer claimed he was called some of those on the street, another witness testified that he heard an officer say of Christman, "This is a queer." The wounded Christman testified that he was trying to leave the scene, in compliance with the police order to disperse. He said he heard an officer use the word queer and that people were beaten. He said he heard the first shot as he was in the auto on Folsom Street. His rear door window shattered and a rear tire went flat. "I was aware that I was being shot at. I got down in the seat of my car. I ducked down, my legs were up in the air." Frightened, he testified that the "car was sure of out of control. That was it. I was shot while in the car. I felt bullets in the arm and back. I got out of the car and ran down the alley." Charles Christman ran, he claimed, with shouts of "Kill the cockucking queer" and "Kill the motherfucker" ringing in his ears. He felt to the ground, after being shot in the back. He remembered an ambulance arriving after hearing officers say, "They were going to kill me." Dramatically speaking in a quiet voice, he told the two officers "hit and kicked me in my scrotum area." Later he was worked on by physicians at San Francisco General Hospital.

It was determined that Christman had been hit in the elbow and back by bullets, in addition to the leg wound. For several weeks he stayed in the hospital and then spent a great deal of time in a wheel chair. Today he moves about on crutches and the condition of his leg is in doubt. It remains in a large cast.

OAK: AN ISSUE

Homosexuality did not become an issue in the trial once it was underway but at the beginning, the Assistant District Attorney John Dwyer brought the subject to the jury's attention. He then it clear that The Stud was a gay bar, capitalizing on a possible negative reaction to the witness whose testimony that were to follow. Evidently, he was correct because the D.A. announced a 10:2 verdict for conviction. The D.A. announced that he would retry the case; conviction rests on a unanimous decision.

Attorney Smith defended Christman in a manner that revealed all of the essential facts. At one point he risked contempt for bringing up the fact that Officer Pena was not present when his original testimony conflicted with the other officers.

Vector is not a newspaper but it is essential that the facts of this case be kept in mind. One questioning officer has already stated privately that the whole thing was blown out of proportion and that Christman should never have been brought to trial. Many leaders in the homosexual community attended the trial. They generally agreed that even the quips and taunts directed at them and clubs, they were embarrassed as they had to testify that the police were there and clubs, they were embarrassed as they had to testify that the police were there.

INCREASE GENITAL SIZE

WITH THE OSIRIS SIZOMETER

DO YOU WANT TO INCREASE THE SIZE OF YOUR PENIS? DO YOU HAVE TROUBLE GETTING YOUR PENIS ERECT? DO YOU ENJOY MASTURBATION?

IT IS NOT A METHOD, BUT A SAFE VACUUM DEVICE THAT PRODUCES AN ERECTION, INCREASES THE SIZE OF THE PENIS AND MAY BE USED FOR MASTURBATION.

SAFE AND GUARANTEED. ONLY $24.95 PLUS 5% TAX. IF 21, SEND $25 (REFUNDABLE WITH PURCHASE)

FOR OUR NEW FULLY ILLUSTRATED BROCHURE WITH BEFORE AND AFTER PHOTOS TO: OSIRIS, P.O. BOX 26538, DEPT. V, SAN FRANCISCO, CALIF. 94126.

Country music star Merle Haggard appeared before San Quentin convicts and as a former inmate himself had this to say: "My wife says she is nervous because she is the only girl here around 3:00 a.m. 'I told her, you just THINK you're the only girl here.'" The convicts sent up a whoop at this.

A San Francisco Chronicle article that "exposed" homosexuality in prison had headlines that indicated that the prison homosexuals caused trouble in prison. Anyone reading the front page article could see what the truth was: that homosexuals were the ones being attacked. A further stereotype was exploited when two cells were pictured . . . the nearer of the two was the homosexual's cell. (Vector has a feature on homosexuals in Prison in preparation.)

The free V-D clinic in San Francisco is at 250 Fourth Street, telephone 558-3804 (open until 9 p.m., Mon. & Thurs.).

Nude massage and encounter groups now underway are helping to liberate people who are uptight about their bodies. For information, call the Sexual Freedom League, 664-6008.

Vector has been asked to publish information about a proposed "gay resort" in the Catskills. To protect our readers we will do so only when the venture is a sound financial reality. Thousands of dollars have been lost in similar ventures in California and Nevada by "charter members."

ADZ GAYZETTE, a local gay advertiser, dismissed Leo Laurence as its Business Manager after he presented copy that they considered too controversial and "too promotional." This giveaway newspaper has dropped its plans to go national and has a dance on March 27 at California Hall. Their Barn-like male-only ads are most entertaining.

The gentleman who was shot outside the Stud does need some assistance. You may help: Christian, c/o Evander Williams, 1255 Post St., San Francisco.

There is no truth what-so-ever in the wild story going around about a castration in a steam bath. This old story is revived every few years. Last time it was "a black boy in Golden Gate Park." Back in 1968. The police say neither incidents ever took place.

A new local theater group, Independent Theatre, has been formed and just completed a successful run of "Boys In The Band." Producer John Bush has organized the group whose "Band" interpretation received local critical acclaim. After each performance the cast joins the audience to informally discuss the performance. A musical is now being considered for the next event.

"Should Men Kiss Men?" asked Chronicle columnist Charles McCabe. The Putnam ethic in the U.S.A., he said, is against such a practice except in the uninhibited jazz world where "you'll find Duke Ellington bussing Dizzy Gillespie." Commented local character Enrico Banducci: "You show me a man who won't kiss his papa and I'll show you a lousy lover."

The Nob Hill "male movie" theater played host to S.I.R.-members-only to a special midnight show and filled it to capacity.

Betty Kalpoltzov and Charles Thorp will "rap" with anyone calling them and they offer a variety of services. Gay Rap: 931-3939.

Vector cover-men photos line the walls of The Vector Room at a San Francisco bar, Bradley's Corner at 900 Cole. They will be having a Cover Man autograph party in May.

Karen Wells continues to edit the new, interesting "Sisters," monthly publication of the Daughters of Bilitis: 1005 Market St., Rm. 208, 864-8689.

Memberships in The Society for Individual Rights, publishers of Vector magazine, has climbed 37% in the last six months. S.I.R. organization will vote on April 7 on a proposal that would raise annual dues from $10 to $15 and Life Memberships from $100 to $150. It takes $3,000 a month just to maintain the sanctuary's large downtown community center (salaries, rent, four phone lines, publications, correspondence, legal fees, etc.). The total income to S.I.R. last year was close to $70,000 and it was spent on activities that benefited thousands of homosexuals. S.I.R. publishes Vector and is located at 83 Sixth Street, San Francisco.

Troy Perry
(Continued from Page 28)

San Francisco, was introduced along with the many dignitaries present. Congratulations messages came from everyone, including Governor Ronald Reagan ... who evidently didn't know much about MCC. The most pleasing visitor was Dr. Evelyn Hooker, University of Adler professor and former chairman of the federal Commission for the Study of Homosexuality.

The new two-story structure with more functional space in the basement is not fully renovated, but its facilities make it one of the most adequate church plants in Los Angeles. The main entrance, under a tall bell tower, opens into a tastefully decorated foyer and reception parlor. The sanctuary is a unit in itself, and the back wall has sliding doors that can be moved, expanding the sanctuary's seating capacity to a second auditorium.

The 24-hour "Crime Intervention Committee" activities take place on the second level where many services to gay/jewish community are provided by phone and to in-person callers.

Local television cameramen and newspaper reporters were present to witness a major step in the continued growth of the Metropolitan Community Churches which now have congregations and missions throughout the United States.

FEINSTEIN RESPONDS

The President of the San Francisco Board of Supervisors, Diane Feinstein, will address the gay community at S.I.R. Community Center on Wednesday, May 19 at 8 p.m.

Mrs. Feinstein will be responding to the Vector editor's comments in the March issue of this magazine.

Bartleby Memorial
Set for April 17

A Berkeley police officer murdered a S.I.R. member in 1969. Repeated attempts to have the incident investigated have been unsuccessful.

Frank Bartley was a Roman Catholic. Members and friends who wish to unite in memory of Frank may do so at the 5:30 mass, Saturday, April 17, at the Cathedral.

This will be two years from the Aquarius Park San Francisco, 1255 Post St., San Francisco will be available at the service that tells the full Frank Bartley story.
The Biblical Put Down on Homosexuality

By Dr. Paul Roberts

Does Moses condemn the homosexual in Leviticus 18?

Moses commanded, "Be fruitful, and multiply, and replenish the earth." — Genesis 1:28. Israel must become a proliﬁc nation in order to fulfill its national destiny, it is said: Exodus 32:13. Consequently, any form of birth control or population limitation was condemned as unpatriotic and thus immoral. Onan is slain because he practiced birth control with his wife: Genesis 38:8,9. A man or woman was considered unclean if they practiced masturbation or had a "wet dream": Leviticus 15:17,18. An illegitimate child or his descendants for ten generations were not allowed into the church in Deuteronomy 23:2. Homosexuality was also condemned because it was a form of birth control: Leviticus 18:22.

The early nation of Israel must be teeming. It must stand against the copious heathen nations which continually threaten to engulf it. Nothing must be allowed which would limit a strong, healthy, generative society.

In order to foster multiplication in early Israel, many practices were allowed which today seem immoral. Solomon had seven hundred wives and three hundred mistresses. Not one word of condemnation is found in the Bible. In our day, theologians condemn polygamy. Why did these inspired men tolerate concubines and polygamy? The answer is obvious. They were simply carrying out the original command to "be fruitful, and multiply, and replenish the earth": Genesis 1:28. What do other theologians say about the laws of Leviticus 18:22? Is there a conflict of interest between S.I.R. and MCC in contrast to S.I.R. which limits its membership to heterosexuals only.

M. H. Robertson, a local minister, stated that homosexuals should integrate into society and that "MCC is trying to ghettoize the homosexual by creating a homosexual church." He said that S.I.R. works for the total community, "people of all faiths." MCC's Reverend Ray Broshear, a local minister, says there is a "Friends of MCC" section for heterosexuals only. "Christ is the Saviour" and that one will be allowed which would limit a strong, healthy, generative society.

In our day, theologians condemn polygamy, birth control, and our mailbag is full every day — requests for a man not to touch a woman: I Corinthians 7:1. What was at one time immoral because of the circumstances, has now become moral because of the circumstances. Three thousand years ago, men who practiced homosexual or heterosexual birth control were considere immoral. Today, men who question birth control ought to be considered immoral. Even God changes His laws when they need changing (Hebrews 8:13). More and more theologians of all faiths are beginning to recognize and speak the truth relative to highly responsible sexual acts not conducive of reproduction. Dr. Roberts will be discussing, "Does the Bible condemn sodomy?" in a coming issue of Vector.

By Julian Corman

Is there a conﬂict of interest between Metropolitan Community Church, San Francisco, and The Society for Individual Rights? Do the two organizations compete for the same dollar in order to serve the gay community locally? What do their respective members think of the two groups?

Recently, the S.I.R. discussion group openly discussed the issue. Howard Welles, local MCC pastor, attended. What was immediately realized was that most of those present were afﬁliated with both groups.

Welles made it clear that "we are different in our goals and scope." The only conflict he could see was in a conflict of scheduling social activities and "we do not schedule something which is in conﬂict with a S.I.R. function." A young man himself, Welles emphasized that the under-21 group is welcomed at MCC in contrast to S.I.R. which limits its membership to heterosexuals only.

SUPPORT REQUESTED

A S.I.R. ofﬁcial urged MCC "to support S.I.R. in its exhaustive efforts to better serve the total gay community." He said, "Our telephones ring constantly and our mailbag is full every day — people are asking for help, seeking advice. We need your telephones, your mailing list!" He was greeted by the crowd who seemed not to see any serious conﬂict between the two groups. The ofﬁcial went on to say that he felt that S.I.R. was serving people, which is "Christian." Membership in S.I.R. was pointed out, requiring only that a person be 21.

Membership in S.I.R., it was pointed out, requires only that a person be 21. Membership in MCC requires a belief that "Christ is the Saviour" and that one will direct his life using that value system. Chris­tians seemed to tolerate polygamy including Moses, Abraham and Jacob: Genesis 35. Abraham was called the father of the nation. Now we know why.

Moses to build an ark, but when the ark was ﬁnished we would not expect Noah to keep on building. God told Moses to make a large, powerful nation and laws condemning birth control were necessary until the goal was accomplished. Then rules concerning birth control were changed. enlightened Jewish and Christian scholars recognize that the command to replenish the earth has been fulﬁlled. Today the population explosion may bring destruction. Man is limited to one wife at a time and the Bible even suggests that one ought not to get married if they can keep from it. The Bible now says "It is good for a man not to touch a woman": I Corinthians 7:1. What was at one time immoral because of the circumstances, has now become moral because of the circumstances. Three thousand years ago, men who practiced homosexual or heterosexual birth control were considered immoral. Today, men who question birth control ought to be considered immoral. Even God changes His laws when they need changing (Hebrews 8:13). More and more theologians of all faiths are beginning to recognize and speak the truth relative to highly responsible sexual acts not conducive of reproduction.

Dr. Roberts will be discussing, "Does the Bible condemn sodomy?" in a coming issue of Vector.
Dr. John Gigl
(Continued from Page 13)

The educational level of the respondents could also account for a lack of respondents who fell into lower categories such as unskilled workers and blue-collar. If the educational level were a saleable commodity and since this population was high on the educational scale, it would seem in order that the high socio-economic rating would reflect the educational level of the respondents.

FIRST BORN

In the opinion of the writer, the most significant finding of this study was the birth order of the respondents. It was found that 62.01 percent of all respondents were either the only children or first born sons in the family.

Slater (1962) reported the birth order of 389 male homosexuals. However, he only reported the only child and the first-born sons; only child were 52 and first-born males with younger siblings were 115 . . . .

A comparison of the birth order of the Slater study and that of the present study showed insignificant difference. The findings are noteworthy especially in view of the different population samples. Slater's subjects were psychiatric inpatients, whereas [our respondents] were a self-selected sample from a non-hospitalized population.

The reported incidence of sexual contact would indicate that the respondents are fairly promiscuous. Masturbation is the highest form of sexual outlet (11.56 times per month). The writer suspects from the literature that the frequency of sex with strangers would be one of a high incidence, and it is generally assumed that the homosexual is indiscriminate regarding his sexual contacts. The data, however, contradict these assumptions.

The mean sexual contact with the same sex partner is 8.21 versus a mean contact with strangers of 6.99. It is concluded that the male homosexual is promiscuous, but not as highly indiscriminate as generally speculated.

SUMMATION

The following summation is the opinion of the writer. These opinions are limited to the sample studied (i.e., Vector readers): The mothers of the respondents had a significant influence on their sons in contrast to weak and ineffectual fathers. Religion had deciding influence on homosexual guilt which could be the reason nearly half of the respondents (48.24 percent) prefer no religious belief. The educational level of the respondents is high. The question can be asked, is this a compensating mechanism, or is it the role expectation of the first born son.
In an Easter hat party...

DARELINE: San Francisco, California

On the cover of the San Francisco Chronicle, April 11, 1971, was a photo of city mayor George Moscone. The caption read: "Mayor Moscone is shown in a hat party at the Palace of Fine Arts." This event was held in conjunction with the annual Easter Hat Party at the Palace of Fine Arts. The party was attended by numerous gay and lesbian activists, who used it as a public demonstration of their visibility and presence in the city. Moscone's participation was significant as it was a rare moment of inclusion in a traditionally heterosexual event for a gay mayor. This image was part of a larger cultural shift towards greater acceptance and visibility of LGBTQ+ individuals in society. The event continued to be a significant cultural artifact and a symbol of progress in the fight for LGBTQ+ rights.
HOMOSEXUAL PHOTO CONTEST
Sponsored by Vector Magazine
PHOTOS OF SPECIAL INTEREST TO THE HOMOSEXUAL COMMUNITY

$100
GRAND PRIZE AWARD
25 GIFT AWARDS

RULES: Contest begins April 1, 1971. Entries will not be received after August 1, 1971. Advance consent to publish

NOTE: Hundreds of places are listed in "guide books" that are closed or only sometimes open. This listing is ONLY of strictly gay places. Each month we will update this listing.

NOTE: Rev. Lt. Riddle says that the vice laws "come directly from the Bible." His favorite biblical passage (which he claims regularly to re-assert) is the passage in the Book of Leviticus (19:29), "Thou shalt not be unchaste with mankind; it is an abomination."

Rev. Lt. Riddle justifies his employment of a high percentage of holy rollers on the vice laws by saying, "The personal faith of his police officer is part of his authorized equipment— as necessarily as his gun, baton and handcuffs."

Rev. Lt. Riddle thinks God has given him a mandate to force his old time religion on the people of Los Angeles.

"A great big whack on the head with the Gospel and the Rev. Lt. back to his revival tent, so he will let the abominators abominate as pure.

Jesus condemned law enforcement in general and vice law enforcement in particular, saying, "Resist not evil"; "Judge not that ye be not judged"; and "If ye forgive not men their trespasses, neither will your Father forgive you." Of crimes against persons, He said, "Whoever shall smite thee on thy right cheek, turn to him also the other." Of crimes against property, He said, "If a thief will take away thy coat, give him thy cloak also."

Of crimes against the soul, He said, "If a thief will take away thy sword, sell thy garment also."

"Render unto Caesar that which is Caesar's and unto God that which is God's,” although the Old Testament vice laws say that adultresses should be taken outside the city wall and stoned to death.

"If a thief will take away thy coat, give him thy cloak also." Of crimes against persons. He said, "Whoever shall smite thee on thy right cheek, turn to him also the other." Of crimes against property, He said, "If a thief will take away thy coat, give him thy cloak also."

The photo you ran of a liigh percentage of holy rollers on the vice laws says that the vice laws are necessary as his gun, baton and handcuffs."

"My homosexuality does not lessen my sensitivity to the problems of other minorities. In reality, I am probably, as a homosexual, more sensitive to the needs of minorities."

The hard-fought battle was over and Earl "Rick" Stokes was commenting on his position...a member of the Board of Family Service, a United Crusade - San Francisco agency. The young local attorney, openly a homosexual long before "gay liberation" was ever considered, was now excited over the prospects of serving with his gay friend, Sally Gearhart, as the "homosexuals" of what had been previously a strictly "straight" board.

Gary Titus, working with an East Bay group called Social Action Research Committee, instigated the action and with others (such as former Columnist Del Martin) lobbied committees of Family Service. In the end the Board became convinced that homosexuals also form family units and are entitled to full representation in the agency.

"Family" was the problem word to begin with but it was made clear that every homosexual comes from a family unit and that frequently people of the same sex (including non-gays) live together as a family. Previously, as Attorney Stokes pointed out, two lesbians who were raising a child would not have been considered a "family" and possibly they would have felt that such an agency's services were not open to them.

Opposition to the elected gays was minimal with only two of the twenty Board members voting No. One of three, Harold Levy, resigned upon their election.

Attorney Stokes organized ARC, a homosexual organization in Sacramento, several years ago. He later openly spoke to classes as a homosexual at the U.C. Davis campus where he once received a law degree. Is he fearful of having his law credentials questioned since he is an admitted homosexual?..."No, the Bar Association is looking for dishonest attorneys and is not concerned about a person's private sex life. However, if an attorney were arrested on a morals charge it might present a different matter."

Sally Gearhart is a recent Bay Area arrival and has become an outspoken Gay Women's Liberation proponent. The attractive former teacher is now seeking employment in San Francisco while lecturing and organizing for minority rights. Stokes says of Sally: "She is a real inspiration; an articulate spokesman and a fighter. She can enter a room and win over people with her sincerity and logic."

Family Service has a motto: "Strength to Families Under Stress." Its annual budget is in excess of $400,000. The services it performs are varied: everything from child care and homemaker aid to community forums and counseling. Family Service also moves directly to lobby for the rights of the poor in their relationship with governmental agencies.

This major breakthrough by Attorney Earl Stokes and Sally Gearhart is a significant step in assisting non-homosexuals to recognize gay humans as beings worthy of consideration. It demonstrates that with the proper approach homosexuals can openly become a more integral part of the broader community.

ROOMMATE WANTED - Under 45 - Share Yours or we find together — 524-2161 Nights

DON'T OVERPAY TAXES - If you compute your own taxes you are probably paying more tax than is required. I can usually save you $10 to $25 for Federal and State. Please phone 626-4821 for an appointment — C.E. Hukins
